

Full Line Catalog

ACCENTRA
ASSA ABLOY

ASSA ABLOY is transitioning the Yale Commercial brand to ACCENTRA. This affects only the brand name; the products and product numbers will remain unchanged. Prior to May 20, 2024, products may be shipped either as Yale Commercial brand or ACCENTRA brand. Products shipping after May 20, 2024, will be branded ACCENTRA.

How To Order Cylinders

When ordering cylinders separately, the following details should be specified. Cylinders ordered with Yale products will be provided to accommodate those products. Detailed information can also be found in the individual product catalogs.

Model #	Length	Cam	Collar	No. of Pins	Keyway	Finish
2153	1-1/8"	2160	1765.250	6	GA	626

How To Order KeyWizard®

All KeyWizard programs are licensed specifically to each facility end user. Special online ordering procedures apply. The following information is required for each system:

- End user facility name
- End user contact person
- Mailing address
- Phone number

Cylinders/Keys

Today's facilities require flexible options when it comes to security. Thanks to recent technological changes in the security industry, modern commercial buildings have a variety of choices of how access to each opening is controlled. Mechanical key cylinders continue to provide strong traditional security, but many facilities favor a combination of mechanical and electronic security products for convenient access with an audit trail.

Yale offers a range of cylinder options, including conventional, interchangeable core, security, high security and Yale KeyMark®. Providing an array of cylinders, keys and keying systems that meet the needs of any facility, Yale Works for YouSM.

Finishes

ANSI/BHMA Code	Finish Description
605	Bright Brass, Clear Coated
606	Satin Brass, Clear Coated
609	Satin Brass, Blackened, Satin Relieved, Clear Coated
611	Bright Bronze, Clear Coated
612	Satin Bronze, Clear Coated
613E	Dark Oxidized Satin Bronze - equivalent
616	Satin Bronze, Blackened, and Satin Relieved, Clear Coated
618	Bright Nickel Plated, Clear Coated
619	Satin Nickel Plated, Clear Coated
620	Satin Nickel Plated, Blackened, Satin Relieved, Clear Coated
625	Bright Chrome Plated
626	Satin Chrome Plated
629	Bright Stainless Steel
630	Satin Stainless Steel
693	Black Painted
BSP	Black Suede Powder Coat
WSP	White Suede Powder Coat

Notes:

- Rim cylinders not available in 629 or 630 finishes.
- Component plugs only provided in 606 and 626

Certified ANSI/BHMA A156.5, Grade 1

Yale® KeyMark® and KeyWizard®

Yale® KeyMark®

Yale® KeyMark® protected keyway line of cylinders feature an angled keyway designed to accept any keyblank constructed with the same angle, allowing all key formats to be tied to the same master key system. Security Leg® prohibits other manufacturers' keys from entering the cylinder, prevents unauthorized duplication of keys and offers increased picking resistance against intruders. Cylinders include mortise, rim, component, auxiliary, and interchangeable core. Interchangeable core is available in both large and small format. For more information and details on Yale KeyMark cylinders please refer to separate catalog section.

KeyWizard®

A key management software program is essential for any type of organization. Keeping track of the key holders in a master key system is critical for maintaining key control and ensuring the security and integrity of the system.

KeyWizard by Yale® is a comprehensive key management software program was designed for facility end users to track detailed information concerning their keying system. It offers improvements over existing key management software by utilizing clutter-free and easily navigated screens.

KeyWizard by Yale provides the facility with accurate information concerning keys, key holders, hardware locations, master key systems, overdue keys and maintenance service schedules, all of which can be customized.

For more information about KeyWizard® including demo versions, please visit www.yalelocks.com or www.keywizard.net. For KeyWizard technical support, please call 1-800-610-1706.

Cylinders and Key Stamping

Keys and/or cylinders stamped with their respective keyset symbols allows for easy identification and will reduce the chance of confusion between cylinders, keys and the lockset during and after installation. The information on the cylinder allows for easy identification of the levels of security within that particular cylinder.

Visual Key Control (VKC)

For convenience, specify VKC and the key symbol is stamped on the plug face or other visible portion of the front of the cylinder. (VKC is available on all keys, but not available on security, high security or Yale® KeyMark® cylinders.)

Concealed Key Control (CKC)

For greater security, specify CKC on the cylinders. The key symbol is stamped in a concealed location, such as the rear of the cylinder. It is not visible to the general occupants of the building but can be accessed by authorized personnel upon removing the cylinder from the lockset.

For example, the symbol AA1 shown in the illustration identifies the lock to be operated by grand master key A, master key AA and change key AA1. Upon written authorization from the building owner to an authorized Yale® Distributor, a bitting list can be supplied for each job to translate the symbols into key bittings.

If a key is lost, it can easily be replaced by referring to the symbol on the cylinder and the bitting on the bitting list. VKC is not available on security, high security or Yale® KeyMark® cylinders.

Key Stamping Code Definitions

Code	Definition
VKC0	No keyset, registry number, or bitting stamping any keys. Includes master keys and change keys. Keys will be stamped with keyway designation. (Keys will be tagged.)
VKC1	Master keys stamped with their keyset symbol and registry number. Change keys stamped with their keyset symbol (Standard for high security, security and Yale® KeyMark® cylinders.)
VKC2	Master keys stamped with their keyset symbol and registry number. Change keys stamped with their keyset symbol. Cylinders stamped with their keyset symbol on the face of the plug. (Not available for high security cylinders, security cylinders or Yale KeyMark.)
VKC3	Master keys stamped with their keyset symbol and registry number. Change keys stamped with their bitting. Cylinders stamped with their keyset symbol on the face of the plug. (Not available for high security cylinders, security cylinders or Yale KeyMark.)
CKC2	Master keys stamped with their keyset symbol and registry number. Change keys stamped with their keyset symbol. Cylinders stamped with their keyset symbol in a concealed location.
CKC3	Master keys stamped with their keyset symbol and registry number. Change keys stamped with their bitting. Cylinders stamped with their keyset symbol in a concealed location. (Not available for high security cylinders, security cylinders or Yale KeyMark.)

Special Features

Construction Master Keying

Construction Master Keying (CMK) provides the extra security needed in the transition from construction of a building or complex to completion. The construction master key operates all cylinders during construction. Upon completion of the construction phase, a special break out key is used in each cylinder to permanently void the construction master key. This action eliminates further use of the construction master or break out key.

How it Works

Yale construction keying is accomplished by the placement of a ball bearing between the bottom pin and the top pin in one of the chambers. While the ball bearing is in place the construction master key will operate the cylinder. Removing the ball bearing, by use of the special break out key, voids the use of the construction master key. For all standard cylinders, the breakout key is rotated approximately 120 degrees either clockwise or counter-clockwise and the ball bearing is lost through a pre-drilled hole in the cylinder shell.

With CBOK inserted

Turning CBOK Releases Ball-Bearing

SKD Caution

Unless otherwise specified, SKD sets will be construction master keyed. When construction master keying is established for SKD sets, Yale issues a separate SKD construction master keys and construction break out keys.

Temporary Construction Cores

A more secure method of construction keying for interchangeable core hardware is the use of temporary construction cores. Yale recommends this method of construction keying for key systems using interchangeable core cylinders. Construction cores are furnished keyed alike to a combination unrelated to the permanent system's master key. When the building is turned over to the owner, the permanent cores are installed and the temporary construction cores are returned to Yale for credit.

How to Order CMK

To order locksets and/or cylinders with the construction master key feature, the option code **CMK** should be indicated. i.e. 2153 x CMK. Construction master keying is not available on security, high security or Yale® KeyMark® cylinders.

The permanent master and change keys for the system are always packed and shipped separately, and the order must include the names and addresses of individuals to whom the construction, permanent master and change keys should be sent.

To order locksets and/or cylinders with temporary construction cores, specify "x Temp Core" when ordering. i.e. 2196 x Temp Core.

Interchangeable Core

Yale offers interchangeable core cylinders which are recommended for virtually all types of keying systems, such as office buildings, hotels, schools, hospitals and universities. These cylinders have a 'self-contained' core which is removed from the housing by a control key. The core can be replaced or re-keyed without removing the hardware from the door or disassembling the lock. For conventional and security cylinders, Yale offers large format interchangeable cores which can be integrated with standard cylinder formats within the same key system. For Yale® KeyMark® systems, large format and small format cores are available and can be keyed within the same key system. Yale also offers small format cores and master keying with Best® keyways (see page 18).

To order interchangeable core cylinders with locksets, specify by cylinder or core model number. i.e. AUR8807FL x RH x **2196** x 626 or AU5407LN x RH x **1210** x 626. Unless otherwise specified, conventional fixed core cylinders will be provided as standard with locksets.

Large format cores are available construction master keyed, although temporary cores are recommended. To void the construction master key, the core must first be removed from the housing and then operated by the breakout key to remove the ball bearing.

Special Features

Bump Resistant

Bumping, also called "rapping," has been a known lock picking technique for more than 50 years. This technique uses a specially cut key, which when inserted into a cylinder and then hit with a mallet or tool, forces the key to interact with the pins. This motion allows a separation between the pins which creates a "shear" line and enables the key to be turned and the lock to be opened.

Conventional cylinders in both fixed and interchangeable core formats are available to be constructed to withstand bumping. These cylinders will contain a patent pending pinning component that is designed to resist bumping attacks while maintaining cylinder functionality. Bump resistant cylinders provide an added line of defense against unauthorized entry.

The bump resistant feature is available as an option for conventional mortise, rim and component cylinders with Yale® keyways. Fixed and interchangeable core cylinders can be provided in either in 6- or 7-pin lengths. This option is not available for security, high security or Yale® KeyMark® cylinders at this time.

How to Order

To order with cylinders, specify option **BUMP**. (Cylinders will be marked with "BUMP PAT PEND" on the pin cover.)

Retrofit pins are also available to convert existing cylinders to bump resistant cylinders. Order by specifying **751-3**. A vial with a quantity of 300 pins is provided which will allow the retrofit of approximately 50 cylinders (6-pin). The vial easily fits into the SK-12 pin kit.

The Yale .019" pinning specification will change for cylinders with the BUMP option. Cylinders will be combined with a special 3 (.190") top (driver) pin in each chamber. Please see page 29 for Bump pinning specification.

Hotel Function

Although not widely used in today's hotels, the hotel function lock still has several applications. In most cases, these locks are mixed with other lock functions on the same keying system.

When ordering a factory keyed lock system that includes Yale hotel function locks ALL cylinders in the system will need to be 7-pin in length with 7-pin keys. This applies even though the master key system will be 6-pin for expansion purposes.

How it Works

The hotel function cylinder contains a blocking screw where the 7th pin is normally located. When the deadbolt is thrown on the hotel function lock, the blocking screw is engaged, thus blocking all change keys and master keys from operating the cylinder. Only the emergency key (EMK), which is cut on a shorter key blank with an undercut tip, will override the deadbolt thus operating the cylinder.

The change keys and master keys that operate the hotel function cylinder when the deadbolt is retracted are cut on key blanks with an undercut tip to bypass the blocking screw.

The hotel function lock may be operated by a grand master key or master key that also operates other cylinders in the system. Therefore, the other product must be 7-pin to accommodate these top master keys.

Keyblanks

The following keyblanks are required when using hotel function locks/cylinders mixed with other function hardware:

- RN411** = Change key and top master keys that would operate hotel function cylinder
- RN117** = All other change keys and master keys in the system
- RN411S** = Emergency key
- FN118C** = Control key (if interchangeable core)

Security and High Security

Security cylinders contain two independent locking mechanisms. The first is a traditional 6- or 7-pin tumbler mechanism with spool drivers for greater pick resistance. The second is an innovative rotating disc mechanism with sidebar engagement. The rotating discs are spring loaded and block the bottom of the keyway. Only a specially cut key will move the discs and allow entrance of the key. This key has special side bittings and must align all discs perfectly before the cylinder plug will rotate to open the lock. This cylinder is highly pick resistant because the unlocking mechanisms must be activated in two directions.

UL High Security Cylinders

For applications that require a high security cylinder to meet the requirements of UL 437 for pick and drill resistance, Yale offers the U5153 mortise cylinder and the U5109 rim cylinder. These cylinders have a hardened stainless steel cylinder head and rotating plug face. They also incorporate all the features listed for the standard security cylinders. U5109 and U5153 cylinders use the 1766 cylinder collar, see page 23 for more information.

Mortise Cylinders

Fixed Core For Current Products

Includes standard, hotel, security and high security for mortise and auxiliary applications. Stock cylinders are furnished 1-1/8" length and 6-pin keyed random. Unless otherwise specified, stock cylinders ordered separately will be provided with cylinder collar 1765.156. If another collar size is required, specify when ordering. Refer to individual product sections for collar applications and sizes.

Mortise cylinders are provided standard with cams to operate Yale® mortise locks, optional cams are available (see page 22).

Model #	Description	Lengths				Cam	
		5-Pin	6-Pin		7-Pin		
2153	Standard cylinder	1" (25)	1-1/8" (29) 1-1/4" (32) 1-3/8" (35)	1-1/2" (38) 1-5/8" (41) 1-3/4" (44)	1-1/4" (32) 1-3/8" (35) 1-1/2" (38)	1-5/8" (41) 1-3/4" (44)	2160

1193L	1210	*	Standard cylinder with lazy cam operation	6	1-3/4" (44)	1-3/8" (35)	3-1/2" (89)

*Uses 1212 housing with lazy cam. Specify by part number 10-1193-0044 x Finish

Dimensions are shown in inches (millimeters)

Component Cylinders

Includes standard and security for cylindrical lock, exit trim and deadbolt applications.

Knob Cylinders

Lever Cylinders

Conventional

Model #	No. of Pins	Tailpiece Part Number (Length)*	Applications
Cylindrical Locks & Exit Device Trim			
1801	6	None	Standard for 5300 [^] & 5400 [^] series knob locks and 540F series trim.
1801A	7	None	Standard for 5400 [^] series knob locks and 540F series trim.
1802	6	14-5407-1039-048 (1.69")	Standard for 5400LN, 6400LN & inTouch [^] lever locks and 440F, 540F & 580F series trims. Optional for 4700LN & 5300LN series lever locks. Sleeve 14-5305-9078-999 required for use with 4700LN, 5300LN, inTouch and 440F trims.
1802A	7	14-5407-1049-048 (1.50")	Standard for 5400LN & 6400LN series lever locks and 540F & 580F series trims.
1802L	6	14-5305-1060-048 (2.00")	Optional for 5300LN series locks used with 2" to 2-1/4" thick doors. Sleeve 14-5305-9078-999 required.
1802S	6	14-5417-1024-048 (.940")	Standard for 5417LN & 6417LN function inside lever locks
1803-54L	6	17-1803-1005 (.692")	Standard for Corbin Russwin CL3100 (YC) & Sargent 11 Line (YC-) series lever locks. Optional for 4300LN, 4600LN & 4800LN [^] series lever locks.
1803A-54L	7	17-1803-1004 (.536")	Standard for Corbin Russwin CL3100 (YC7), Sargent 11 Line (YC-7P-) series lever locks.
1803-54K	6	17-1803-1005 (.692")	Standard for 5400CK series knob locks and YH Collection lever locks.
1803-53L	6	17-1803-1011 (1.700")	Standard for nexTouch [™] cylindrical lever locks. Optional for inTouch [^] lever locks. Sleeve 14-1803-9001-999 required.
1803-47L	6	17-1803-1012 (1.930")	Standard for 4700LN & 5300LN series lever locks. Optional for 440F series trim. Sleeve 14-1803-9001-999 required.
1803-46L	6	17-1803-1006 (1.106")	Standard for Corbin Russwin CLX3300 (YC) & SARGENT 10X Line (YC-) series cylindrical locks, 1-3/8" – 2" doors.
1803-46LL	6	17-1803-1008 (1.330")	Standard for Corbin Russwin CLX3300 (YC) & SARGENT 10X Line (YC-) series cylindrical locks, 2-1/4" doors.
1803A-46L	7	17-1803-1007 (.950")	Standard for Corbin Russwin CLX3300 (YC7) & SARGENT 10X Line (YC-7P-) series cylindrical locks, 1-3/8" – 2" doors.
1803A-46LL	7	17-1803-1009 (1.174")	Standard for Corbin Russwin CLX3300 (YC7) & SARGENT 10X Line (YC-7P-) series cylindrical locks, 2-1/4" doors.
1803-46K	6	17-1803-1006 (1.106")	Optional for 4600 series knob locks.
1805	6	S13-0919-999 (1.161")	Standard for 4600 & 4700 [^] series knob locks.
1806	6	S05-0215-999 (.844")	Standard for 4600LN series lever locks.
1812	6	14-4307-1000-048 (.614")	Standard for 4300 [^] , 4300LN & 4800LN [^] series knob/lever locks.
Deadbolts			
1803-134S	6	17-1803-1013 (2.30")	Standard for YH Collection deadbolt used with interconnected lock (non-face removable). Optional for D Series deadbolts, single cylinder functions.
1803-134D	6	17-1803-1014 (.87")	Optional for D Series deadbolts, double cylinder functions.
1807	6	S13-0880 (2.134")	Standard for D series deadbolts, single cylinder functions.
1808	6	S13-0878 (.812")	Standard for D series deadbolts, double cylinder functions.
1814	6	14-3721-1007 (1.94")	Standard for 4800LN [^] series deadbolt.

*Tailpiece length specified for 1-3/4" door. For other door thicknesses, contact technical support.

Interchangeable Core

Large Format

Large format cores are interchangeable with Yale® mortise locks, cylindrical locks and exit device trims and can be keyed in conjunction with standard cylinders. When ordering cores only, control keys are not furnished. If control keys are required, they must be specified.

Model #	Description	Number of Active Pins
1210	Standard large format core	6
1220	Standard large format core	7
1210H*	Standard large format core for Hotel/Motel functions 8820, 8827, and 8832	6
5210	Security large format core	6
5220	Security large format core	7
5210H*	Security large format core for Hotel/Motel functions 8820, 8827, and 8832	6

*Cores are 6-pin for master keying expansion purposes, but locksets and housing must be 7-pin in length to accommodate top level master keys. See page 6 for more information.

Small Format

Yale offers SFIC cores in Yale® KeyMark® (see separate catalog for more information) or Best® keyways A, B, C, D, E, F, G, H, J, K, L and M.

Best® keyway cores can be provided random keyed, master keyed or uncombined. Yale will provide master keying to a new key system only. Systems can be provided using the A2 or A4 pinning specification and can not be tied into any conventional or Yale KeyMark key systems.

All cylindrical lock small format preparations accept either 6- or 7-pin cores. For mortise and rim housings, see chart below. When ordering cores only, control keys are not furnished. If control keys are required, they must be specified.

Model Numbers			Description	Lengths		Cam/Tailpiece
Complete Cylinder	Core Only	Housing Only		6-Pin	7-Pin	
A620	A600	K660	Best® keyway mortise cylinder	1-1/4" (32) 1-3/8" (35)	1-3/8" (35) 1-3/4" (44)	KC1*
A630	A600	K670	Best® keyway tapered mortise cylinder	1-1/4" (32) 1-3/8" (35)	1-3/8" (35)	KC1
A640	A600	K680	Best® keyway rim cylinder	1-1/4" (32) 1-3/8" (35)	1-3/8" (35)	KT1
—	K925	—	Disposable thumbturn only, used with 6- or 7-pin	—	—	—
—	K926	—	Temporary construction core only, used with 6-or 7-pin	—	—	—

*Refer to the Yale® KeyMark® catalog page 14 for optional cams and page 18 for more information on SFIC construction core program.

For 1-3/4" housing, the cam is riveted; therefore only KC1 is available.

For 6-pin, 1-1/4" will be supplied unless otherwise specified.

Key Blanks

Yale offers .51" pin tumbler key blanks in several lengths and bow styles. All key blanks are supplied in nickel silver and are available in all .51" key sections. See page 21 for key sections.

Keys are available with special stamping, i.e. Do Not Duplicate. Custom die stamps are also available upon request. Contact customer service for more information.

How To Order

Bow Style	Key Blank Material	Basic Model Number	Key Section
R	N	11	GA
See Below	Nickel Silver	.51" Pin Tumbler 9 = 4 Pin 8 = 5 Pin 11 = 6 Pin 117 = 7 Pin 118 = 8 Pin 411 = 7-1/2 Pin 411S = 6 Pin	See page 21

Bow Styles

R

Standard bow furnished for all conventional keys.

F

Standard bow furnished for control keys, optional for conventional keys.

A

Standard bow furnished for security and high security keys, optional for conventional keys.

.51" Pin Tumbler Key Blanks

Model Number	Length
RN9.....	4-pin
RN8.....	5-pin
RN11.....	6-pin
RN117.....	7-pin

Model Number	Length
FN8.....	5-pin
FN11.....	6-pin
FN117.....	7-pin
FN118.....	8-pin

Model Number	Length
*AN8.....	5-pin
*AN11.....	6-pin
AN117.....	7-pin

*Standard keybow for high security key blanks, letter of authorization required. Side cuts are factory machined.

Key Blanks

LFIC Control Key Blanks

Hotel/Motel Key Blanks

Furnished all 'O' cuts except for #1 cut on tip of key. Stamped with 'Control'.
"F" bow shown also available "R" bow.

SFIC Key Blanks

Note: SFIC keys are cut from tip to bow. The same key blank can be used for both 6- and 7-pin keys. Only available with Best® keyways A, B, C, D, E, F, G, H, J, K, L and M

Keyways

Simplex/Multiplex Keyways

A simplex keyway is independent, stands alone and cannot be tied into any other keyway to expand a keying system. Multiplex keyways can be used together to expand a keying system.

Active Keyways

Keyways which are available for new Yale® keying systems are considered active. In the case of new master key systems, the factory reserves the right to select the keyway from a range of standard keyways, based on usage in a particular geographical area. Common active keyways shown below.

All/Multi-Section/Single Section Keys

All multi-section keys can be used on more than one cylinder with different sections. For example: a key cut on the GV multi-section key blank will pass cylinder in the GA, GB, GG and GH keyways. Single section keys can only be used with cylinders of the same section. For example: a key cut on the GA single section key blank will only pass a cylinder in the GA keyway.

Inactive Keyways

Many older Yale keyways are inactive. New key systems will not be established on these. However, they continue to be available to support existing keying systems.

Simplex

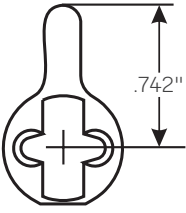

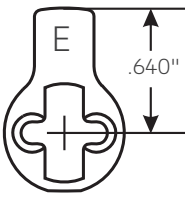

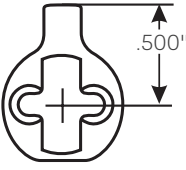

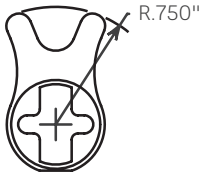

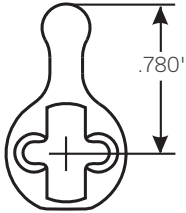

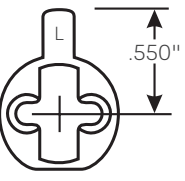

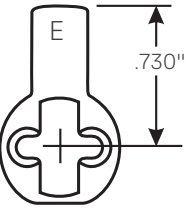

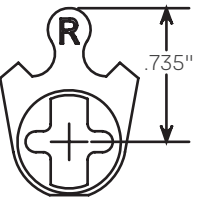

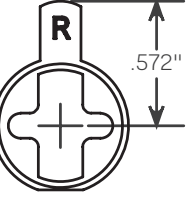

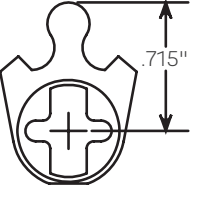

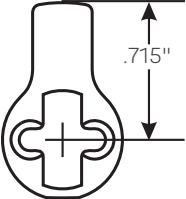

Multiplex

Notes: The section of the key is determined by viewing the key from the bow towards the tip. For security reasons, restricted and protected keyway profiles are not shown.

Cams

Model No.	Description	Application	Model No.	Description	Application		
	2160	Std for 2123, 2153, S2053, 2719, 5153, U5153, 5719, 2196, 2197, 2196H, 5196, 5197, 5196H	Steel case mortise or auxiliary locks, exit device alarms and cylinder dogging for 7000 series exit devices.		1161E	Opt for 1194, Std for 2153 when used for 2100 cylinder dogging	Obsolete cast iron mortise locks, cylinder dogging for 2100 series exit devices.

All cams and cam disc illustrated actual size.

Collars

Cylinder collars are supplied as standard where required with products supplied with cylinders. Collar size and thickness are supplied to suit the length of the cylinder, the thickness of the door and the trim ordered. (If door thickness is not specified, collars will be supplied to suit 1-3/4" (44mm) door.)

Collar length required must be specified for cylinders and/or housings ordered separately. Refer to individual product sections for collar applications and sizes.

35/64"	.544
45/64"	.700
55/64"	.850
59/64"	.925
1-3/64"	1.040

Pins And Pin Kits

Yale® pinning kits contain the components required to key Yale conventional cylinders, both fixed and large format interchangeable core. (.51" plug diameter).

All components are packed in a sturdy metal case.

Features

- Pin tray lifts out to provide storage space.
- Pin chart on inside lid for convenient reference.

Pins and springs are packed by size, in bags of 100. Each kit contains bottom pins, master pins, top pins and springs. Both kits include tweezers and a plug follower.

Dust Shields

Cylinders are available with a dust shield to protect the pin tumblers and plug from the penetration of dust, sand and other contaminants. To order, prefix the cylinder model number with the letter "D", i.e. D2153. Dust shields are not available with any cylinder using "A" bow keys.

.019" Specification

Pinning Formula

.019" Specifications For Bump Resistant Cylinders

Cuts are read and written BOW to TIP.

*MACS (Maximum Adjacent Cut Specification): the maximum allowable difference between cut depths.

Note: Bump resistance is only achieved when all chambers include a bump resistant pin. Illustrations are not drawn to actual size or configuration.

Pinning Formula

Procedures

Yale® keying systems utilize the Standard Key Coding System illustrated on the following pages. To ensure prompt and accurate processing, purchase orders should be written using these key symbols to describe each master keyed item. In addition to the key symbol, Yale requires the following information on the keying system for ALL orders:

- End User (job) Name
- City, State, Zip Code
- Special key bows or key stamping
- VKC/CKC requirements (see page 4)

Existing System Add-Ons

For prompt processing, orders must include a positive identification for the keying system in addition to the job name, city, state and ZIP code. Any ONE of the following is positive ID:

- Registry number stamped on any existing factory master key
- Previous factory order number together with the year of that order

Letters Of Authorization

No letter is needed when the items are to be drop shipped directly to the end user. In all other cases, to preserve the security of the end user's keying system, Yale requires a letter of authorization on the end user's letterhead to obtain the following:

- Bitting lists
- Security blanks and cut keys
- Master level cut keys
- Patented key blanks, cylinders and plugs

The letter of authorization can be brief but should include a specific description of what is being authorized for release, and a positive key system identification.

XYZ Corporation **1 Main St.**
Anytown, USA 00001
(203) 555-5555

(Current Date)

Yale
Key Systems Dept.

We authorize Acme Distributors to obtain a copy of the bitting list for our keying system R75235. We also authorize them to order the quantities of master keys on our attached purchase order 1234AB.

Sincerely,

Gordon Morris
Security Director

New Systems Or New Branches Of Existing Systems

Indicate system expansion in terms of estimated numbers of key combinations, not doors. All of this information is essential at the inception of a keying system in order for Yale to ensure that the end user's present and future security requirements are met. Advise as follows:

- How many levels of keying?
- Plan for a construction master key?
- Any selective master keys, such as ENG?
- How many changes for each master?
- How many masters for each grand master? If mixing Yale cylinder types, indicate clearly where each type of cylinder will be used within the expansion parameters:
 - Which masters or grands have security cylinders under them?
 - Which have interchangeable cores?
 - Which have conventional cylinders?

ASSA ABLOY FLASHship™ Masterkey Program

The **ASSA ABLOY FLASHship™** program is proud to offer the most comprehensive masterkeying program in the industry. Enjoy the convenience of masterkeying up to 250 Yale cylinders and 200 change keys with 24-hour processing! This simple Level 2 masterkey system is available for Yale cylinders, locks, and exit trim in the PARA keyway.

You can now also expand existing FLASHship Masterkey systems with the easy FLASHship online order entry process. Simply provide either the job name, original FLASHship order number, or the system registry number to order. Please ask your Door Security Solutions sales consultant for a demonstration of the order process.

Designing Master Key Systems

Step 1

Determine the type of locking system

- Conventional "open & restricted keyways"
 - Not contract controlled
- Patented locking system
 - A notice of acceptance will be required between Yale and Owner
 - Factory-based system
 - Key blank distribution restrictions are in place
- Security (secondary locking mechanisms)
- High security (same as Security plus UL4-37)
- Stand-alone access control locking devices (at door wiring)
 - To facilitate multiple users through common doors
- Integrated locking systems (hard wired into access control systems)

Step 2

Establish the level of the master key system. The higher the level the less secure.

- Level two – "Simple Master Key system"
 - Change key, and master key only
- Level three – "Grand Master Key system"
 - Change key, master key, and grand master key
- Level four – "Great Grand Master Key system"
 - Change key, master key, grand master key
- Levels higher than four are not recommended for security reasons
 - With more levels, additional master pins in each chamber of the cylinder would be required, and with the additional master pins the possibility of unauthorized key interchanges could occur

See pages 32-34 on How to Establish Key Systems.

Step 3

Establish key hierarchy, key issuing policies and procedures, and administrative disciplines.

- Who, if anyone, is authorized to carry the top master key?
- Who carries master keys and change keys?
 - Does every employee receive a key?
- What disciplinary action(s) is being put in place for violations?
 - Fines or Deposits
 - Lost keys
 - Keys not returned
 - Will there be a key receipt required?
 - Where will that be kept?
- Who is the systems administrator?
 - Authorized to purchase
 - Responsible for Key Control Administration
- Who is the Key Control Administrator?
 - Maintain key control software & all transactions

Step 4

System Layout

- Helpful Hints
 - KISS "Keep It Simple System"
 - Do not use the term sub-master (not unless it's level 6 and higher)
- Lowest level possible
- Key to the building security objectives NOT to the people
 - Determine if the system is to be designed for Security or Convenience
- No cross keying, especially with patented locking systems and higher
- Key alike within master key groups as much as possible
 - Avoid top-heavy systems (example; few change keys used under masters)

- Has the right function of lockset been selected?
 - Storeroom vs. Classroom vs. Entry
 - Single cylinder vs. double cylinder
 - If double cylinder, how is the inside cylinder to be keyed?
- Provide adequate quantity of keys
 - Top master keys "limit the number of these to only a few"
 - Master keys "also limit the number these"
 - Change keys per key set and/or per keyed alike sets
 - Special operating keys
 - Control keys "limit the number of these"

Separate the internal departments into sectors, example are:

- Perimeter
 - Including all exterior doors, roof surfaces, gates and fences, and adjacent buildings.
- Operations
 - Sensitive areas crucial to daily operations, such as plant engineering, security and mechanical operations.
- Management
 - Areas that are vital for daily business activities, primarily human resources, administration, executive offices, IT, sales, and accounting.
- Services
 - Areas that provide employees and visitors with services, such as restrooms, medical treatment areas, housekeeping, food service, retail (unless it's a leased outside source).
- Unique Applications
 - Door openings requiring access control hardware where key override is required, or any other special application which would be unique.
- Tenants
 - Any tenants that are not part of the building.

Step 5

Servicing & Maintenance

- In-house or outside locksmith
 - Ensure proper training
 - Establish key cutting log
 - Establish service request procedures
- Service equipment
 - Key kit
 - Code cutter that complies with systems depths & spacing specifications
 - Locksmithing tools, fixtures & accessories
- Establish stock levels & requirements to avoid misuse of multi-section key blanks
 - Additional cylinders ready for emergencies
 - Additional key blanks (of all keyways)
- Who or where are the key blanks going to be kept?
- Who is authorized to cut keys?
 - What form of work order will be used to authorize cutting of keys?
 - Who will sign the work order?
 - What records will be kept & where?
- What type of reports will be required?
 - Overdue keys
 - Miss-cut keys
 - Who receives the reports?
- Once a key has been cut, what instructions are given to the recipient?
 - Key receipt recommended
- Ensure that all transactions are recorded by the Key Control Administrator
- ENFORCEMENT FROM THE START! SUPPORT AND BACK THOSE WHO ARE RESPONSIBLE FOR MAINTAINING AND SERVICING THE SYSTEM.

How To Establish Master Key Systems

Simple Master Key System (2 Levels of Keying)

The master key symbol consists of TWO letters, such as **AA**. The change key numbers are added to the master key letters. The numbers come FIRST: **1AA, 2AA, 3AA**, etc.

When locks are required which are not operated by the master key or other change keys in the system, they are referred to as "single keyed" and given symbols **SKD1, SKD2**, etc. When all higher levels of master keys are to be disallowed, suffix (**NMK**) to the symbol of the key which is to operate. This means "not master keyed." Cylinder **1AA(NMK)** is operated by **1AA** only. The **AA** master is blocked from operation.

Grand Master Key System (3 Levels of Keying)

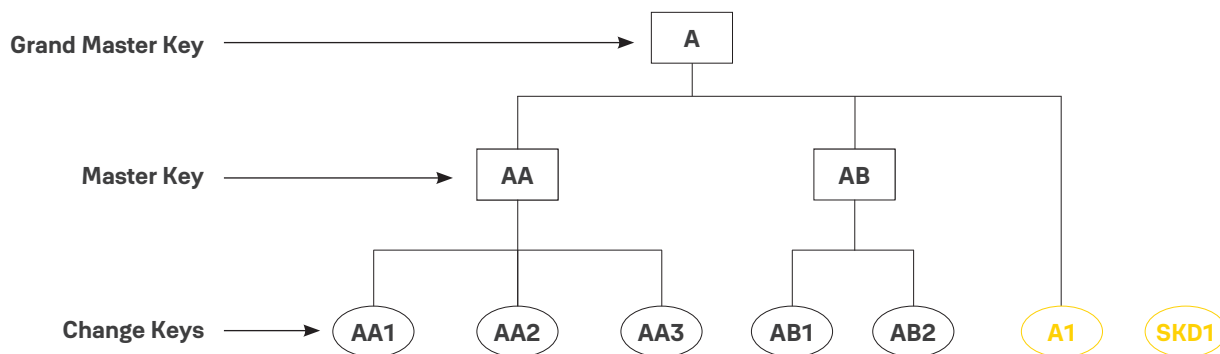

The grand master is assigned any ONE letter, such as **A**. The master keys under this grand are assigned TWO letters, the first of which must be the same as the grand: **AA, AB, AC**, etc. are all masters under grand **A**. Caution: Do not use the letters **I, O** or **Q** because of possible confusion with the numerals 1 and 0, respectively. Also do not use the letter **X** due to confusion with cross keying. Change key numbers come after the letters.

If the cylinder is to be operated by its change key and nothing lower than the single lettered GMK, the change number is added to the GMK symbol. This is illustrated by the example **A1** in the schematic shown.

When locks are required which are not operated by ANY master keys or other change keys in the system, they are referred to as "single keyed" and given symbols **SKD1, SKD2**, etc.

When all higher levels of master keys are to be disallowed, suffix (**NMK**) to the symbol of the key which is to operate. This means "not master keyed" and can be applied to any level in the system. Cylinder **AA1 (NMK)** is operated by **AA1** only. The **AA** master and **A** grand are blocked from operation. Cylinder **AA (NMK)** would be operated by the **AA** master only. Grand **A** does not operate.

For master keys beyond **AZ**, insert a numeral between the letters to designate which pass through the alphabet they represent. **A2A** through **A2Z** represents the second pass of masters under grand **A**. **A3A** through **A3Z** would be the third. Change keys under these masters have the numbers suffixed in the usual way: **A2A1, A2A50**, etc.

How To Establish Master Key Systems

Great Grand Master Key System (4 Levels of Keying)

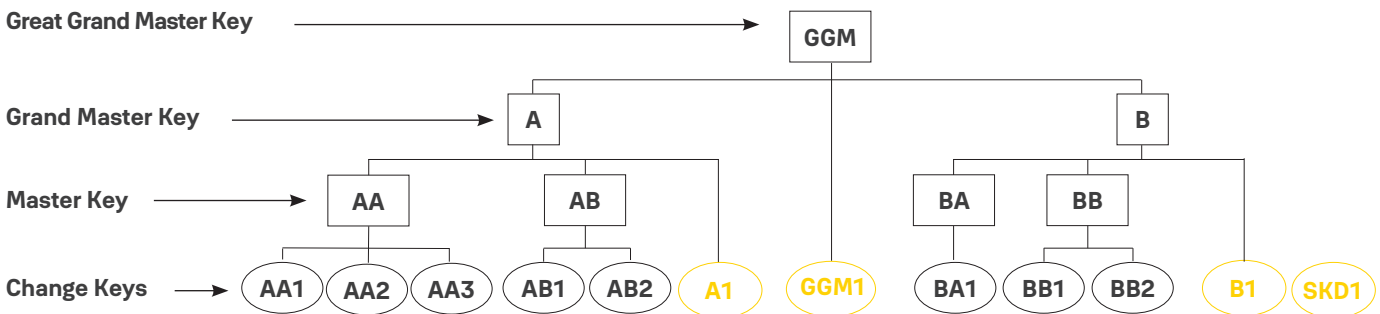

The great grand master key is assigned the symbol **GGM**. The rest of the symbols are the same as those in 3-level systems: The GMKs are assigned single letters, e.g., **A, B, C, D**, etc. Caution: Never use **X** for a grand master key due to the confusion which will result with cross keying symbols presented on page 34.

Masters under each GMK are assigned two letters, the first of which is the same as its respective grand master key. Change key numbers come after the letters. Changes under the grand (**A1, B1**, etc.) and masters beyond **AZ** are handled exactly as in the 3-level system already described.

Changes directly under a grand are also handled as illustrated in the 3-level system. For changes directly under the **GGM** with no intermediate level masters, the change number is added directly to **GGM** as shown by the example **GGM1** in the schematic.

When locks are required which are not operated by ANY master keys or other change keys in the system, they are referred to as "single keyed" and given symbols **SKD1, SKD2**, etc.

When all higher levels of master keys are to be disallowed, suffix (**NMK**) to the symbol of the key which is to operate. This means "not master keyed" and can be applied to any level in the system. Cylinder **AA1 (NMK)** is operated by **AA1** only. The **AA** master, **A** grand and **GGM** are all blocked from operation. Cylinder **AA (NMK)** is operated by the **AA** master only. Grand **A** and the **GGM** do not operate. Cylinder **A (NMK)** would be operated by the **A** grand only, without the **GGM**.

Selective Master Keys

It is often useful in large keying systems to issue a high level master key to maintenance personnel which allows access across all master and grand master key boundaries of a keying system. A selective master key is usually very close to the system's top master key, both physically and through its realm of access. Nevertheless, it must be blocked from operating in many areas.

