ACCENTRA
ASSA ABLOY

ASSA ABLOY is transitioning the Yale Commercial brand to ACCENTRA. This affects only the brand name; the products and product numbers will remain unchanged. Prior to May 20, 2024, products may be shipped either as Yale Commercial brand or ACCENTRA brand. Products shipping after May 20, 2024, will be branded ACCENTRA.

The Motorized Electric Latch Retraction (MELR) provides remote-controlled latch retraction that delivers a quieter and smooth operation for convenient, hassle-free egress. The 6000 Series Exit Device can easily be installed in new applications or upgrade applications. The MELR features a maintenance-free design with few moving parts using 86% less power consumption during retraction than solenoid devices.

Plus, MELR is powered by a standard power supply, simplifying installation, and increasing system design flexibility.

Features

- Continuous or intermittent use
- Digital timer (0-20 seconds) – no costly external timer required
- Diagnostic LED to ease field service
- Available for 34" – 48" doors
- .85A during retraction and .3A maintained in hold position
- 24 VDC 1 amp regulated/filtered power supply required
- UL/cUL listed for panic and fire exit hardware
- Compatible with many options: latchbolt position monitor, touch bar monitor, trim monitor, hex key, and cylinder dogging
- Utilizes BPS Power Supply by Securitron listed as UL Class 2 circuit
- 10 year Warranty and 2 year limited warranty on electrical components.

Applications

- Offices
- Convention Halls
- Schools
- Healthcare Facilities
- Theaters
- Libraries

Benefits

- Responsive, quieter retraction perfect for any environment that demands consistent performance
- Hands free operation for convenient egress
- Self-adjusting retraction reduces installation time and improves performance
- Low current draw
- Uses standard electric hinge – special power transfer device NOT required
