

SED CO 59 SERIES 4 1/2" Square PUSH PLATE SWITCHES

PRODUCT DESCRIPTION

The 59 Series push plate switches are designed to provide reliable activation of any automatic door.

The 59 Series features 4" square face plates in either stainless steel or blue powder coated aluminum with etched and paint filled legends. A 4 1/2" square formed stainless steel back plate eliminates possible wall damage from standard use.

Designed as a universal switch, the 59 Series fit single-gang or 2-gang electrical boxes with no adapters necessary. A surface mount box is also available.

Each unit is built utilizing heavy gauge stainless steel, aircraft quality rivets and screws, durable finishes and the most reliable microswitch in the industry.

American National Standards Institute (ANSI) - Building Hardware Manufacturers Association (BHMA) - ANSI/BHMA A156.10 & A156.19.