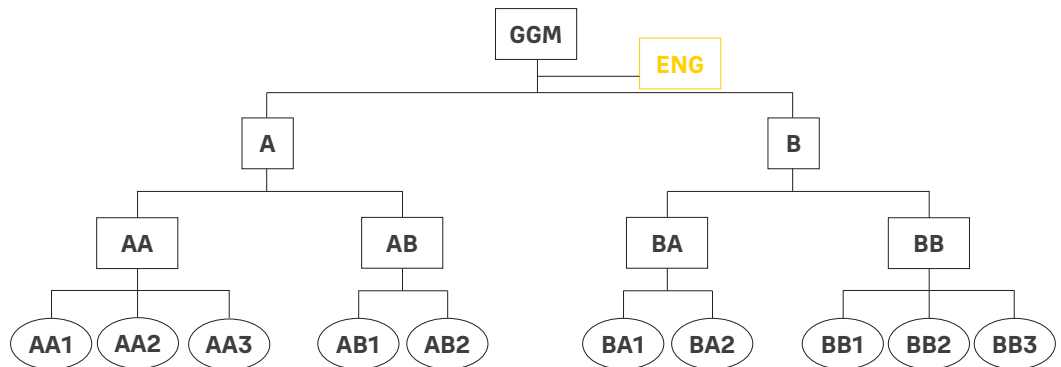

The most common names and symbols for selective master keys are:

- ENG Engineer's key
- ATT Attendant's key
- JAN Janitor's key
- HKP Housekeeper's key
- GRD Guard's key
- MAIN Maintenance

To designate that a lock be operated by a selective master key, suffix the symbol in parentheses to the standard symbol. Example: **AA1 (ENG)**. This must be added every time the selective key is to operate and left off whenever the selective key is NOT to operate. For instance, you may lay out

a system in which key **AA1** is to operate two different offices. Inside one of them is an electrical cabinet which must be accessible to maintenance personnel carrying the **ENG** key. That lock must be specified as **AA1 (ENG)** while the lock for the other office must be specified as **AA1**. Change keys directly under the selective key, such as **ENG1**, are operated by all higher level keys, such as **GGM**.

Like cross keying, a selective master key is a convenience feature which decreases the security of the cylinders it operates and limits the expansion and flexibility of the overall keying system.

How To Establish Master Key Systems

Convenience May Reduce Cylinder Security and Hinder System Expansion

Whenever two or more different keys such as **AA1** and **AA2** are both required to operate the same cylinder, the cylinder's security is reduced. This is called cross keying. When the cross keying occurs under all the same higher level keys, such as **AA1** and **AA2**, it is known as controlled cross keying. When it combines keys under different higher level keys, such as **AA1** and **AB1**, it is known as uncontrolled cross keying.

In addition to reducing the security of the cylinder, cross keying usually imposes limits on the flexibility and expansion of the overall keying system. This is especially true of uncontrolled cross keying. For these reasons, it is strongly recommended to allow personnel to carry more than one key. Cross keying should be discouraged whenever possible. However, when cross keying is required, it is specified as follows, and should be summarized at the beginning of each order.

Case #1

Cylinder requires its own change key. The illustration depicts part of a small medical building where two doctors share a common receptionist. The receptionist gets the **AA3** key. Each doctor carries a key which operates only one office, but is also cross keyed into the entrance from the corridor.

Determine the symbol of the change key (example: **AA3**). Then prefix the letter X (example: **XAA3**). Then list all keys which are to operate in an "operated by . . ." phrase. Example: "**XAA3** operated by **AA1**, **AA2**, **AA** and **A**". Note that **X** is a cylinder specification only. The keys for cylinder **XAA3** are designated **AA3**.

Case #2

Cylinder does NOT require its own change key. This illustration depicts a section of a floor in a dormitory. Each student's bedroom key operates the hall door lock. There is no need to construct a key which operates only the hall door.

In this case, place an **X** at both the beginning and end of the symbol and a number between them. Example: **X1X**, **X2X**, etc. Again, always include the "operated by . . ." phrase with a complete listing of key symbols to operate.

X1X operated by AA1 through AA6, AA and A.

Protected

Yale KeyMark keyways are considered as 'protected' by Yale and special procedures are in place to ensure their integrity.

See page 4 for more information.

Applications

Especially recommended for installations requiring protected key control protection. Ideally suited for Educational and Healthcare facilities, Industrial, and Commercial buildings.

Product Specifications

All cylinders to have an angled keyway that accepts a keyblank that is constructed with the same angle. All cylinders shall be available in any of the mortise, rim, cylindrical or interchangeable core types. All cylinder components (excluding tumbler pins and fasteners) shall be constructed of the same material; this material shall be extruded brass. All cylinders shall be capable of utilizing the same key sections and the same key cutting depth and space specification without any loss of keying capacity. Cylinders shall contain standard pins, a portion of which, both bottom and top, shall be spooled for greater resistance against picking.

Certifications

ANSI/BHMA A156.5 Grade 1 
 E09211 (Mortise)
 E09221 (Rim)
 E09231 (Bored Lock Cylinders)

Security Leg®

The Yale® KeyMark® keyway has three distinct components: an upper portion or blade, a middle ledge, and a unique, lower angled portion or leg which exits the plug at an angle.

The Security Leg® keyway offers these advantages:

1. Keyway differentiation by angle
2. Increased picking resistance
3. Prevents other manufacturers' or other angle users' keys from entering the cylinder
4. A unique and strong protected key with true key control
5. A key blank of added thickness for extra strength and durability
6. Prevents duplication of keys on standard key machines

Key Warranty

Yale KeyMark keys are covered by a lifetime warranty against breakage under normal usage conditions. Refer to the current Yale pricebook for additional warranty information.

Keys And Key Stamping

KeyBlank Descriptions				
Bow Style	Material	Number	Used For	Keyway
K	N (Nickel Silver)	11	6-pin Master/Change Keys 6-pin SFIC Control Keys	Keyway designations not printed for security reasons. Refer to system bitting list for correct keyway.
		117	7-pin Master/Change Keys 7-pin SFIC Control Keys	
		117C	6-pin LFIC Control Keys	
		118C	7-pin LFIC Control Keys	
		91C	6-pin Schlage® Control Keys	

How to Order Example

Qty.	Description	Keyway
100	KN11	XX

Stamping

All keys will come standard with keybow and stampings as shown. Control keys for LFIC will be furnished with a larger keybow.

Front Side

Back Side

Backside Stamping Options

- Keyset (VKC1) standard – unless otherwise indicated
- System registry number will be stamped on upper-level keys unless otherwise indicated
- Concealed key control (CKC2 only) available on cylinders
- Visual key control (VKC2 and VKC3) not available on cylinders

System Specifications

Keyways

Keyway Administration and Assignment

For security purposes, the keyway hierarchies and profiles are not printed. All keyways will be noted on the master key system bitting list.

Yale® Key Systems Administration will assign all Yale® KeyMark® keyways. Keyways will be assigned according to facility type, geographic location, and keying system specifications. All keys will direct ship to the end user. All master key systems will be registered with Key Systems Administration and all bittings will be factory created.

System Administration & Key Control

Key control will be maintained through compliance with the Yale Security Policy: for a copy contact Key Systems Administration or visit our website at www.yalelocks.com. System information and/or systems related product will be forwarded directly to the owner, unless otherwise indicated by the owner's appointed administrator.

Primary Systems Administrators

All Yale KeyMark master key systems must have a signed Notice of Acceptance for the Facility on file with Key Systems Administration. The Notice of Acceptance designates the primary systems administrator of the facility. Unless otherwise indicated by the primary systems administrator by way of a separate specific letter of authorization, all shipments for Yale KeyMark product will go to the shipping address as per the Notice of Acceptance.

For every master key system that is established, a separate Owner's Binder will be sent directly to the primary systems administrator. This Owner's Binder will include all the information needed by the Facility to maintain the Yale KeyMark master key system, including system-specific Registration Certificates which are required for all future orders to be placed for the system.

All keyblanks to be maintained in the possession of the facility must be accounted for. Any defective, incorrectly cut or damaged key blank must be retained in the facility's possession to be returned to Yale on a quarterly basis.

Keying Specifications

6- or 7-pin with two nickel silver change keys per cylinder. Yale KeyMark cylinders may be furnished uncombined, master keyed, or grandmaster keyed to a specific facility. Keyed random or 0-bitted cylinders are not available. For uncombined, specify UC. UC are furnished less pins, springs, pin covers and keys.

System Specifications

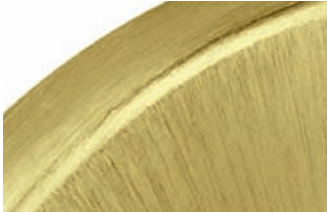

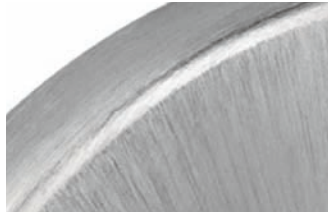

Yale KeyMark uses the A2 pinning specification for all types of cylinders. To ensure the security and integrity of each master key system, the following guidelines should be followed:

- Master key systems are independent and cannot be keyed into existing and/or conventional Yale master key systems.
- Cylinders are to be keyed to factory generated bittings only.
- Master key systems are not to exceed five levels of keying.
- Proper keying nomenclature must be used for all systems.
- Cross keying is not available.
- Construction master keying is not available. See page 17 for construction core program.
- Selective master keys are not recommended. If required, they must be established at the inception of the keying system.

Finishes

Yale KeyMark cylinders are available in the following ANSI/BHMA finishes offered by Yale.

ANSI/BHMA Code Finish Description			
605 Bright Brass, Clear Coated	606 Satin Brass, Clear Coated	612 Satin Bronze, Clear Coated	613 Dark Oxidized Satin Bronze, Oil Rubbed
			
618 Bright Nickel Plated, Clear Coated	619 Satin Nickel Plated, Clear Coated	625 Bright Chrome Plated	626 Satin Chrome Plated
			
BSP Black Suede Powder Coat	WSP White Suede Powder Coat		
			

Plugs are provided in 605, 626 or BSP.

Mortise Cylinders

Fixed Core

Mortise Fixed Core (FC)

For use with mortise and auxiliary locksets.

Cylinder	Length	Pins	Cam
K100	1-1/8" 1-1/4" 1-1/2" 1-3/4" 2"	6 or 7	KC1 (For cam options, see page 16.)
All cylinders are drilled for 7-pins. Length must be specified.

K915

Construction Master Keying

For security reasons, Yale® KeyMark® cylinders are not available construction master keyed. Temporary construction cores are available for both SFIC and LFIC. Temporary cores for SFIC are available with either disposable or locking cores. Temporary cores for LFIC are available with only lockable cores. Please note that temporary cores are not available in competitor formats.

When requesting locksets or cylinders with temporary cores where Yale KeyMark cores will be used for the permanent master key system, the proper ordering procedures must be followed to ensure the issuance of the correct cylinder collars and housings. For all Temporary Construction core orders, both the cylinder and key code designations must be specified. See this page and pages 9-13 for How to Order Examples.

Key Codes	Description
CT6LL	6-pin with large format lockable temporary core
CT6SL	6-pin with small format lockable temporary core
CT6SD	6-pin with small format disposable temporary core
CT7LL	7-pin with large format lockable temporary core
CT7SL	7-pin with small format lockable temporary core
CT7SD	7-pin with small format disposable temporary core

Large Format (LFIC)

Yale's 1210/1220 cores are furnished when the following cylinder designations are used:

Cylinder	Description	Used With
1210	CT6LL	Cylindrical
1220	CT7LL	Cylindrical
K825	Complete Cylinder	Mortise
K845	Complete Cylinder	Rim

All locksets and cylinders ordered with large format interchangeable cores will be provided with keyed alike standard Yale 1210 or 1220 temporary cores. Temporary operating and control keys are required and quantities should be specified. At the completion of the construction phase, these temporary cores can be returned. Refer to the current Yale price book for details. See pages 9-13 for additional examples.

How to Order Example:

Mortise Lockset to be Furnished with Temporary LFIC For the above example, the customer would receive complete mortise locksets with Yale KeyMark K860-1-1/2" housings, 1765.594 collars and 6-pin Yale 1210 keyed alike core. The Yale KeyMark permanent cores, K800, would be ordered separately.

Qty.	Trim	Lock	Cylinder	Key Code	Hand	Thickness	Finish
50	AUR	8805FL	K825	CT6LL	RHR	1-3/4"	626

Small Format (SFIC)

Small format temporary cores can be provided with two options: Disposable or Lockable.

Either disposable or K926 (6-pin lockable) cores are furnished when the following cylinder designations are used:

Cylinder	Description	Used With
K925	6/7-pin Disposable Thumb Turn Only	Cylindrical
K926	6/7-pin Lockable Core Only	Cylindrical
K625	Complete Cylinder	Mortise
K635	Complete Cylinder	Mortise-Tapered
K645	Complete Cylinder	Rim

Option 1: Disposable SFIC (K925)

All locksets and cylinders will be provided with disposable thumb-turn type cores. No keys are required. These cores are disposable and cannot be returned. See pages 11 and 13 for additional examples.

How to Order Example:

Mortise Lockset to be Furnished with Temporary, Disposable SFIC For the above example, the customer would receive complete mortise locksets with Yale KeyMark K660 – 1-1/4" housings, 1765.375 collars and disposable thumb-turn cores, K925. The Yale KeyMark permanent cores, K600, would be ordered separately.

Qty.	Trim	Lock	Cylinder	Key Code	Hand	Thickness	Finish
50	AUR	8805FL	K625	CT6SD	RHR	1-3/4"	626

Option 2: Lockable SFIC (K926)

All locksets and cylinders will be provided with keyed alike standard SFIC cores that are unrelated to the permanent master key system. Temporary operating and control keys are required, quantities must be specified. At the completion of the construction phase, these temporary cores can be returned. See pages 11 and 13 for additional examples.

How to Order Example:

Exit Device to be Furnished with Temporary, Lockable SFIC For the above example, the customer would receive complete exit devices and trim with Yale KeyMark K680 housings, KP4 collars and temporary locking SFIC cores, K926. The Yale KeyMark permanent cores, K600, would be ordered separately.

Qty.	Device	Trim	Cylinder	Key Code	Hand	Finish
50	7150	626F	K645	CT6SL	RHR	626

How To Order

Systems requiring SFIC temporary cores must be ordered either completely with disposable, or lockable cores. Locksets and /or cylinder on a particular purchase order may not be mixed with SFIC temporary core types.

Lockable SFIC cores, K926, and disposable SFIC cores, K925, may be purchased separately. Refer to the Yale KeyMark pricing tab for details.

8800 Series Mortise Locks

Yale® 8800 Series Mortise Locks are designed and manufactured for uncompromising strength and durability in a range of commercial applications. Lock installation is made easy with quick lever handing, field reversible latchbolt and standard non-handed strike. Once installed, the 8800 Series Mortise Lock offers a new measure of security, featuring a reinforced stainless steel deadbolt, heavy-duty, vandal-resistant trim and ANSI/BHMA Grade 1 certification for long life and durability. The 8800 Series Mortise Lock is even backed by a 10 year mechanical warranty, making this product completely worry-free.

When you can't compromise on the quality of your security, Yale Works for YouSM.

Secure:
Stainless steel reinforced deadbolt

Easy and flexible installation:
Field reversible lever handing and latchbolt

Resistant to abuse:
Heavy-duty trim prevents damage

No visible screws:
Great deterrent to vandalism

Indicator available:
Options to suit any application, see page 20

LOCKED

Hurricane UL BHMA CERTIFIED

Features

Features

- Heavy-duty trim for resistance against damage and vandalism
- Functions available for any industrial or commercial application
- Field adjustable lever handing and latchbolt
- ANSI/BHMA Certified Grade 1 for long-life and durability
- UL/cUL listed for 3 hour fire rated doors
- 10 year mechanical warranty
- Available in a variety of attractive trims and finishes
- Status indicator options available to provide peace of mind on the locked/unlocked status of a door

Escutcheon Trim

Rose/Sectional Trim

Applications

- Offices
- Shopping centers
- Industrial buildings
- Commercial facilities

Specifications

Armor Front	8" x 1-1/4"
Backset	2-3/4" only
Case	Wrought steel, zinc dichromated
Deadbolt	1" throw, cast stainless steel.
Door Thickness	1-3/4" standard, available for up to 3-1/4" thick doors
Handing	Field reversible
Hubs	3/8" solid steel, fine-blanked and heat treated for additional strength
Latchbolt	3/4" throw, stainless steel one-piece anti-friction
Strike	1-1/4" (model 2815) curved lip strike standard, see page 41 for additional options.

SL8800

For more heavy-duty applications, the SL8800 Series Mortise Lock offers an extra measure of security. The SL8800 is ideal for situations where heavy abuse or vandalism might be a concern. The SL8800 is available in most mortise lock functions; please see pages 14-19 for more information.

Features

- Heavy duty escutcheon trim that is flat against the door to resist damage and vandalism
- Lever attached directly to escutcheon for added security
- Thrubolted security head screws offer added protection

Applications

- Schools
- Minimum security prisons
- High crime areas
- SL trim available in 630 finish only.

How To Order

Trim Design	Lock Series/Function	Cylinder	Hand	Door Thickness	Finish	Highest Keying Level	Supplementary Specifications/Options <small>Please add to end of order string.</small>
See pages 7-13	See pages 14-19	2153 cylinder standard, see pages 30-32 for additional options. If other than the standard cylinder is required, please specify by model number.	RH LH	1-3/4" standard, please specify if different door thickness required	See page 6 YMS = MicroShield®	"Level One" - KA or KD "Level Two" - MK "Level Three" - GM "Level Four" - GGM	<ul style="list-style-type: none"> • Lead lined (see page 46) • Knurled (see page 46) • Abrasive coated • Specific keying • 7-pin cylinders (see page 30) • Specific strike requirements, i.e. special lip length, curved, open back (see page 41) • For split finishes, please specify in detail. Indicate outside finish first regardless of hand of door. For RHR and LHR doors indicate the finish desired for front and strike. - Voltage for electrified (see page 26-29)

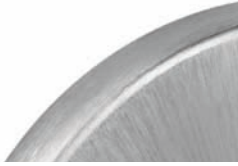

Ordering Example

AU x CN x 8807FL x 2153 x RH x 1-3/4" x 626 x GM

Finishes

The Yale® 8800 Series Mortise Lock is available in the finishes below. All knobs, lever handles, roses, escutcheons, cylinder collars and other exposed parts are fabricated of either brass, stainless steel or zinc and will be compatible with the finish ordered. When ordering, specify the finish required by the ANSI/BHMA Code Number only. When locksets are ordered with different trim finishes on each side, specify the outside finish first, i.e. AUR8817-2 x 612 x 625. The front and strike finish will match the inside finish unless specified otherwise.

ANSI/BHMA Code Finish Description				
605 Bright Brass, Clear Coated	606 Satin Brass, Clear Coated	609 Satin Brass, Blackened, Satin Relieved, Clear Coated	611 Bright Bronze, Clear Coated	612 Satin Bronze, Clear Coated
				
613E Dark Oxidized Satin Bronze - equivalent	616 Satin Bronze, Blackened, and Satin Relieved, Clear Coated	618 Bright Nickel Plated, Clear Coated	619* Satin Nickel Plated, Clear Coated	620 Satin Nickel Plated, Blackened, Satin Relieved, Clear Coated
				
625 Bright Chrome Plated	626* Satin Chrome Plated	629 Bright Stainless Steel	630* Satin Stainless Steel	693 Black Painted
				
BSP Black Suede Powder Coat	WSP White Suede Powder Coat			
				

Notes:

613 and 722 finishes available by Special Product Application Request only. Please contact customer service for more information.

Designer trims are available in only the following finishes: 605, 606, 619, 625, 656. SL trim only available in 630 finish only. Reflections® decorative levers are NOT available in the following finishes: 609, 616, 620, 693.

*Finish available with MicroShield® antimicrobial coating, additional finishes by special application. Consult factory for availability.

MicroShield coating may vary finish color from architectural standards. MicroShield is not intended as a substitute for traditional infection control programs such as hand hygiene or use of disinfectants. Coated products must still be cleaned to ensure the surfaces will be free of destructive microbes. Yale makes no representations or warranties, express or implied, as to the efficacy of MicroShield.

Designer trims are available in only the following finishes: 605, 606, 619, 625, 626. When ordering, include the design symbol (i.e. HA) and specific rose or escutcheon symbol (R3-R8, E3 or E4. See page 12 for more information.). An example of a complete symbol, including lever design, would be HAE3. Escutcheon E3 and Rose R5 are shown with above lever designs. Levers are also available for use with standard CO rose and/or CN escutcheon as shown on pages 7-9.

Reflections® Decorative Trim

Yale® 8800RL Mortise Locks are available with Reflections lever trim, a comprehensive line of highly stylized lever handles. Reflections lever handles are made from solid brass or stainless steel and can withstand years of abuse. Available in an array of finishes, these levers complement any wood grain or other door exterior. Each lever is hand-polished and specially designed for ergonomics and style.

Mechanical Functions

8801 Passage Or Closet Latch (F01)

- For doors that do not require locking
- Latchbolt retracted by knob/lever either side at all times

Trim	Model Numbers		Latchbolt Throw
	Knobs	Levers	
Standard	8801K	8801FL	3/4"
SL	—	SL8801FL	3/4"
Reflections*	—	8801RL	3/4"

8802 Privacy, Bedroom Or Bath Lock (F19)

- Latchbolt retracted by knob/lever either side
- Deadbolt operated by thumbturn inside
- When the deadbolt is projected, outside knob/lever is automatically locked
- Anti-panic operation. Operating inside knob/lever retracts the latchbolt and deadbolt simultaneously, automatically unlocking outside knob/lever.
- In emergency, deadbolt may be unlocked from outside by E203 emergency key, supplied

Trim	Model Numbers		Throw	
	Knobs	Levers	Latchbolt	Deadbolt
Standard	8802K	8802FL	3/4"	1"
SL	—	SL8802FL	3/4"	1"
Reflections*	—	8802RL	3/4"	1"

8805 Storeroom Or Closet Lock (F07)

- For use on storeroom, utility, exit doors
- Latchbolt retracted by key outside, knob/lever inside
- Outside knob/lever rigid at all times
- Inside knob/lever always active
- Deadlocking latchbolt

Trim	Model Numbers		Latchbolt Throw
	Knobs	Levers	
Standard	8805K	8805FL	3/4"
SL	—	SL8805FL	3/4"
Reflections*	—	8805RL	3/4"

8807 Entry Lock (F04)

- For office doors where locking is required
- Latchbolt retracted by knob/lever either side, except when outside knob/lever is locked by stopwork activator
- When outside knob/lever is locked, latchbolt is operated by key outside and knob/lever inside
- Deadlocking latchbolt

Trim	Model Numbers		Latchbolt Throw
	Knobs	Levers	
Standard	8807K	8807FL	3/4"
SL	—	SL8807FL	3/4"
Reflections*	—	8807RL	3/4"

8808 Classroom Lock (F05)

- For classroom, office, or utility room doors
- Latchbolt retracted by knob/lever either side, except when outside knob/lever is locked by key
- Inside knob/lever always active
- Latchbolt can be retracted by key when outside knob/lever is locked
- Operating inside knob/lever retracts latchbolt, but outside knob/lever remains locked
- Deadlocking latchbolt

Trim	Model Numbers		Latchbolt Throw
	Knobs	Levers	
Standard	8808K	8808FL	3/4"
SL	—	SL8808FL	3/4"
Reflections*	—	8808RL	3/4"

8808-2 Intruder Latchbolt Lock (F32)

- Latchbolt retracted by knob/lever either side unless outside knob/lever is locked by key
- Either cylinder locks or unlocks outside knob/lever
- Latchbolt can be retracted by key when outside knob/lever is locked
- Operating inside knob/lever retracts latchbolt, but outside knob/lever remains locked
- Deadlocking latchbolt

Trim	Model Numbers		Latchbolt Throw
	Knobs	Levers	
Standard	8808-2K	8808-2FL	3/4"
SL	—	SL8808-2FL	3/4"
Reflections*	—	8808-2RL	3/4"

8809 Classroom Or Office Lock

- Latchbolt retracted by knob/lever either side unless outside knob/lever is locked by key outside or thumbturn inside
- Latchbolt retracted by thumbturn inside or key outside
- Inside knob/lever always active
- Deadlocking latchbolt

Trim	Model Numbers		Latchbolt Throw
	Knobs	Levers	
Standard	8809K	8809FL	3/4"
SL	—	SL8809FL	3/4"
Reflections*	—	8809RL	3/4"

8811-2 Intruder Deadbolt Lock (F33)

- Latchbolt retracted by knob/lever either side unless outside knob/lever is locked by key
- Deadbolt operated by key either side
- When deadbolt is projected, outside knob/lever is automatically locked
- Key retraction of deadbolt unlocks outside knob/lever
- Anti-panic operation. Operating inside knob/lever retracts the latchbolt and deadbolt simultaneously, automatically unlocking outside knob/lever.

Trim	Model Numbers		Throw	
	Knobs	Levers	Latchbolt	Deadbolt
Standard	8811-2K	8811-2FL	3/4"	1"
SL	—	SL8811-2FL	3/4"	1"

Handing must be specified when ordering

836A/838A Dummy Trim Both Sides

- Push and pull only
- Knob/lever both sides
- Both knob/lever non-operational and rigid at all times
- Plain rectangular front used with spindle-bar stabilizer
- Available in all sectional and escutcheon trim

Model Numbers	
Knobs	Levers
836A prefixed by design symbol (i.e. COR836A, CO x CN836A)	838AFL prefixed by design symbol (i.e. JNR838AFL, JN x CN838AFL)

836B/838B Dummy Trim Both Sides

- Push or pull only
- Knob/lever both sides of inactive leaf of a pair of doors
- Both knob/lever non-operational and rigid at all times
- Available in all sectional and escutcheon trim
- 2815 Strike available upon request

Model Numbers	
Knobs	Levers
836B prefixed by design symbol (i.e. COR836B, CO x CN836B)	838BFL prefixed by design symbol (i.e. JNR838BFL, JN x CN838BFL)

855 Dummy Trim One Side

- Push or pull only
- Knob/lever one side
- Knob/lever non-operational and rigid at all times
- Available in all sectional and escutcheon trim
- Rose trim available with CO, R3, R4, R5 roses only.

Model Numbers	
Knobs	Levers
855 prefixed by design symbol (i.e. COR855)	855FL prefixed by design symbol (i.e. CR x CN855FL)

Indicator options available for both sectional and escutcheon trim.

Cylinder cam required.
 Indicates rigid knob/lever.

Indicators

Applications

8800 Series indicators can be used in a variety of applications and are most commonly used to identify occupancy or display the locked/unlocked status of a room.

- Restrooms
- Quiet rooms
- Nursing mother's rooms
- Classroom doors

Features

- Inside, outside or both sides of the door
- Sectional or escutcheon trim
- Available with 24 different functions – including thumbturn functions
- Viewing window 25% larger than competition
- Patented curved design for viewing at multiple angles
- Window located prominently above the cylinder
- Highly reflective viewing window for increased safety
- Optional directional engraving available – must specify handing
- Retrofittable for existing applications

Functions

Indicators are available with the following 8800 Series functions. See pages 14-19 for details.

8802	8827
8808	8832
8808-2	8840
8809	8847
8811-2	8860
8812-2	8860-2
8814	8861
8814-2	8862
8815	8864
8818-2	8865
8820	8866
8822	8867

Indicators

Sectional Trim

- Surface mounted
- Torx security screws provided
- Compatible with all rose designs: CO, R3, R4, R5, R6, R7, R8
- Available with optional directional arrow engraving

To order indicator with complete lock, specify by adding V series indicator option code to order string. See page 23 for indicator codes and page 24 for how to order examples.

Retrofit/Upgrade Kits

Retrofit/upgrade kits only are available for existing applications only. Each kit includes single side indicator plate with mechanism, screw pack, plastic template and instructions.

To order retrofit/upgrade kits only, specify by model number below. Door thickness, handing and indicator option code must also be specified with kit. Retrofit/upgrade kits with directional engraving must include lock handing.

See page 24 for how to order examples. Note: Indicators for both sides of door require two kits.

	Model #	Used with Functions	Available Option Codes	Indicator Location
	YA190	8811-2, 8814, 8814-2, 8815, 8818-2, 8822, 8832, 8840, 8847, 8860, 8860-2, 8861, 8867	Outside Trim: V10, V20, V30, V40, V50, V60 Inside Trim: V01, V03, V04, V06	Inside and/or Outside*
	YA191	8812-2		
	YA192	8808, 8808-2, 8809		
	YA193	8802, 8820, 8827, 8862, 8864	V10, V20, V30, V40, V50, V60	Outside
	YA194	8802, 8820, 8822, 8827, 8832, 8840, 8847, 8860, 8861, 8867	V01, V03, V04, V06	Inside
	YA196	8862, 8864, 8865, 8866		
	YA198	8809		
	YA197	8866	Outside Trim: V10, V20, V30, V40, V50, V60 Inside Trim: V01, V03, V04, V06	Inside, Outside

*When indicators are required on both sides of the door, 2 upgrade kits must be ordered, one kit for each side.

Indicators

Escutcheon Trim

- Unique escutcheon (VN) for both inside and outside of door for indicator functions
- Non-indicator functions provide with standard escutcheons as ordered, i.e. E3, E4, CN, SL
- Through-bolted
- Torx security screws optional
- Available with optional directional arrow engraving

Specify option code when ordered with lock. See page 23 for indicator option codes and page 24 for how to order examples.

Escutcheon Trim Upgrade Kit Only

Complete trim kits are available to retrofit/upgrade existing applications.

Trim kit includes levers and escutcheons with mechanism for both sides of door, screw pack, door marker and instructions.

To order trim kit only, specify by adding TP prefix to function required with trim, hand, finish and indicator option code.

Prefix	Functions
TP	All functions*

*Escutcheon indicator trim kits available for all functions as listed on page 20 except 8814, 8814-2, 8815.

Note: Escutcheon applications require both sides of the door to have the unique VN escutcheon. Kits will be provided as a set.

How to Order Example (Escutcheon Kit Only)

Lever	Escutcheon	Function	Hand	Finish	Options
AU	VN	TP8802*	RH	626	V21 x EMB

* The function of the existing lock is required so the proper escutcheons can be provided.

Privacy Bedroom/Bath function x escutcheon trim x double indicator - Vacant/Occupied – Green/Red (Outside) Unlocked/Locked – Green/Red (Inside) x inside engraving with "Lock" and directional arrow

Indicator Option Codes

8800 Series indicator option codes are designed to convey wording, color and side of door desired in one simple code. To order, specify option code for complete locksets and/or retrofit/upgrade trim kits.

Single Indicator			
Option Code	Outside Wording	Inside Wording	Color
V10	Unlocked/Locked	No Indicator	Green/Red
V10F	Ouvert/Fermé	No Indicator	Green/Red
V20	Vacant/Occupied	No Indicator	Green/Red
V20F	Libre/Occupée	No Indicator	Green/Red
V30	Icons Only	No Indicator	Green/Red
V40	Unlocked/Locked	No Indicator	White/Red
V50	Vacant/Occupied	No Indicator	White/Red
V60	Icons Only	No Indicator	White/Red
V01	No Indicator	Unlocked/Locked	Green/Red
V01F	No Indicator	Ouvert/Fermé	Green/Red
V03	No Indicator	Icons Only	Green/Red
V04	No Indicator	Unlocked/Locked	White/Red
V06	No Indicator	Icons Only	White/Red
Double Indicator			
Option Code	Outside Wording	Inside Wording	Color
V11	Unlocked/Locked	Unlocked/Locked	Green/Red
V11F	Ouvert/Fermé	Ouvert/Fermé	Green/Red
V21	Vacant/Occupied	Unlocked/Locked	Green/Red
V21F	Libre/Occupée	Ouvert/Fermé	Green/Red
V33	Icons Only	Icons Only	Green/Red
V44	Unlocked/Locked	Unlocked/Locked	White/Red
V54	Vacant/Occupied	Unlocked/Locked	White/Red
V66	Icons Only	Icons Only	White/Red
Engraving			
Option Code	Outside	Inside	Wording
EMA	Engraving	No Engraving	"Lock" with arrow
EMB	No Engraving	Engraving	"Lock" with arrow
EMC	Engraving	Engraving	"Lock" with arrow

Engraving Options

- Laser engraving with "LOCK" and directional arrow
- Only available in the following finishes: 605, 606, 618, 619, 625, 626, 629*, 630*
- Available with MicroShield®
- Door handing must be specified

Option Code	Description
EMA	Engraving located on outside of door
EMB	Engraving located on inside of door
EMC	Engraving located on inside and outside of door

Note: Engraving is available as an option for all functions when ordered with an indicator. Option codes must be specified with complete lock and/or retrofit (upgrade) kits/trim.

*Indicator escutcheon is nickel plated to match Stainless Steel

How to Order Examples

Complete with Lock

Sectional Trim

Trim	Function	Hand	Finish	Options
AUR	8818-2FL	RH	626	V01

Classroom Security Intruder Latchbolt function x sectional trim x single indicator inside – Unlocked/Locked – Green/Red

Lever	Escutcheon	Function	Hand	Finish	Options
AU	VN	8802FL	RH	626	V21 x EMB

Privacy Bedroom/Bath function x escutcheon trim x double indicator - Vacant/Occupied – Green/Red (Outside) Unlocked/Locked – Green/Red (Inside) x inside engraving with "Lock" and directional arrow

Retrofit (Upgrade)/Trim Kit Only

Sectional Trim*

Model #	Door Thickness	Hand	Finish	Option
YA190	1-3/4"	RH	626	V04

Keyed function indicator for sectional trim x single indicator inside – Unlocked/Locked – Red/White

* When indicators are required on both sides of the door, 2 upgrade kits must be ordered, one kit for each side.

Escutcheon Trim

Lever	Escutcheon	Function	Hand	Finish	Options
AU	VN	TP8802**	RH	626	V21 x EMB

Privacy Bedroom/Bath function x escutcheon trim x double indicator - Vacant/Occupied – Green/Red (Outside) Unlocked/Locked – Green/Red (Inside) x inside engraving with "Lock" and directional arrow

** The function of the existing lock is required so the proper escutcheons can be provided.

Indicators - IND/CIND Option

Indicator options IND and CIND are provided with a padlock icon on a green or red background.

Trim Availability

	IND	CIND
Levers/Knobs	All	All
Roses	CO, R3, R4, R5, R6, R7, R8	CO, R6, R7, R8
Escutcheons	CN	CN

Functions

Indicators are available on the outside of the door for the following functions:

	8802	8818-2*	8820	8822	8827	8832	8862	8864
IND	Optional						Optional	
CIND		Optional	Standard	Optional	Standard	Optional		Standard

*Specify mounting side.

How To Order

When ordering with lock, specify the complete lock ordering string and include option code based on function.

Trim	Function	Hand	Finish	Option
AUR	8802FL	RH	626	IND
AUCN	8822FL	RH	626	CIND

When ordering for upgrade to existing lockset, specify kit number x finish.

Trim	Type	Kit
Sectional	Privacy	IND-K x Finish
Sectional	Cylinder	CIND-K x Finish
Escutcheon	Privacy	CN88 x 261 x Finish
Escutcheon	Cylinder	CN88 x 260 x Finish
Escutcheon	Cylinder w/cointurn	CN88 x 262 x Finish

Notes:

- IND-K and CIND-K are kits which includes indicator mechanism and mounting hardware. Cylinder not included.
- For escutcheon trim, CN88 is the outside escutcheon only with indicator assembly, does not include levers or cylinder

Electrified Mortise Locksets

Applications

Stair tower doors, office doors, classrooms, interlocks, elevator lobby doors, laboratories, computer rooms, cashier stations, hospital equipment rooms and pharmaceutical storage rooms. For narrow frame profiles, consult factory.

Trim Designs

8800 electrified mortise locksets are available with all knob, lever, SL and Reflections® trims.

ANSI/BHMA

Certified ANSI/BHMA A156.13, Series 1000, Operational Grade 1 (8800FL with CN escutcheon & SL8800 meet Security Grade 1).

Electrical Specifications

Fail Safe/Fail Secure
 Voltage: 12VDC or 24VDC Regulated
 Current Draw:
 .25A at 24VDC
 .5A at 12VDC
 Operating Temp.:
 Max. 151°F (66°C)
 Min. -31°F (-35°C)

All monitoring switches rated at:
 2 Amp @ 30 VDC
 3 Amp @ 125 VAC

Monitoring Options

Model Number	Description
REX	Request to Exit - An SPDT switch that monitors activation of the free lever (not available with knob trim). REX is available for all mechanical and electrified functions and can be supplied alone or with either LBM or DBM.
LBM	Latchbolt Monitor - An SPDT switch that monitors full retraction of the latchbolt. LBM is available for all electrified functions and can be supplied alone or with REX.
DBM	Deadbolt Monitor - An SPDT switch that monitors full retraction of the deadbolt. DBM is available for all mechanical and electrified functions with a deadbolt and can be supplied alone or with REX.
ITS	Integrated Total Security - Enhanced security reporting allows facility supervisors to tailor decisions with greater certainty. Monitoring includes Request to Exit (REX), Lock Performance Monitoring (LPM), Concealed Door Position Status (DPS) and Cylinder Monitoring (CX). This monitoring option is available with 8890FL/8891FL or 8890RL/8891RL functions only. Locksets ordered with ITS option must be provided with Yale cylinder. Not available less cylinder. Handing must be specified.

ElectroLynx®

Yale® electrified 8800 locks are equipped with ElectroLynx connectors. As a standard feature, these connectors link power from the incoming source to electrified locking products, including hinges, locks, exit devices, magnetic holders and strikes.

Note: Electrified door hardware with ElectroLynx connectors require a compatible number of lead wires attached to the door hinge.

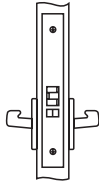

Electrified Mortise Lockset Functions

Fail Safe

The following functions are locked when power is on and unlocked when power is off.

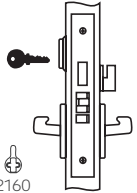

8880

- Power off – outside lever active
- Power on – outside lever locked
- Auxiliary latch deadlocks latchbolt
- Inside lever always free
- No key override

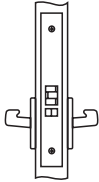

8896

- Power off – outside lever active (even when deadbolt thrown)
- Power on – outside lever locked
- Auxiliary latch deadlocks latchbolt
- Deadbolt projected by key outside, thumbturn inside
- Inside lever always free
- Mechanical key override by outside when locked

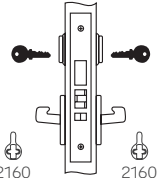

8884

- Power off – both levers active
- Power on – both levers locked
- Auxiliary latch deadlocks latchbolt
- No key override

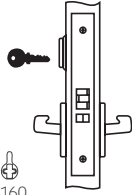

8896-2

- Power off – outside lever active (even when deadbolt thrown)
- Power on – outside lever locked
- Auxiliary latch deadlocks latchbolt
- Deadbolt projected by key both sides
- Inside lever always free
- Mechanical key override by both sides when locked

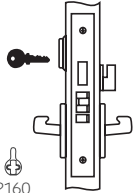

8890

- Power off – outside lever active
- Power on – outside lever locked
- Auxiliary latch deadlocks latchbolt
- Inside lever always free
- Mechanical key override by outside when locked

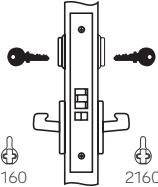

8898

- Power off – both levers active (even when deadbolt thrown)
- Power on – both levers locked
- Auxiliary latch deadlocks latchbolt
- Deadbolt projected by key outside, thumbturn inside
- Mechanical key override by outside when locked

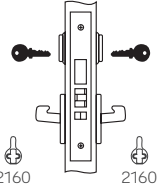

8894-2

- Power off – both levers active
- Power on – both levers locked
- Auxiliary latch deadlocks latchbolt
- Mechanical key override by both sides when locked

8898-2

- Power off – both levers active (even when deadbolt thrown)
- Power on – both levers locked
- Auxiliary latch deadlocks latchbolt
- Deadbolt projected by key both sides
- Mechanical key override by both sides when locked

Electrified Mortise Lockset Functions

Fail Secure

The following functions are unlocked when the power is on and locked when power is off.

