**Installation Instructions**

1. Pull trim becomes handed after assembly (parts are universal.) See front for components and instructions.
2. After marking door inside face for device location (device Instructions), carry "Centerline of Device Mounting Holes" from outside door face. Follow steps 2a and 2b below.

2a. MEASURE INSIDE LINE LOCATION

2b. CARRY DIMENSION OVER TO OUTSIDE FACE

3. Carry horizontal "Centerline of Device" from inside to outside door face.
4. Align trim template and tape to door, outside face
5. Spot holes and prepare door for trim.
6. Mount trim to door, bolting escutcheon to device. Continue as shown on device instructions.

Caution: Office copiers and facimile machines may change the size of a drawing and make the template innaccurate to use as a door marker.. If this is not the original template packed with the trim, use only the dimensions written on the template to locate the holes on the door(do not use the template as a door marker).

Dimensions given in inches (mm).
