

Installation Instructions

#570 & #571 Rod Connector/Extension Kits

Vertical Rod Exit Device

1

#570 Rod Extension Kit

- Line up one end of the vertical rod with the shoulder of the rod connector, and mark for the hole location on the rod.
- Drill 1/8" diameter hole through the rod.
- Assemble the connector to the rods with two spirol pins. Assemble flush. (Two 1/8" diameter pins are provided in the rod connector kit.)

2

#571 Rod Extension Kit

- Insert the rod connector end of the extension assembly into the top end of the rod. Align with the top hole in the rod.
- Drive spirol pin through the rod and connector. Assemble flush (1/8" diameter pin is included in the rod extension kit.)
- Screw top rod* into the main slide in the center case, and adjust the rod accordingly. Refer to the exit device instruction sheet for proper adjustment

*If shorter rod is required:

1. Cut to desired length.
2. Drill 1/8" diameter hole through rod.