8881

- Power off – outside lever locked
- Power on – outside lever active
- Auxiliary latch deadlocks latchbolt
- Inside lever always free
- No key override

8897

- Power off – outside lever locked
- Power on – outside lever active (even when deadbolt thrown)
- Auxiliary latch deadlocks latchbolt
- Deadbolt projected by key outside, thumbturn inside
- Inside lever always free
- Mechanical key override by outside when locked

8885

- Power off – both levers locked
- Power on – both levers active
- Auxiliary latch deadlocks latchbolt
- No key override

8897-2

- Power off – outside lever locked
- Power on – outside lever active (even when deadbolt thrown)
- Auxiliary latch deadlocks latchbolt
- Deadbolt projected by key both sides
- Inside lever always free
- Mechanical key override by both sides when locked

8891

- Power off – outside lever locked
- Power on – outside lever active
- Auxiliary latch deadlocks latchbolt
- Inside lever always free
- Mechanical key override by outside when locked

8899

- Power off – both levers locked
- Power on – both levers active (even when deadbolt thrown)
- Auxiliary latch deadlocks latchbolt
- Deadbolt projected by key outside, thumbturn inside
- Mechanical key override by outside when locked

8895-2

- Power off – both levers locked
- Power on – both levers active
- Auxiliary latch deadlocks latchbolt
- Mechanical key override by both sides when locked

8899-2

- Power off – both levers locked
- Power on – both levers active (even when deadbolt thrown)
- Auxiliary latch deadlocks latchbolt
- Deadbolt projected by key both sides
- Mechanical key override by both sides when locked

Electrified Mortise Lockset Accessories

BPS Power Supplies By Securitron®

Operation

Power supplies are designed to provide reliable filtered and regulated power for long life to a variety of electrified hardware components.

Product Features

- Individual output circuit breakers
- Regulated and filtered fuse protected outputs
- LEDs monitor zone status (voltage or no voltage)
- Slide switches connect or disconnect load from power (Not available on 1 Amp supplies)
- Internal Back-Up battery charging circuit
- Rugged steel enclosure
- Fire alarm interface

Listings

- UL CLASS 2

Applications (use with):

- Fail Safe mortise locks
- Fail Secure mortise locks

Ordering

Ex: BPS-24-4, BPS-12-3

Model	Input	Output	Application*
BPS-24-1	120 VAC	1 Amp @ 24 VDC	2-8800
BPS-24-2	120 VAC	2 Amp @ 24 VDC	5-8800
BPS-24-4	120 VAC	4 Amp @ 24 VDC	11-8800
BPS-12-1	120 VAC	1 Amp @ 12 VDC	1-8800
BPS-12-3	120 VAC	3 Amp @ 12 VDC	3-8800

*Preceding number denotes how many locks can be hardwired to each power supply.

Consult factory for additional power supply applications.

Yale recommends McKinney®, Pemko and Securitron® for power transfer devices and other electronic accessories.

Conventional Mortise Cylinders

Illustration	Cylinder Model Number	Application	Cam	Length	
				6-Pin	7-Pin
	2153	Standard cylinder	2160	1-1/8" 1-1/4" 1-3/8" 1-1/2" 1-5/8" 1-3/4"	1-1/4" 1-3/8" 1-1/2" 1-5/8" 1-3/4"
	2153S	For inside operation of 8817-2 and 8834-2 functions only	2130		
	2123	Cylinder for longer lengths	2160	1-7/8" thru 3-1/2" in 1/8" increments*	
	2123S	For inside operation of 8817-2 and 8834-2 functions only for longer lengths	2130		
	2719	For 8820, 8827, 8831 and 8832 functions	2160	1-3/8"	—

*Contact Technical Product Support for cylinder collar requirements when ordering these cylinders separately. See pages 33-40 for other collar requirements.

Interchangeable Core Mortise Cylinders

Cylinder Model Number	Application	Cam	Length	Pins	Housing Only Model Number	Core Only Model Number
2196	Standard Cylinder	2160	1-1/2", 1-3/4", 2"	6	2221	1210
2197	Standard Cylinder	2160	1-11/16", 2"	7	2213	1220
2196H	For Hotel/Motel Locks 8820, 8827, 8832	2160	1-11/16"	6	2213	1210H
2196S	For inside operations of 8817-2 and 8834-2 functions	2130	1-1/2"	6	2214S	1210
2197S	For inside operations of 8817-2 and 8834-2 functions	2130	1-11/16"	7	2217S	1220

Note: When ordering interchangeable core cylinders or cores only, control keys are not furnished. If control keys are required they must be ordered separately.

Cylinders

Security Cylinders

Security cylinders contain two independent locking mechanisms. The first is a traditional 6- or 7-pin tumbler mechanism with spool drivers for greatly increased picking resistance.

The second is an innovative 5-tumbler rotating disc mechanism with sidebar engagement. The rotating discs are spring loaded and block the bottom of the keyway.

Illustration

Security/High Security Mortise Cylinders

Model Number	Application	Cam	Length	
			6-pin	7-pin
5153/U5153	Standard Cylinder	2160	1-1/8"	1-1/4"
5153S/U5153S	For inside operations of 8817-2 and 8834-2 functions	2130	1-1/4"	
5719/U5719	For 8820, 8827, 8831 and 8832 functions	2160	1-3/8"	

Security Interchangeable Core Mortise Cylinders

5197S	For inside operations of 8817-2 and 8834-2 functions	2130	1-11/16"	7	2217S	5220

Note: When ordering interchangeable core cylinders or cores only, control keys are not furnished. If control keys are required they must be ordered separately.

Yale® KeyMark®

For those applications requiring protected key control, Yale® KeyMark® cylinders guard against unauthorized key duplication. The Yale KeyMark Security Leg® keyway feature increases resistance against picking and impressioning and can easily retrofit into existing systems. For further details and availability, refer to the separate Yale KeyMark catalog.

Protected Keyway Mortise Cylinders

Model Number	Type	Cam	Length	Pins	Housing Only Model Number	Core Only Model Number
K100	Fixed Core Mortise	KC1	1-1/8", 1-1/4" 1-1/2", 1-3/4" 2"	6 or 7	N/A	N/A

Cylinder Collars

Cylinder collars are supplied as standard where required with products supplied with cylinders. Collar size and thickness are supplied to suit the length of the cylinder, the thickness of the door and the trim ordered. (If door thickness is not specified, collars will be supplied to suit 1-3/4" (44mm) door.)

Collar length required must be specified for cylinders and/or housings ordered separately.

1765 Recessed Cylinder Collar

"A" Dimension: See chart for available sizes. To order, specify "1765.size" i.e. 1765.250.

Material: Brass, Stainless Steel

Strikes

Yale® 8800 Series Mortise Locks come standard with a 2815 Curved Lip Strike with a 1-1/4" (32mm) lip length. The strike supplied will accommodate the locking function, i.e. latchbolt and/or deadbolt, and can be installed on doors 1-3/4" (44mm) thick. These strikes are non-handed.

Material: Brass, Stainless Steel.

Longer/Shorter Lip Lengths: Mortise lock strikes are mounted 3/8" above the center line of the lock. To determine the proper length of lip use the following formula:

1/2 of the door thickness, plus 1/16" inset, plus trim thickness, plus 1/8" for flat lip strike OR 1/4" for curved lip strike. Select the nearest available length.

2815 Curved Lip:

- 1-1/4" (32mm) standard
- To special order
- 1-1/8" (29mm)
- 1-3/8" (35mm)
- 1-1/2" (38mm)
- 1-5/8" (41mm)
- 1-3/4" (44mm)
- 1-7/8" (48mm)
- 2" (51mm)
- 2-1/8" (54mm)
- 2-1/4" (57mm)

2816 Flat Lip:

- To special order,
- 7/8" (22mm)
- 1" (25mm)
- 1-1/8" (29mm)
- 1-1/4" (32mm)
- 1-1/2" (38mm)
- 1-3/4" (44mm)
- 2" (51mm)
- 2-1/4" (57mm)
- 2-1/2" (64mm)

Optional Strikes

497B ANSI Blank Filler Plate: Reversible to replace a strike where a lock has been removed or where a frame with a strike preparation when no lock is installed on a door. Lip Lengths: 1-1/8" (29mm) only.

Material: Brass, Bronze, Stainless Steel.

718 Open Back Strike: Field handable for a standard V-beveled pair of doors with a latchbolt only function on the active door. This strike permits emergency opening of the inactive door without damaging the lock mechanism. Available for doors 1-3/4" or 2-1/4" thick only. Specify the door thickness required.

Material: Stainless Steel, Black Nylon Coated.

202 Strike Box: Reversible for installation with all Flat or Curved Lip Strikes. Available to special order only.

Material: Wrought Steel, Zinc Plated, Dichromated.

Rabbeted Door Kits

The Yale® 8800 Series Mortise Lock can be installed on a pair of doors with a standard 1/2" (13mm) step rabbet. Kits are available which adapt these locks to the rabbeted doors. These kits contain a 1/2" (13mm) standard step rabbet strip for the active door, a strike, a strike box, and, depending on the door thickness, a strike lip. They are available for doors 1-3/4" (44mm), 2" (51mm) and 2-1/4" (57mm) thick. All components of these kits are reversible.

To order a complete Yale mortise lock with a Rabbet Door Kit, suffix the lock model number with a Rabbeted Door by door thickness, hand and finish required, i.e. AU8807 x Rabbeted Door x 1-3/4" x RH x 626.

Kits for rabbeted doors can be ordered by model number separately from the accompanying chart. When ordered separately, specify the finish required.

Door Thickness	Rabbeted Door Kit Model No.	Strike Model No.
1-3/4" 2"	RK245	22E

These kits contain the above components plus a No. 22D strike lip with attaching screws for doors above 2".

Miscellaneous Trim Design

GF1824 Thumbturn and Round Plate

Supplied as standard on all locks with round rose sectional trim or lock functions with no roses.

Thumbturn: Cast Zinc.

Plate: 1-7/8" (48mm) Diameter.

Brass, Simulated Stainless Steel.

GF1826 Plate for Privacy

Used for outside of 8802 Privacy Lock.

Plate: 1-7/8" (48mm) Diameter.

Brass, Simulated Stainless Steel.

GF1828 Blank Plate

For use on doors where thumbturn is no longer used.

Plate: 1-7/8" (48mm) Diameter.

Brass, Simulated Stainless Steel.

Attaching Screws

GF1824, GF1826 and GF1828

No. 6 x 3/8" (10mm) type "AB", Oval Phillips Head sheet metal screw, stainless steel plated to match trim (P/N 81-3173-0308). Specify finish required.

Emergency Key

E203

Used with 8802 privacy lock and 8862 bathroom lock for emergency access from outside.

Handing The 8800 Mortise Lock

HANDING THE LATCHBOLT

1. Insert a flat blade screwdriver into cover slot.
2. Pull back on screwdriver until latchbolt extends past the base front.
3. Rotate head to desired position.

HANDING THE HUBS (LEVER OPERATION)

1. Locate the red mark on locking piece
2. The red mark indicates the locked side
3. Push toggle button to the "Unlock" position
4. With a flat blade screwdriver push red mark on locking piece to rotate locking piece 180° to the desired location
5. The locking piece must be fully rotated 180° for proper operation

Hand Of Doors

The outside is the key side of an entrance door or the corridor side of a room door. The outside of a single communicating door is the side opposite the hinges. The outside of twin communicating doors is the space between the doors.

Left Hand: Hinges on left, opens inward. For handed locks, specify LH.

Left Hand Reverse: Hinges on left, opens outward. For handed locks, specify LHR.

Right Hand: Hinges on right, opens inward. For handed locks, specify RH.

Right Hand Reverse: Hinges on right, opens outward. For handed locks, specify RHR.

Dimensions and Exploded Views

8800/SL8800 Series

- **Armor Front** - 8" x 1-1/4"
- **Door Thickness** - 1-3/4" standard, to 3-1/4" thick doors to order.
- **Deadbolt** - 1" throw, solid investment cast stainless steel.
- **Latchbolt** - 3/4" throw, stainless steel one-piece anti-friction.
- **Backset** - 2-3/4" only.
- **Case** - wrought steel, zinc dichromated.
- **Hubs** - 3/8" solid steel, fine-blanked and heat treated for additional strength.

Escutcheon

ADA

The 8800 meets accessibility guidelines of the Americans with Disabilities Act and the requirements of the Uniform Federal Accessibility standards and ANSI 117.1, all requiring ease of accessibility.

ANSI/BHMA

Certified ANSI/BHMA A156.13, Series 1000, Operational Grade 1 (8800FL with CN escutcheon & SL8800 meet Security Grade 1). 8800 Series Mortise Locks conform to ANSI/BHMA Specifications A156.115 which cover hardware preparations for steel doors and steel frames and A156.115-W which cover hardware preparations for wood doors with wood or steel frames.

Bevel Front

Yale 8800 series fronts are free-floating to adjust from flat to the standard bevel of 1/8" in 2".

Door Thickness

8800 Series Mortise Locks are supplied as standard for 1-3/4" thick doors. For other than standard, specify the door thickness on the order: (i.e. 2", 2-1/4", etc.)

Installation

Yale 8800 Series sectional and escutcheon trims feature thrubolted installation. Outside trim is held in place by threaded posts. For sectional trims, the posts fit through holes in the lock case and are secured by thrubolts from the inside trim. For escutcheon trims, the posts fit through the door and are secured by thrubolts from the inside trim. The posts fit through holes in the door, above and below the lock case, and are secured by thrubolts from the inside trim.

ISO 9001

Designed and manufactured under a certified ISO 9001 quality system.

Lead Shielding

All Yale 8800 Series Mortise Locks are available with a lead shield for installation in lead-lined doors. To order, suffix the lockset model number with "lead-lined."

Knurled Designs

Where required by the local authority, trim can be knurled to be identifiable to the touch for blind persons. CO knob design and all lever designs except HA and Reflections® trim (pages 10-12) may be ordered knurled.

Only the outside knob or lever will be knurled or abrasive coated unless specified otherwise. To order a complete lockset knurled or abrasive coated, suffix the lockset model number with "Knurled" or "Abrasive Coated," i.e. AU x CN8807 x "Knurled," AU x CN8817-2 x "Knurled Inside Only," AU x CN8828FL "Abrasive Coated."

Underwriters Laboratories (UL/cUL)

Yale 8800 Series Mortise Locks have been listed by Underwriters Laboratories Inc. for use on fire doors having a rating up to and including 3 hours and for use on 20 minute wood doors. This pertains to single swing doors not exceeding 4 feet in width and 8 feet in height and in doors mounted in pairs not exceeding 8 feet in either direction (unless otherwise noted in the individual listings.)

In general, single-point mortise locks or latches with 3/4" minimum latch throw are intended for the active leaf of doors mounted in pairs, with the inactive leaf provided with top and bottom flush or surface bolts of the manual, automatic, or self-latching type. The door Classification Marking specifies the minimum latch throw required for the individual door.

Yale 8800 Series Mortise Locks with 3/4" throw latchbolts may also be used on single swing doors rated 1-1/2 hours or less, up to 4 feet in width and 9 feet in height. This is in addition to the rating mentioned above. All Yale 8800 Series Mortise Locks with Lever Handle Trim are UL listed for fire door applications. Underwriters Laboratories does not list locks with rabbeted fronts, locks with deadbolt only, or locks with hold-back feature on the latchbolt.

Note: Any retrofit or other field modification to a fire rated opening can potentially impact the fire rating of the opening, and Yale Locks & Hardware makes no representations or warranties concerning what such impact may be in any specific situation. When retrofitting any portion of an existing fire rated opening, or specifying and installing a new fire-rated opening, please consult with a code specialist or local code official (Authority Having Jurisdiction) to ensure compliance with all applicable codes and ratings.

Warranty

Yale 8800 Series mechanical mortise locks are protected by a ten (10) year warranty and 8800 Series electrified mortise locks have a two (2) year warranty.

reflections®

inspiring decorative levers
coordinating hardware

Reflecting your design vision everywhere

Yale lever profiles echo your design statement, whether you require sleek and contemporary or dramatic vibrancy to create a unique architectural environment. Now it's possible to flow design sensibility across the entire facility, unifying all openings.

Select from 34 available lever styles in 13 finishes to complement and expand upon the message of any interior. With Reflections, style is uniquely defined.

Inspired by the fluid lines in nature, this collection of distinctive decorative levers mirrors the sensibility of design in high-end commercial projects.

Encapsulating natural elements of form found in flowing water and landscapes, each lever in the **Reflections** series captures a unique beauty, styled with its own distinctive characteristics. Simple curves mixed with dramatic arcs provide options for every project.

Let one lever design unify all openings across a facility

Coordinate all door hardware whether tubular, mortise, exit or access control with the selection of one decorative lever.

The **Reflections** lever collection enables design professionals to express their vision for detail across all openings.

Tubular

Hotel rooms
Apartments
Condominiums

Mortise

Government
Mixed-use facilities
Commercial offices
Universities

Exit Devices

Lobbies
Retail
Conference centers
Egress doors

Electronic Access Control

Corporate enterprise
Government buildings
Multi-family and senior living
Mixed-use facilities

Tubular – Engineered for ease of installation, the RL series tubular locks were designed to work with Reflections. Specify a decorative lever to marry functionality with design throughout any building or facility.

Mortise – Let one lever design enhance the security in higher traffic areas. No need to compromise design for strength with 8800RL mortise locks.

Exit Devices – Add a Reflections lever to a narrow or wide stile exit device bringing gracious totality to the entire complex – with a push bar on one side of the door, decorative lever on the other.

Access Control – Specify your lever selection to be used on an access control trim on exit devices or mortise lock openings.

5400LN Series Cylindrical Lever Locks

Designed for industrial and commercial use, Yale 5400LN Series heavy-duty cylindrical lockset offers rugged reliability and performance in a range of functions. With innovative features such as our Free Wheeling lever mechanism, wear-resistant chassis plates, heavy-duty lever return springs and thru-bolting, this Grade 1 workhorse is favored for a variety of applications that require reliable access every day.

Offering quality door hardware products from a brand you can trust, Yale Works for YouSM.

Benefits & Features

Benefits

- **Heavy-Duty:** Rugged Grade 1 construction offers greater reliability and resists wear-and-tear
- **Secure:** Innovative features protect against damage and vandalism
- **Versatile:** Range of functions and options offer an ideal solution for a variety of commercial applications
- **Easy installation:** Adjustable rose allows for easy adjustment on different door thicknesses
- **Strong & Reliable:** ANSI/BHMA Grade 1 certification for long-life and durability

Features

- Heavy duty construction features wear-resistant chassis plates, longer thread-locking thrubolts, lifetime warranted lever return springs and stainless steel latchbolt for exceptional strength and durability
- Free Wheeling lever mechanism prevents vandalism and reduces maintenance
- Adjustable rose support plates
- Available in 3 lever designs, 24 functions (including electrified) and 12 standard finishes
- ANSI/BHMA Certified Grade 1
- ADA compliant for ease of accessibility

Specifications

Backset	2-3/4" standard, 3-3/4" optional
Door Thickness	Adjustable for doors 1-3/4" to 2"
Handing	Non-handed, field reversible
Latchbolt	2-3/4" backset, 1/2" throw. See page 14 for additional options.
Strike	ANSI strike 4-7/8" x 1-1/4" x 1-1/4" lip to center. See page 15 for additional options.
ANSI/BHMA	Certified Grade 1, ANSI/BHMA A156.2
UL/cUL	Listed for 3 hour fire doors
Windstorm	Certified, check local codes.
Warranty	7 years

FEMA 320

With the addition of longer thru-bolt screws, the 5400LN can be used in conjunction with a Ceco StormPro® 320 door and frame and Medeco® Maxum Security deadbolts to meet the standards of the FEMA 320 Large Missile Impact test. To order these screws, add option "TD" to the model number and the correct screws will be supplied. For example: AU5407LN x TD.

Packing

Each box has a strike, paper template, combination wood and machine screws, lever release tool and easy-to-follow instructions. Cylinder functions supplied with two keys. Ten shelf boxes to a case.

Electrified Options

Operation

Electric locks provide the ability to electrically lock or unlock the outside trim from a remote location. Fail Safe locks are commonly used in stair towers to release upon fire alarm activation. Fail Secure locks are used on perimeter doors or security doors to allow ingress using access control technologies (proximity cards, keypads, etc.)

Features

- Free Wheeling lever mechanism.
- Self-contained, continuous-duty integral solenoid (allows installation in standard cylindrical prep).
- Available Fail Safe or Fail Secure.
- Available in 12 or 24 volts DC.
- 8 position ElectroLynx plug connector
- External rectifier available upon request for AC operation.
- Mechanical cylinder override.
- All 5400LN cylinder options.
- Certified ANSI/BHMA Grade 1. 
- UL listed.
- 2-year limited warranty.

Electrical Specifications

- Continuous duty solenoid
150 mA @ 24VDC
300 mA @ 12VDC
- REX (SPDT) Contact Rating:
3A @ 125 VAC
2A @ 24 VDC

Electrolynx®

Yale® electrified 5400LN locks are equipped with ElectroLynx connectors. As a standard feature, these connectors link power from the incoming source to electrified locking products, including hinges, locks, exit devices, magnetic holders and strikes.

Note: Electrified door hardware with ElectroLynx connectors requires a compatible number of lead wires attached to the door hinge.

Request to Exit (REX) Option

Operating inside lever handle triggers REX switch which can be used to shunt an alarm, monitor egress or release a magnetic lock, etc.

Functions

Outside	Inside	Function	Function Description
		5490LN	Fail Safe <ul style="list-style-type: none"> • Power on locks outside lever. • Inside lever always active. • Latchbolt retracted by key when locked electrically. • Free Wheeling lever when locked electrically.
		5491LN	Fail Secure <ul style="list-style-type: none"> • Power on unlocks outside lever. • Inside lever always active. • Latchbolt retracted by key when power is off. • Free Wheeling lever when power is off (locked).

Outside	Inside	Function	Function Description
		5480LN	Fail Safe <ul style="list-style-type: none"> • Power on locks outside lever. • Inside lever always active. • Latchbolt retracted either side except when outside lever is locked electrically. • Free Wheeling lever when locked electrically.
		5481LN	Fail Secure <ul style="list-style-type: none"> • Power on unlocks outside lever. • Inside lever always active. • Latchbolt retracted either side when power is off. • Free Wheeling lever when power is off (locked).

Electrified Accessories

BPS Power Supplies By Securitron®

Operation

Power supplies are designed to provide reliable filtered and regulated power for long life to a variety of electrified hardware components.

Product Features

- Individual output circuit breakers
- Regulated and filtered fuse protected outputs
- LEDs monitor zone status (voltage or no voltage)
- Slide switches connect or disconnect load from power (Not available on 1 Amp supplies)
- Internal Back-Up battery charging circuit
- Rugged steel enclosure
- Fire alarm interface

Listings

- UL CLASS 2

Applications (use with):

- Fail Safe cylindrical locks
- Fail Secure cylindrical locks

Ordering

Ex: BPS-24-4, BPS-12-3

Model	Input	Output	Application
BPS-24-1	120 VAC	1 Amp @ 24 VDC	2-5400LN
BPS-24-2	120 VAC	2 Amp @ 24 VDC	5-5400LN
BPS-24-4	120 VAC	4 Amp @ 24 VDC	11-5400LN
BPS-12-1	120 VAC	1 Amp @ 12 VDC	1-5400LN
BPS-12-3	120 VAC	3 Amp @ 12 VDC	3-5400LN

Consult factory for additional power supply applications.

Yale recommends McKinney®, Pemko and Securitron® for power transfer devices and other electronic accessories.

Cylinders

Cylinder Options

The following selection guide indicates the correct cylinder for each locking segment.

Lockset Series: 5400LN		Types of Cylinder Mechanisms						
		Conventional		Protected Keyway		Security		
Cylinder Types	Fixed Core	6-pin	7-pin	6-pin	7-pin	6-pin	7-pin	
	Key-In-Lever	1802	1802A	K402	K402	5802	5802A	
	Interchangeable Core							
	LFIC	1210	1220	K800	K800	5210	5220	
SFIC	A600	A600	K600	K600	N/A	N/A		

Refer to Yale® KeyMark® and/or Cylinders and Keys Catalog sections for all details and how to order examples.

Yale® KeyMark®

For those applications requiring protected key control, Yale® KeyMark® cylinders guard against unauthorized key duplication. The Yale KeyMark Security Leg® keyway feature increases resistance against picking and impressioning and can easily retrofit into existing systems. For further details and availability, refer to the separate Yale KeyMark catalog.

Security Cylinders

Security cylinders contain two independent locking mechanisms. The first is a traditional 6- or 7-pin tumbler mechanism with spool drivers for greatly increased picking resistance.

The second is an innovative 5-tumbler rotating disc mechanism with sidebar engagement. The rotating discs are spring loaded and block the bottom of the keyway.

Cylinders

107S Schlage® Cylinder Adapter Kit

Used to modify Schlage cylinder for fit in the 5400LN.

	Best® Keyway Cylinder. Available keyed random, master keyed or uncombined. Specify keyway A, B, C, D, E, F, G, H, J, K, L or M.	A600	6 or 7
	Corbin Russwin "L4", Corbin "60", Russwin "D1", Sargent® "LA" or Schlage® "E" Keyway. Specify keyway. Available keyed random.	3804*	6
	Schlage® "C" Keyway. Available 0-bitted or keyed random.	2802	6

***3804 cylinders require the 107S cylinder adapter kit to fit the 5400LN locksets. These cylinders are not ANSI/BHMA certified.**

Levers Accepting SFIC And Other Manufacturers' Large Format Interchangeable Cores

Illustration	Description	Prefix	Number of Pins
	SFIC (Accepts all Small Format Interchangeable Cores)	B (i.e. B-AU, B-MO, B-PB)	6 or 7
	Medeco®, ASSA® (LFIC)	M* (i.e. M-AU)	6
	Schlage® (LFIC)	SI (i.e. SI-AU, SI-PB, SI-MO)	6

***Medeco®, ASSA® option available only with AU lever. (Note: For Medeco 32 series cores.)**

LFIC = Large Format Interchangeable Core

SFIC = Small Format Interchangeable Core

Plain Latchbolts

Model No. 693 supplied standard with all 5400LN series locksets without locking function. Standard plain latchbolt has a 2-1/4" (57mm) x 1-1/8" (29mm) beveled front with a 2-3/4" (70mm) backset and a 1/2" (13mm) bolt throw. Optional latchbolts with a greater backset/throw available to special order.

Model No.	Front	Backset	Throw	Front Width	Latch Diameter
693	Beveled	2-3/4" (70mm)	1/2" (13mm)	1-1/8" (29mm)	1" (25mm)
F693	Flat	2-3/4" (70mm)	1/2" (13mm)	1-1/8" (29mm)	1" (25mm)
3693	Beveled	3-3/4" (95mm)	1/2" (13mm)	1-1/8" (29mm)	1" (25mm)

Note: for 3/4" throw applications, only deadlocking latchbolts available.

Deadlocking Latchbolts

Deadlocking latchbolt Model No. 694 supplied standard with all 5400LN series locksets with locking function. Standard deadlocking latchbolt has a 2-1/4" (57mm) x 1-1/8" (29mm) beveled front with a 2-3/4" (70mm) backset and a 1/2" (13mm) bolt throw. Optional latchbolts with a greater backset/throw available to special order.

Model No.	Front	Backset	Throw	Front Width	Latch Diameter
694	Beveled	2-3/4" (70mm)	1/2" (13mm)	1-1/8" (29mm)	1" (25mm)
F694	Flat	2-3/4" (70mm)	1/2" (13mm)	1-1/8" (29mm)	1" (25mm)
3694	Beveled	3-3/4" (95mm)	1/2" (13mm)	1-1/8" (29mm)	1" (25mm)
480B	Beveled	2-3/4" (70mm)	3/4" (19mm)	1-1/8" (29mm)	1" (25mm)
F480B	Flat	2-3/4" (70mm)	3/4" (19mm)	1-1/8" (29mm)	1" (25mm)
3480B	Beveled	3-3/4" (95mm)	3/4" (19mm)	1-1/8" (29mm)	1" (25mm)

Note: for 2-3/8" backset, contact Customer Support.

Backset Extension Links

All 5400LN Series locksets are supplied with standard latchbolts of 2-3/4" (70mm) backset; optional latchbolts with a 3-3/4" (95mm) backset are available to special order. Extension links are also available for attachment to 2-3/4" (70mm) or 3-3/4" (95mm) backset latchbolts to extend the backset to the desired length.

Desired Backset	Latchbolt Backset	Order Extension List No.
5" (127mm)	2-3/4" (70mm)	481DL
6" (152mm)	3-3/4" (95mm)	481
7" (178mm)	2-3/4" (70mm)	482
8" (203mm)	3-3/4" (95mm)	482
18" (46cm)	2-3/4" (70mm)	484
19" (48cm)	3-3/4" (95mm)	484

Other extension links up to 42" (1.06m) backset are available to special order.

Attaching Screws

(Not regularly supplied when latchbolts ordered separately)

For all latchbolts

- #8-8-32 x 3/4" (19mm) Phillips flat head combination wood and machine screws
- Brass - P/N 81-2022-0416*
- Bronze - P/N 81-2032-0416*

***Specify finish required.**

Hollow Metal Doors

- #8 - 32 x 1" (25mm) Phillips flat head machine screw
- Brass - P/N 81-0022-0420*
- Bronze - P/N 81-0032-0420*

Strikes

Yale® 5400LN locks are available with a variety of strike options. All strikes are located on the same vertical and horizontal center lines as the latchbolt. Some strikes are available in special lip lengths to accommodate varying thickness of doors and frames. To determine the proper length of the lip, measure from the center line of the strike to the edge of the jamb, accounting for any interfering trim (i.e. wood molding) and then add 1/4" (6mm) for curved lip. All strikes are reversible. Strikes are fabricated of either brass, bronze or stainless steel, depending on the lockset trim finish. When ordering strikes separately, specify the finish required.

<p>Model No. 497 ANSI Strike (Standard) 1-1/4" supplied standard. 1-1/8", 1-1/2", and 1-3/4" lip lengths available by special order. For door and frames with ANSI/BHMA A156.115 preparations.</p>	<p>Model No. 371 T-Strike (Optional) 1-1/4" curved lip supplied standard. 1", 1-1/2", 1-3/4", and 2" curved lip lengths available by special order. Wrought strike box supplied.</p>	<p>Model No. 497B Blank ANSI Strike (Optional) Available to special order. Installed in frame with standard ANSI/BHMA A156.115 preparation to replace the strike when the lockset has been removed from the door.</p>	<p>Model No. 202 Strike Box for ANSI Strike (Optional) Specify 497 x 202</p>

Attaching Screws

(Not regularly supplied when strikes ordered separately).

For Model No. 371 strike

#8-8-32 x 3/4" (19mm) Phillips flat head combination wood and machine screw P/N-81-2012-0416.

For Model No. 497 strike and 497B plate

#12-12-24 x 1" (25mm) Phillips flat head combination wood and machine screw P/N-81-2012-0620.

Note: When ordering strike plates or attaching screws individually, specify the finish required; i.e. 497 x 202 x 612; #81-2012-0620 x 612.

Sample Specification

All locksets shall be 5400LN Series Grade 1 cylindrical lever locksets as assembled by Yale Locks & Hardware.

Lockset chassis shall be constructed of heavy-gauge cold-rolled steel, trivalent chrome plated to protect against rust and corrosion. Locksets shall be adjustable to fit doors between 1-3/4" (44mm) to 2" (51mm) thick.

Locksets shall be non-handed, and shall install easily without the need for specialized installation tools. Locksets shall have separate anti-rotation thrubolts in the 6 o'clock and 12 o'clock position outside the 2-1/8" face bore, and shall have no exposed mounting screws.

Locksets shall have solid one-piece, cast levers without plastic inserts, and shall be a minimum of 5-1/4" in length. Levers shall operate independently, and shall have inside and outside lever return springs. Outside levers on the keyed locksets shall be removable only when the designated key is in the cylinder.

Locksets shall have the capability of accepting 7-pin standard and interchangeable core cylinders to provide expansion capacity for large master keyed systems.

Vandal resistant levers shall be offered as a standard feature in all locking functions, and shall be Free Wheeling in the locked condition. Locksets that are rigid in the locked condition or which must require resetting (breakaway) are not acceptable.

The latchbolt shall be made of stainless steel.

All locksets shall carry a comprehensive seven-year mechanical warranty. Locksets shall carry a lifetime warranty against lever sag or lever spring breakage.

All locksets shall comply with the following certifications:

- UL 3 Hour Fire Rating
- ANSI/BHMA A156.2 Series 4000, Grade 1
- ANSI A117.1 Accessibility Code
- ANSI/BHMA A156.115 or A156.115-W Preparation

Technical Specifications and Listings

ADA

The 5400LN meets accessibility guidelines of the Americans with Disabilities Act and the requirements of the Uniform Federal Accessibility Standards and ANSI 117.1, all requiring ease of accessibility for the handicapped.

ISO 9001

Designed and manufactured under a certified ISO 9001 quality system.

ANSI/BHMA

Certified ANSI/BHMA A156.2, Series 4000 Grade 1.

Knurled Designs

Where required by the local authority, 5400LN trim can be knurled to be identifiable to the touch for blind persons. All lever designs in all finishes may be ordered knurled. Only the outside lever will be knurled unless specified otherwise.

Door Thickness

Adjustable rose support plates allow the 5400LN to easily adjust to doors from 1-3/4" to 2" thick. It can also be used on 1-3/8" thick doors by adding two spacer plates P/N 14-5401-6644. For 2-1/4" thick doors, please specify door thickness on order.

Warranty

The 5400LN Series cylindrical lever lock carries a seven-year warranty. The 5400LN carries a lifetime warranty against lever sag and lever spring breakage.

Fire Listings

UL/cUL Listed for all fire door functions up to 3 hours.

Note: Any retrofit or other field modification to a fire rated opening can potentially impact the fire rating of the opening, and Yale Locks & Hardware makes no representations or warranties concerning what such impact may be in any specific situation. When retrofitting any portion of an existing fire rated opening, or specifying and installing a new fire-rated opening, please consult with a code specialist or local code official (Authority Having Jurisdiction) to ensure compliance with all applicable codes and ratings.

Windstorm

Certified (refer to local codes). 5400LN Series can be provided to meet FEMA 320 standards. See page 4 for How to Order.

Hurricane

Tornado

Installation

5400LN Series Cylindrical Locks conform to ANSI/BHMA Specifications A156.115 which cover hardware preparations for steel doors and steel frames and A156.115-W which cover hardware preparations for wood doors with wood or steel frames.

5300LN Series Cylindrical Lever Locks

The 5300LN Series Cylindrical Lever Lock is a reliable Grade 2 cylindrical lockset that boasts innovative design and construction features. The Free Wheeling lever mechanism helps to resist against vandalism, while the adjustable door thickness feature makes for easy installation. Protected by a five year warranty and a lifetime warranty against lever sag and spring breakage, you can rely on the 5300LN to withstand the rigors of everyday use.

With innovative features in an affordable lock, Yale Works for YouSM.

Benefits & Features

Benefits

- **Secure:** Designed to withstand everyday use and resist damage and vandalism
- **Versatile:** Variety of functions, trims, finishes and keying options for ultimate installation flexibility
- **Protected:** Five year mechanical warranty plus a lifetime warranty against lever sag and lever spring breakage
- **Strong & Reliable:** ANSI/BHMA Grade 2 certified for long life and durability

Features

- Free Wheeling lever mechanism prevents vandalism and reduces lock maintenance
- Adjustable door thickness mechanism
- Heavy duty torsion spring prevents lever sag throughout product's lifetime
- Thrubolts solidly through the door, providing greater strength and stability
- Available with a wide range of cylinder options
- Available in 23 functions (including electrified), 12 standard finishes and 3 lever designs
- ADA compliant for ease of accessibility

Specifications

Backset	2-3/4" standard, 2-3/8" optional
Door Thickness	Adjustable for doors 1-3/4" to 2"
Handing	Non-handed, field reversible
Latchbolt	2-3/4" backset, 1/2" throw. See page 14 for additional options.
Strike	ANSI strike 4-7/8" x 1-1/4" x 1-1/4" lip to center. See page 15 for additional options.
ANSI/BHMA	Certified Grade 2, ANSI/BHMA A156.2
UL/cUL	Listed for 3 hour fire doors
Windstorm	Certified, check local codes.
Warranty	5 years

Electrified Options

Operation

Electric locks provide the ability to electrically lock or unlock the outside trim from a remote location. Fail Safe locks are commonly used in stair towers to release upon fire alarm activation. Fail Secure locks are used on perimeter doors or security doors to allow ingress using access control technologies (proximity cards, keypads, etc.)

Features

- Free Wheeling lever mechanism.
- Self-contained, continuous-duty integral solenoid (allows installation in standard cylindrical prep).
- Available Fail Safe or Fail Secure.
- Available in 12 or 24 volts DC.
- 8 position ElectroLynx plug connector
- External rectifier available upon request for AC operation.
- Mechanical cylinder override.
- All 5300LN cylinder options.
- Certified ANSI/BHMA Grade 2. 
- UL listed.
- 1-year limited warranty.

Electrical Specifications

- Continuous duty solenoid
150 mA @ 24VDC
300 mA @ 12VDC

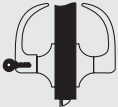

Electrolynx®

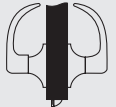

Yale® electrified 5300LN locks are equipped with ElectroLynx connectors. As a standard feature, these connectors link power from the incoming source to electrified locking products, including hinges, locks, exit devices, magnetic holders and strikes.

Note: Electrified door hardware with ElectroLynx connectors requires a compatible number of lead wires attached to the door hinge.

Functions

Outside	Inside	Function	Function Description
		5390LN	Fail Safe <ul style="list-style-type: none"> • Power on locks outside lever. • Inside lever always active. • Latchbolt retracted by key when locked electrically. • Free Wheeling lever when locked electrically.
		5391LN	Fail Secure <ul style="list-style-type: none"> • Power on unlocks outside lever. • Inside lever always active. • Latchbolt retracted by key when power is off. • Free Wheeling lever when power is off (locked).

Outside	Inside	Function	Function Description
		5380LN	Fail Safe <ul style="list-style-type: none"> • Power on locks outside lever. • Inside lever always active. • Latchbolt retracted either side except when outside lever is locked electrically. • Free Wheeling lever when locked electrically.
		5381LN	Fail Secure <ul style="list-style-type: none"> • Power on unlocks outside lever. • Inside lever always active. • Latchbolt retracted either side when power is off. • Free Wheeling lever when power is off (locked).

Electrified Accessories

BPS Power Supplies By Securitron®

Operation

Power supplies are designed to provide reliable filtered and regulated power for long life to a variety of electrified hardware components.

Product Features

- Individual output circuit breakers
- Regulated and filtered fuse protected outputs
- LEDs monitor zone status (voltage or no voltage)
- Slide switches connect or disconnect load from power (Not available on 1 Amp supplies)
- Internal Back-Up battery charging circuit
- Rugged steel enclosure
- Fire alarm interface

Listings

BPS-24-1	120 VAC	1 Amp @ 24 VDC	2-5300LN
BPS-24-2	120 VAC	2 Amp @ 24 VDC	5-5300LN
BPS-24-4	120 VAC	4 Amp @ 24 VDC	11-5300LN
BPS-12-1	120 VAC	1 Amp @ 12 VDC	1-5300LN
BPS-12-3	120 VAC	2 Amp @ 12 VDC	3-5300LN

Consult factory for additional power supply applications.

*Numeric prefix denotes how many locks can be wired to each power supply.

Yale recommends McKinney®, Pemko and Securitron® for power transfer devices and other electronic accessories.

Cylinder Options

The Following Selection Guide Indicates The Correct Cylinder For Each Locking Segment.

Lockset Series: 5300LN		Types of Cylinder Mechanisms					
		Conventional		Protected Keyway		Security	
Cylinder Types	Fixed Core	6-pin	7-pin	6-pin	7-pin	6-pin	7-pin
	Key-In-Lever	1803-47L ¹	N/A	K402 ²	N/A	5803-47L ¹	N/A
	Interchangeable Core						
	LFIC	1210	N/A	K800	N/A	5210	N/A
SFIC	A600	A600	K600	K600	N/A	N/A	

Refer to Yale® KeyMark® and/or Cylinders and Keys Catalog sections for all details and how-to-order examples.

1. Cylinders require cylinder sleeve P/N 14-1803-9001-999
2. Cylinder requires cylinder sleeve P/N 14-5305-9078-999

Yale® KeyMark®

For those applications requiring protected key control, Yale® KeyMark® cylinders guard against unauthorized key duplication. The Yale KeyMark Security Leg® keyway feature increases resistance against picking and impressioning and can easily retrofit into existing systems. For further details and availability, refer to the separate Yale KeyMark catalog.

Security Cylinders

Security cylinders contain two independent locking mechanisms. The first is a traditional 6-pin tumbler mechanism with spool drivers for greatly increased picking resistance.

The second is an innovative 5-tumbler rotating disc mechanism with sidebar engagement. The rotating discs are spring loaded and block the bottom of the keyway.

Cylinders

108S / 108L* Schlage® Cylinder Adapter Kit

Kit used to modify Schlage® cylinder for fit in the 5300LN.

P/N 14-5305-0090-048 - 108S

P/N 14-5305-9078-999 - 108L*

Kit includes tailpiece and sleeve. To order the 108S adapter kit, use an "S" prefix (i.e., S-AU5307LN).

* 2", 2-1/4" door.

Other Manufacturer Keyway Cylinders

Illustration	Description	Model Number	Number of Pins
	Best® Keyway Cylinder. Available keyed random, master keyed or uncombined. Specify keyway A, B, C, D, E, F, G, H, J, K, L or M.	A600	6 or 7
	Schlage® "C" Keyway. Available O-bitted or keyed random.	2803-47L	6
	Corbin Russwin "L4", Corbin "60", Russwin "D1", Sargent® "LA" or Schlage® "E" Keyway. Specify keyway. Available keyed random.	3803-47L	6

The 2803 and 3803 cylinders require a cylinder sleeve (P/N 14-1803-9001-999) to fit the 5300LN lockset.

Levers Accepting SFIC And Other Manufacturers' Large Format Interchangeable Cores

Illustration	Description	Prefix	Number of Pins
	SFIC (Accepts all Small Format Interchangeable Cores)	B (i.e. B-AU, B-MO, B-PB)	6 or 7
	Medeco®, ASSA® (LFIC)	M (i.e. M-AU)**	6
	Schlage® (LFIC)	SI (i.e. SI-AU, SI-PB)	6

**Medeco®, ASSA® option available only with AU lever. (Note: For Medeco 32 series cores.)

LFIC = Large Format Interchangeable Core

SFIC = Small Format Interchangeable Core

Latchbolts

Plain Latchbolts

Model No. 380BN supplied standard with all 5300LN series locksets without locking function. Model No. 380BN latchbolt has a 2-1/4" x 1-1/8" front with a 2-3/4" backset and a 1/2" bolt throw. Optional latchbolts with greater backset available to special order.

Model No.	Front	Backset	"W" Front Width	Throw	Latch Diameter*
378N	Universal	2-3/8" (60mm)	1" (25mm)	1/2" (13mm)	7/8" (22mm)
380DN	Universal	2-3/4" (70mm)	1" (25mm)	1/2" (13mm)	7/8" (22mm)
3380DN	Universal	3-3/4" (95mm)	1" (25mm)	1/2" (13mm)	7/8" (22mm)
380BN	Universal	2-3/4" (70mm)	1-1/8" (29mm)	1/2" (13mm)	7/8" (22mm)
3380BN	Universal	3-3/4" (95mm)	1-1/8" (29mm)	1/2" (13mm)	7/8" (22mm)

***1/8" sleeve (P/N 14-0378-9001) supplied with all latchbolts to accommodate 1" preps.**

Deadlocking Latchbolts

Model No. 380AN supplied standard with all 5300LN series locksets with locking function. Model No. 380AN latchbolt has a 2-1/4" x 1-1/8" front with a 2-3/4" backset and a 1/2" bolt throw. Optional latchbolts with greater backset available to special order.

Model No.	Front	Backset	"W" Front Width	Throw	Latch Diameter*
380N	Universal	2-3/8" (60mm)	1" (25mm)	1/2" (13mm)	7/8" (22mm)
380CN	Universal	2-3/4" (70mm)	1" (25mm)	1/2" (13mm)	7/8" (22mm)
3380CN	Universal	3-3/4" (95mm)	1" (25mm)	1/2" (13mm)	7/8" (22mm)
380AN	Universal	2-3/4" (70mm)	1-1/8" (29mm)	1/2" (13mm)	7/8" (22mm)
3380AN	Universal	3-3/4" (95mm)	1-1/8" (29mm)	1/2" (13mm)	7/8" (22mm)

***1/8" sleeve (P/N 14-0378-9001) supplied with all latchbolts to accommodate 1" preps.**

Backset Extension Links

All 5300LN Series locksets are regularly supplied with latchbolts with a 2-3/4" backset. Latchbolts with 2-3/8" and 3-3/4" backsets are available to special order. Backset extension links are also available for attachment to latchbolts with 2-3/8" backsets or to latchbolts with 2-3/4" and 3-3/4" backsets to obtain popular backset lengths.

Backset Desired	Latchbolt Backset	Order Extension Model Number
5"	2-3/8"	381N
5"	2-3/4"	381AN
6"	3-3/4"	381AN

Attaching Screws

(Not regularly supplied when latchbolts ordered separately).

For All Latchbolts

#8-8-32 x 3/4" Phillips flat head combination wood and machine screws. P/N 81-2012-0416

All latches have universal fronts, so they fit flat and beveled door fronts. When ordering latchbolts, specify Model No. x Finish (e.g., 380N x 626).

Strikes

Yale® 5300LN locks are available with a variety of strike options. All strikes are located on the same vertical and horizontal center lines as the latchbolt. Some strikes are available in a variety of lip lengths to accommodate varying thickness of doors and frames. To determine the proper length of the lip, measure from the center line of the strike to the edge of the jamb, accounting for any interfering trim (i.e. wood molding) and then add 1/4" (6mm) for curved lip. All strikes are reversible. Strikes are fabricated of either brass, bronze or stainless steel, depending on the lockset trim finish. When ordering strikes separately, specify the finish required.

Model No. 497 ANSI Strike (Standard)
For door and frames with ANSI/BHMA A156.115 preparations. 1-1/4" supplied standard. 1-1/8", 1-1/2", and 1-3/4" lip lengths available by special order.

Model No. 371 T-Strike (Optional)
1-1/4" curved lip supplied standard. 1", 1-1/2", 1-3/4", and 2" curved lip lengths available by special order. Wrought strike box supplied.

Model No. 497B Blank ANSI Strike (Optional)
Available to special order. Installed in frame with standard ANSI/BHMA A156.115 preparation to replace the strike when the lockset has been removed from the door.

Model No. 70S Full Lip Strike (Optional)
With full lip anti-rattle tab. Wrought strike box supplied.

Model No. 71S Full Lip Strike (Optional)
1/4" radius. Similar in dimensions and function to the 70S Strike but with radius corners for easy mortising by power tools. Anti-rattle tab. Wrought strike box supplied.

Model No. 202 Strike Box for ANSI Strike (Optional)
Specify 497 x 202

Attaching Screws

(Not regularly supplied when strikes ordered separately).

For Model Nos. 371, 70S, and 71S
#8-8-32 x 3/4" (19mm) Phillips flat head combination wood and machine screws.
P/N 81-2012-0416

For Model Nos. 497 and 497B
#12-12-24 x 1" Phillips flat head combination wood and machine screws.
P/N 81-2012-0620

NOTE: When ordering strike or attaching screws individually, specify the finish required; i.e. 497 x 202 x 606; 81-2012-0620 x 606.

Sample Specification

All locksets shall be 5300LN Series Grade 2 Key-in-Lever Cylindrical Locksets as assembled by Yale Locks & Hardware.

Lockset chassis shall be constructed of heavy-gauge steel and cast components, plated to protect against rust and corrosion. Locksets shall be adjustable for 1-3/8" (35mm) and 1-3/4" (44mm) or 2" (51mm) and 2-1/4" (57mm) door thickness.

Locksets shall be non-handed, and shall install easily without the need for specialized installation tools.

Locksets shall have separate anti-rotation through-bolts in the 6 o'clock and 12 o'clock position outside the 2-1/8" face bore, and shall have no exposed mounting screws.

Locksets shall have solid one-piece, cast levers without plastic inserts, and shall be a minimum of 4-5/8" (117mm) in length. Levers shall operate independently and shall have inside and outside lever return springs. Outside levers on the keyed locksets shall be removable only when the designated key is in the cylinder. Vandal-resistant levers shall be offered as a standard feature in all locking functions and shall be Free Wheeling in the locked condition. Locksets that are rigid in the locked condition, or which require resetting (breakaway) are not acceptable.

The latchbolt shall be made of stainless steel.

All locksets shall carry a five-year mechanical warranty. Locksets shall carry a lifetime warranty against lever sag or lever spring breakage.

All locksets shall comply with the following certifications:

- UL 3-Hour Fire Rating
- ANSI/BHMA A156.2 Series 4000, Grade 2
- ANSI A117.1 Accessibility Code
- ANSI/BHMA A156.115 or A156.115-W Preparation

Technical Specifications and Listings

ADA

The 5300LN meets accessibility guidelines of the Americans with Disabilities Act and the requirements of the Uniform Federal Accessibility Standards and ANSI 117.1, all requiring ease of accessibility.

ISO 9001

Designed and manufactured under a certified ISO 9001 quality system.

ANSI/BHMA

Certified ANSI/BHMA A156.2, Series 4000 Grade 2.

Knurled Designs

Where required by the local authority, 5300LN trim can be knurled to be identifiable to the touch for blind persons. All lever designs in all finishes may be ordered knurled. Only the outside lever will be knurled unless specified otherwise.

Door Thickness

Adjustable rose support plates allow the 5300LN to easily adjust to doors from 1-3/4" to 2" thick. It can also be used on 1-3/8" thick doors by adding two spacer plates P/N 14-5401-6644. For 2-1/4" thick doors, please specify door thickness on order.

Warranty

The 5300LN Series cylindrical lever lock carries a five-year warranty and a lifetime warranty against lever sag and lever spring breakage.

Fire Listings

All functions are UL/cUL rated for use on fire doors having a rating up to and including 3 hours.

Note: Any retrofit or other field modification to a fire rated opening can potentially impact the fire rating of the opening, and Yale Locks & Hardware makes no representations or warranties concerning what impact may be in any specific situation. When retrofitting any portion of an existing fire rated opening, or specifying and installing a new fire-rated opening, please consult with a code specialist or local code official (Authority Having Jurisdiction) to ensure compliance with all applicable codes and ratings.

Windstorm

Certified (refer to local codes).

Installation

5300LN Series cylindrical locks conform to ANSI/BHMA Specifications A156.115 which cover hardware preparations for steel doors and steel frames and A156.115-W which cover hardware preparations for wood doors with wood or steel frames.

MicroShield®

ASSA ABLOY Group companies offer MicroShield®, an anti-microbial coating for door hardware. MicroShield uses proven silver ion-based technology from Agion®, a leading provider of antimicrobial solutions, to stem the spread of bacteria and other microbes.

MicroShield® is a registered trademark of ASSA ABLOY Access and Egress Hardware Group, Inc.

The Agion antimicrobial is not intended as a substitute for good hygiene. Coated products must still be cleaned to ensure the surfaces will be free of destructive microbes. ASSA ABLOY makes no representations or warranties, express or implied, as to the efficacy of the Agion antimicrobial. A copy of the Agion warranty is available upon request. Agion is a registered trademark of Agion Technologies, Inc., Wakefield, MA, USA.

THE YALE BRAND, with its unparalleled global reach and range of products, reassures more people in more countries than any other consumer locking solution.

THE ASSA ABLOY GROUP is the world's leading manufacturer and supplier of locking solutions, dedicated to satisfying end-user needs for security, safety and convenience.

Latchbolt operated by key in lever from either side. Both levers always locked.* <p>Note: Not available with IC core cylinders.</p>  <p>Outside Inside</p>

* Lever handles are Free-Wheeling in locked position. Shaded area denotes FreeWheeling lever.

Functions

4739LN (F112)

Communicating Storeroom Lock

- For twin communicating or closet doors where one side operation is required or space between doors is limited.
- Deadlocking latchbolt.
- Latchbolt operated by key only in inside lever.
- Inside lever always locked.*
- Blank rose.
- Should be used only where rooms have more than one entrance.

(Note: Not available with I.C. core cylinders)

Outside Inside

4755LN

Single Dummy Trim

- For non-operational levers used for decorative trim.
- Rigid lever.

Outside Inside

4755LN-D

Double Dummy Trim

- For non-operational lever used for decorative trim.
- Through-bolted.

Outside Inside

* Lever handles are Free-Wheeling in locked position. Shaded area denotes FreeWheeling lever.

Electrified Options

OPERATION

Electric locks provide the ability to electrically lock or unlock the outside trim from a remote location. Fail Safe locks are commonly used in stair towers to release upon fire alarm activation. Fail Secure locks are used on perimeter doors or security doors to allow ingress using access control technologies (proximity cards, keypads, etc.)

FEATURES

- Free Wheeling lever mechanism.
- Self-contained, continuous-duty integral solenoid (allows installation in standard cylindrical prep).
- Available Fail Safe or Fail Secure.
- Available in 12 or 24 volts DC.
- External rectifier available upon request for AC operation.
- Mechanical cylinder override.
- All 4700LN cylinder options.
- Certified ANSI/BHMA Grade 1. 
- UL listed.
- 1-year limited warranty.

ELECTRICAL SPECIFICATIONS

- Continuous duty solenoid
150 mA @ 24VDC
300 mA @ 12VDC

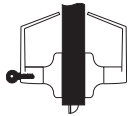

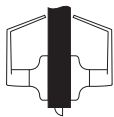

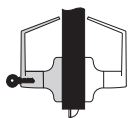

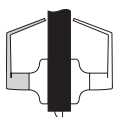

ELECTROLYNX®

Yale® electrified 4700LN locks are equipped with ElectroLynx connectors. As a standard feature, these connectors link power from the incoming source to electrified locking products, including hinges, locks, exit devices, magnetic holders and strikes.

Note: Electrified door hardware with *ElectroLynx* connectors requires a compatible number of lead wires attached to the door hinge.

FUNCTIONS

Outside	Inside	Function	Function Description	Outside	Inside	Function	Function Description
		4790LN	Fail Safe <ul style="list-style-type: none"> • Power on locks outside lever. • Inside lever always active. • Latchbolt retracted by key when locked electrically. • Free Wheeling lever when locked electrically. 			4780LN	Fail Safe <ul style="list-style-type: none"> • Power on locks outside lever. • Inside lever always active. • Latchbolt retracted either side except when outside lever is locked electrically. • Free Wheeling lever when locked electrically.

Electrified Options

BPS POWER SUPPLIES BY SECURITRON®

Operation

Power supplies are designed to provide reliable filtered and regulated power for long life to a variety of electrified hardware components.

Product Features

- Individual output circuit breakers
- Regulated and filtered fuse protected outputs
- LEDs monitor zone status (voltage or no voltage)
- Slide switches connect or disconnect load from power (Not available on 1 Amp supplies)
- Internal Back-Up battery charging circuit
- Rugged steel enclosure
- Fire alarm interface

Listings

- UL CLASS 2

Applications (use with):

- Fail Safe cylindrical locks
- Fail Secure cylindrical locks

Ordering

Ex: BPS-24-4, BPS-12-3

Model	Input	Output	Application
BPS-24-1	120 VAC	1 Amp @ 24 VDC	2-4700LN
BPS-24-2	120 VAC	2 Amp @ 24 VDC	5-4700LN
BPS-24-4	120 VAC	4 Amp @ 24 VDC	11-4700LN
BPS-12-1	120 VAC	1 Amp @ 12 VDC	1-4700LN
BPS-12-3	120 VAC	2 Amp @ 12 VDC	3-4700LN

Consult factory for additional power supply applications.

Yale recommends McKinney®, Pemko and Securitron® for power transfer devices and other electronic accessories.

SECURITRON POWERJUMP™ ICPT

The Securitron PowerJump ICPT Inductive Coupling Power Transfer delivers power contactlessly and invisibly between the frame and door to power electrified hardware on the door. The PowerJump can be installed at the latch side or hinge side of the door and transfers up to 6 watts of power without pins or wires across the door gap, eliminating points of vulnerability and wear ... and no need to core drill the door. The PowerJump is field selectable for 12VDC or 24VDC systems and is ideal for fail secure applications. The unit can hold electrified latches open in continuous duty or can momentarily energize the lockset for latch retraction.

Additional information regarding this product can be found at www.securitron.com.

Cylinders

CYLINDER OPTIONS

The following selection guide indicates the correct cylinder for each locking segment.

Lockset Series:	Types of Cylinder Mechanisms						
	4700LN	Conventional		Protected Keyway		Security	
Cylinder Types	Fixed Core	6-pin	7-pin	6-pin	7-pin	6-pin	7-pin
Key-In-Lever	1803-47L ¹	N/A	K402 ²	N/A	5803-47L ¹	N/A	
Interchangeable Core							
LFIC	1210	N/A	K800	N/A	5210	N/A	
SFIC	A600	A600	K600	K600	N/A	N/A	

Refer to Yale® KeyMark® and/or Cylinders and Keys Catalog sections for all details and how-to-order examples.

1. Cylinders require cylinder sleeve P/N 14-1803-9001-999
2. Cylinder requires cylinder sleeve P/N 14-5305-9078-999

YALE® KEYMARK®

For those applications requiring protected key control, Yale® KeyMark® cylinders guard against unauthorized key duplication. The Yale KeyMark Security Leg® keyway feature increases resistance against picking and impressioning and can easily retrofit into existing systems. For further details and availability, refer to the separate Yale KeyMark catalog.

SECURITY CYLINDERS

Security cylinders contain two independent locking mechanisms. The first is a traditional 6-pin tumbler mechanism with spool drivers for greatly increased picking resistance.

The second is an innovative 5-tumbler rotating disc mechanism with sidebar engagement. The rotating discs are spring loaded and block the bottom of the keyway.

108S SCHLAGE® CYLINDER ADAPTER KIT

Kit used to modify Schlage® cylinder for fit in the 4700LN.

P/N 14-5305-0090-048 - 108S

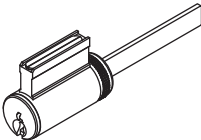

Kit includes tailpiece and sleeve. To order the 108S adapter kit, use an "S" prefix (i.e., S-AU4707LN).

Cylinders/Keying

OTHER MANUFACTURER KEYWAY CYLINDER/CORES

Illustration	Type	Lever	Number of Pins
	Best® Keyway Core. Available keyed random, master keyed or uncombined. Specify keyway A, B, C, D, E, F, G, H, J, K, L or M.	A600	6 or 7 (Specify)
 Lever Cylinder	Schlage® C Keyway Cylinder. Available 0-bitted or keyed random.	2803-47L x C	6
	Corbin Russwin L4 Keyway Cylinder. Available keyed random.	3803-47L x L4	6
	Corbin 60 Keyway Cylinder. Available keyed random.	3803-47L x 60	6
	Russwin D1 Keyway Cylinder. Available keyed random.	3803-47L x D1	6

	Schlage® E Keyway Cylinder. Available keyed random.	3803-47L x E	6

Notes: The 2803 and 3803 cylinders require a cylinder sleeve (P/N 14-1803-9001-999) to fit the 4700LN lockset.

LEVERS ACCEPTING SFIC AND OTHER MANUFACTURERS' LARGE FORMAT INTERCHANGEABLE CORES

Illustration	Cylinder Type	Prefix	Number of Pins
	SFIC (Accepts all Small Format Interchangeable Cores)	B (i.e. B-AU, B-MO, B-PB)	6 or 7
	Medeco®, ASSA® (LFIC)	M* (i.e. M-AU)	6
	Schlage® (LFIC)	SI (i.e. SI-AU, SI-PB)	6

*Medeco®, ASSA® option available only with AU lever. (Note: For Medeco 32 series cores.)

LFIC = Large Format Interchangeable Core

SFIC = Small Format Interchangeable Core

Latchbolts

PLAIN LATCHBOLTS

Model No. 693 supplied standard with all 4700LN series locksets without locking function. Standard plain latchbolt has a 2-1/4" (57mm) x 1-1/8" (29mm) beveled front with a 2-3/4" (70mm) backset and a 1/2" (13mm) bolt throw. Optional latchbolts with a greater backset/throw available to special order.

Model No.	Front	Backset	Throw	Front Width	Latch Diameter
693	Beveled	2-3/4" (70mm)	1/2" (13mm)	1-1/8" (29mm)	1" (25mm)
F693	Flat	2-3/4" (70mm)	1/2" (13mm)	1-1/8" (29mm)	1" (25mm)
3693	Beveled	3-3/4" (95mm)	1/2" (13mm)	1-1/8" (29mm)	1" (25mm)

Note: for 3/4" throw applications, only deadlocking latchbolts available.

DEADLOCKING LATCHBOLTS

Deadlocking latchbolt Model No. 694 supplied standard with all 4700(LN) series locksets with locking function. Standard deadlocking latchbolt has a 2-1/4" (57mm) x 1-1/8" (29mm) beveled front with a 2-3/4" (70mm) backset and a 1/2" (13mm) bolt throw. Optional latchbolts with a greater backset/throw available to special order.

Model No.	Front	Backset	Throw	Front Width	Latch Diameter
694	Beveled	2-3/4" (70mm)	1/2" (13mm)	1-1/8" (29mm)	1" (25mm)
F694	Flat	2-3/4" (70mm)	1/2" (13mm)	1-1/8" (29mm)	1" (25mm)
3694	Beveled	3-3/4" (95mm)	1/2" (13mm)	1-1/8" (29mm)	1" (25mm)
480B	Beveled	2-3/4" (70mm)	3/4" (19mm)	1-1/8" (29mm)	1" (25mm)
F480B	Flat	2-3/4" (70mm)	3/4" (19mm)	1-1/8" (29mm)	1" (25mm)
3480B	Beveled	3-3/4" (95mm)	3/4" (19mm)	1-1/8" (29mm)	1" (25mm)

Note: For 2-3/8" backset, contact Customer Support.

BACKSET EXTENSION LINKS

All 4700LN Series locksets are supplied with standard latchbolts of 2-3/4" (70mm) backset; optional latchbolts with a 3-3/4" (95mm) backset are available to special order for lever locksets only. Extension links are also available for attachment to 2-3/4" (70mm) or 3-3/4" (95mm) backset latchbolts to extend the backset to the desired length.

Desired Backset	Latchbolt Backset	Order Extension List No.
5" (127mm)	2-3/4" (70mm)	481DL
6" (152mm)	3-3/4" (95mm)	481
7" (178mm)	2-3/4" (70mm)	482
8" (203mm)	3-3/4" (95mm)	482
18" (46cm)	2-3/4" (70mm)	484
19" (48cm)	3-3/4" (95mm)	484

Other extension links up to 42" (1.06m) backset are available to special order.

ATTACHING SCREWS

(Not regularly supplied when latchbolts ordered separately).

- For all latchbolts**

- #8-32 x 3/4" (19mm) Phillips flat head combination wood and machine screws
- Brass - P/N 81-2022-0416*
- Bronze - P/N 81-2032-0416*

*Specify finish required.

- Hollow Metal Doors**

- #8 - 32 x 1" (25mm) Phillips flat head machine screw
- Brass - P/N 81-0022-0420*
- Bronze - P/N 81-0032-0420*

Strikes

Yale® 4700LN locks are available with a variety of strike options. All strikes are located on the same vertical and horizontal center lines as the latchbolt. Some strikes are available in a variety of lip lengths to accommodate varying thickness of doors and frames. To determine the proper length of the lip, measure from the center line of the strike to the edge of the jamb, accounting for any interfering trim (i.e. wood molding) and then add 1/4" (6mm) for curved lip. All strikes are reversible. Strikes are fabricated of either brass, bronze or stainless steel, depending on the lockset trim finish. When ordering strikes separately, specify the finish required.

Model No. 497 ANSI Strike (Standard)

For door and frames with ANSI/BHMA A156.115 preparations. 4-7/8" x 1-1/4" x 1-1/4" (124mm x 32mm x 32mm) lip to center supplied standard. 1-1/8", 1-1/2", and 1-3/4" lip lengths available by special order. Available with optional 202 Strike Box. Specify 497 x 202.

Model No. 371 T-Strike (Optional)

2-3/4" x 1-1/8" x 1-1/4" (70mm x 29mm x 32mm) lip to center available as an option. 1", 1-1/2", 1-3/4" and 2" curved lip lengths available by special order. Wrought strike box supplied.

Model No. 202 Strike Box (Optional)

Available to special order. Specify 497 x 202.

ATTACHING SCREWS

(Not regularly supplied when strikes ordered separately).

For Model No. 497

#12-24 x 1" Phillips flat head combination wood and machine screws.
P/N 81-2012-0620

For Model No. 371

#8-32 x 3/4" (19mm) Phillips flat head combination wood and machine screws.

4600(LN) Cylindrical Locks

Yale® 4600(LN) cylindrical locks are the ideal choice for a wide variety of commercial applications where consistent quality, ease of use and installation are required at an economical price. The 4600(LN) Series is certified to ANSI/BHMA Grade 2 standards and is UL fire-listed for all functions, ensuring reliability and peace of mind.

To make your building work better with your budget, Yale Works for YouSM.

Benefits & Features

Benefits

- **Versatile:** Field reversible handing and other product options offer flexibility in many commercial applications
- **Economical:** Priced affordably to suit projects of all budgets
- **Secure:** Quality security from a trusted brand for over 170 years
- **Strong & Reliable:** ANSI/BHMA Grade 2 certified for long life and reliability

Features

- Field reversible handing for easy installation
- Range of functions and options for a wide variety of commercial applications
- Available in five trims and nine finishes
- ADA compliant for ease of accessibility

Specifications

Door Prep	ANSI/BHMA A156.115
Door Thickness	Adjustable for doors 1-3/8" to 1-3/4" (35mm to 44mm)
Backset	2-3/4" (70mm) standard, 2-3/8" (60mm) optional
Handing	Non-handed, field reversible
Latchbolt	2-3/4" (70mm) backset, 1/2" (13mm) throw latchbolt plain or deadlocking. See page 10 for additional options.
Strike	ANSI strike 4-7/8" x 1-1/4" x 1-1/4" (124mm x 32mm x 32mm) lip to center. See page 11 for additional options.
Through-bolts	Optional through-bolts provided. Installation is at the discretion of the installer.
ANSI/BHMA	Certified Grade 2, ANSI/BHMA A156.2, Series 4000
UL/cUL	Listed for 3 hour fire doors
Windstorm	Certified, check local codes.
Warranty:	3 years

Latchbolts

Plain Latchbolts

Model No. MCP234 supplied standard with all 4600(LN) series locksets without locking function. Model No. MCP234 latchbolt has a 2-1/4" x 1-1/8" front with a 2-3/4" backset and a 1/2" bolt throw. Optional latchbolts available to special order.

Model Number	Front	Backset	Throw	"W" Front Width	Latch Diameter*
MCP238	Square	2-3/8" (60mm)	1/2" (13mm)	1" (25mm)	7/8" (22mm)
MCP238R	Round	2-3/8" (60mm)	1/2" (13mm)	1" (25mm)	7/8" (22mm)
MCP234	Square	2-3/4" (70mm)	1/2" (13mm)	1-1/8" (29mm)	7/8" (22mm)

*1/8" sleeve (P/N 14-0378-9001) supplied with all latchbolts to accommodate 1" preps.

Deadlocking Latchbolts

Model No. MCD234 supplied standard with all 4600(LN) series locksets with locking function. Model No. MCD234 latchbolt has a 2-1/4" x 1-1/8" front with a 2-3/4" backset and a 1/2" bolt throw. Optional latchbolts available to special order.

Model Number	Front	Backset	Throw	"W" Front Width	Latch Diameter*
MCD238	Square	2-3/8" (60mm)	1/2" (13mm)	1" (25mm)	7/8" (22mm)
MCD238R	Round	2-3/8" (60mm)	1/2" (13mm)	1" (25mm)	7/8" (22mm)
MCD234	Square	2-3/4" (70mm)	1/2" (13mm)	1-1/8" (29mm)	7/8" (22mm)

*1/8" sleeve (P/N 14-0378-9001) supplied with all latchbolts to accommodate 1" preps.

Note: Locksets ordered with 2-3/8" backset square or round latchbolts will automatically include the corresponding 70S or 71S full lip strike as standard. Order must specify if alternate strike required.

Strikes

Yale® 4600(LN) locks are available with a variety of strike options. All strikes are located on the same vertical and horizontal center lines as the latchbolt. Some strikes are available in a variety of lip lengths to accommodate varying thickness of doors and frames. To determine the proper length of the lip, measure from the center line of the strike to the edge of the jamb, accounting for any interfering trim (i.e. wood molding) and then add 1/4" (6mm) for curved lip. All strikes are reversible. Strikes are fabricated of either brass, bronze or stainless steel, depending on the lockset trim finish. When ordering strikes separately, specify the finish required.

Model No. 371 T-Strike (Standard for Knob - Optional for Lever)
 2-3/4" x 1-1/8" x 1-1/4"
 (70mm x 29mm x 32mm) lip to center supplied standard for knob. 1", 1-1/2", 1-3/4" and 2" curved lip lengths available by special order. Wrought strike box supplied.

Model No. 497 ANSI Strike (Standard for Lever - Optional for Knob)
 For door and frames with ANSI/BHMA A156.115 preparations. 4-7/8" x 1-1/4" x 1-1/4" (124mm x 32mm x 32mm) lip to center supplied standard for lever. 1-1/8", 1-1/2", and 1-3/4" lip lengths available by special order. Available with optional 202 Strike Box. Specify 497 x 202.

Model No. 70S Full Lip Strike (Optional for Knob or Lever)
 2-1/4" x 1-3/4" x 1-1/4"
 (57mm x 44mm x 32mm) lip to center with full lip anti-rattle tab.

Model No. 71S Full Lip Strike (Optional for Knob or Lever)
 1/4" radius. Similar in dimensions and function to the 70S Strike but with radius corners for easy mortising by power tools. Anti-rattle tab.

Model No. 202 Strike Box
 Available to special order. Specify 497 x 202.

Attaching Screws

For Model Nos. 371, 70S, and 71S

#8-32 x 3/4" (19mm) Phillips flat head combination wood and machine screws.

For Model No. 497

#12-24 x 1" (25mm) Phillips flat head combination wood and machine screws.

6400LN Monolock

Pre-Assembled Retrofit Locks

convenience and versatility

Introduction

Based on the Yale® 5400LN Grade 1 cylindrical lockset, the 6400LN Monolock continues the tradition of quality and dependability as a preassembled lock series designed to retrofit existing Yale® Monolock as well as Corbin Russwin Unit Lock and Falcon® Retrofit Lock installations with 1-3/4" latch height.

Featuring a Free Wheeling lever mechanism as an increased deterrent to vandalism, the 6400LN is also ADA compliant and UL listed. As a retrofit lock, installing the 6400LN is a cost-effective alternative to expensive door modification or replacement. In addition, easy installation and the ability to use existing key systems make the 6400LN Monolock convenient and versatile.

As a lock industry leader for over 160 years, Yale has built a reputation on providing the highest level of reliability available in the market. Proven performance is the foundation on which all of our products are manufactured. Our goal at Yale is to provide superior products and services, at a competitive price, on time, every time.

A.D.A

The 6400LN meets accessibility guidelines of the Americans with Disabilities Act and the requirements of the Uniform Federal Accessibility Standards and ANSI 117.1, all requiring ease of accessibility for the handicapped.

microshield®

6400LN Series Locks are available with *MicroShield* antimicrobial coating. *MicroShield* is a revolutionary hardware finish coating, using a silver ion based technology, which inhibits the growth of bacteria, algae, yeast, fungus, mold and mildew. *MicroShield* is non-toxic and lasts for the lifetime of the finish to which it is applied. To order, suffix option code "YMS".

Note: *MicroShield* coating may vary finish color from architectural standards. *MicroShield* is not intended as a substitute for traditional infection control programs such as hand hygiene or use of disinfectants. Coated products must still be cleaned to insure the surfaces will be free of destructive microbes. Yale makes no representations or warranties, express or implied, as to the efficacy of *MicroShield*.

handing

Handing must be specified for all functions and designs of the 6400LN.

door thickness

Fits doors 1-3/4" thick only.

iso 9001

Designed and manufactured under a certified ISO 9001 quality system.

fire listings

UL-cUL "B" Fire Label for all functions up to minutes.

Note: Any retrofit or other field modification to a fire rated opening can potentially impact the fire rating of the opening, and Yale Locks & Hardware makes no representations or warranties concerning what such impact may be in any specific situation. When retrofitting any portion of an existing fire rated opening, or specifying and installing a new fire-rated opening, please consult with a code specialist or local code official (Authority Having Jurisdiction) to ensure compliance with all applicable codes and ratings.

1802

1210

Yale® KeyMark®

For those applications requiring protected key control, Yale® KeyMark® cylinders guard against unauthorized key duplication. The *Yale KeyMark Security Leg®* keyway feature increases resistance against picking and impressioning and can easily retrofit into existing systems. For further details and availability, refer to the separate *Yale KeyMark* catalog.

security cylinders

Security cylinders contain two independent locking mechanisms. The first is a traditional 6 or 7-pin tumbler mechanism with spool drivers for greatly increased picking resistance.

The second is an innovative 5-tumbler rotating disc mechanism with sidebar engagement. The rotating discs are spring loaded and block the bottom of the keyway.

cylinders

107S Schlage® cylinder adapter kit

Used to modify Schlage® cylinder for fit in the 6400LN. P/N 14-5407-0300-048

***Medeco®, ASSA® option available only with AU lever. (Note: For Medeco 32 series cores.)**

LFIC = Large Format Interchangeable Core
SFIC = Small Format Interchangeable Core

strikes

Yale® 6400LN locks are available with a variety of strike options. All strikes are located on the same vertical and horizontal center lines as the latchbolt. Some strikes are available in special lip lengths to accommodate varying thickness of doors and frames. To determine the proper length of the lip, measure from the center line of the strike to the edge of the jamb, accounting for any interfering trim (i.e. wood molding) and then add 1/4" (6mm) for curved lip. All strikes are reversible. Strikes are fabricated of either brass, bronze or stainless steel, depending on the lockset trim finish. When ordering strikes separately, specify the finish required.

<p>Model No. 497 ANSI Strike (Standard) 1-1/4" supplied standard. 1-1/8", 1-1/2", and 1-3/4" lip lengths available by special order. For door and frames with ANSI/BHMA A156.115 preparations.</p>	<p>Model No. 371 T-Strike (Optional) 1-1/4" curved lip supplied standard. 1", 1-1/2", 1-3/4", and 2" curved lip lengths available by special order. Wrought strike box supplied.</p>	<p>Model No. 497B Blank ANSI Strike (Optional) Available to special order. Installed in frame with standard ANSI/BHMA A156.115 preparation to replace the strike when the lockset has been removed from the door.</p>
<p>Model No. 202 Strike Box for ANSI Strike (Optional) Specify 497 x 202</p>	<p>Model No. 64C Retrofit Strike 1-9/16" curved lip length, available in brass and bronze. For use when replacing the Corbin Russwin UT5200 Unit Lock with 6400LN Series.</p>	<p>Model No. 64Y Retrofit Strike 1-1/8" curved lip length, available in brass and bronze. For use when upgrading Yale® 6200 Monolocks to 6400LN Series.</p>

attaching screws

(Not regularly supplied when strikes ordered separately).

For Model No. 371 strike

#8-8-32 x 3/4" (19mm) Phillips flat head combination wood and machine screw P/N-81-2012-0416.

For Model No. 497 strike and 497B plate

#12-12-24 x 1" (25mm) Phillips flat head combination wood and machine screw P/N-81-2012-0620.

Note: When ordering strike plates or attaching screws individually, specify the finish required; i.e. 497 x 202 x 612; #81-2012-0620 x 612.

Introduction

When demanding the highest standard of product performance in even the toughest industrial applications, look no further than the Yale® 5400CK Series Heavy-Duty Grade 1 cylindrical locksets.

Yale high-quality key-in-knob locksets offer the finest cylindrical lock mechanisms available. 5400CK Series locksets are assembled with superbly engineered components and constructed with high-grade materials for long-lasting reliability.

Manufactured for the industrial, commercial and institutional markets, 5400CK Series locksets feature security, dependability and versatility in attractive designs and finishes that fulfill all decorative requirements and blend with any architectural décor.

Internal parts are zinc dichromate plated for corrosion resistance

Heavy wrought knobs with steel liner for impact resistance

Stainless Steel 1/2" throw latchbolt

Multiple keying options

Features

- Constructed of heavy-gauge cold-rolled steel
- All parts zinc plated chromate for maximum corrosion resistance
- Recommended for use under normal climactic and environmental conditions

Applications and Listings

UL-cUL Listed for use on fire doors having a rating up to and including 3-hours.

Note: Any retrofit or other field modification to a fire rated opening can potentially impact the fire rating of the opening, and Yale Locks & Hardware makes no representations or warranties concerning what such impact may be in any specific situation. When retrofitting any portion of an existing fire rated opening, or specifying and installing a new fire-rated opening, please consult with a code specialist or local code official (Authority Having Jurisdiction) to ensure compliance with all applicable codes and ratings.

Door Thickness	Adjustable for doors 1-3/8" (35mm) to 2" (51mm). Factory preset to 1-3/4" (44mm)
Backset	2-3/4" (70mm) standard
Latchbolt	1/2" (13mm) throw, deadlocking or plain, supplied standard
Strike	1-1/4" (32mm) curved lip ANSI 497 supplied standard, T-Strike optional. All strikes available with optional lip lengths and wrought boxes.
Installation	ANSI/BHMA A156.115 (-W)
ANSI/BHMA	Certified ANSI/BHMA A156.2, Series 4000 Grade 1
Finishes	605, 613E, 630
Warranty	10 year

Knob: Heavy wrought brass or stainless steel

Rose: Heavy wrought brass or stainless steel

Cylinders

Cylinder Options

The following selection guide indicates the correct cylinder for each locking segment.

Lockset Series: 5400CK		Types of Cylinder Mechanisms					
		Conventional		Protected Keyway		Security	
Cylinder Types	Fixed Core	6-pin	7-pin	6-pin	7-pin	6-pin	7-pin
	Key-In-Knob	1803-54K	N/A	K403-54K	N/A	5803-54K	N/A
	Interchangeable Core						
SFIC	A600	A600	K600	K600	N/A	N/A	

Refer to Yale® KeyMark® and/or Cylinders and Keys Catalog sections for all details and how to order examples.

Yale® Keymark®

For those applications requiring protected key control, Yale® KeyMark® cylinders guard against unauthorized key duplication. The Yale KeyMark Security Leg® keyway feature increases resistance against picking and impressioning and can easily retrofit into existing systems. For further details and availability, refer to the separate Yale KeyMark catalog.

Security Cylinders

Security cylinders contain two independent locking mechanisms. The first is a traditional 6 or 7-pin tumbler mechanism with spool drivers for greatly increased picking resistance.

The second is an innovative 5-tumbler rotating disc mechanism with sidebar engagement. The rotating discs are spring loaded and block the bottom of the keyway.

	Knob accepting all SFIC.	B (i.e. B-CA)	6 or 7

Latchbolts

Plain Latchbolts

Model No. 693A supplied standard with all 5400CK series locksets without locking function. Standard plain latchbolt has a 2-1/4" (57mm) x 1-1/8" (29mm) universal front with a 2-3/4" (70mm) backset and a 1/2" (13mm) bolt throw.

Model No.	Front	Backset	Throw	Front Width	Latch Diameter
693A	Universal	2-3/4" (70mm)	1/2" (13mm)	1-1/8" (29mm)	1" (25mm)

Deadlocking Latchbolts

Deadlocking latchbolt Model No. 694A supplied standard with all 5400CK series locksets with locking function. Standard deadlocking latchbolt has a 2-1/4" (57mm) x 1-1/8" (29mm) universal front with a 2-3/4" (70mm) backset and a 1/2" (13mm) bolt throw.

Model No.	Front	Backset	Throw	Front Width	Latch Diameter
694A	Universal	2-3/4" (70mm)	1/2" (13mm)	1-1/8" (29mm)	1" (25mm)

Attaching Screws

(Not regularly supplied when latchbolts ordered separately).

- **For all latchbolts**
#8-8-32 x 3/4" (19mm) Phillips flat head combination wood and machine screws
P/N 81-2022-0416*
- **Hollow Metal Doors**
#8 - 32 x 1" (25mm) Phillips flat head machine screw
P/N 81-0022-0420*
- **Screw Pack**
Includes the following:
2 each 5M-.8 x 31 Phillips Flat Machine Screws
2 each 6M x 20 Combination Screws
2 each 4M x 20 Combination Screws
P/N 14-5400-0608*

***Specify finish required.**

Strikes

Yale® 5400CK locks are available with a variety of strike options. All strikes are located on the same vertical and horizontal center lines as the latchbolt. Some strikes are available in special lip lengths to accommodate varying thickness of doors and frames. To determine the proper length of the lip, measure from the center line of the strike to the edge of the jamb, accounting for any interfering trim (i.e. wood molding) and then add 1/4" (6mm) for curved lip. All strikes are reversible. Strikes are fabricated of either brass, bronze or stainless steel, depending on the lockset trim finish. When ordering strikes separately, specify the finish required.

<p>Model No. 497 ANSI Strike (Standard) 1-1/4" supplied standard. 1-1/8", 1-1/2", and 1-3/4" lip lengths available by separate order. For door and frames with ANSI/BHMA A156.115 preparations.</p>	<p>Model No. 371 T-Strike (Optional) 1-1/4" curved lip supplied standard. 1", 1-1/2", 1-3/4", and 2" curved lip lengths available by separate order. Wrought strike box supplied.</p>	<p>Model No. 497B Blank ANSI Strike (Optional) Available to special order. Installed in frame with standard ANSI/BHMA A156.115 preparation to replace the strike when the lockset has been removed from the door.</p>	<p>Model No. 202 Strike Box for ANSI Strike (Optional) Specify 497 x 202</p>

Attaching Screws

(Not regularly supplied when strikes ordered separately).

For Model No. 371 strike

#8-8-32 x 3/4" (19mm) Phillips flat head combination wood and machine screw P/N-81-2012-0416.

For Model No. 497 strike and 497B plate

#12-12-24 x 1" (25mm) Phillips flat head combination wood and machine screw P/N-81-2012-0620.

Note: When ordering strike plates or attaching screws individually, specify the finish required; i.e. 497 x 202 x 630; #81-2012-0620 x 630.

Specifications

Sample Specification

All locksets shall be 5400CK Series Grade 1 cylindrical knob locksets as provided by Yale Locks & Hardware.

Lockset mechanisms are to be constructed of heavy-gauge cold-rolled steel, zinc plated chromate to protect against rust and corrosion. Locksets shall be adjustable to fit doors between 1-3/8" (35mm) to 2" (51mm) thick.

Locksets shall be reversible for either right hand or left hand doors and be easily installed with out the use of any special tools. They shall be installed in a 2-1/8" face bore and a 1" hole in the edge of the door.

Outside knob on keyed locksets shall be removable only when the designated key is in the cylinder.

Locksets shall have the capability of accepting 6-pin standard component cylinders, security cylinders and protected keyway cylinders to provide expansion capacity for large masterkey systems. Small format interchangeable core is also available.

Latchbolts shall be stainless steel and have a standard 1/2" throw.

Locksets shall carry a 10-year mechanical warranty.

Locksets shall comply with the following:

- UL/cUL up to and including 3 hours fire rating
- ANSI/BHMA A156.2 series 4000 Grade 1
- ANSI/BHMA A156.115 or A156.115-W preparation

4300LN Series

Grade 2 Tubular Lever Locks

the engineer's choice

introduction

An economical, light/medium duty Grade 2 lever lockset which provides an outstanding combination of value and performance. It's the ideal lever lockset for light commercial and heavy-duty residential applications, which typically include:

- Interior offices
- Closets
- Multi-family housing
- Hotels
- Restaurants
- Retail complexes

installation

4300LN Series tubular locksets conform to ANSI/BHMA Specifications A156.115 which cover hardware preparations for steel doors and steel frames and A156.115-W which cover hardware preparations for wood doors with wood or steel frames.

warranty

The 4300LN Series tubular lever lock carries a one-year warranty.

ANSI/BHMA

Certified ANSI/BHMA A156.2, Series 4000 Grade 2.

A.D.A.

The 4300LN Series meets accessibility guidelines of the Americans with Disabilities Act and the requirements of the Uniform Federal Accessibility Standards and ANSI 117.1, all requiring ease of accessibility for the handicapped.

cylinders

Furnished standard with Yale® 1812 6-pin cylinder. Optional Yale® KeyMark® fixed core.

latches

1/2" bolt projection.

fire listings

4300 Series locksets (including fire cup) are UL listed for use on fire doors for up to 90 minutes.

Note: Any retrofit or other field modification to a fire rated opening can potentially impact the fire rating of the opening, and Yale Locks & Hardware makes no representations or warranties concerning what such impact may be in any specific situation. When retrofitting any portion of an existing fire rated opening, or specifying and installing a new fire-rated opening, please consult with a code specialist or local code official (Authority Having Jurisdiction) to ensure compliance with all applicable codes and ratings.

door thickness

Locksets are adjustable for doors 1-3/8" to 1-3/4".

backset

The 4300LN Series is available with 2-3/8" or 2-3/4" deadlocking latchbolt.

handing

RH or LH must be specified on Madrid 4305LN, 4308LN, 4328LN, and 4355LN.

4301LN, 4302LN and 4307LN are furnished as RH. They can be changed to LH by reversing inside and outside levers.

packing

Each box has a strike, firecup, paper template, combination wood and machine screws and easy-to-follow instructions. Cylinder functions supplied with two keys. Twelve shelf boxes to a case.

sample specification

All locksets shall be 4300LN Series Grade 2 tubular lever locksets.

Locks shall have an interlocking tubular chassis and latchbolt. Chassis mounting screws shall be accessible only when the levers and roses are removed.

The latchbolt shall have a 1/2" (13mm) throw and shall include a deadlocking feature to inhibit manipulation when the door is locked.

Locksets and latchbolts shall be reversible for ease of installation.

All locksets shall be adjustable for 1-3/8" (35mm) and 1-3/4" (44mm) door thickness. Levers shall operate independently and shall have inside and outside lever return springs to prevent lever sag.

Lever handles shall be a minimum of 4-3/4" (121mm) in length and shall provide a minimum of 2-1/8" (54mm) clearance from surface of door to the inside of the lever at the midpoint.

Outside levers on keyed locksets shall be removable only when the designated key is in the cylinder.

Locksets shall be furnished with two keys. All cylinder plugs shall be brass and furnished with 6-pin chambers for master keying capabilities.

Cylinders shall be easily changed by removing the lever without disassembling the lockset.

Certification:

UL 1-1/2 Hour Fire Rating

ANSI/BHMA A156.2 Series 4000, Grade 2

ANSI A117.1 Accessibility Code

All locksets shall carry a one-year warranty.

RL Series Tubular Locks

For applications that require beautiful modern aesthetics, Yale RL Series Tubular Locks are specially designed for use with the Yale Reflections® decorative lever collection. Engineered with the trusted quality of Yale and with ease of installation in mind, the RL Series exceeds the expectations of architects and design professionals in the interior applications of any hospitality, multi-family, and mixed-use facility.

At the place where form meets function, Yale Works for YouSM.

Benefits & Features

Benefits

- **Beautiful design:** Well-suited to any interior application that requires attractive, modern aesthetics
- **Suiting options:** Reflections® levers can be suited on door hardware throughout your facility, allowing for design continuity
- **Versatile installation:** Adjustable rose accommodates a variety of door thicknesses
- **Secure:** Quality security from a brand trusted for over 170 years

Features

- Available in 30 lever designs across 13 high-quality architectural finishes
- Offered in a range of function options for any interior application, including passage, privacy, dummy trims and more
- ADA compliant for ease of accessibility

Strikes

Standard Strike

Model No. 371 x 1-1/4" lip supplied standard with RL Series locks. This strike will accommodate frames for 1-3/8" to 1-3/4" thick doors. Strikes with other lip dimensions shown are available to special order. All Model No. 371 strikes are supplied with wrought strike box Part No. 14-5301-1033.

Optional 497 ANSI Strike

For doors and frames with ANSI/BHMA A156.115 preparations. 1-1/4" supplied standard. 1-18", 1-1/2" and 1-3/4" lip lengths available by special order.

Note: dimensions shown inches (millimeters)

Exploded View

Sample Specification

All locks shall be RL Series Tubular as provided by Yale Locks & Hardware.

Locks shall have an interlocking tubular chassis and latchbolt. Chassis mounting screws shall be accessible only when the levers and roses are removed.

All locks shall mount in a standard ANSI/BHMA A156.115 door prep (2-1/8" diameter) without additional thru-bolt preps.

All locks and latchbolts shall be non-handed and reversible for ease of installation.

All locks shall have bi-directional lever operation and lever handles shall be a minimum of 4-1/4" (108mm) in length. All levers shall be made of solid material with no plastic fillers.

All locks shall be adjustable for 1-3/8" (35mm) and 1-3/4" (44mm) door thickness.

All locks shall have a standard 2-3/4" (70mm) backset and offered with optional 2-3/8" (60mm) backset.

All latchbolts shall have a 1/2" (13mm) throw.

All strikes shall be non-handed with a curved lip.

Certification:

ANSI A117.1 Accessibility Code

UL 3-hour Rating (Optional)

All locks shall carry a one-year warranty.

Technical Specifications and Listings

ADA

The RL Series lever designs meet accessibility guidelines of the Americans with Disabilities Act and the requirements of the Uniform Federal Accessibility Standards and ANSI A117.1, all requiring ease of accessibility.

Door Prep

RL Series Tubular locks conform to ANSI/BHMA specifications A156.115 which cover hardware preparations for steel doors and steel frames and A156.115-W which cover hardware preparations for wood doors with wood or steel frames.

Fire Listings

RL Series Tubular locks are available UL-cUL Listed for use on fire doors having a rating up to and including 3-hours. This option is available for RL201, RL202 and RL228 functions and can be ordered by suffixing "F" to the model number, i.e. RL201F.

Note: Any retrofit or other field modification to a fire rated opening can potentially impact the fire rating of the opening, and Yale Locks & Hardware makes no representations or warranties concerning what such impact may be in any specific situation. When retrofitting any portion of an existing fire rated opening, or specifying and installing a new fire-rated opening, please consult with a code specialist or local code official (Authority Having Jurisdiction) to ensure compliance with all applicable codes and ratings.

Warranty

RL Series Tubular locks carry a one-year warranty.

Auxiliary Locks

Yale provides a wide range of auxiliary and special purpose locks designed to fit a variety of demanding applications. Product offerings include high quality latchlocks, deadlocks, deadbolts and rim locks with both standard and alternative rim cylinders. Cabinet locks, special purpose locks and padlocks are also available, completing a collection of dependable products specifically engineered to provide strong security and key control.

Whether your requirements are for a basic or more sophisticated security system, Yale Works for YouSM.

Products

MicroShield®

To assist with reduction of bacteria and other microbes, Yale offers MicroShield®, an antimicrobial coating for door hardware. MicroShield uses proven silver ion-based technology from Agion®, a leading provider of antimicrobial solutions, to stem the spread of bacteria and other microbes. MicroShield is effective against a broad range of bacteria, mold, fungi, algae and mildew.

Yale® Commercial Solutions offers innovative and reliable products to solve the challenges of commercial, retail, hospitality, assisted living, mixed-use and multi-family properties. With over 150 years of door hardware experience, Yale's expertise extends beyond products to people - and provides the service and support you expect.

Featuring durable products to meet all your facilities' requirements, and the quality you expect from a leader in the door hardware industry, Yale Works for YouSM.

D Series Cylindrical Deadbolts

Yale® D Series deadbolts are the ideal choice for a wide variety of commercial applications where consistent quality, ease of use and installation are required.

Technical Information

ANSI/BHMA	D100: Certified ANSI/BHMA A156.36 Grade 1. D200: Certified ANSI/BHMA A156.36 Grade 2.
Fire Listings	D series deadbolts, when used in conjunction with the primary latching device, are UL - cUL listed for use with Classified steel covered composite or hollow metal doors rated up to and including 3 hours; wood and plastic covered composite doors rated up to and including 1-1/2 hours; and wood core doors rated for 20 minutes. Note: Any retrofit or other field modification to a fire rated opening can potentially impact the fire rating of the opening, and Yale Locks & Hardware makes no representations or warranties concerning what such impact may be in any specific situation. When retrofitting any portion of an existing fire rated opening, or specifying and installing a new fire-rated opening, please consult with a code specialist or local code official (Authority Having Jurisdiction) to ensure compliance with all applicable codes and ratings.
Deadbolt	1" (25mm) throw, solid steel deadbolt with hardened, free spinning, steel pin insert.
Fronts	2-1/4" x 1" (57mm x 25mm) front and 1-1/8" (29mm) latch front filler supplied standard with each D series deadbolt.
Strikes	2-3/4" x 1-1/8" (70mm x 29mm) metal and wood door strikes with strike reinforcement supplied standard.
Handing	Functions are non-handed and easily field reversible.
Backset	2-3/4" (70mm) or 2-3/8" (60mm) backset.
Door Thickness	Standard for 1-3/8" (35mm) to 1-3/4" (44mm) thick doors.
Installation	Can be installed on doors prepared to ANSI/BHMA A156.115 specifications using a simple bored-hole installation for square or beveled doors, opening in or out.
Finishes	605, 606, 612, 613, 613E, 619, 625, 626, BSP, WSP. See page 4 for more information. Cylinders provided in 626 or 606 finish only.
Warranty	1 year mechanical

Options

- Available with visual occupancy indicator options, displaying "In Use" or "Vacant" depending on the status of the deadbolt
- Several SFIC functions feature concealed interior screws that only the control key may access. See page 7 for available functions.

D34R	2-3/4" (70mm)	1" (25mm)	Radius 2-1/4" x 1" (57mm x 25mm)
D38R	2-3/8" (60mm)	1" (25mm)	Radius 2-1/4" x 1" (57mm x 25mm)

Note: 1-1/8" (29mm) Front filler supplied standard with all square corner fronts.

Strikes

Each D series deadbolt furnished standard with metal frame strike, wood frame strike and strike reinforcement.

Note: Model D243 is a strike packet which includes both wood and metal frame strikes and corresponding screws.

350 Series Mortise Deadlocks

Technical Information

Description	350
Application	Mortise installation for 1-3/4" (44mm) doors, unless otherwise specified. 3" thick doors maximum for thumbturn functions.
Backset	2-3/4" (70mm) only.
Door Prep	The 350 series mortise deadlocks conform to ANSI/BHMA Specifications A156.115 which cover hardware preparations for steel doors and steel frames and A156.115-W which cover hardware preparations for wood doors with wood or steel frames.
Fire Listings	350 series deadlocks, when used in conjunction with the primary latching device, are UL - cUL listed for use on fire doors having a rating up to and including 3 hours. In addition, the 350 series are cUL listed for use on wood doors having a rating up to and including 90 minutes. Note: Any retrofit or other field modification to a fire rated opening can potentially impact the fire rating of the opening, and Yale Locks & Hardware makes no representations or warranties concerning what such impact may be in any specific situation. When retrofitting any portion of an existing fire rated opening, or specifying and installing a new fire-rated opening, please consult with a code specialist or local code official (Authority Having Jurisdiction) to ensure compliance with all applicable codes and ratings.
Handing	Functions are non-handed and easily field reversible.
Deadbolt	Laminated stacked steel with hardened pin, 1" (25mm) throw.
Front	4-5/8" x 1-1/8" (117mm x 29mm) Brass, bronze or stainless steel. Adjustable to accommodate flat or beveled-edged doors (bevel adjustment 1/8" in 2" (3mm in 51mm)).
Case	Heavy wrought steel, zinc plated and dichromated.
Finishes	605, 606, 611, 612, 613E, 618, 619, 625, 626, 629, 630, US10BL, US20D, BSP, WSP. See page 4 for more information.
Strike	3-1/2" x 1-1/8", model number 30S provided standard. ANSI/BHMA A156.115 strike 4-7/8" x 1-1/4", model number 545N optional. Optional wrought box model number 31S available to order.

Thumbturn Assemblies

Used with all 350 series locks that have a thumbturn.

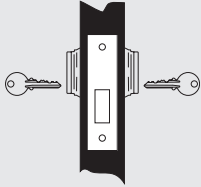

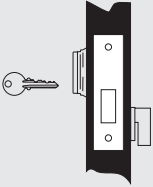

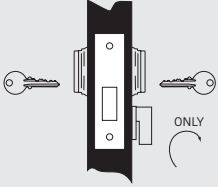

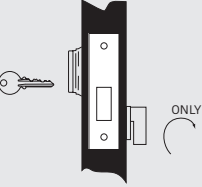

Dimensions are shown in inches (millimeters).

Note: All dimensions are in inches and are to the nearest 1/16" (2mm). Dimensions are nominal.

PD500 Series Padlocks

Available in fixed core, large format interchangeable core (LFIC), and small format interchangeable core (SFIC).

Features

Case: Solid Brass

Shackle: High strength molybdenum alloy steel. Rust resistant with a chrome finish. Optional brass shackles available.

Shackle Diameter: 3/8" (10mm) or 5/16" (8mm)

Shackle Locking: Two hardened steel balls at heel and toe of shackle.

Extended Shackles: Optional shackles with 2" and 3" vertical clearance are available to order.

Chains: Optional 9" chains available with clevis around shackle or riveted to case. To order with padlocks specify suffix:

- for clevis around shackle
 - "S42A" = brass chain
 - "S42S" = steel chain
- for clevis riveted to case
 - "C42A" = brass chain
 - "C42S" = steel chain

See page 17 for chains ordered separately.

Keys: Two nickel silver change keys supplied with each padlock. Control key quantity must be specified for interchangeable core.

PD500 Series Padlocks

Keying: Padlocks available 0-bitted, uncombined, keyed alike keyed different or master keyed. Note: Yale KeyMark cylinders and cores are not available 0-bitted.

LFIC – Padlocks furnished standard less core. Available for Yale 6- or 7-pin large format interchangeable core. Specify core and keying required.

Cores:

Model Number	Description
1210	6-pin Conventional
1220	7-pin Conventional
5210	6-pin Security
5220	7-pin Security
K800	6- or 7-pin Yale® KeyMark® (Specify number of pins required)

SFIC – Padlocks furnished standard less core. Available for 6- or 7-pin small format interchangeable core. Specify core and keying if required.

Cores:

Model Number	Description
K600	6- or 7-pin Yale® KeyMark® (Specify number of pins required)
A600	6- or 7-Pin Best® Keyway (Specify keyway and number of pins required)

Fixed Core – Available in 6-pin only. Furnished standard with Yale 1801 type component cylinder for easy re-keying in field. Security and Yale® KeyMark® cylinders available to order. Less cylinder also available, specify "x LC". Padlocks provided less cylinder are furnished with cylinder sleeve and adaptor.

Cylinders:

Model Number	Description
1801	Standard
5801	Security
K400	Yale® KeyMark®
2801	Schlage® C Keyway (0-bitted or keyed random only)

Cylinder and Sleeve	
Unassembled	Assembled

PD600 Series Padlocks

Features

Case: Solid brass

Shackle: High strength molybdenum alloy steel. Rust resistant with a chrome finish.

Shackle Diameter: 5/16" (8mm)

Shackle Locking: Two hardened steel balls at heel and toe of shackle.

Extended Shackles: Optional shackles with 2" and 3" vertical clearance are available to order.

Chains: Optional 9" chains available with clevis around shackle or riveted to case. To order with padlocks specify suffix:

- for clevis around shackle
 - "S42A" = brass chain
 - "S42S" = steel chain
- for clevis riveted to case
 - "C42A" = brass chain
 - "C42S" = steel chain

See page 17 for chains ordered separately.

Keying: 6-pin only. Furnished standard with Yale 1801 type component cylinder; available KA, KD or master keyed (not available 0-bitted or unassembled). Not re-keyable.

Keys: Two nickel silver change keys supplied with each padlock.

Note: The PD616 padlocks are key retaining. This means that the key cannot be removed from the padlock while the shackle is in the "unlocked" position. The key can only be removed if the shackle is in the "locked" position.

Dimensions And Details

Model Numbers	Description	Vertical Clearance (R)	Overall Height (H)	Pins
Molybdenum Steel Shackle				
PD616	Fixed Core	1-3/16" (30mm)	3-1/4" (82mm)	6
PD2616	Fixed Core	1-1/2" (38mm)	3-9/16" (90mm)	6

Note: All dimensions are in inches and are to the nearest 1/16" (2mm). Dimensions are nominal.

Padlock Chains

525 shown.

Model No.	Material	Minimum Length	Shackle Diameter	Gauge Size
42A	Brass	9" (229mm)	9/32"-5/16" (7mm-8mm)	15
42S	Steel	9" (229mm)	9/32"-5/16" (7mm-8mm)	15

Chains are used with PD400, PD500 and PD600 series padlocks. All chains are double-link type.

42A and 42S chains riveted to case.
Specify suffix "C42A" or "C42S".

42A and 42S chains with clevis.
Specify suffix "S42A" or "S42S".

Security Latchlock 80

Auxiliary Rim Lock Components

Cylinders

Yale® auxiliary rim locks 80, 88, 112, 112-1/4, 197, and 197-1/4 are shipped standard with an 1109E brass, 5-pin, E1R (PARA) section rim cylinder. The 1109E is not available as a replacement cylinder.

Note: 1109E depths and spacings are not compatible with other cylinders available from Yale Locks & Hardware.

For alternative rim cylinders, refer to Yale® KeyMark® and/or Yale Cylinder and Keys catalog sections.

Strikes

No. 197FS Flat Strike

Used with 197F and 197-1/4F for outswing doors.

No. 112FS Flat Strike

Used with 112F and 112-1/4F for outswing doors.

No. 8RB Rim Strike

Used with 80 and 88 for outswing doors.

Dimensions are shown in inches (millimeters).

Cabinet Locks

511s

Application: Pin tumbler lock for 3/4" (19mm), 1" (25mm), 1-1/8" (29mm) or 1-3/8" (35mm) wood or metal wardrobe doors.
Operation: Key retracts latchbolt.
Material: All brass.

Finishes: Nose and scalp 605 standard; 606, 625 and 626 to order.
Keying: 4-, 5-, or 6-pin tumblers, two keys. Can be Master Keyed and Grand Master Keyed.
Handed: Specify RH or LH. Right hand shown.

Note: 3/4" available 4-pin only. 1" available 5-pin only.

C970

Operation: Key rotates plug 360°. Key removable in vertical position only. Cam stop pin packed with each cylinder for restricted cam rotation when desired.

Finishes: Available in all finishes as per page 4.
Material: Brass cylinder and cam.
Keys: 5- or 6-pin.

Accessories

511S Angle Strike

May be specified with surface type Spring Bolt Lock 511S.

Dimensions are shown in inches (millimeters).

Auxiliary Locks

Special Purpose Lock C1810

C1810 Letter Box Lock

Finishes: 606 and 626.

Keying: Standard 5- or 6-pin, all cylinders drilled for 6-pin. Can be keyed into 7-pin system, first six pins active, or with special long cylinder with 7 active pins.

Available: KD standard. KA or MK (for special purposes) by order. Cannot be Construction Master Keyed. Two keys.

Cam: Part No. 30-0501-2001-999

Screws: Part No. 81-0021-1102-999

C900 Series Electrical Switch Cylinders

Operation: Key rotates plug 360°. Key removable in one, two, or three positions.
Material: Brass and bronze. Brass attaching nuts.

Finishes: 606, 626.
Keying: 5-pin tumblers; two No. 11 keys.
Cylinder Nut: Part No. 60-7000-2421-000

When Ordering

Specify keyway and biting No. (C910 and C911 models can be master keyed). Specify finish. (Standard finishes 606 and 626.) If mounting nuts are not required, specify "w/o nuts."

Dimensions are shown in inches (millimeters).

YSSL10 Auxiliary Latch

Security SideLite offered through CECO and CURRIES

The YSSL10 is a spring loaded latchbolt which is operated by a thumbturn on the inside of the door. The outside does not offer operation. This latch is only recommended for areas with alternate exits.

The YSSL10, when combined with ASSA ABLOY Group brands CECO and CURRIES' Security SideLite doors, offers an effective solution for privacy or lockdown situations.

Applications

- Security SideLite doors offered by CECO and CURRIES
- Dutch doors
- Communicating doors
- Shallow closets

Technical Information

Description	YSSL10
ADA	ADA compliant thumbturn.
Fire Listings	UL - cUL fire rated up to 3 hours.
Backset	2-3/4" (70mm) only.
Latchbolt	1/2" (13mm) brass throw.
Door Thickness	1-3/4" (44mm) only.
Front	2-1/4" x 1" (57mm x 25mm) flat front.
Handing	Functions are non-handed and easily field reversible.
Finishes	605, 606, 612, 625, 626, BSP
Strike	1-1/4" (32mm) curved lip standard (model number 371).
Warranty	1 year mechanical

Strike

Model No. 371 T-Strike

1-1/4" curved lip supplied standard. 1", 1-1/2", 1-3/4", and 2" curved lip lengths available by special order. Wrought strike box supplied.

7000 Series Exit Devices

Yale® 7000 Series Exit Devices deliver an unparalleled combination of durability, innovation and aesthetics. With ANSI/BHMA Grade 1 certification and a full range of mechanical and electromechanical functions and accessories, the 7000 Series can be easily integrated into existing security or fire alarm systems to ensure the safety of every opening. The simple, clean lines and variety of available finishes suit the modern decor of any commercial building.

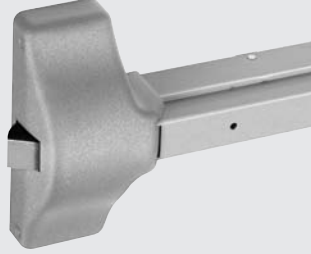

When the beauty of your facility matters almost as much as life safety, Yale Works for YouSM.

Introduction

Yale® Commercial Solutions offers innovative and reliable products to solve the challenges of commercial, retail, hospitality, assisted living, mixed-use, and multi-family properties. With over 150 years of door hardware experience, Yale's expertise extends beyond products to people - and provides the service and support you expect.

Featuring durable products to meet all your facilities' requirements - and the quality you expect from a leader in the hardware industry. Yale works for youSM.

Benefits & Features

Benefits

- **Innovative:** Featuring patented security options including SquareBolt® latchbolt and delayed egress function
- **Durable:** Heavy-duty steel components are ANSI/BHMA Grade 1 certified for the ultimate in strength and security
- **Flexibility:** Various options available to customize this exit device to suit any opening
- **Clean, modern look:** Sleek design with a variety of attractive finish options to suit any decor

Features

- High quality steel chassis and heavy-duty components
- Full range of mechanical and electromechanical options to suit any life safety application and pair with existing security systems
- ANSI/BHMA Grade 1 certified
- UL/cUL listed for panic and fire doors
- Windstorm certified (refer to local codes)  Hurricane
- Five year mechanical warranty, one year trim warranty, two year warranty on electrical options and components

Now Available with Motorized Electric Latch Retraction!

The Motorized Electric Latch Retraction (MELR) feature provides remote-controlled latch retraction that delivers quiet, smooth operation for convenient, hassle-free egress. Easily installed in new applications and available as retrofit rail kit assemblies for field updates, the MELR features maintenance-free design with few moving parts using 86% less power consumption during retraction than solenoid devices. Plus, MELR is powered by a standard power supply, simplifying installation and increasing system design flexibility. See page 32 for more details.

630* Satin Stainless Steel	693 Black Painted	BSP Black Suede Powder Coat	WSP White Suede Powder Coat		

613, 626 and 722 finishes available as Special Product Requests only. Please contact Customer Service for more information.

*Finish available with MicroShield® antimicrobial coating, additional finishes by special application. Consult factory for availability.

MicroShield coating may vary finish color from architectural standards. MicroShield is not intended as a substitute for traditional infection control programs such as hand hygiene or use of disinfectants. Coated products must still be cleaned to ensure the surfaces will be free of destructive microbes. Yale makes no representations or warranties, express or implied, as to the efficacy of MicroShield.

Finishes For Touchbar Covers Only

ANSI/BHMA Code	Finish Description
BN ³	Semi-gloss black fused polymer
LUM	Lumi-lite Photoluminescence
SS	Stainless Steel

Lumi-Lite

Lumi-lite uses photoluminescence technology to provide visibility of exit doors in low-light, no light or smoky conditions. Lumi-lite can be ordered with your 7000 Series Exit Device or easily retrofitted to existing devices. See Lumi-lite Touchpad Cover on page 57 for more information.

How To Order

From this outline select the Model Number for the Yale® 7000 Exit Device Series you require.

7	X	X	X	Mechanical/Electrical	Size	Design	Trim	Finish	Other Info.
	Second Digit: "1" - Standard device, 4-1/2" (114mm) or wider door stile. "2" - Narrow stile door or narrow escutcheon trim (500F, 510F Series)	Third Digit: "0" - Rim Device, Pullman Latch "1" - SVR Device up to 8' "2" - CVR Device, Metal Doors up to 8' "3" - Mortise Device "5" - SquareBolt®, Rim Security "6" - CVR Device over 8', wood door or LBR "7" - SVR Device over 8' or LBR	Fourth Digit: "0" - Standard "5" - Cylinder Dogging (Not with suffix "F")	Mechanical Feature  "F" - Fire Exit Device "M" - Narrow escutcheon trim in 4-1/2" (114mm) or wider door stile "LBR" - Less Bottom Rod ² "L5" - Mortise Device, Entry by Key with/without Rigid Lever ¹ "L8" - Mortise Device, Entry by Lever "T5" - Mortise Device with Thumbpiece Trim "T8" - Mortise Device, Active Thumbpiece Trim "2" - Double Cylinder Device ³ "WS" - Windstorm Certified Products ^{5,6,7} Electrical Feature "-A" - Alarm Kit "-B" - Bar Monitor or Signaling "-D" - Delayed Egress "-G" - Electric Dogging "-O" - Outside Trim Monitor or Signaling "-MELR" - Motorized Electric Latch Retraction "-S" - Latchbolt Status Monitor or Signaling "-Safe" - Mortise Device Trim Control (Lever only) "-Secure" - Mortise Device Trim Control (Lever only)		Trim Design (Lever only)	Trim Model Number	See page 4	Other Information: Door Hand - RHR or LHR Door Thickness - Over 1-3/4" (45mm) Fastener Options - TORX® Security Screws SNB (wood, composite, or unreinforced metal doors) Specialty Cylinders & Components Lumi-lite: LUM

Trim Only

M0656F x 630 x RHR x LC

Double Cylinder Exit Device with Trim

7150F-2-36 x AU626F x 630

*Yale® exit devices and trims are processed separately. To aid in order processing, the device, trim and cylinder should be detailed as separate line items. These items can be ordered on one line item as shown, but they will be entered to the factory and acknowledged separately.

It is recommended that exit devices and trim for the same opening be ordered together. Standard product is for 1-3/4" (44mm) reinforced metal doors. Accessories detached from the device and trim should be specified separately. Materials by others are required to be fit for the purpose as detailed in this catalog and the product installation literature.

Notes:

1. Required for electrical feature, Suffix "-SAFE" or "-SECURE".
2. LBR available on 7160(F90) and 7170(F90) devices only.
3. For double cylinder devices, suffix "-2" after fourth digit.
4. If "-24" device is to be used with a DOW greater than 24", the device will ship without UL label. The 12" touchpad will not cover 50% of the device touchbar length.
5. "WS" applies only to 7150(F), 7250M(F) and 7170(F) devices.
6. Maximum opening size 8'0" x 8'0".
7. Contact Ceco, Curries® or Fleming for detailed frame/door requirements and limitations.

7100(F) Rim

The 7100(F) is a rim exit device to be used with single doors or pairs of doors constructed of metal, wood or composite materials. Designed for application in high-use areas, the 7100(F) comes in a variety of finishes and can be combined with a variety of trims to match any desired style.

Features

- Designed for wide stile doors
- 3/4" throw deadlocking stainless steel pullman latchbolt
- Electroplated ferrous components provide corrosion resistance
- Available in double cylinder function (handing must be specified)

Applications

- Non-handed for easy installation
- Single swing doors
- Pairs of doors with removable mullions
- Metal, wood or composite door materials

Specifications

Door Opening Width	-24 for 24" (60cm) doors -36 for 30" - 36" (76cm - 91cm) doors -48 for 36" - 48" (91cm - 122cm) doors Optional sizes can be special ordered. Consult Technical Product Support.
Door Thickness	1-3/4" (44mm) standard. Optional door thicknesses available to 4-1/2"; specify door thickness when ordering.
Minimum Stile Width	4-1/2" (114mm)
Projection	3-1/4" (83mm) active, 2-3/4" (70mm) dogged
Latchbolt	3/4" (19mm) deadlocking stainless steel pullman-type
Strike	757F, 793 optional (double door application, panic only)
Fasteners	Machine screws and wood door fasteners standard for panic hardware. Sex nuts and bolts supplied standard for fire exit hardware.
Trims	620F series escutcheon trim, 630F series pull/thumbpiece trim, 680F series offset pull trim, 540F series rose trim, 121NL cylinder only. See pages 22-24.
ANSI/BHMA	Certified A156.3 Type 1, Grade 1
UL/cUL	FVSR/FVSR - Panic hardware; GXHX/GXHX7 - Fire exit hardware (F) (4' x 8' single, 8' x 8' pairs, 3 hr.)
Dogging	Hex key dogging supplied standard on panic devices
Options	Cylinder dogging, shim kit #723, sex nuts and bolts, MicroShield®, Lumi-lite
Warranty	5-year limited

7200 Rim

The 7200 is a narrow stile rim exit device compatible with the aesthetics and functional requirements of contemporary doors. The 7200 comes in varied finishes and can be combined with a variety of trims to match any desired style.

Features

- Designed for narrow stile doors
- 3/4" throw deadlocking stainless steel pullman latch
- Non-handed for easy installation

Applications

- Single swing narrow stile doors
- Pairs of narrow stile doors with removable mullions
- Metal and aluminum doors
- For panic-rated doors only

Specifications

Door Opening Width	-24 for 24" (60cm) doors -36 for 30" - 36" (76cm - 91cm) doors -48 for 36" - 48" (91cm - 122cm) doors Optional sizes can be special ordered. Consult Technical Product Support.
Door Thickness	1-3/4" (44mm) standard. 2" (51mm) and 2-1/4" (57mm); specify when ordering.
Minimum Stile Width	2" (51mm)
Projection	3-1/4" (83mm) active, 2-3/4" (70mm) dogged
Latchbolt	3/4" (19mm) deadlocking stainless steel pullman type.
Strike	Standard: 759. Optional: 793 (double door applications, panic only)
Fasteners	Machine screws standard for panic hardware
Trims	500F series escutcheon trim, 510F series pull/thumbpiece trim, 480F series offset pull trim. See pages 25-26.
ANSI/BHMA Certified	A156.3, Type 4, Grade 1
UL/cUL	FVSR/FVSR7 - Panic hardware
Dogging	Hex key dogging supplied standard
Options	Cylinder dogging, shim kit #723NS, sex nuts and bolts, MicroShield®, Lumi-lite
Warranty	5-year limited

7200M(F) Rim

The 7200M(F) rim exit device provides the appearance of a narrow stile rim exit device for use on wide stile or flush doors. Using the 7200M(F) with narrow stile trim provides design continuity and pleasing aesthetics when matching exit devices for inside doors to outside narrow stile doors.

Features

- Narrow stile appearance designed for wide stile or flush doors
- 3/4" throw deadlocking stainless steel pullman latchbolt
- Non-handed for easy installation
- Fully adjustable surface mounted 3/8" diameter roller strike complete with positive locking plate and shims

Applications

- Single swing doors
- Pairs of doors with removable mullions
- Metal, wood or composite door materials

Specifications

Door Opening Width	-24 for 24" (60cm) doors -36 for 30" - 36" (76cm - 91cm) doors -48 for 36" - 48" (91cm - 122cm) doors Optional sizes can be special ordered. Consult Technical Product Support.
Door Thickness	1-3/4" (44mm) standard. 2" (51mm) and 2-1/4" (57mm); specify when ordering.
Minimum Stile Width	4-1/2" (114mm)
Projection	3-1/4" (83mm) active, 2-3/4" (70mm) dogged
Latchbolt	3/4" (19mm) deadlocking stainless steel pullman type
Strike	757F, 793 optional (double door application, panic only)
Fasteners	Machine screws and wood door fasteners standard for panic hardware. Sex nuts and bolts supplied standard for fire exit hardware.
Trims	500F series escutcheon trim, 510F series pull/thumbpiece trim, 480F series offset pull trim. See pages 25-26.
ANSI/BHMA	A156.3, Type 4, Grade 1
UL/cUL	FVSR/FVSR7 - Panic hardware; GXHX/GXHX7 - Fire exit hardware (F) (4' x 8' single, 8' x 8' pairs, 3 hr.)
Dogging	Hex key dogging supplied standard on panic devices
Options	Cylinder dogging, shim kit #723NS, sex nuts and bolts, MicroShield®, Lumi-lite
Warranty	5-year limited

7150(F) Rim SquareBolt®

Just as easy to open as traditional latchbolts, the SquareBolt® exit device's unique construction offers innovative protection. Its patented SquareBolt (Pat. no. 5,605,362) design presents an improved physical barrier over standard rim latchbolts. The SquareBolt exit device locks into place and stays there. Credit cards, crowbars, door rattling and shaking are resisted, significantly reducing the threat of unauthorized entry.

Features

- Patented SquareBolt security deadbolt (Pat. no. 5,605,362) designed for maximum holding power
- Non-handed for easy installation
- Can be retrofitted onto existing 7100 series templated doors
- Fully adjustable surface-mounted 3/8" diameter roller strike complete with positive locking plate and shims
- Available in double cylinder function (handing must be specified)
- Available certified hurricane resistant (refer to local codes). Specify 7150(F)WS  Hurricane

Applications

- Single swing doors
- Pairs of doors with removable mullions
- Metal, wood or composite door materials

Specifications

Door Opening Width	-24 for 24" (60cm) doors -36 for 30" - 36" (76cm - 91cm) doors -48 for 36" - 48" (91cm - 122cm) doors Optional sizes can be special ordered. Consult Technical Product Support.
Door Thickness	1-3/4" (44mm) standard. Optional door thicknesses available to 4-1/2"; specify door thickness when ordering.
Minimum Stile Width	4-1/2" (114mm)
Projection	3-1/4" (83mm) active, 2-3/4" (70mm) dogged
Deadbolt	Patented 1" (25mm) slide projection bolt with full 3/4" (19mm) projection
Strike	757F, 793 optional (double door application, panic only)
Fasteners	Machine screws and wood door fasteners standard for panic hardware. Sex nuts and bolts supplied standard for fire exit hardware.
Trims	620F series escutcheon trim, 630F series pull/thumbpiece trim, 680F series offset pull trim, 540F series rose trim, 121NL cylinder only. See pages 22-24.
ANSI/BHMA	A156.3, Type 4 or 28, Grade 1
UL/cUL	FVSR/FVSR7 - Panic hardware; GXHX/GXHX7 - Fire exit hardware (F) (4' x 8' single, 8' x 8' pairs, 3 hr.); ZHEM - Latching hardware; ZHLA - Windstorm rated assemblies
Dogging	Hex key dogging supplied standard on panic devices
Options	Cylinder dogging, shim kit #723, sex nuts and bolts, MicroShield®, Lumi-lite
Warranty	5-year limited

7250 Rim SquareBolt®

The unique construction of the SquareBolt exit device offers innovative protection. The patented square latchbolt design provides an improved physical barrier over standard pullman-type rim latchbolts. It locks into place and stays there. Credit cards, crowbars, door rattling and shaking are resisted, significantly reducing the threat of unauthorized entry, especially in applications that include removable mullions. The 7250 SquareBolt is designed for narrow stile doors.

Features

- Patented SquareBolt security deadbolt (Pat. no. 5,605,362) designed for maximum holding power
- Non-handed for easy installation
- Maintains the look of the Yale® 7200 series architectural exit devices, allowing for continuity in both design and finish
- Fully adjustable surface mounted 3/8" diameter roller strike complete with positive locking plate and shims
- Used with narrow stile trim

Applications

- Single swing narrow stile doors
- Pairs of narrow stile doors with removable mullions
- Metal and aluminum doors
- For panic-rated doors only

Specifications

Door Opening Width	-24 for 24" (60cm) doors -36 for 30" - 36" (76cm - 91cm) doors -48 for 36" - 48" (91cm - 122cm) doors Optional sizes can be special ordered. Consult Technical Product Support.
Door Thickness	1-3/4" (44mm) standard. 2" and 2-1/4" (51mm and 57mm); specify when ordering.
Minimum Stile Width	2" (51mm)
Projection	3-1/4" (83mm) active, 2-3/4" (70mm) dogged
Deadbolt	Patented 1" (25mm) slide projection bolt with full 3/4" (19mm) projection
Strike	Standard: 759. Optional: 793 (double door applications, panic only)
Fasteners	Machine screws standard for panic hardware
Trims	500F series escutcheon trim, 510F series pull/thumbpiece trim, 480F series offset pull trim. See pages 25-26.
ANSI/BHMA	Certified A156.3, Type 4 or 28, Grade 1
UL/cUL	FVSR/FVSR7 - Panic hardware
Dogging	Hex key dogging supplied standard
Options	Cylinder dogging, shim kit #723NS, sex nuts and bolts, MicroShield®, Lumi-lite
Warranty	5-year limited

7250M(F) Rim SquareBolt®

The unique construction of the 7250M(F) SquareBolt exit device offers innovative protection while maintaining the appearance of a narrow stile exit device. The patented square latchbolt design provides an improved physical barrier over standard pullman-type latchbolts. The 7250M(F) SquareBolt is designed for wide stile or flush doors and provides design continuity of the 7200 series exit devices.

Features

- Patented SquareBolt security deadbolt (Pat. no. 5,605,362) designed for maximum holding power
- Non-handed for easy installation
- Maintains the look of the Yale® 7200 series architectural exit devices, allowing for continuum in both design and finish
- Fully adjustable surface mounted 3/8" diameter roller strike complete with positive locking plate and shims
- Used with narrow stile trim
- Available certified hurricane resistant (refer to local codes). Specify 7250M(F)WS

Applications

- Single swing doors
- Pairs of doors with removable mullions
- Metal, wood or composite door materials

Specifications

Door Opening Width	-24 for 24" (60cm) doors -36 for 30" - 36" (76cm - 91cm) doors -48 for 36" - 48" (91cm - 122cm) doors Optional sizes can be special ordered. Consult Technical Product Support.
Door Thickness	1-3/4" (44mm) standard. 2" (51mm) and 2-1/4" (57mm); specify when ordering.
Minimum Stile Width	4-1/2" (114mm)
Projection	3-1/4" (83mm) active, 2-3/4" (70mm) dogged
Deadbolt	Patented 1" (25mm) slide projection bolt with full 3/4" (19mm) projection
Strike	757F, 793 optional (double door application, panic only)
Fasteners	Machine screws and wood door fasteners standard for panic hardware. Sex nuts and bolts supplied standard for fire exit hardware.
Trims	500F series escutcheon trim, 510F series pull/thumbpiece trim, 480F series offset pull trim. See pages 25-26.
ANSI/BHMA	Certified A156.3, Type 4 or 28, Grade 1
UL/cUL	FVSR/FVSR7 - Panic hardware; GXHX/GXHX7 - Fire exit hardware (F) (4' x 8' single, 8' x 8' pairs, 3 hr.); ZHEM - Latching hardware; ZHLA - Windstorm rated assemblies
Dogging	Hex key dogging supplied standard on panic devices
Options	Cylinder dogging, shim kit #723NS, sex nuts and bolts, MicroShield®, Lumi-lite
Warranty	5-year limited

7130(F) Mortise

The 7130(F) is an exit device integrated with the Yale® 8700 Series Mortise Lock for use on single doors or active leaf of a pair of doors where life safety and extra security are required. The 8700 Series Mortise Lock used is modified for use with exit devices only.

Applications

- Single swing doors
- Pairs of doors with vertical rod devices or automatic flush bolts
- Metal, wood or compatible door materials

Order as follows, according to function.	
7130-K5(F)	(01) Exit only.
	(02) Entry by pull when dogged.
	(03) Key retracts latchbolt.
	Electrical control for trim, w/wo key override.
7130-L5(F)	(02) Entry by rigid lever when dogged.
	(03) Key retracts latchbolt.
	Electrical control for trim, w/wo key override.
7130-T5(F)	(02) Entry by pull when dogged. (03) Key retracts latchbolt.
7130-L8(F)	(08) Entry by lever lock/unlocked by key or lever only (passage).
7130-L8(F)-2	(08) Entry by lever lock/unlocked by key either side or lever only (passage).
7130-T8(F)	(05) Entry by thumbpiece lock/unlocked by key or thumbpiece only (passage).

Specifications

Door Opening Width	-24 for 24" (60cm) doors -36 for 30" - 36" (76cm - 91cm) doors -48 for 36" - 48" (91cm - 122cm) doors Optional sizes can be special ordered. Consult Technical Product Support.
Door Thickness	1-3/4" (44mm) standard. 2" and 2-1/4" (51mm and 57mm) optional; specify when ordering.
Minimum Stile Width	4-1/2" (114mm)
Projection	3-1/4" (83mm) active, 2-3/4" (70mm) dogged
Latchbolt	Two piece mechanical 3/4" (19mm) deadlocking stainless steel with anti-friction insert and auxiliary deadlocking latch
Strike	Curved lip, non-handed 798. Optional 712 for door pairs with astragals. Optional 718 open back strike.
Fasteners	Machine screws and wood door fasteners standard for panic hardware. Sex nuts and bolts supplied standard for fire exit hardware.
Trims	620F/650F series escutcheon trim, 630F/660F/670F series pull/thumbpiece trim, 684F offset pull trim. See pages 22-24.
ANSI/BHMA	Certified A156.3 Type 3, Grade 1
UL/cUL	FVSR/FVSR7 - Panic hardware; GXHX/GXHX7 - Fire exit hardware (F) (4' x 8' single, 8' x 8' pairs, 3 hr.) (4' x 9' single, 8' x 9' pairs, 1-1/2 hr.)
Dogging	Hex key dogging supplied standard on panic devices
Options	Cylinder dogging, shim kit #723, sex nuts and bolts, MicroShield®, Lumi-lite
Warranty	5-year limited

7110(F) Surface Vertical Rod

The 7110(F) is a surface vertical rod exit device to be used on wide stile or flush doors up to 8' (fire) and 10' (panic) where two-point latching is desired.

Features

- Designed for wide stile and flush doors
- Handed. Specify hand (field reversible)
- Bottom deadbolt for secure latching
- Fully adjustable roller strike

Applications

- Pairs of doors
- Double egress
- Metal, wood or composite door materials

Specifications

Door Opening Width	-24 for 24" (60cm) doors -36 for 30" - 36" (76cm - 91cm) doors -48 for 36" - 48" (91cm - 122cm) doors Optional sizes can be special ordered. Consult Technical Product Support.
Door Opening Height	Standard door height 7' (213cm), with the device centerline at 39-15/16" (101cm) from floor. Optional heights up to 8' (fire) and 10' (panic) available by using rod extensions. For fire rated openings over 8', see 7170F SVR.
Door Thickness	1-3/4" (44mm) standard. Optional door thicknesses available to 4-1/2"; specify door thickness when ordering.
Minimum Stile Width	4-1/2" (114mm)
Projection	3-1/4" (83mm) active, 2-3/4" (70mm) dogged
Latchbolt	Top: 3/4" (19mm) throw, pullman-type with automatic deadlatching Bottom: 5/8" (16mm) throw deadbolt, held retracted during door swing
Vertical Rods	1/2" O.D. tubular brass, bronze or stainless steel with rod guides
Strike	Top: Roller type 791. Bottom: Flush mounted 790. 794 floor strike optional (threshold openings).
Fasteners	Machine screws and wood door fasteners standard for panic hardware. Sex nuts and bolts supplied standard for fire exit hardware.
Trims	620F series escutcheon trim, 630F series pull/thumbpiece trim, 680F series offset pull trim, 540F series rose trim. See pages 22-24.
ANSI/BHMA	Certified A156.3 Type 2, Grade 1
UL/cUL	FVSR/FVSR7 - Panic hardware; GXHX/GXHX7 - Fire exit hardware (F) (8' x 8' pairs, 3 hr.)
Dogging	Hex key dogging supplied standard on panic devices
Options	Cylinder dogging, shim kit #724, sex nuts and bolts, rod extensions, bottom pullman latch (panic only) MicroShield®, Lumi-lite
Warranty	5-year limited

7170(F) Surface Vertical Rod

The 7170(F) is a surface vertical rod exit device to be used on wide stile and flush doors up to 10' where one- or two-point latching is desired. A Less Bottom Rod (LBR) option is available.

Features

- Designed for wide stile and flush doors
- Handed. Specify hand (field reversible)
- Interlocking top strike and latch mounting plate
- Available less bottom rod (LBR option)
- Available certified hurricane resistant (refer to local codes ~ not approved for LBR). Specify 7170(F)WS  Hurricane

Applications

- Pairs of doors
- Double egress
- Metal or wood doors

Specifications

Door Opening Width	-24 for 24" (60cm) doors -36 for 30" - 36" (76cm - 91cm) doors -48 for 36" - 48" (91cm - 122cm) doors Optional sizes can be special ordered. Consult Technical Product Support.
Door Opening Height	Standard door height 7' (213cm), with the device centerline at 39-15/16" (101cm) from floor. Optional heights specify suffix -8, -9, -10.
Door Thickness	1-3/4" (44mm) standard. Optional door thicknesses available to 4-1/2"; specify door thickness when ordering.
Minimum Stile Width	4-1/2" (114mm)
Projection	3-1/4" (83mm) active, 2-3/4" (70mm) dogged
Latchbolt	Top: 3/4" (19mm) throw, pullman-type with automatic deadlatching Bottom: 5/8" (16mm) throw deadbolt, held retracted during door swing
Vertical Rods	1/2" O.D. tubular brass, bronze or stainless steel with rod guides
Strike	Top: 726. Bottom: Flush-mounted 790. 794 floor strike optional (threshold openings).
Fasteners	Machine screws and wood door fasteners standard for panic hardware. Sex nuts and bolts supplied standard for fire exit hardware.
Trims	620F series escutcheon trim, 630F series pull/thumbpiece trim, 680F series offset pull trim, 540F series rose trim. See pages 22-24.
ANSI/BHMA	Certified A156.3 Type 2, Grade 1
UL/cUL	FVSR/FVSR7 - Panic hardware; GXHX/GXHX7 - Fire exit hardware (F) (8' x 10' pairs, 1-1/2 hr.) (8' x 8' pairs, 3 hr.); ZHEM - Latching hardware; ZHLA - Windstorm rated assemblies
Dogging	Hex key dogging supplied standard on panic devices
Options	Cylinder dogging, shim kit #724, sex nuts and bolts, bottom pullman latch (panic only), less bottom rod (LBR), -8, -9, -10 opening height, rod extensions, MicroShield®, Lumi-lite.
Warranty	5-year limited

7210 Surface Vertical Rod

The 7210 is a narrow stile surface vertical rod exit device to be used on narrow stile, aluminum and metal doors where two-point latching is desired.

Features

- Designed for narrow stile doors
- Handed. Specify hand (field reversible)
- Bottom deadbolt for secure latching
- Fully adjustable roller strike

Applications

- Pairs of narrow stile doors
- Metal and aluminum doors
- For panic-rated doors only

Specifications

Door Opening Width	-24 for 24" (60cm) doors -36 for 30" - 36" (76cm - 91cm) doors -48 for 36" - 48" (91cm - 122cm) doors Optional sizes can be special ordered. Consult Technical Product Support.
Door Opening Height	Standard door height 7' (213mm), with the device centerline at 39-15/16" (101cm) from floor. Optional heights specify suffix -8, -9, -10.
Door Thickness	1-3/4" (44mm) standard. 2" (51mm) and 2-1/4" (57mm); specify when ordering.
Minimum Stile Width	2" (51mm).
Projection	3-1/4" (83mm) active, 2-3/4" (70mm) dogged
Latchbolt	Top: 3/4" (19mm) stainless steel throw, pullman-type with automatic deadlatching. Bottom: 5/8" (16mm) throw deadbolt, held retracted during door swing.
Vertical Rods	1/2" (13mm) O.D. tubular brass, bronze or stainless steel with rod guides.
Strike	Top: Roller type 791. Bottom: Flush mounted 790. 794 floor strike optional (threshold openings).
Fasteners	Machine screws standard for panic hardware.
Trims	500F series escutcheon trim, 510F series pull/thumbpiece trim, 480F series offset pull trim. See pages 25-26.
ANSI/BHMA	Certified A156.3 Type 5, Grade 1
UL/cUL	FVSR/FVSR7 - Panic hardware
Dogging	Hex key dogging supplied standard
Options	Cylinder dogging, shim kit #724, sex nuts and bolts, -8, -9, -10 opening height, rod extensions, bottom pullman latch, MicroShield®, Lumi-lite
Warranty	5-year limited

7210M(F) Surface Vertical Rod

The 7210M(F) is a narrow appearance surface vertical rod exit device to be used on wide stile and flush metal or wood doors where two-point latching is desired.

Features

- Narrow stile appearance designed for wide stile doors
- Handed. Specify hand (field reversible)
- Fully adjustable roller strike

Applications

- Pairs of doors
- Double egress
- Metal, wood or composite door materials

Specifications

Door Opening Width	-24 for 24" (60cm) doors -36 for 30" - 36" (76cm - 91cm) doors -48 for 36" - 48" (91cm - 122cm) doors Optional sizes can be special ordered. Consult Technical Product Support.
Door Opening Height	Standard door height 7' (213mm), with the device centerline at 39-15/16" (101cm) from floor. Optional heights specify suffix -8 (fire and panic), -9, -10 (panic only).
Door Thickness	1-3/4" (44mm) standard. 2" (51mm) and 2-1/4" (57mm); specify when ordering.
Minimum Stile Width	4-1/2" (114mm)
Projection	3-1/4" (83mm) active, 2-3/4" (70mm) dogged
Latchbolt	Top: 3/4" (19mm) stainless steel throw, pullman-type with automatic deadlatching. Bottom: 5/8" (16mm) throw deadbolt, held retracted during door swing.
Vertical Rods	1/2" (13mm) O.D. tubular brass, bronze or stainless steel with rod guides.
Strike	Top: Roller type 791. Bottom: Flush mounted 790. 794 floor strike optional (threshold openings).
Fasteners	Machine screws and wood door fasteners standard for panic hardware. Sex nuts and bolts supplied standard for fire exit hardware.
Trims	500F series escutcheon trim, 510F series pull/thumbpiece trim, 480F series offset pull trim. See pages 25-26.
ANSI/BHMA	Certified A156.3, Type 5, Grade 1
UL/cUL	FVSR/FVSR7 - Panic hardware; GXHX/GXHX7 - Fire exit hardware (F) (8' x 8' pairs, 3 hr.)
Dogging	Hex key dogging supplied standard on panic devices
Options	Cylinder dogging, shim kit #724NS, sex nuts and bolts, bottom pullman latch (panic only), -8, -9, -10 opening height, rod extensions, MicroShield®, Lumi-lite
Warranty	5-year limited

7120(F) Concealed Vertical Rod

The 7120(F) is a concealed vertical rod exit device to be used on metal doors only up to 8' (fire) and 10' (panic) where two-point latching is desired.

Features

- Designed for wide stile and flush doors
- Handed. Specify hand (field reversible)
- Bottom deadbolt for secure latching
- Fully adjustable roller strike

Applications

- Pairs of doors
- Double egress
- Metal doors only

Specifications

Door Opening Width	-24 for 24" (60cm) doors -36 for 30" - 36" (76cm - 91cm) doors -48 for 36" - 48" (91cm - 122cm) doors Optional sizes can be special ordered. Consult Technical Product Support.
Door Opening Height	Standard door height adjustable to 8' (244cm), with the device centerline at 39-15/16" (101cm) from floor. Optional heights up to 10' (panic) available by using rod extensions. For fire rated openings over 8', see 7160F CVR.
Door Thickness	1-3/4" (44mm) standard. 2" and 2-1/4" (51mm and 57mm) optional; specify when ordering.
Minimum Stile Width	4-1/2" (114mm)
Projection	3-1/4" (83mm) active, 2-3/4" (70mm) dogged
Latchbolt	Top: 3/4" (19mm) throw, pullman-type with automatic deadlatching Bottom: 5/8" (16mm) throw deadbolt, held retracted during door swing
Vertical Rods	1/2" (13mm) O.D. telescoping tubular rods
Strike	Top: Roller type 791 (panic and fire). Bottom: Flush mounted 790 (panic and fire). 794 floor strike optional (threshold openings).
Fasteners	Machine screws standard for panic hardware. Sex nuts and bolts supplied standard for fire exit hardware.
Trims	620F series escutcheon trim, 630F series pull/thumbpiece trim, 680F series offset pull trim, 540F series rose trim. See pages 22-24.
ANSI/BHMA	Certified A156.3 Type 8, Grade 1
UL/cUL	FVSR/FVSR7 - Panic hardware; GXHX/GXHX7 - Fire exit hardware (F) (8' x 8' pairs, 3 hr.)
Dogging	Hex key dogging supplied standard on panic devices
Options	Cylinder dogging, shim kit #723, sex nuts and bolts, rod extensions, bottom pullman latch (panic only) MicroShield®, Lumi-lite
Warranty	5-year limited

Note: Not available with Less Bottom Rod option

7160(F) Concealed Vertical Rod

The 7160(F) is a concealed vertical rod exit device to be used on wood and metal doors up to 10' where one- or two-point latching is desired. A Less Bottom Rod (LBR) option is available.

Features

- Designed for wide stile and flush doors
- Handed. Specify hand (field reversible)
- Mortised top strike
- Available less bottom rod (LBR option)

Applications

- Pairs of doors
- Double egress
- Metal, wood, or composite door materials

Specifications

Door Opening Width	-24 for 24" (60cm) doors -36 for 30" - 36" (76cm - 91cm) doors -48 for 36" - 48" (91cm - 122cm) doors Optional sizes can be special ordered. Consult Technical Product Support.
Door Opening Height	Standard door height adjustable to 8' (244cm), with the device centerline at 39-15/16" (101cm) from floor. Optional heights specify suffix -9, -10.

Options	Cylinder dogging, shim kit #723, sex nuts and bolts, less bottom rod (LBR), -9, -10 opening height, rod extensions, bottom pullman latch (panic only), MicroShield®, Lumi-lite.
Warranty	5-year limited

7220 Concealed Vertical Rod

The 7220 is a narrow stile concealed vertical rod exit device to be used on narrow stile, aluminum and metal doors where two-point latching is desired.

Features

- Designed for narrow stile doors
- Handed. Specify hand (field reversible)
- Bottom deadbolt for secure latching
- Fully adjustable roller strike

Applications

- Pairs of narrow stile doors
- Metal and aluminum doors
- For panic-rated doors only

Specifications

Door Opening Width	-24 for 24" (60cm) doors -36 for 30" - 36" (76cm - 91cm) doors -48 for 36" - 48" (91cm - 122cm) doors Optional sizes can be special ordered. Consult Technical Product Support.
Door Opening Height	Standard top rod adjustable to 7' to 8' (213cm to 244cm), with the device centerline at 39-15/16" (101cm) from floor. Optional heights specify suffix -9, -10
Door Thickness	1-3/4" (44mm) standard. 2" (51mm) and 2-1/4" (57mm); specify when ordering.
Minimum Stile Width	2" (51mm).
Projection	3-1/4" (83mm) active, 2-3/4" (70mm) dogged
Latchbolt	Top: 3/4" (19mm) stainless steel throw, pullman-type with automatic deadlatching. Bottom: 5/8" (16mm) throw deadbolt, held retracted during door swing.
Vertical Rods	1/2" (13mm) O.D. telescoping tubular rods
Strike	Top: Roller type 791. Bottom: Flush mounted 790. 794 floor strike optional (threshold openings).
Fasteners	Machine screws standard for panic hardware.
Trims	500F series escutcheon trim, 510F series pull/thumbpiece trim, 480F series offset pull trim. See pages 25-26.
ANSI/BHMA	Certified A156.3 Type 6, Grade 1
UL/cUL	FVSR/FVSR7 - Panic hardware
Dogging	Hex key dogging supplied standard
Options	Cylinder dogging, shim kit #723NS, sex nuts and bolts, -9, -10 opening height, rod extensions, bottom pullman latch, MicroShield®, Lumi-lite
Warranty	5-year limited

7220M(F) Concealed Vertical Rod

The 7220M(F) is a narrow appearance concealed vertical rod exit device for wide stile and flush metal doors only and is to be used where two-point latching is desired.

Features

- Narrow stile look designed for wide stile doors
- Handed. Specify hand (field reversible)
- Bottom deadbolt for secure latching
- Fully adjustable roller strike

Applications

- Pairs of doors
- Double egress
- Metal doors only

Specifications

Standard Trims

All Yale exit device trims (except mortise trim) feature the unique Free-Wheeling lever mechanism, similar to our 5400LN cylindrical lock. This Free-Wheeling trim features a clutch mechanism which allows the lever to float down 60 degrees when operated in the locked condition, improving vandal resistance.

7100 Series Trims

620F and 650F Series Escutcheon Trim

- Certified ANSI/BHMA A156.3, Grade 1.
- Trim thrubolts to exit device for strength.
- Beveled sides improve attack resistance.
- Solid forged escutcheon and Free-Wheeling trim resists vandalism and abuse.
- Flush cylinder in 6-pin applications for additional security.
- 1-3/4" (44mm) door standard. For doors through 2-1/4" (57mm) or shim-mounted devices, specify on order.
- Dimensions: 3" x 10-1/4" x 13/16" (76mm x 260mm x 19mm).
- Cylinders not included. See page 45-48 for cylinder options. 1-1/2" mortise cylinder required for mortise trim.
- Available with AR, AU, CR, JN, MO, PB, PN, VI and HA lever designs. See page 22.
 - Finishes: 605, 606, 609, 611, 612, 613E, 616, 619, 620, 626, 629, 630, 693, BSP
- Available with Reflections® lever designs. See page 21.
 - Finishes: 605, 606, 611, 612, 613E, 619, 626, 629, 630, BSP
- Trim ordering example: AU626F x 626 x RHR.
- 5-year limited warranty.

7200 & 7200M Series Trims

480F Series Offset Pull Trim

- 1-3/4" (44mm) door standard. For doors through 2-1/4" (57mm) or shim-mounted devices, specify on order.
- Plate Dimensions: 1-3/4" x L x 3/16" (44mm x L x 5mm) L = Overall plate length is 2-1/4" (57mm) longer than pull dimension.
- Pull Dimensions:
 - 480F and 481F trim have a 7-1/4" (184mm) pull length on centers which thrubolts to exit device for strength.
 - 482F and 483F trim have a 9" (229mm) pull length on centers and are not to allow pulls of different lengths to be utilized. Longer lengths of 15" (381mm), 18" (457mm) and up to 30" (762mm) are available.
- 2-13/32" (61mm) projection.
- Cylinders not included. See page 45 for cylinder options.
- Finishes: 605, 606, 609, 611, 612, 613E, 616, 619, 620, 626, 629, 630, 693, BSP
- Trim ordering example: 481F x 630 x LHR
- 1-year limited warranty

Applications	Cylinder	Dummy Pull	Nightlatch Access by Key
7200, 7210, 7220, 7250, 7200M(F), 7210M(F), 7220M(F), 7250M(F)	Rim	480F 482F	481F* 483F*
ANSI	--	02	03

*Not recommended for use with vertical rod exit devices.
For 626, 629 & 630 finishes the escutcheon is plated to simulate stainless steel.

Electrified Options

The Yale® 7000 Series exit devices offer a complete range of electrical options. A continuity in appearance, security and functions with the 7000 Series mechanical exit device is maintained. These electrified exit devices may be integrated into the monitoring security and alarm systems of most buildings.

Electrified Options

Model #	Exit Device Description	A	B	D	G	O	MELR	S	SAFE	SECURE	690F	691F
7100(F)	Rim Device (Wide)	x	x	x	x	x	x	x			x	x

Electrified Hardware Option Descriptions

A	Alarm Option	S	Latchbolt Position Monitor
B	Touchbar Monitor	SAFE	Fail Safe Operation (Mortise)
D	Delayed Egress	SECURE	Fail Secure Operation (Mortise)
G	Electric Dogging	690F	Fail Safe Electrified Trim
O	Trim Monitor Switch	691F	Fail Secure Electrified Trim
MELR	Motorized Electric Latch Retraction		

Note: Any combination of the following options cannot be ordered together:

1) MELR, G, or D 2) B or A 3) D, B or A

*Only available for rim and SquareBolt® Devices when used with Delayed Egress option.

What normally took an hour or more to connect now takes minutes. Yale electrified exit devices and trims are equipped with ElectroLynx connectors. As a standard feature, these “plug & play” connectors link power from the incoming source to electrified locking products, including hinges, locks, exit devices, magnetic holders and strikes.

Note: Electrified door hardware with ElectroLynx connectors require a compatible number of lead wires attached to the door hinge.

Electrified Options

Motorized Electric Latch Retraction "MELR"

Operation

Allows the latchbolt to be retracted electrically for momentary or maintained periods of time from a remote location. The exit device bolt remains retracted for as long as the device is energized. Removal of power returns the device to the life safety, self-latching mechanical mode. Easy interface with central or local fire alarm systems, automatic door operators, hands-free actuation devices, and access control systems. Allows free egress at all times. Manual hex key dogging standard on non-rated devices. Not available on openings less than 30" wide.

Electrical Specifications

Solenoid Assembly

- 24VDC (BPS-24-1) regulated/filtered power supply. Requires 1A per device
- .65A amp max during retraction
- .2 amp holding-continuous duty

Listings

UL/cUL listed for panic and fire exit hardware. Fire-rated devices must be wired into an automatic fire alarm system. 

Applications

Rim: 7100(F), 7200, 7200M(F)

SquareBolt®: 7150(F), 7250, 7250M(F)

SVR: 7110(F), 7170(F), 7210, 7210M(F)

CVR: 7120(F), 7160(F), 7220, 7220M(F)

Mortise: 7130(F)

Ordering

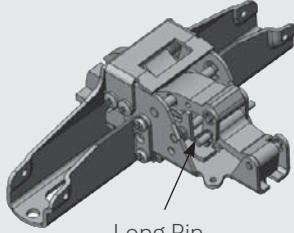

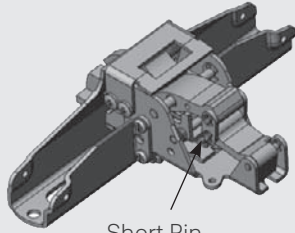

Suffix "MELR" to the Model Number. Ex: 7100MELR.

Note: Not available on "A" alarm exit device and "D" delayed egress exit devices. Existing solenoid and mechanical devices can be retrofit to motorized electric latch retraction (MELR) by purchasing a retrofit kit, if the device was manufactured after April 2015.

List No.	Product Description	Available Options		
		WS	"O"	WS & "O"
RMELR-36	7100 36" MELR DEVICE ASSY	X	X	X
RMELR-38	7200 36" MELR DEVICE ASSY		X	
RMELR-48	7100 & 7200 48" MELR DEVICE ASSY	X	X	X

Latchhead Requirements

Existing solenoid and mechanical devices manufactured prior to April 2015 require the device assembly retrofit kit (see above) and a new latchhead. Refer to the 7000 Series Parts & Service Manual for latchhead replacement part numbers.

Latchhead Pins	Latchhead Pins
(Since April 2015 (17/15))	(Prior to April 2015 (17/15))
	
Long Pin	Short Pin

Note: Label with date code is located on front face of latch head.

Date Code Label Example

17/15 refers to 17th week of 2015.

Electric Dogging "G"

Operation

Provides continuous latch retraction and pushpad dogging simultaneously. When power is applied to the device, depressing the pushpad will retract the latchbolt and continuously hold down the pushpad in the unlock position for push/pull operation. Removal or interruption of power will release the pushpad and the latchbolt will extend and secure the opening. For use in areas that require quiet door operation.

Exit device allows free egress at all times.

Electrical Specifications

2 Holding Magnets

- .35 amps @ 24VDC
- Requires a 2-wire pivot or hinge and a standard 24VDC regulated and filtered power source (Recommended BPS power supplies)

Listings

UL/cUL listed for panic and fire exit hardware. 
Fire-rated devices must be wired into an automatic fire alarm system.

Applications

Rim: 7100(F), 7200, 7200M(F)
SquareBolt: 7150(F), 7250, 7250M(F)
SVR: 7110(F), 7170(F), 7210, 7210M(F)
CVR: 7120(F), 7160(F), 7220, 7220M(F)
Mortise: 7130(F)

Ordering

Suffix "G" to the Model Number. Ex: 7150G.

Note: Not available on "D" delayed egress exit devices.

Mortise Device Trim Control "Safe/Secure"

Operation

Allows the outside trim to lock or unlock electrically from a remote location. Exit device allows free egress at all times.

Fail Safe devices are commonly used in stair towers or locations that require the trim to unlock when power is removed or during fire alarm activation.

Fail Secure devices are used to secure openings and are usually integrated into the building security system to allow access control. Fail Secure trims remain locked when power is removed.

Electrical Specifications

Solenoid

- .35 amps @ 24VDC only (12 volt not available)
- Continuous duty
- Requires a 2-wire pivot or hinge and a standard 24VDC regulated and filtered power source (Recommended BPS power supplies)

Listings

UL/cUL listed for panic and fire exit hardware. 

Applications

Mortise: 7130(F) - lever functions only

Ordering

"Safe" – Maintains the outside trim in a locked state when energized. Removal of power unlocks outside trim.

"Secure" – Unlocks the outside trim when energized. Remains locked when power is removed.

Suffix "SAFE" or "SECURE" to the Model Number.
Ex: 7130 x L5 x Safe.

Electrified Options

Delayed Egress "D"

Operation

An exit door is normally closed and latched. The delayed egress device secures the door in the locked mode with the Red LED indicating locked mode status. Depressing the pushpad for less than three seconds will cause the device to beep without initiating the alarm. Depressing the pushpad for three seconds or longer will initiate an irreversible local audible beeping tone and a visual amber indicator. The person depressing the pushpad is denied egress for 15 or 30 seconds while alarm signals unauthorized egress. After the factory-set delay time (15 or 30 seconds), the device releases for egress, the LED changes to Green and the beep changes to a steady tone which continues to alarm until reset. The remote monitoring contact outputs can be used to alert security personnel.

Note: The 15-second time delay is standard. (Optional 30-seconds may be accepted by local jurisdiction.)

Electrical Specifications

- Input Voltage 24VDC (+/- 10%)
Power Consumption:
- Standard Device: 500 mA
- Device with Safe/Secure Electric Mortise or Electric Trim Control: 1.5 Amps.

Certifications & Listings

UL/cUL Listed: FUKD/FUKD7 - Controlled Exit Panic Devices 

FWAX/FWAX7 - Special Locking Arrangements

GXHX/GXHX7 - Fire Exit Hardware

ANSI/BHMA Certified: A156.3 & A156.24 

U.S. Patent #: 7,469,942

Applications

- For use on hollow metal interior or exterior doors.
- Available for 7100(F), 7200M(F) and 7200 series rim, SquareBolt®, surface vertical rod, concealed vertical rod and mortise panic and fire-rated exit devices. For surface vertical rod exit devices, rod and latch guards (provided by other) must be used.
- Complies with NFPA 101 "Code For Safety To Life From Buildings And Structures" by National Fire Protection Association.
- BOCA options available to comply with National Building Code requirements. BOCA option is not suitable for installations in accordance with NFPA 101.
- 1-3/4" door thickness standard; 2" and 2-1/4" optional; specify when ordering.
- Standard 36" device fits doors 35"- 36" Device cannot be cut less than 35".
- Option -48 fits doors 41"- 48". Devices cannot be cut less than 41".

Standard Features

Key Switch Operation:

- Normal: The system is armed by applying power to the device (solid Red LED). Depressing the pushpad for more than the nuisance delay time starts the exit delay cycle.

- Bypass: Turning the key switch clockwise to the bypass position allows immediate egress without alarming. The bar functions as a standard exit device (Red LED flashes slowly).
- Reset/Delay: Used to reset device after the factory-set 15 or 30-second delay cycle has timed out.
- Rearm: If the device is armed, turning the key counterclockwise to the reset mode will release the device without alarm for egress and will rearm after 10 seconds (Red LED flashes quickly).

Local Visual Status Indicator:

- RED: The exit device is secure and the delayed egress circuitry is energized.
- AMBER: The egress cycle has started, indicated by an irreversible local audible beeping tone.
- GREEN: The exit device is in alarm and has released.

Nuisance Delay Time:

- Depressing the pushpad for less than three seconds sounds an audible beep without activating the irreversible alarm sequence. (Immediate alarm can be selected by removing a jumper on the control board.) Nuisance Delay Times are dip switch selectable to Immediate, 1, 2, or 3 (default) seconds on the control board.

Internal Alarm Siren:

- When armed, depressing the pushpad initiates the internal 85db alarm siren.

Door Position Switch (DPS) Control Board input:

- Allows external DPS wiring to control board for higher security. Alarm sounds when the DPS contacts open when the door is forced open.

Remote Control Inputs:

- Remote Reset: Accepts a momentary contact (keyswitch, pushbutton, etc) to reset the unit during alarm or allows momentary egress (selectable 5, 10 (default), 20 or 40 seconds) when the unit is armed.
- Remote Bypass: Accepts a momentary contact to put the unit in a maintained bypass operation. The exit device functions as a standard device.

Alarm Outputs:

- Contacts change only during alarm status. One set of Alarm Relay Output contacts change state when device delay cycle has started (Alarm). Contacts are selectable for Normally Open (N.O.) or Normally Closed (N.C.) using the 2-pin jumper on the control board. N.O. is default setting. One set of contacts changes when device has released (Secure). Secure Relay Output has two sets of contacts (N.O. and N.C.). The Alarm Relay and Secure Relay contacts are SPDT type, rated 1A @24VDC.

Door Sign:

- Door sign per code included.

Electrified Options

Delayed Egress "D" (cont.)

Rearm After Closing (RAC)

Works in conjunction with an external DPS wired to the Control Board. Field selectable settings:

Setting 1 :

If the door is open beyond the momentary egress or remote reset time the device will Alarm.

Setting 2:

If the door is open beyond the momentary egress or remote reset time the device will remain in egress mode indefinitely until the door closes (will not Alarm).

Options

Latchbolt Position Monitor "S":

- Used to monitor the positions of the latchbolt or vertical rods (SPDT switch).
- To order, suffix "S".
- See page 32 for more information.

Trim Monitor Switch "O":

- Used when outside trim is desired. This switch will allow Bypass (disarms device) when the trim is used for ingress. The device will need to be reset upon entry by means of the keyswitch on the device or a remote switch.
- To order, suffix "O".

NFPA 101 Requirements:

15- & 30-Second Delay

- Upon depressing the pushpad for 3 seconds, the delayed egress device will sound an audible beeping tone and allow the door to be opened after 15 (or 30) seconds. The tone will then change to a continuous alarm until reset. Resetting of the alarm and re-arming of the device is accomplished by manual means only.
- To order, specify NFPA 15-second or NFPA 30-second.
- Purchase orders that do not have an option noted will default to the NFPA 15-second delay.
- NOTE: Where approved by the authority having jurisdiction, a delay not exceeding 30 seconds shall be permitted.

BOCA Requirements:

15- & 30-Second Delay

- Upon depressing the pushpad for 1 second, the delayed egress device will sound an audible beeping tone and allow the door to be opened within 15 (or 30) seconds. The tone will then change to a continuous alarm until reset. Resetting of the alarm and re-arming of the device occurs automatically once the door has been returned to the closed position for 30 seconds. The 30-second re-arming timer will re-start if the pushpad is depressed or the door is re-opened before actual re-arming of the device occurs. A DPS (Door Position Switch) is required for the BOCA option.
- To order specify BOCA 15-second or BOCA 30-second.
- Purchase orders that do not have an option noted will default to the NFPA 15-second delay.
- NOTE: An increase in the egress delay to 30 seconds shall not be permitted except as approved by the authority having jurisdiction.

Electric Trim Control - "SAFE" or "SECURE":

- The mortise delayed egress exit device can be ordered with fail safe or fail secure outside trim operation. In a fire condition the fail safe trim will release for entry. When access control is used the fail secure trim allows entry by means of a remote card reader, keyswitch, pushbutton, etc.
- To order, suffix "Safe" or "Secure".
- NOTE: The trim will open the door without affecting the device in an armed condition, if a door position switch is not used.

Required Accessories

Power Supply:

A regulated and filtered power supply with a fire alarm interface is required. 1 Amp minimum @ 24VDC per device. Special options will require more amperage. Consult factory. Recommend: BPS series.

Power Transfer:

Allows the power cable to make the transition from frame to door without pinching or removal of insulation.

Cylinders

Utilizes a 1-1/8" mortise cylinder with a 2160 cam. Cylinder not included unless specified. See page 45-48.

Ordering

Suffix "D" after device.

Example: 7150FD

Refer to McKinney Power Transfer Device catalog for ElectroLynx options.

ElectroLynx® Power Transfer Device Options		
Hinge	External DPS	Options
QC8	Not required	None
QC12	Required	S, or O, or Safe/Secure Options

Electrified Options

Alarm Kit "A"

Activation: Alarm is armed by turning key clockwise. Low audible chirp indicates alarm has been activated. Alarm will sound when the exit device pushpad is depressed. Factory preset for standard alarm mode which automatically resets after 5 minutes.

Continuous Alarm Mode: Alarm sounds continuous when the exit device pushpad is depressed. Alarm must be manually reset by keyswitch. (This feature is selected by a switch on the circuit board.)

Low Battery Warning: Audible chirp.

Nuisance Alarm: Factory preset for instant alarm. Selectable feature for alarm to sound when pushpad is depressed for more than 2 seconds. (This feature is selected by a switch on the circuit board.)

Arming Delay/Authorized Egress: 10-second delay (after arming) permitting egress (by turning key clockwise).

Alarm Shunt: Ingress shunt alarm input for devices with latchbolt position (S) monitor. NOTE: "S" included with SVR devices.

Power Requirements: One 9-volt battery (included).

Loudness: 90db @ 10 feet.

Arm/Disarm: Uses one 1-1/8" straight cam mortise cylinder. Clockwise turn arms the alarm, counter clockwise turn disarms or silences the alarm.

Device Status: A Red LED indicator will illuminate every 30 seconds when the alarm is armed.

Tamper Resistant: Built-in safety monitor sounds alarm when tampering occurs.

Warning Decal: "EMERGENCY EXIT - ALARM WILL SOUND"

Applications: Rim: 7100(F), 7200, 7200M(F); SquareBolt®: 7150(F), 7250, 7250M(F); SVR: 7110(F), 7170(F), 7210, 7210M(F); CVR: 7120(F), 7160(F), 7220, 7220M(F); Mortise: 7130(F)

Kit: Available in kit form for field retrofit.

Bar Length: Available for 36"- 48" devices only. May not be used on bars less than 36".

- Standard 36" device fits doors 35"-36" Device cannot be cut less than 35".
- Option -48 fits doors 41"- 48". Devices cannot be cut less than 41".

How to Order: Specify 7116 for alarm kit. Suffix -"A" when ordering with device. Ex: 7150-A.

NOTE: The 7116 alarm kit cannot be retrofitted in the field to the 7110(F), 7170(F), 7210 or 7210M(F) surface vertical rod exit devices. This option is available as a factory order only for these devices. Any attempt to retrofit the 7116 alarm kit with these surface vertical rod exit devices will void the warranties for these products.

Electric Trim

The electrified 600 series heavy-duty trim provides electric locking and unlocking of trim. Ideal for door control where increased security is necessary at all times, while meeting life safety codes. Electric trim is ideal for many applications, including stairwell towers, high-security areas, schools, hospitals, and factories.

Functions

690F Trim - Fail Safe

- Lever is locked when power is on (Free-Wheeling)
- Power off allows entry from trim
- Inside device is always active for egress
- Mechanical key override (09 Function - Key allows lever to retract latchbolt. Key can only be removed in locked position)

691F Trim - Fail Secure

- Lever is locked when power is off (Free-Wheeling)
- Power on allows lever activation for entry
- Inside device is always active for egress
- Mechanical key override (09 Function - Key allows lever to retract latchbolt. Key can only be removed in locked position.)

Features

- Accepts all standard and Reflections® decorative lever designs
- Plug connector with 4' wire lead (Exit device is used as wire raceway, not door)
- Key Override - Requires rim cylinder (sold separately)

Applications

- 7100(F) Rim Device
- 7150(F) SquareBolt®
- 7110(F), 7170(F) Surface Vertical Rod

Electrical Specifications

- 330 mA @ 24 Volts
SM - Security Monitor Switch
- 4 AMP @ 250VAC
Voltage: 24 VAC/VDC only
BPS series power supplies recommended.

Options

- SM - Security Monitor. A SPDT switch that monitors the position of the solenoid (lock and unlock status).
- EX - Trim gasket for exterior applications.

Electrified Options

Touchbar Monitor "B"

Provides indication of the pushpad being depressed. Used as a Request to Exit switch to shunt alarm systems, release electromagnetic locks or monitor egress.

Electrical Specifications:

2A @ 28VDC
SPDT contacts

Listings: UL/cUL listed for panic and fire exit hardware.

Applications: Rim: 7100(F), 7200, 7200M(F)
SquareBolt®: 7150(F), 7250, 7250M(F)
SVR: 7110(F), 7170(F), 7210, 7210M(F)
CVR: 7120(F), 7160(F), 7220, 7220M(F)
Mortise: 7130(F)

Ordering: Suffix "B" to the Model Number. Ex: 7120B.

Note: Not available on "D" Delayed Egress devices or with the "A" Alarm kit option.

Latchbolt Position Monitor "S"

Provides indication on the position of the latchbolt. Used with security systems to monitor the latchbolt, also used to activate automatic door operators upon latch retractions.

Electrical Specifications:

2A @ 28VDC
SPDT contacts

Listings: UL/cUL listed for panic and fire exit hardware.

Applications: Rim: 7100(F), 7200, 7200M(F)
SquareBolt®: 7150(F), 7250, 7250M(F)
SVR: 7110(F), 7170(F), 7210, 7210M(F)
CVR: 7120(F), 7160(F), 7220, 7220M(F)
Mortise: 7130(F)

Ordering: Suffix "S" to the Model Number. Ex: 7120S.

Trim Monitor Switch "O"

Provides indication of the trim being operated from the outside. Used as a Request to Enter signal switch to shunt alarms, also used to monitor entry.

Electrical Specifications:

2A @ 28VDC
SPDT contacts

Listings: UL/cUL listed for panic and fire exit hardware.

Applications: Rim: 7100(F)
SquareBolt®: 7150(F)
SVR: 7110(F), 7170(F)
CVR: 7120(F), 7160(F)
Mortise: 7130(F)

Ordering: Suffix "O" to the Model Number. Ex: 71500.

Electrified Options

Stand Alone Door Alarm SDA16

The SDA16 stand-alone battery operated door alarm is designed to continually monitor the status of a door. When the door is opened without authorization, an alarm is triggered to alert the security violation. This alarm features a Peizo horn which blasts a deafening 105+ decibels to alert the violation.

This unit is ideal for emergency doors as well as stairwell doors and rear exit doors in retail environments. The unit, which can also be hardwired, easily complements existing hardware, making any opening alarmed. The SDA16 door alarm is typically mounted on the interior of the door frame or door and is paired with a magnet mounted on the opposing side of the door gap.

Features

- Dimensions: 8.3"L x 3.1"W x 2.0"D (210mm L x 79mm W x 52mm D)
- Non-handed unit (field reversible)
- Unit powered by 9V battery
- Unit can be hardwired by using WH-11 wire harness and 784 power supply
- No battery is required in unit with hard-wire option – if power is lost, optional gel-cell battery in power supply will give approximately 10,000 operations
- Reverse battery protection safeguards the unit if the battery is incorrectly installed
- A low-voltage battery is indicated by an audible signal every 30 seconds
- Piezo horn blasts at 105+ decibels if the door is used with out proper authorization
- The LED will flash every 30 seconds, indicating either the unit is armed or, if under auto reset, that the door has been violated
- Various field-adjustable features by dip switch including automatic alarm reset, REX and passage time delay, and LED color preference
- A tamper switch provides instantaneous signal to sound horn in the event the cover is removed. Horn will sound until the unit is reset by the key or remote reset/arm switch
- Conformally coated electronics for weather resistance
- Cover is held in place by cam lock which protects mounting screws, electrical system and internal sensors
- Accepts external cylinder (not included, must be specified)
- Accepts standard mortise cylinders (not included, must be specified)

Remote Mounting

The SDA16 can be installed remotely from the door by attaching the contacts to the door and frame. The unit can be installed up to 6 feet from the door. This provides the ideal solution for circumstances where exposure to weather may be an issue. To order specify "SDA16XL".

Note: Actual wire length is 6 feet.

Cylinders and Accessories

- 784 Power supply (9VDC) – includes plug-in wall transformer
- Plug-in wall transformer with 12' cable assembly (part no. 00-0000-3425)
- Gel-cell battery – optional for use with 784 power supply (part no. 00-0000-3426)
- WH-11 Wire harness for remote power and remote unlock
- Mortise cylinder for unit
- Rim cylinder for outside control
- See pages 45-48 for cylinder information.

Electrified Options

782 Power Control

Operation

Designed to control one or two electric latch retraction "P" exit devices. Equipped with two 20-second timers which can operate the exit devices together or independently. Requires a momentary or timed, dry contact input and can be interfaced with access control systems, automatic door operators, "blow open" type scenarios and has provisions for N/C fire alarm systems.

Note: The 782 is required for use with the "P" latch retraction option. Using any other power supply with the "P" option voids the warranty of the device.

Features

- Two control inputs. Accepts normally closed dry contacts for device activation from a key switch, push button, access control or fire alarm system.
- Two normally open control outputs for automatic door operators
- Two "P" device outputs
- Fire Alarm Interface input
- 24VDC output for audible or LEDs .25 AMP

Electrical Specifications

- 120 VAC 60Hz 750mA (max.)
- Not available in 240V
- 38-42 VDC output
- 10 amp inrush

Listings

- UL 294 
- UL CLASS 2 outputs

Applications

"P" Electric Latch Retraction Option (not required with standard MELR option)

Ordering

782 Controller

Note: This part will no longer be listed as a sellable item for use with the 7000 Series exit device as of December 15, 2020.

Yale recommends McKinney®, Pemko and Securitron® for power transfer devices and other electronic accessories.

BPS Power Supplies By Securitron®

Operation

Power supplies are designed to provide reliable filtered and regulated power for long life to a variety of electrified hardware components.

Note: The BPS is required for use with the "MELR" latch retraction option. Using any other power supply with the "MELR" option voids the warranty of the device.

Product Features

- Individual output circuit breakers
- Regulated and filtered fuse protected outputs
- LEDs monitor zone status (voltage or no voltage)
- Slide switches connect or disconnect load from power (Not available on 1 Amp supplies)
- Internal Back-Up battery charging circuit
- Rugged steel enclosure
- Fire alarm interface

Listings

- UL CLASS 2 

Applications (use with):

- D – Delayed Egress
- G – Electric Dogging
- Safe – Fail Safe mortise device trim control
- Secure – Fail Secure mortise device trim control
- 690/691 – Electric Trim

Ordering

Ex: BPS-24-4

BPS-24-2	120 VAC	2 Amp @ 24 VDC	2 "D" or 1 "D" with Safe or Secure
BPS-24-4	120 VAC	4 Amp @ 24 VDC	4 "D" or 3 "D" with Safe or Secure

Consult factory for additional power supply applications.

Motorized Electric Latch Retraction

Motorized Electric Latch Retraction Interfaced with an Automatic Door Operator

Components

- 7100MELR Latch Retraction
- Automatic Door Operator by Norton®
- ADA Pushbuttons #671 by Norton
- QC8 Power Transfer Hinge by McKinney®
- 700 Wave to Open Switches by Norton

Operation

Exit device allows free egress at all times.

Activating the interior or exterior pushbutton retracts the latchbolt in the device and the door automatically opens. Door closes and relatches after hold open time has elapsed in the operator.

Electric Dogging

Electric Dogging with Monitor Functions

Components

- 7100GBS Electric Dogging Device with Touchbar Monitor
- BPS Power Supply with fire alarm interface
- Keyswitch with a Red and a Green LED
- DPS (door position switch) by Securitron®
- QC12 Power Transfer Hinge by McKinney®

Operation

Exit device allows free egress at all times.

Activating the maintained keyswitch applies power to the 7100GBS device. The first mechanical depression of the pushpad will retract the latchbolt and hold the pushpad down in a dogged position. Fire alarm activation, interruption of power or turning the keyswitch off will release the pushpad and the latch will extend.

- The Green LED illuminates when power is on, and the pushpad can be depressed and dogged.
- The Red LED illuminates when power is off, the door is closed and the device is latched and secure.

Monitor Functions

Motorized Electric Latch Retraction with Monitor Functions

Components

- 7100MELRBOS, Exit Device with Touchbar, Outside Trim and Bolt Position Monitors
- Momentary Pushbutton with Red and Green LED
- DPS (door position switch) by Securitron®
- TSB-C Door Cord by Securitron®

Operation

Exit device allows free egress at all times.

Activating the 402 x L2 push button retracts the latchbolt from a remote location.

- The Red LED indicates that the door is closed and latched.
- The Green LED illuminates when any of the following situations occur:
 - The pushpad is depressed
 - Tampering or retraction of the latchbolt
 - Operation of outside trim
 - Opening of door

Electrified System Guide

Monitor Functions

Rim Exit Device with High Security Application

Components

- 7100 - PB627F Nightlatch Trim - Yale®
- S Bolt Position Monitor Switch
- B Pushpad Monitor Switch
- O Trim Monitor Switch
- Door Position Switch - Securitron®
- QC12 Power Transfer Hinge by McKinney®
- Surface Door Closer - Yale

Operation

Operation of the 7100 Exit Device with the S, B, O and ASSW-104A can be used together or individually to sound an alarm, shunt an alarm, monitor the door's security or as a "Request to Exit" in conjunction a magnetic lock.

Electric Trim

Rim Exit Device with Electrified Trim

Components

- 691F Electrified Trim - Yale
- 7100 Rim Exit Device - Yale
- Digital Keypad by Securitron®
- QC8 Power Transfer Hinge by McKinney®
- BPS Power Supply

Operation

Operation of the Digital Keypad will allow keyless entry from the non-protected side of the opening. When a valid code is entered into the keypad, voltage will be applied to the trim, making the lever active and allowing ingress. Free exit is allowed by using the exit device from the protected side of the door.

Delayed Egress

Rim Exit Device with Delayed Egress Option on "Exit Only" Door

Components

- 7100D Delayed Egress Exit Device - Yale
- QC8 Power Transfer Hinge by McKinney®
- BPS Power Supply
- Surface Door Closer - Yale

Operation

Operation of the 7100D Exit Device will sound an alarm and activate either a 15- or 30-second alarm sequence inside of the exit device. After this time period, the device will release the pushpad, making it active and egress is possible. When the fire alarm is activated, power to the exit device will be interrupted, allowing free egress and mechanical latching. Authorized alarm bypass and reset is done through the built-in keyswitch located in the exit device.

7100 Series

The 7100 is the perfect choice for wide stile panic and fire-rated applications. The smooth architectural lines provide pleasing aesthetics to accent a building's appearance, and looks aren't always deceiving. Beneath the strong exterior lie the components to meet the demanding security and access control needs of today. The delayed egress option is just one of the many electromechanical options offered to enhance security. Complementing the 7100 series with the 600F series heavy-duty trim completes the package for a heavy-duty, security hardware package.

Applications

Single Door	UL Listing	Maximum Opening	Application		
SquareBolt®					
7150/7150-2	Panic	4' x *	Surface applied; single-point latching.		
7150F/7150F-2	3 Hr.	4' x 8'			
7150WS	Panic	4' x 8'	Surface applied; single-point latching. Used as components in swinging door windstorm-rated assemblies (refer to local codes).		
7150FWS	3 Hr.	4' x 8'			
Rim					
7100/7100-2	Panic	4' x *	Surface applied; single-point latching.		
7100F/7100F-2	3 Hr.	4' x 8'			
Mortise					
7130/7130-2	Panic	4' x *	Mortised in door; single-point latching.		
7130F/7130F-2	1-1/2 Hr.	4' x 9'			
7130F/7130F-2	3 Hr.	4' x 8'			
Surface Vertical Rod					
7110	Panic	4' x 8'	Surface applied; two-point latching.		
7170	Panic	4' x 10'			
7170 x LBR	Panic	4' x 10'	Surface applied; one-point latching.		
7170WS	Panic	4' x 8'	Surface applied; two-point latching. Used as components in swinging door windstorm-rated assemblies (refer to local codes).		
Concealed Vertical Rod					
7120	Panic	4' x 8'	Rods concealed in door; two-point latching.		
7160	Panic	4' x 10'			
7160 x LBR	Panic	4' x 10'		Rods concealed in door; one-point latching.	

*UL does not set a door height limitation on panic applications.

*UL does not set a door height limitation on panic applications.

7200M Series

The 7200M series combines the appearance of the 7200 narrow stile series with the life safety and fire rating options of the 7100 series. This unique narrow design exit device may be used on wide or flush stile doors and is available with a wide range of mechanical and electromechanical options including, electric latch pullback and monitoring features. The 7200M series is not to be used on narrow stile applications.

Based on 1-3/4" door thickness. Collar length required must be specified for cylinders and/or housings ordered separately.

LFIC = Large Format Interchangeable Core.

SFIC = Small Format Interchangeable Core.

NA = Application Not Available

Collars & Tailpieces

Cylinder Collars

If required, cylinder collar size must be specified.

<p>1765 Recessed Cylinder Collar "A" Dimension: Thicknesses from 1/16" (2mm) to 1-15/32" (37mm) as required. Material: Brass, Bronze</p>	<p>KP3 Wave Washer (Furnished standard with 1765 collar for Yale® KeyMark® cylinders and 630F series trim).</p>	<p>599 Recessed Cylinder Collar with Radius "A" Dimension: Thicknesses from 1/16" (2mm) to 1-15/32" (37mm) as required. Material: Brass, Bronze</p>	<p>KP4 Flush Mount Cylinder Collar Material: Brass, Bronze</p>

Long Tailpiece Kit

Long tailpiece kit for use with escutcheon series trim, up to 4-1/2" thick doors.

Door Thickness	Trim Type	Part Number
2" - 2-1/2"	620F and 630F Series Trim	81-9500-1665-000
2-1/2" - 3-1/2"	620F and 630F Series Trim	81-9500-1635-000
3-1/2" - 4-1/2"	620F and 630F Series Trim	81-9500-1636-000

Specify part number to order.

Von Duprin® Tailpiece

This tailpiece is available for the Yale® 1109 rim cylinder to operate the night latch function for Von Duprin exit devices. To order, specify model number: 1145VD.

Strikes

Rim Devices

757F
Standard strike for 7100(F), 7150(F), 7200M(F) and 7250M(F) devices. Supplied with #10-24 x 3/4" machine screws, two shims (each 1/16" thick), and one locking plate.

757FWS
Standard strike for 7150(F)WS and 7250M(F)WS devices. Supplied with 2 each #10-24 x 1-1/4" and 2 each #10-24 x 3/4" machine screws, two shims (each 1/16" thick), one locking plate and one interlocking bracket (not shown) with 4 each #10-24 x 3/4" machine screws.

759
Standard strike for 7200, 7205 devices.

793
Optional strike for double door applications without a mullion. Supplied with #10-24 x 3/4" machine screws, two shims (each 1/16" thick), and one locking plate. Panic only.

Vertical Rod Devices - Top Strikes

791
Standard top strike for 7110(F), 7120(F), 7210, 7220, 7210M(F), 7220M(F) series devices. Supplied with #10-24 x 3/4" machine screws, two shims (each 1/16" thick), and one locking plate.

726
Standard top strike for 7170(F) series devices. Supplied with #12-24 x 11/16" machine screws and #12 x 1-1/4" sheet metal screws, and one shim (1/16" thick).

761
Standard top strike for 7160(F) series devices. Supplied with #10-32 x 3/8" machine screws and #10 x 1" sheet metal screws.

797
Optional bracket for mounting 791 top strike in flush transom opening. Supplied with 1/4-20 machine screws; SN-134 sex nuts, optional.

Vertical Rod Devices - Bottom Strikes

790
Standard bottom strike for 7110(F), 7120(F), 7160(F), 7170(F), 7210, 7220, 7210M(F), 7220M(F) series devices. Press in place.

794
Optional bottom strike for fire openings using saddle thresholds or for flush floor mount. Must use for fire openings with 1/2" thresholds. Supplied with #10-24 x 1/2" machine screws and floor anchors.

702
Optional bottom strike for bottom pullman latch option. Supplied with #8 x 8/32" combination screws.

Strikes

Mortise Devices

<p>798 Standard curved lip ANSI strike used with 7130(F) devices. (1-1/4" lip)</p>	<p>712 Optional flat lip ANSI strike used with 7130 devices for pairs of doors with astragals. (7/8" lip)</p>	<p>718 Optional open back strike. Permits opening of the inactive door for pairs of doors where approved by door manufacturer.</p>	<p>202 Optional strike box for ANSI strikes. 7/8" (22mm) deep.</p>

Shim Kits

Shim kits, for devices on doors with interfering molding, are available. Each standard shim kit contains 2 sets of 1/8" thick shims to shim a device 1/8" (3mm) or 1/4" (6mm). Windstorm (WS) shim kits contain 3 sets of 1/8" thick shims. Longer device mounting screws (not included) are required for more than 1/4" (6mm) shimming. 693 (Black) finish.

723	Shim kit for 7100(F) series rim, 7150(F) series SquareBolt®, 7120(F), 7160(F) series* concealed vertical rod, and 7130(F) series* mortise exit devices.
723WS	Shim kit for 7150(F)WS series SquareBolt exit devices.
723NS	Shim kit for 7200 series rim, 7200M(F) series rim, 7250 series SquareBolt, 7250M(F) series SquareBolt, 7220 series* and 7220M(F)* concealed vertical rod exit devices.
723NSWS	Shim kit for 7250M(F)WS series SquareBolt exit devices.
724	Shim kit for 7110(F) and 7170(F) series surface vertical rod exit devices.
724WS	Shim kit for 7170(F)WS series surface vertical rod exit devices.
724NS	Shim kit for 7210(F) series surface vertical rod exit devices.

*Note: Special mortise or concealed vertical rod components needed for openings requiring more than (2) shim kits, or for shimmed mortise devices in doors over 1-3/4" (44mm) thick. Details on application.

Extension Rods

Model #	Length
7010-2	2" (51mm)
7010-6	6" (152mm)
7010-12	12" (305mm)
7010-24	24" (610mm)

Specify finish.

Specialty Fasteners

Sex Nuts:

Required for wood, composite or unreinforced metal doors.

- **SN-104** – Interlock bracket pack of (4) 10-24 sex nuts for all fire rim and SquareBolt® devices.
- **SN-134** – pack of (4) 1/4-20 sex nuts for all devices.

TORX® Security Screws:

Available for factory product orders. Wood screws may only be used in predrilled pilot holes of solid core wood doors.

Accessories/Options

720 Dummy Pushbar

For push-pull vestibule doors leading to doors with 7000 series exit devices. Bars fit doors up to 48" (122cm) wide. Same finishes as devices. Specify 720 x finish.

730 Touchpad Cover

Field replacement cover to renew touchpad looks. Specify 730-36 or 730-48 x finish.

Lumi-Lite Touchpad Cover

The Lumi-lite touchpad cover can be ordered separately and easily retrofits to existing 7000 exit devices in the field. To order specify: 730-36LUM for 36" cover and 730-48LUM for 48" cover

Flush End Cap

The flush end cap is a heavy-duty flush mounted end cap constructed of solid cast or stainless steel materials. For use on exit devices subject to abuse by vehicles being pushed through the doorway opening; i.e. carts, gurneys, wagons, etc. To order with device, specify option: ECK1. Available as a retrofit kit for existing installations, to order specify part number: 81-9500-0620 x finish.

Bottom Pullman Latch

Optional bottom pullman latch available for panic listed vertical rod exit devices. To order with devices, specify "BPL." 702 bottom strike required, see page 49.

Cylinder Dogging

Cylinder dogging is available for all panic-listed exit devices only. Requires use of 1-1/8" mortise cylinder. When ordered with a devices, cylinder must be ordered separately. (See How to Order, "Fourth Digit", page 5.) Cylinder dogging kit available; specify 715-48 (cylinder not included with this kit).

Replacement End Cap

The 7000 series replacement end cap is designed with heavy-duty material with three screw holes in strategic locations to resist abuse and maintain functionality. The ECK7 kit is available for easy retrofit to existing exit devices. To order retrofit kit, specify ECK7 x finish.

Reinforced End Cap**

This end cap consists of a solid steel plate welded to the end bracket which evenly distributes impact forces over a larger surface area, thus eliminating point loading. To order with device, specify option ECK3. To order separately, specify kit model number ECK3. Kit includes reinforced bracket, end cap and (6) 1/4" x 20 screws.

**Note: Six 1/4 x 20 screws come standard with either ECK3 option or kit. Only two screws required to fasten end cap assembly to door for retrofit. Other four screws are used with SquareBolt® Latch Head if ordered as an ECK3 option with complete device. When the kit is ordered a new end cap is also supplied, finish must be specified.

Anti-Pry Bracket

The anti-pry bracket offers end users increased security by improving resistance against jamb spreading during a pry attack. When the door is in the closed position, the anti-pry bracket interlocks in position between the exit device strike and frame preventing the strike and exit device latch from being separated. For use with all 7100(F) rim and 7150(F) SquareBolt® devices. Kit includes interlock bracket and end cap shim, the standard exit device mounting screws can be used, therefore, no additional fasteners are required. Black powder coat finish. To order specify option/model number: 725

Less Bottom Rod

7170(F90) surface and 7160(F90) concealed vertical rod exit devices available less bottom rod. Fire-rated devices supplied standard with a heat-activated door bolt popper. To order, suffix LBR.

Plastic Installation Template

Provided as a standard with all 7000 series exit device, the plastic installation template facilitates door markings over traditional paper templates. This provides a more accurate door prep which reduces installation mistakes and overall installation time. Template dimensions: 8-1/4" x 3-1/4" (210mm x 83mm). To order separately, specify part number: 60-7000-9100-999.

Schlage® Cam Assembly

This cam and housing assembly includes a cam engineered to accept Schlage rim cylinders. No modifications are required to existing 500 and 600 series exit device trims thus maintaining the trim's classroom and storeroom functions. To order, specify part number: 60-7000-0815.

Mullions

M200(F) Removable Mullion

M200(F) steel mullions are for use with 7100(F) series exit devices. Mullions may be field cut to fit opening. Red primer finish.

- M200 panic rated.
Tubular steel, 2" x 3" (51mm x 76mm). Specify 7', 8', or 10'.
- M200F 3 hour fire rated.
Tubular steel, 2" x 3" (51mm x 76mm). Specify 7' or 8'.
- M200FWS 3 hour fire rated.
Certified hurricane resistant (refer to local codes). Hurricane
Tubular steel, 2" x 3" (51mm x 76mm). Specify 7' or 8'.

M300 Removable Mullion

M300 mullions are for use with 7200 series exit devices. They consist of an aluminum extrusion 1-1/4" x 3" (32mm x 76mm), with built-in strikes for device bolts. Supplied with mounting brackets, mechanical fasteners, and mullion stabilizers. Available finishes are 628 (Satin, clear anodized) and 695 (dark amber coat). Specify 8' or 10'. For 9' mullion, specify 10' and cut to size in field.

102S Mullion Stabilizer Kit

Recommended for high openings and whenever door movement must be further restricted. Supplied standard with M300 mullions. To order separately, specify 102S.

Mullions

KRM200(F) Keyed Removable Mullion (KRM)

Keyed removable mullions are for use with 7100(F) series exit devices. They are designed for simple removing when an unobstructed large opening is required and easy replacement and locking to maintain the integrity of the opening.

- Easy cylinder installation.
- Mullion automatically relocks when reinstalled without the use of the cylinder key.
- When ordering, add KR prefix to mullion, example: KRM200 and KRM200F.
- KRM200 panic rated. Specify 7', 8', or 10'.
- KRM200F 1-1/2 hour fire rated. Specify 7' or 8'.
- KRM200FWS 3 hour fire rated.
 Certified hurricane resistant (refer to local codes). Specify 7' or 8'.  Hurricane

M200(F) And KRM Options

• M203 Spacer Block

Recommended for double rabbeted frames where the stop face width is less than the mounting hole spacing or for applications with 5-3/4" (146mm) or less door frames.

• M204 Angle Bracket

Recommended for any header configuration with less than 3" (76mm) of mounting surface.

KRM Cylinders

As with any exit device trim, you must order a cylinder and collar if one is required. The Yale® keyed removable mullion accepts a mortise cylinder. Refer to page 52 for details.

Sample Specifications

Specification

Exit devices shall be 7000 Series Pushpad Exit Devices as manufactured by Yale Locks & Hardware.

The exit device chassis shall be cold forged steel, electroplated for corrosion resistance, and shall be architecturally finished brass, bronze or stainless steel. The pushpad mechanism shall be constructed of extruded aluminum and shall be scalped with architecturally finished brass, bronze or stainless steel. The maximum projection shall be 3-1/4" when the pushpad is active and 2-3/4" when the pushpad is dogged down. Nylon bearings and stainless steel springs shall be used for long life and durability; only torsion springs are acceptable. Rear and active case covers shall be wrought brass or bronze and shall be plated to match the exit bar. Plastic or painted covers are not acceptable. Latchbolts shall be steel and shall incorporate a deadlocking latch for increased security. Devices without deadlocking latches are not acceptable. Mounting screws shall be concealed to deter tampering. Devices shall be closed on all sides with no pinch points. Exit devices shall be easily field sized to accommodate various door widths.

Panic-listed exit devices shall have single point, one quarter turn hex key dogging standard. Optional cylinder dogging shall be available on panic listed devices. Devices with hex key dogging shall be easily field converted to cylinder dogging. Panic listed devices shall be available less dogging.

Trims shall be throughbolted with concealed fasteners. Escutcheon and pull-type trims shall be constructed of brass or bronze. All lever trims shall use cast or forged levers. On rim, SquareBolt® and vertical rod trims with cylinders, the mechanism that locks and unlocks the trim shall be housed in the trim and not in the active case of the exit device. Lever trims (except mortise) shall be Free-Wheeling with clutch mechanism allowing lever to rotate 60° when locked for ideal protection. Lever trims shall match those on Yale® mortise and cylindrical locksets.

Exit devices and trims shall be furnished in ANSI/BHMA standard architectural finishes.

Exit devices shall be listed by Underwriters Laboratories (UL) for safety as panic hardware. Fire-rated devices shall be listed for A label and lesser class doors.

Certification:
ANSI/BHMA A156.3, Grade 1

Devices, trims and cylinders shall be from one manufacturer.

Devices and 600 Series trim shall carry a five-year limited warranty.

500 Series trim shall carry a one-year limited warranty.

Electronic components shall carry a two-year limited warranty.

Delayed Egress Specification

Delayed egress exit devices shall be 7100/7200 Series (rim, SquareBolt®, mortise or concealed vertical rod) with the "D" suffix, manufactured by Yale Locks & Hardware.

The delayed egress device secures the door in the locked mode. Depressing the pushpad for less than three seconds will sound the device siren without initiating the alarm. Depressing the pushpad longer than three seconds will initiate an irreversible local audible beeping tone and allow the device to release for egress after 15 seconds. The alarm will continue until reset by the mechanical key switch located on the device. (When acceptable by local code agency, the delay period may be increased to 30 seconds, or other approved amount of time. Consult factory.)

Devices shall be 24 volts DC.

The exit device chassis shall be cold forged steel, electroplated for corrosion resistance, and shall be architecturally finished brass, bronze or stainless steel. The pushpad mechanism shall be constructed of extruded aluminum and shall be scalped with architecturally finished brass, bronze or stainless steel. The maximum projection shall be 3-1/4" when the pushpad is active and 2-3/4" when the pushpad is depressed. Nylon bearings and steel springs shall be used for long life and durability. Active case and alarm end cover shall be wrought brass, bronze or stainless steel and shall be plated to match the exit bar. Painted or plastic covers or end caps are not acceptable. Latchbolts shall be steel and shall incorporate a deadlocking latch for increased security. Devices without deadlocking latches are not acceptable. Mounting screws shall be concealed to deter tampering. Devices shall be closed on all sides with no pinch points. Device active cover and end cap attaching screws shall be security TORX®. When required, door position switches used on rim or SquareBolt devices shall be incorporated into the latch assembly of the device to allow added security.

Trims shall be throughbolted with concealed fasteners. Escutcheon and pull-type trims shall be constructed of brass, bronze or stainless steel. All lever trims shall use cast or forged levers. On rim, SquareBolt and vertical rod trims with cylinders, the mechanism that locks and unlocks the trim shall be housed in the trim and not in the active head of the exit device. Lever trims shall match those on Yale mortise and cylindrical locksets. Lever trims (except mortise) must have a clutch or Free-Wheeling spring assembly when in the locked mode for ideal protection and reduced damage to the trim. Rigid lever trims are not acceptable.

Exit devices, trims and cylinders must be from one manufacturer.

MicroShield®

ASSA ABLOY Group companies offer MicroShield®, an anti-microbial coating for door hardware. MicroShield uses proven silver ion-based technology from Agion®, a leading provider of antimicrobial solutions, to stem the spread of bacteria and other microbes.

MicroShield® is a registered trademark of ASSA ABLOY Access and Egress Hardware Group, Inc.

The Agion antimicrobial is not intended as a substitute for good hygiene. Coated products must still be cleaned to ensure the surfaces will be free of destructive microbes. ASSA ABLOY makes no representations or warranties, express or implied, as to the efficacy of the Agion antimicrobial. A copy of the Agion warranty is available upon request. Agion is a registered trademark of Agion Technologies, Inc., Wakefield, MA, USA.

THE YALE BRAND, with its unparalleled global reach and range of products, reassures more people in more countries than any other consumer locking solution.

THE ASSA ABLOY GROUP is the world's leading manufacturer and supplier of locking solutions, dedicated to satisfying end-user needs for security, safety and convenience.

Introduction

With a full range of functions and options and ANSI Grade 1 certification, the Yale® 6000ED Series exit devices provide the right security for your commercial facility.

The stylish, clean lines of the wide and narrow stile 6000ED are visually appealing and blend with any decor. With a multitude of mechanical and electromechanical functions available, the 6000ED can be used in many types of facilities including office buildings, retail environments and mixed-use, and is perfect for both new construction and retrofit applications.

Yale 6000ED Series exit devices come with a full array of electromechanical options and accessories and can be effortlessly integrated into existing security or fire alarm systems.

6100ED(F) Series (Wide Stile)

The 6100ED(F) exit device series is available in rim, SquareBolt®, mortise, surface and concealed vertical rod configurations. Perfect for single swing doors or pairs of doors of metal, wood or composite construction. The 6100ED(F) Series is available in both panic and fire rated versions. See pages 8-12 for more information.

6200ED Series (Narrow Stile)

The 6200ED exit device series is available in rim, SquareBolt®, surface and concealed vertical rod configurations. Perfect for single swing doors or pairs of doors of metal or aluminum. The 6200ED series is panic rated. See pages 13-16 for more information.

Warranty

- Mechanical exit devices and 400F, 500F, and 600F trims carry a 10-year limited warranty.
- 690F and 691F trims carry a two-year limited warranty.
- Electrical options and components carry a two-year limited warranty.

Benefits & Features

Benefits

- **Smooth, Quiet Operation:** Unique design provides noise reduction and smooth operation of the touch bar
- **Stylish:** Attractive, modern design blends aluminum rail with architectural finishes; available with over 38 levers to match any decor
- **Strong and Reliable:** ANSI/BHMA Grade 1 certified for long life
- **Secure:** Multiple security features provide added resistance against vandalism and authorized entry

Features

- ANSI/BHMA A156.3 Grade 1 certified 
- Available as rim, mortise, SquareBolt®, surface vertical rod and concealed vertical rod in wide or narrow stile configurations
- Highly durable aluminum rail design with architecturally finished touch bar in 5 finishes
- Heavy duty, angled end cap design protects rail, eliminates catch points and reduces damage
- Available in 13 mechanical functions and 11 electromechanical functions
- Available with standard or Reflections® decorative levers
- Complete offering of mechanical and electro-mechanical solutions
- Available with Microshield® antimicrobial coating
- 10 year warranty

SquareBolt® option

The SquareBolt option offers a latchbolt with greater latch engagement than standard rim devices. Credit cards, crowbars, door rattling and shaking are resisted, significantly reducing the threat of unauthorized entry

Roller bearings provide smooth operation of the touch bar

Heavy-duty, angled flush end cap eliminates catch points and reduces damage to device

Bumpers reduce noise when pad is pushed to exit

Finishes

ANSI/BHMA Code Finish Description			
605 Bright Brass, Clear Coated	606 Satin Brass, Clear Coated	613E Dark Oxidized Satin Bronze - equivalent	629 Bright Stainless Steel
630 Satin Stainless Steel	BSP Black Suede Powder Coat	WSP White Suede Powder Coat	

Trim Finishes

ANSI/BHMA Code Finish Description				
605 Bright Brass, Clear Coated	606 Satin Brass, Clear Coated	613E Dark Oxidized Satin Bronze - equivalent	625 Bright Chrome Plated	626* Satin Chrome Plated
629 Bright Stainless Steel	630* Satin Stainless Steel	BSP Black Suede Powder Coat	WSP White Suede Powder Coat	

Add YMS suffix to order Microshield® antimicrobial coating

*Finish available with MicroShield® antimicrobial coating, additional finishes by special application. Consult factory for availability.

MicroShield coating may vary finish color from architectural standards. MicroShield is not intended as a substitute for traditional infection control programs such as hand hygiene or use of disinfectants. Coated products must still be cleaned to ensure the surfaces will be free of destructive microbes. Yale makes no representations or warranties, express or implied, as to the efficacy of MicroShield.

How To Order

Using the chart below, construct the part number based on the options, trim and finish needed.

6	X	X	XED	Mechanical/Electrical	Size ⁵	Design	Trim	Finish	Other Info
	Second Digit: "1" -Standard device, 4-1/2" (114mm) or wider door stile. "2" -Narrow stile door or narrow escutcheon trim (500F, 510F Series)	Third Digit: "0" - Rim Device, Pullman Latch "1" - SVR Device (narrow stile) "2" - CVR Device (narrow stile) "3" - Mortise Device "5" - SquareBolt*, Rim Security "6" - CVR Device (wide stile) "7" - SVR Device (wide stile)	Fourth Digit: "0" - Standard "5" - Cylinder Dogging (Not with suffix "F")	Mechanical Feature "F" - Fire Exit Device "LBR"- Less Bottom Rod ² "L5" - Mortise Device, Entry by Key with/without Rigid Lever ¹ "L8" - Mortise Device, Entry by Lever "2" - Double Cylinder Device ³ Electrical Feature "A" - Alarm Kit "A-ALR" - Alarm Kit with red screenprinted touchpad "B" - Bar Monitor or Signaling "G" - Electric Dogging "O" - Outside Trim Monitor or Signaling "P" - Latch Pullback "S" - Latchbolt Status Monitor or Signaling "Safe" - Mortise Device Trim Control (Lever only) "Secure" - Mortise Device Trim Control (Lever only)	Size: DOW = Door Opening Width) "24" 24" DOW ⁴ "36" - 30" to 36" DOW 42" for 36"-42" DOW "48" - 42" to 48" DOW Door Height: -7 = 7' standard -8 = 8' (2.44m) -9 = 9' (2.74m) -10 = 10' (3.05m)	Trim Design See pages 17-18	Trim Model Number See pages 19-25	See Page 6	Other Information: Door Hand - RHR or LHR Door Thickness - Over 1-3/4" (45mm) Fastener Options - TORX® Security Screws SNB (wood, composite, or unreinforced metal doors) Specialty Cylinders & Components (see pages 37-40)

It is recommended that exit devices and trim for the same opening be ordered together. Standard product is for 1-3/4" (44mm) reinforced metal doors. Accessories detached from the device and trim should be specified separately. Materials by others are required to be fit for the purpose as detailed in this catalog and the product installation literature.

Notes:

1. Required for electrical feature, Suffix "-SAFE" or "-SECURE".
2. LBR available on 6160(F90) and 6170(F90) devices only.
3. For double cylinder devices, suffix "-2" after fourth digit.
4. If "-24" device is to be used with a DOW greater than 24", the device will ship without UL label. The 12" touchpad will not cover 50% of the device touchbar length.
5. Contact door manufacturer for detailed frame/door requirements and limitations.

*Yale® exit devices and trims are processed separately. To aid in order processing, the device, trim and cylinder should be detailed as separate line items. These items can be ordered on one line item as shown, but they will be entered to the factory and acknowledged separately.

6100ED(F) Rim

The 6100ED(F) is a rim exit device to be used with single doors or pairs of doors constructed of metal, wood or composite materials. Designed for application in high-use areas, the 6100ED(F) comes in a variety of finishes and can be combined with a variety of trims to match any desired style.

Features

- Designed for wide stile doors
- 3/4" throw deadlocking stainless steel pullman latchbolt
- Available in double cylinder function (must specify handing)
- Non-handed for easy installation

Applications

- Single swing doors
- Pairs of doors with removable mullions
- Wide stile aluminum, metal, wood or composite door materials

Specifications

Rail Sizes:	-24 for 24" (60cm) doors -36 for 30" - 36" (76cm - 91cm) doors -42 for 36" - 42" (91cm - 107cm) doors -48 for 42" - 48" (107cm - 122cm) doors Alternate sizes can be special ordered. Consult Technical Product Support.
Door Thickness:	1-3/4" (44mm) standard. Optional thicknesses to 4-1/2"; specify when ordering.
Minimum Stile Width:	4-1/2" (114mm)
Projection:	3-1/4" (83mm) active; 2-1/2" (63.5mm) dogged
Latchbolt:	Stainless steel pullman style, 3/4" (19mm), deadlocking
Strike(s):	757F standard; 793 optional for pairs, panic only
Fasteners:	Machine screws or wood door screws standard for panic; sex nuts and bolts (SNB) supplied standard for fire
Handing:	Non-handed
ANSI/BHMA:	Certified ANSI/BHMA A156.3 Type 1 Grade 1 standards
Dogging:	Hex key dogging standard on panic; optional cylinder dogging (-5)
Shim Kit:	#623SK optional
Finishes:	See page 6 for finish options
Options:	Double cylinder function (-2); specify hand. Anti-pry bracket #625AP.

6150ED(F) Rim SquareBolt®

The rim SquareBolt® exit device's unique construction offers innovative protection. Its design provides greater latch engagement for higher security than standard rim devices can offer. Credit cards, crowbars, door rattling and shaking are resisted, significantly reducing the threat of unauthorized entry.

Features

- Larger bolt engagement
- Designed for maximum holding power
- Delivers higher security
- Non-handed for easy installation
- Can be retrofitted onto existing 7000 Series templated doors
- Fully adjustable surface-mounted 3/8" diameter roller strike complete with positive locking plate and shims
- Available in double cylinder function

Applications

- Single swing doors
- Pairs of doors with removable mullions
- Wide stile aluminum, metal, wood or composite door materials

Specifications

Rail Sizes:	-24 for 24" (60cm) doors -36 for 30" - 36" (76cm - 91cm) doors -42 for 36" - 42" (91cm - 107cm) doors -48 for 42" - 48" (107cm - 122cm) doors Alternate sizes can be special ordered. Consult Technical Product Support.
Door Thickness:	1-3/4" (44mm) standard. Optional thicknesses to 4-1/2"; specify when ordering.
Minimum Stile Width:	4-1/2" (114mm)
Projection:	3-1/4" (83mm) active; 2-1/2" (63.5mm) dogged
Latchbolt:	1" (25mm) slide projection bolt with full 3/4" (19mm) projection
Strike(s):	757F standard; 793 optional for pairs, panic only
Fasteners:	Machine screws or wood door screws standard for panic; sex nuts and bolts (SNB) supplied standard for fire
Handing:	Non-handed
ANSI/BHMA:	Certified ANSI/BHMA A156.3 Type 1 and 28 Grade 1 standards
Dogging:	Hex key dogging standard on panic; optional cylinder dogging (-5)
Shim Kit:	#623SK optional
Finishes:	See page 6 for finish options
Options:	Double cylinder function (-2); specify hand. Anti-pry bracket #625AP.

6170ED(F) Surface Vertical Rod

The 6170ED(F) is a surface vertical rod exit device to be used on wide stile and flush doors up to 10' where one- or two-point latching is desired. A Less Bottom Rod (LBR) option is available.

Features

- Designed for wide stile and flush doors
- Handed. Specify hand (field reversible)
- Interlocking top strike and latch mounting plate
- Available less bottom rod (LBR option)

Applications

- Single swing doors
- Pairs of doors with removable mullions
- Wide stile aluminum, metal, wood or composite door materials

Specifications

Rail Sizes:	-24 for 24" (60cm) doors -36 for 30" - 36" (76cm - 91cm) doors -42 for 36" - 42" (91cm - 107cm) doors -48 for 42" - 48" (107cm - 122cm) doors Alternate sizes can be special ordered. Consult Technical Product Support.
Door Thickness:	1-3/4" (44mm) standard. Optional thicknesses to 4-1/2"; specify when ordering.
Minimum Stile Width:	4-1/2" (114mm)
Projection:	3-1/4" (83mm) active; 2-1/2" (63.5mm) dogged
Latchbolt:	Top: 3/4" (19mm) pullman style with auto deadlatching; Bottom 5/8" (16mm) deadbolt, held retracted during door swing
Strike(s):	Top: 726; Bottom: flush-mounted 790. 794 floor strike optional (threshold openings)
Fasteners:	Machine screws or wood door screws standard for panic; sex nuts and bolts (SNB) supplied standard for fire
Handing:	Handed, please specify. Field reversible.
ANSI/BHMA:	Certified ANSI/BHMA A156.3 Type 2 Grade 1 standards
Dogging:	Hex key dogging standard on panic; optional cylinder dogging (-5)
Shim Kit:	#624SK optional
Finishes:	See page 6 for finish options
Options:	Rod extensions, Less Bottom Rod (LBR)
Door Height:	7' (213cm) standard. Optional heights 8', 9' and 10'.
Vertical Rods:	1/2" OD brass, bronze or stainless steel with rod guides

6160ED(F) Concealed Vertical Rod

The 6160ED(F) is a concealed vertical rod exit device to be used on wood and metal doors up to 10' where one- or two-point latching is desired. A Less Bottom Rod (LBR) option is available.

Features

- Designed for wide stile and flush doors
- Handed. Specify hand (field reversible)
- Mortised top strike
- Available less bottom rod (LBR option)

Applications

- Single swing doors
- Pairs of doors with removable mullions
- Wide stile aluminum, metal, wood or composite door materials

Specifications

Rail Sizes:	-24 for 24" (60cm) doors -36 for 30" - 36" (76cm - 91cm) doors -42 for 36" - 42" (91cm - 107cm) doors -48 for 42" - 48" (107cm - 122cm) doors Alternate sizes can be special ordered. Consult Technical Product Support.
Door Thickness:	1-3/4" (44mm) standard. 2" and 2-1/4" (51mm and 57mm) optional, specify when ordering.
Minimum Stile Width:	4-1/2" (114mm)
Projection:	3-1/4" (83mm) active; 2-1/2" (63.5mm) dogged
Latchbolt:	Top: 3/4" (19mm) pullman style with auto deadlatching; Bottom 5/8" (16mm) deadbolt, held retracted during door swing
Strike(s):	Top: Mortised 761; Bottom: flush-mounted 790. 794 floor strike optional (threshold openings)
Fasteners:	Machine screws or wood door screws standard for panic; sex nuts and bolts (SNB) supplied standard for fire
Handing:	Handed, please specify. Field reversible.
ANSI/BHMA:	Certified ANSI/BHMA A156.3 Type 7 and 8 Grade 1 standards
Dogging:	Hex key dogging standard on panic; optional cylinder dogging (-5)
Shim Kit:	#623SK optional
Finishes:	See page 6 for finish options
Options:	Rod extensions, Less Bottom Rod (LBR)
Door Height:	Standard door height adjustable to 8'(244cm). Optional heights 9' and 10'.
Vertical Rods:	1/2" (13mm) OD, telescoping tubular rods

6130ED(F) Mortise

The 6130ED(F) is an exit device integrated with the Yale® 8700 Series Mortise Lock for use on single doors or active leaf of a pair of doors where life safety and extra security are required. The 8700 Series Mortise Lock is modified for use with exit devices only.

Features

- Designed for wide stile and flush doors
- Handed. Specify hand (field reversible)
- Two-piece mechanical 3/4" throw deadlocking stainless steel latchbolt
- Available in double cylinder function

Applications

- Single swing doors
- Pairs of doors with removable mullions
- Wide stile aluminum, metal, wood or composite door materials

Order as follows, according to function.

6130ED-K5(F)	Exit only, no trim
6130ED-L5(F)	(02) Entry by rigid lever when dogged.
	(03) Key retracts latchbolt. Electrical control for 650F Series trim, w/wo key override.
6130ED-T5(F)	(02) Entry by pull when dogged.
	(03) Key retracts latchbolt.
6130ED-L8(F)	(08) Entry by lever lock/unlocked by key or lever only (passage).
6130ED-L8(F)-2	(08) Entry by lever lock/unlocked by key either side or lever only (passage).

Specifications

Rail Sizes:	-24 for 24" (60cm) doors -36 for 30" - 36" (76cm - 91cm) doors -42 for 36" - 42" (91cm - 107cm) doors -48 for 42" - 48" (107cm - 122cm) doors Alternate sizes can be special ordered. Consult Technical Product Support.
Door Thickness:	1-3/4" (44mm) standard. 2" and 2-1/4" (51mm and 57mm) optional, specify when ordering.
Minimum Stile Width:	4-1/2" (114mm)
Projection:	3-1/4" (83mm) active; 2-1/2" (63.5mm) dogged
Latchbolt:	Two piece mechanical 3/4" (19mm) deadlocking stainless steel with anti-friction insert and auxilliary deadlocking latch
Strike(s):	798 curved lip; 612 or 712 optional for pairs with astragals, 618 or 718 optional open-back strike. See page 45 for more information.
Fasteners:	Machine screws or wood door screws standard for panic; sex nuts and bolts (SNB) supplied standard for fire
Handing:	Handed, please specify.
ANSI/BHMA:	Certified ANSI/BHMA A156.3 Type 3 Grade 1 standards
Dogging:	Hex key dogging standard on panic; optional cylinder dogging (-5)
Shim Kit:	#623SK optional
Finishes:	See page 6 for finish options
Options:	Double cylinder function (-2); specify hand

6200ED Rim

The 6200ED is a narrow stile rim exit device compatible with the aesthetics and functional requirements of contemporary doors. The 6200ED comes in varied finishes and can be combined with a variety of trims to match any desired style.

Features

- Designed for narrow stile doors
- 3/4" throw deadlocking stainless steel pullman latch
- Non-handed for easy installation
- Used with narrow stile trim

Applications

- Single swing narrow stile doors
- Pairs of narrow stile doors with removable mullions
- Metal and aluminum doors
- 6200ED for panic-rated doors only

Specifications

Rail Sizes:	-24 for 24" (60cm) doors -36 for 30" - 36" (76cm - 91cm) doors -42 for 36" - 42" (91cm - 107cm) doors -48 for 42" - 48" (107cm - 122cm) doors Alternate sizes can be special ordered. Consult Technical Product Support.
Door Thickness:	1-3/4" (44mm) standard. 2" and 2-1/4" (51mm and 57mm) optional, specify when ordering.
Minimum Stile Width:	Pair of doors: 3-1/8" (79mm), does not include glass stop. Single door: 2-5/8" (67mm), does not include glass stop.
Projection:	3-1/4" (83mm) active; 2-1/2" (63.5mm) dogged
Latchbolt:	Stainless steel pullman style, 3/4" (19mm), deadlocking
Strike(s):	759 standard; 793 optional for pairs, panic only
Fasteners:	Machine screws or wood door screws standard for panic
Handing:	Non-handed
ANSI/BHMA:	Certified ANSI/BHMA A156.3 Type 4 Grade 1 standards
Dogging:	Hex key dogging standard on panic; optional cylinder dogging (-5)
Shim Kit:	#623NS optional
Finishes:	See page 6 for finish options
Options:	Anti-pry bracket #625AP.

6250ED Rim SquareBolt®

The unique construction of the SquareBolt exit device offers innovative protection. Its design provides greater latch engagement for higher security than standard rim devices can offer. Credit cards, crowbars, door rattling and shaking are resisted, significantly reducing the threat of unauthorized entry. The 6250ED SquareBolt is designed for narrow stile doors.

Features

- Larger bolt engagement
- Designed for maximum holding power
- Delivers higher security
- Non-handed for easy installation
- Can be retrofitted onto existing 7200 Series templated doors
- Fully adjustable surface mounted 3/8" diameter roller strike complete with positive locking plate and shims
- Used with narrow stile trim

Applications

- Single swing narrow stile doors
- Pairs of narrow stile doors with removable mullions
- Metal and aluminum doors
- 6250ED for panic-rated doors only

Specifications

Rail Sizes:	-24 for 24" (60cm) doors -36 for 30" - 36" (76cm - 91cm) doors -42 for 36" - 42" (91cm - 107cm) doors -48 for 42" - 48" (107cm - 122cm) doors Alternate sizes can be special ordered. Consult Technical Product Support.
Door Thickness:	1-3/4" (44mm) standard. 2" and 2-1/4" (51mm and 57mm) optional, specify when ordering.
Minimum Stile Width:	Pair of doors: 3-1/8" (79mm), does not include glass stop. Single door: 2-5/8" (67mm), does not include glass stop.
Projection:	3-1/4" (83mm) active; 2-1/2" (63.5mm) dogged
Latchbolt:	1" (25mm) slide projection bolt with full 3/4" (19mm) projection
Strike(s):	759 standard; 793 optional for pairs, panic only
Fasteners:	Machine screws or wood door screws standard for panic
Handing:	Non-handed
ANSI/BHMA:	Certified ANSI/BHMA A156.3 Type 4 and 28 Grade 1 standards
Dogging:	Hex key dogging standard; optional cylinder dogging (-5)

Finishes:	See page 6 for finish options
Options:	Anti-pry bracket #625AP.

6210ED Surface Vertical Rod

The 6210ED is a narrow stile surface vertical rod exit device to be used on narrow stile, aluminum and metal doors where two-point latching is desired.

Features

- Designed for narrow stile doors
- Handed. Specify hand (field reversible)
- Bottom deadbolt for secure latching
- Fully adjustable roller strike

Applications

- Pairs of narrow stile doors
- Metal and aluminum doors
- For panic-rated doors only

Specifications

Rail Sizes:	-24 for 24" (60cm) doors -36 for 30" - 36" (76cm - 91cm) doors -42 for 36" - 42" (91cm - 107cm) doors -48 for 42" - 48" (107cm - 122cm) doors Alternate sizes can be special ordered. Consult Technical Product Support.
Door Thickness:	1-3/4" (44mm) standard. 2" and 2-1/4" (51mm and 57mm) optional, specify when ordering.
Minimum Stile Width:	2-3/4" (70mm), does not include glass stop
Projection:	3-1/4" (83mm) active; 2-1/2" (63.5mm) dogged
Latchbolt:	Top: 3/4" (19mm) pullman style with auto deadlatching; Bottom 5/8" (16mm) deadbolt, held retracted during door swing
Strike(s):	Top: 791 roller strike; Bottom: 790 flush mount. 794 floor strike optional (threshold openings)
Fasteners:	Machine screws or wood door screws standard for panic
Handing:	Handed, please specify. Field reversible.
ANSI/BHMA:	Certified ANSI/BHMA A156.3 Type 5 Grade 1 standards
Dogging:	Hex key dogging standard on panic; optional cylinder dogging (-5)
Shim Kit:	#624NS optional
Finishes:	See page 6 for finish options
Options:	Rod extensions, bottom pullman latch
Door Height:	7' (213cm) standard. Optional heights 8', 9' and 10'.
Vertical Rods:	1/2" (13mm) OD tubular brass, bronze or stainless steel with rod guides

6220ED Concealed Vertical Rod

The 6220ED is a narrow stile concealed vertical rod exit device to be used on narrow stile, aluminum and metal doors where two-point latching is desired.

Features

- Designed for narrow stile doors
- Handed. Specify hand (field reversible)
- Bottom deadbolt for secure latching
- Fully adjustable roller strike

Applications

- Pairs of narrow stile doors
- Metal and aluminum doors
- For panic-rated doors only

Specifications

Rail Sizes:	-24 for 24" (60cm) doors -36 for 30" - 36" (76cm - 91cm) doors -42 for 36" - 42" (91cm - 107cm) doors -48 for 42" - 48" (107cm - 122cm) doors Alternate sizes can be special ordered. Consult Technical Product Support.
Door Thickness:	1-3/4" (44mm) standard. 2" and 2-1/4" (51mm and 57mm) optional, specify when ordering.
Minimum Stile Width:	2-3/4" (70mm), does not include glass stop
Projection:	3-1/4" (83mm) active; 2-1/2" (63.5mm) dogged
Latchbolt:	Top: 3/4" (19mm) pullman style with auto deadlatching; Bottom 5/8" (16mm) deadbolt, held retracted during door swing
Strike(s):	Top: 791 roller type; Bottom: flush-mounted 790; 794 floor strike optional (threshold openings)
Fasteners:	Machine screws or wood door screws standard for panic
Handing:	Handed, please specify. Field reversible.
ANSI/BHMA:	Certified ANSI/BHMA A156.3 Type 6 Grade 1 standards
Dogging:	Hex key dogging standard on panic; optional cylinder dogging (-5)
Shim Kit:	#623NS optional
Finishes:	See page 6 for finish options
Options:	Rod extensions, bottom pullman latch (panic only)
Door Height:	Standard door height adjustable to 8' (244cm). Optional heights -9', -10'.
Vertical Rods:	1/2" (13mm) OD, telescoping tubular rods

Note: The following Reflections levers are not available in 629 or 630 finish: Victoria TT, TU, TV, TW, TX, TY, UW, UX, TZ; Seine TG, TJ, TK, TO, TE, TI. Please consider the 618 or 619 finish as an alternative. Reflections levers are not available with knurling option.

6100ED Series Wide Stile Trims

420F Series Escutcheon Trim

- Certified ANSI/BHMA A156.3, Grade 1
- Thrubolt. 1-3/4" (44mm) door standard. For doors thru 2-1/4" (57mm) or shim-mounted devices, specify on order.
- Dimensions: 2-1/2" x 9-1/2" x 1/4" (64mm x 241mm x 6mm)
- Available only with AU/MO/PB levers
- Cylinders not included. For rim cylinders, see page 40.
- Finishes: 630, 689, 691, 693 and 695
- 1-year warranty
- Ordering Example: PB428F x LHR x 689

								
Applications	Cylinder	Exit Only Blank Plate	Nightlatch	Classroom/ Storeroom	Nightlatch	Dummy Free Wheeling	Passage	Dummy Rigid Lever
6100ED(F), 6150ED(F), 6160ED(F), 6170ED(F)	Rim	420F	421F*	426F	427F*	428F	428F	429F
ANSI		01	03	08/09	03	02	14	02

*Not recommended for use with 6170ED(F) surface vertical rod exit devices or 6160ED(F) concealed vertical rod devices.
Note: 09 and Free Wheeling 02 achieved with single trim modification at installation.

6100ED Series Wide Stile Trims

620F and 650F Series Escutcheon Trim

- Certified ANSI/BHMA A156.3, Grade 1
- Trim through-bolts to exit device for strength
- Beveled sides improve attack resistance
- Solid forged/cast escutcheon and free-wheeling trim for ideal protection
- Flush cylinder in 6-pin applications for additional security
- 1-3/4" (44mm) door standard. For doors through 2-1/4" (57mm) or shim-mounted devices, specify on order.
- Dimensions: 3" x 10-1/4" x 13/16" (76mm x 260mm x 19mm)
- Cylinders not included. See page 41-42 for cylinder options. 1-1/2" mortise cylinder required for mortise trim.
- Available with AR, AU, CR, JN, MO, PB, PN, VI lever designs. See page 17.
 - Finishes: 605, 606, 613E, 629, 630, BSP
- Available with Reflections® lever designs. See page 18.
 - Finishes: 605, 606, 613E, 629, 630, BSP
- Trim ordering example: AU626F x 626 x RHR
- 10-year limited warranty

ANSI		01	08	09	03	14	02	02

1. 09 function is Free Wheeling; Free Wheeling for 02 function achieved with single trim modification at installation.

2. Not recommended for use with vertical rod devices.

For 626, 629 & 630 finishes the escutcheon is plated to simulate stainless steel.

For 629 & 630 finishes the standard levers are plated to simulate stainless steel.

Free-Wheeling is not available on mortise trim.

For 620F Series trim, optional door thickness available up to 4-1/2", specify on order.

6100ED Series Wide Stile Trims

630F, 660F and 670F Series Pull/Thumbpiece Trim

- Certified ANSI/BHMA A156.3, Grade 1.
- Trim through-bolts to exit device for added strength.
- Beveled sides improve attack resistance.
- Flush cylinder in 6-pin applications for additional security.
- 1-3/4" (44mm) door standard. For doors through 2-1/4" (57mm) or shim-mounted devices, specify on order.
- Plate Dimensions: 2-3/4" x 15-1/2" x 5/8" (70mm x 394mm x 16mm).
- Pull Dimensions: 6-7/16" (164mm) on centers x 2-1/8" (54mm) projection.
- Cylinders not included. See page 41-42 for cylinder options. 1-1/2" mortise cylinder required for mortise trim.
- Finishes: 605, 606, 613E, 629, 630, BSP
- Trim ordering example: 633F x 630
- 10-year limited warranty.

 For 626, 629 & 630 finishes the escutcheon is plated to simulate stainless steel.

6100ED Series Wide Stile Trims

440F Series Rose Trim

- Certified ANSI/BHMA A156.3, Grade 1.
- 440F rose trim for stock doors (161 Prep).
- 1-3/4" (44mm) door standard. For doors thru 2-1/4" (57mm) or shim-mounted devices, specify on order.
- Cylinders included, accepts component cylinders. See page 43.
- Only available with AU, MO, and PB levers
- Finishes: 613E, 626, 689, 691, 693, 695, BSP.
- "B" trim prefix – Lever trim accepting small format interchangeable cores (SFIC). Specify 6- or 7-pin.
(Example: B-AU446F)
- Please specify when ordering 1210 LFIC prep.
- 2-year warranty.
- Ordering example: AU446F x RHR x 626.

121NL Nightlatch Access By Key, Cylinder Only

- Application: Available for all wide & narrow stile rim and SquareBolt® devices. Not recommended for surface or concealed vertical rod devices.
- Must specify rim cylinder when ordering. See page 40 for cylinder options.
- Cylinder collar 1765.250 furnished standard for 1-3/4" thick doors.
- For 1109, 5109, K300, K640, A640 and 2109 cylinders:
 - Screw part number 34-2311-8738-048
 - Backplate part number 34-0010-1015-059
- For 1193, 5193 and K840 cylinders:
 - Screw part number 10-1193-1018-048
 - Backplate part number 34-0010-1015-059

Function Description	Nightlatch Access by Key
Model No.	121NL
ANSI	03

6200ED Series Narrow Stile Trims

480F Series Offset Pull Trim

- 1-3/4" (44mm) door standard. For doors through 2-1/4" (57mm) or shim-mounted devices, specify on order.
- Plate Dimensions: 1-3/4" x L x 3/16" (44mm x L x 5mm) L = Overall plate length is 2-1/4" (57mm) longer than pull dimension.
- Pull Dimensions:
 - 480F and 481F trim have a 7-1/4" (184mm) pull length on centers which through-bolts to exit device for strength.
 - 482F and 483F trim have a 9" (229mm) pull length on centers and are not thrubolt to allow pulls of different lengths to be utilized. Longer lengths of 15" (381mm), 18" (457mm) and up to 30" (762mm) are available.
- 2-13/32" (61mm) projection.
- Cylinders not included. See page 40-42 for cylinder options.
- Finishes: 605, 606, 613E, 629, 630, BSP
- Trim ordering example: 481F x 630 x LHR
- 1-year limited warranty

*Not recommended for use with vertical rod exit devices.
For 626, 629 & 630 finishes the escutcheon is plated to simulate stainless steel.

500F Series Escutcheon Narrow Stile Trim

- Certified ANSI/BHMA A156.3, Grade 1.
- Trim through-bolts to exit device for strength.
- 1-3/4" (44mm) door standard. For doors through 2-1/4" (57mm) or shim-mounted devices, specify on order.
- Dimensions: 1-5/8" x 9-1/2" x 1/4" (41mm x 241mm x 6mm)
- Cylinders not included. See page 40-42 for cylinder options.
- Available with AR, AU, CR, JN, MO, PB, PN, VI, HA lever designs. See page 17-18.
 - Finishes: 605, 606, 613E, 629, 630, BSP
- Available with Reflections® lever designs. See page 18.
 - Finishes: 605, 606, 613E, 629, 630, BSP
- Trim ordering example: AU506F x 626 x RHR.
- 1-year limited warranty.

Applications	Nightlatch Access by Key	Exit Only Blank Plate	Nightlatch Access by Key	Classroom/Storeroom Cylinder Controls Lever	Passage or Dummy	Dummy Trim

1. 09 function is Free Wheeling; Free Wheeling for 02 function achieved with single trim modification at installation.
2. Not recommended for use with vertical rod devices.
For 629 & 630 finishes the standard levers are plated to simulate stainless steel.

Electrified Options

The Yale® 6000ED Series exit devices offer a complete range of electrical options. A continuity in appearance, security and functions with the 6000ED Series mechanical exit device is maintained. These electrified exit devices may be integrated into the monitoring security and alarm systems of most buildings.

Electrified Options

Electrified Hardware Option Descriptions

A	Alarm Option
A-ALR	Alarm with Red Screenprinted Pushpad*
B	Touchbar Monitor
G	Electric Dogging
O	Trim Monitor Switch
P	Electric Latch Retraction
S	Latchbolt Position Monitor
SAFE	Fail Safe Operation (Mortise)
SECURE	Fail Secure Operation (Mortise)
690F	Fail Safe Electrified Trim
691F	Fail Secure Electrified Trim

6100ED-A-ALR

Note: The following options cannot be ordered together:

- 1) P or G
- 2) B or A
- 3) 690F or 691F

*Only available with 6100ED and ED(F) in 36" and in 622 black finish

Order options: 6100ED-A-ALR x 36" x 622 or 6100EDF-A-ALR x 36" x 622

What normally took an hour or more to connect now takes minutes. Yale electrified exit devices and trims are equipped with ElectroLynx® connectors. As a standard feature, these "plug & play" connectors link power from the incoming source to electrified locking products, including hinges, locks, exit devices, magnetic holders and strikes.

Note: Electrified door hardware with ElectroLynx® connectors require a compatible number of lead wires attached to the door hinge.

Electrified Options

Electric Latch Retraction "P"

Operation

Allows the latchbolt to be retracted electrically for momentary or maintained periods of time from a remote location. The exit device bolt remains retracted for as long as the device is energized. Removal of power returns the device to the life safety, self-latching mechanical mode. Easy interface with central or local fire alarm systems, automatic door operators, hands-free actuation devices, and access control systems. Allows free egress at all times. Manual hex key dogging standard on non-rated devices.

Electrical Specifications

Solenoid Assembly

- Continuous duty
- 9 amp inrush
- Requires a 4-wire minimum pivot or hinge to transfer power from frame to door.
- Requires the 782 controller for operation (USING ANY OTHER POWER SUPPLY VOIDS THE WARRANTY OF THE DEVICE.)

Electrified System Guide

For use with:

- 6100EDP Latch Retraction
- 782 Controller
- Automatic Door Operator by Norton®
- ADA Pushbuttons by Norton®
- 700 Wave to Open Switches by Norton
- QC8 Power Transfer Hinge by McKinney®

Operation

- Exit device allows free egress at all times.
- Activating the interior or exterior pushbutton retracts the latchbolt in the device and the door automatically opens. Door closes and relatches after hold open time has elapsed in the operator.

For use with:

- 6100EDPBOS, Exit Device with Touchbar, Outside Trim and Bolt Position Monitors
- 782 Controller
- Momentary Pushbutton with Red and Green LED
- DPS (door position switch) by Securitron®
- TSB-C Door Cord by Securitron®

Operation

- Exit device allows free egress at all times.
- Activating the 402 x L2 push button retracts the latchbolt from a remote location.
 - The Red LED indicates that the door is closed and latched.
 - The Green LED illuminates when any of the following situations occur:
 - The pushpad is depressed
 - Tampering or retraction of the latchbolt
 - Operation of outside trim
 - Opening of door

Listings

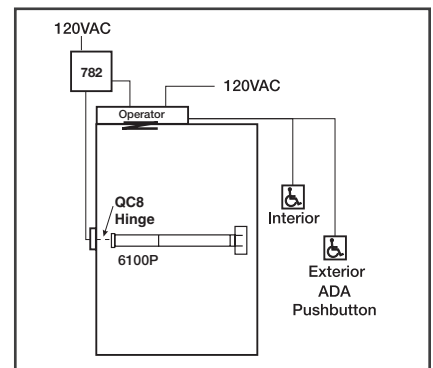

UL/cUL listed for panic and fire exit hardware. Fire-rated devices must be wired into an automatic fire alarm system.

Applications

Rim: 6100ED(F), 6200ED
 SquareBolt®: 6150ED(F), 6250ED
 SVR: 6170ED(F), 6210ED
 CVR: 6160ED(F), 6220ED
 Mortise: 6130ED(F)

Ordering

Suffix "P" to the Model Number. Ex: 6100P.

Electrified Options

Electric Dogging "G"

Operation

Provides continuous latch retraction and pushpad dogging simultaneously. When power is applied to the device, depressing the pushpad will retract the latchbolt and continuously hold down the pushpad in the unlock position for push/pull operation. Removal or interruption of power will release the pushpad and the latchbolt will extend and secure the opening. For use in areas that require quiet door operation.

Exit device allows free egress at all times.

Electrical Specifications

2 Holding Magnets

- .35 amps @ 24VDC

Requires a 2-wire pivot or hinge and a standard 24VDC regulated and filtered power source (Recommended BPS power supplies)

Listings

UL/cUL listed for panic and fire exit hardware.

Fire-rated devices must be wired into an automatic fire alarm system.

Applications

Rim: 6100ED(F), 6200ED

SquareBolt®: 6150ED(F), 6250ED

SVR: 6170ED(F), 6210ED

CVR: 6160ED(F), 6220ED

Mortise: 6130ED(F)

Ordering

Suffix "G" to the Model Number. Ex: 6150G.

Electrified System Guide

For use with:

- 6100EDGBS Electric Dogging Device with Touchbar Monitor
- BPS Power Supply with fire alarm interface
- Keyswitch with a Red and a Green LED
- DPS (door position switch) by Securitron®
- QC12 Power Transfer Hinge by McKinney®

Operation

- Exit device allows free egress at all times.
- Activating the maintained keyswitch applies power to the 6100EDGBS device. The first mechanical depression of the pushpad will retract the latchbolt and hold the pushpad down in a dogged position. Fire alarm activation, interruption of power or turning the keyswitch off will release the pushpad and the latch will extend.
 - The Green LED illuminates when power is on, and the pushpad can be depressed and dogged.
 - The Red LED illuminates when power is off, the door is closed and the device is latched and secure.

Electrified Options

Touchbar Monitor "B"

Provides indication of the pushpad being depressed. Used as a Request to Exit switch to shunt alarm systems, release electromagnetic locks or monitor egress.

Electrical Specifications: 4 Amps @ 250VAC contacts

Listings: UL/cUL listed for panic and fire exit hardware.

Applications: Rim: 6100ED(F), 6200ED
SquareBolt®: 6150ED(F), 6250ED
SVR: 6170ED(F), 6210ED
CVR: 6160ED(F), 6220ED
Mortise: 6130ED(F)

Ordering: Suffix "B" to the Model Number. Ex: 6170EDB.

Note: Not available with the "A" Alarm kit option.

Trim Monitor Switch "O"

Provides indication of the trim being operated from the outside. Used as a Request to Enter signal switch to shunt alarms, also used to monitor entry.

Electrical Specifications: SPDT contacts rated 5 amp @ 28VDC

Listings: UL/cUL listed for panic and fire exit hardware.

Applications: Rim: 6100ED(F)
SquareBolt®: 6150ED(F)
SVR: 6170ED(F)
CVR: 6160ED(F)
Mortise: 6130ED(F)

Ordering: Suffix "O" to the Model Number. Ex: 6150EDO.

Latchbolt Position Monitor "S"

Provides indication on the position of the latchbolt. Used with security systems to monitor the latchbolt, also used to activate automatic door operators upon latch retractions.

Electrical Specifications: SPDT contacts rated 5 amp @ 28VDC

Listings: UL/cUL listed for panic and fire exit hardware.

Applications: Rim: 6100ED(F), 6200ED
SquareBolt®: 6150ED(F), 6250ED
SVR: 6170ED(F), 6210ED
CVR: 6160ED(F), 6220ED
Mortise: 6130ED(F)

Ordering: Suffix "S" to the Model Number. Ex: 6150EDS.

Electrified System Guide (B, O, S)

Components

- 6100EDBOS – PB627F Nightlatch Trim – Yale®
- S Bolt Position Monitor Switch
- B Pushpad Monitor Switch
- O Trim Monitor Switch
- Door Position Switch – Securitron®
- QC12 Power Transfer Hinge by McKinney®
- Surface Door Closer – Yale®

Operation

Operation of the 6100ED Exit Device with the B, O, S and ASSW-104A can be used together or individually to sound an alarm, shunt an alarm, monitor the door's security or as a "Request to Exit" in conjunction a magnetic lock.

Electrified Options

Alarm Kit "A" / "A-ALR"

Activation: Alarm is armed by turning key clockwise. Low audible chirp indicates alarm has been activated. Alarm will sound when the exit device pushpad is depressed. Factory preset for standard alarm mode which automatically resets after 5 minutes.

Continuous Alarm Mode: Alarm sounds continuous when the exit device pushpad is depressed. Alarm must be manually reset by keyswitch. (This feature is selected by a switch on the circuit board.)

Low Battery Warning: Audible chirp.

Nuisance Alarm: Factory preset for instant alarm. Selectable feature for alarm to sound when pushpad is depressed for more than 2 seconds. (This feature is selected by a switch on the circuit board.)

Arming Delay/Authorized Egress: 10-second delay (after arming) permitting egress (by turning key clockwise).

Alarm Shunt: Ingress shunt alarm input for devices with latchbolt position (S) monitor. NOTE: "S" included with SVR devices.

Power Requirements: One 9-Volt Battery (included).

Loudness: 90db @ 10 feet.

Arm/Disarm: Uses one 1-1/8" straight cam mortise cylinder. Clockwise turn arms the alarm, counter clockwise turn disarms or silences the alarm.

Device Status: A Red LED indicator will illuminate every 30 seconds when the alarm is armed.

Tamper Resistant: Built-in safety monitor sounds alarm when tampering occurs.

Warning: "A" supplied with "EMERGENCY EXIT - ALARM WILL SOUND" decal
"A-ALR" supplied with red screenprinted pushpad (available in 622 black finish only)

6100ED-A-ALR

Applications: Rim: 6100ED(F), 6200ED; SquareBolt®: 6150ED(F), 6250ED; SVR: 6170ED(F), 6210ED; CVR: 6160ED(F), 6220ED; Mortise: 6130ED(F)

Kit: Available in kit form for field retrofit.

Bar Length: Available for 36"-48" devices only. May not be used on bars less than 36".

- Standard 36" device fits doors 35"-36" Device cannot be cut less than 35".
- Option -48 fits doors 41"-48". Devices cannot be cut less than 41".
- A-ALR option only available in 36" length

How to Order: Specify 6116 for alarm kit. Suffix "-A" when ordering with device. Ex: 6100ED-A-ALR x 36 x 622.

NOTE: The 6116 alarm kit cannot be retrofitted in the field to the 6170ED(F), 6210ED or 6210ED(F) surface vertical rod exit devices. This option is available as a factory order only for these devices. Any attempt to retrofit the 6116 alarm kit with these surface vertical rod exit devices will void the warranties for these products.

Mortise Device Trim Control "Safe/ Secure"

Operation

Allows the outside trim to lock or unlock electrically from a remote location. Exit device allows free egress at all times.

Fail Safe devices are commonly used in stair towers or locations that require the trim to unlock when power is removed or during fire alarm activation.

Fail Secure devices are used to secure openings and are usually integrated into the building security system to allow access control. Fail Secure trims remain locked when power is removed.

Electrical Specifications

Solenoid

- .35 amps @ 24VDC only (12 volt not available)
- Continuous duty
- Requires a 2-wire pivot or hinge and a standard 24VDC regulated and filtered power source (Recommended BPS power supplies)

Listings

UL/cUL listed for panic and fire exit hardware.

Applications

Mortise: 6130ED(F)

Ordering

"Safe" – Maintains the outside trim in a locked state when energized. Removal of power unlocks outside trim.

"Secure" – Unlocks the outside trim when energized. Remains locked when power is removed.

Suffix "SAFE" or "SECURE" to the Model Number.

Ex: 6130ED x L5 x Safe.

Electrified Options

Electric Trim

The electrified 600 Series heavy-duty trim provides electric locking and unlocking of trim. Ideal for door control where increased security is necessary at all times, while meeting life safety codes. Electric trim is ideal for many applications, including stairwell towers, high-security areas, schools, hospitals, and factories.

Functions

690F Trim - Fail Safe

- Lever is locked when power is on (Free-Wheeling)
- Power off allows entry from trim
- Inside device is always active for egress
- Mechanical key override (09 Function – Key allows lever to retract latchbolt. Key can only be removed in locked position)

691F Trim - Fail Secure

- Lever is locked when power is off (Free-Wheeling)
- Power on allows lever activation for entry
- Inside device is always active for egress
- Mechanical key override (09 Function – Key allows lever to retract latchbolt. Key can only be removed in locked position.)

Features

- Accepts all standard and Reflections® decorative lever designs
- Plug connector with 4' wire lead (Exit device is used as wire raceway, not door)
- Key Override – Requires rim cylinder (sold separately)

Applications

- 6100ED(F) Rim Device
- 6150ED(F) SquareBolt®
- 6170ED(F) Surface Vertical Rod

Electrical Specifications

- 330 mA @ 24 Volts
SM – Security Monitor Switch
- 4 AMP @ 250VAC
Voltage: 24 VAC/VDC only
BPS Series power supplies recommended.

Options

- SM - Security Monitor. A SPDT switch that monitors the position of the solenoid (lock and unlock status).
- EX - Trim gasket for exterior applications.

Electrified System Guide

For use with:

- 691F Electrified Trim – Yale®
- 6100ED Rim Exit Device – Yale®
- Digital Keypad by Securitron®
- QC8 Power Transfer Hinge by McKinney®
- BPS Power Supply

Operation

Operation of the Digital Keypad will allow keyless entry from the non-protected side of the opening. When a valid code is entered into the keypad, voltage will be applied to the trim, making the lever active and allowing ingress. Free exit is allowed by using the exit device from the protected side of the door.

Electrified Options

Stand-Alone Door Alarm SDA 16

The stand-alone battery operated door alarm is designed to continually monitor the status of a door. When the door is opened without authorization, an alarm is triggered to alert the security violation. This alarm features a piezo horn which blasts a deafening 105+ decibels to alert the violation.

This unit is ideal for emergency doors as well as stairwell doors and rear exit doors in retail environments. The unit, which can also be hardwired, easily complements existing hardware, making any opening alarmed. The SDA16 door alarm is typically mounted on the interior of the door frame or door and is paired with a magnet mounted on the opposing side of the door gap.

Features

- Dimensions: 8.3"L x 3.1"W x 2.0"D (210mm L x 79mm W x 52mm D)
- Non-handed unit (field reversible)
- Unit powered by 9V battery
- Unit can be hardwired by using WH-11 wire harness and 784 power supply
- No battery is required in unit with hard-wire option – if power is lost, optional gel-cell battery in power supply will give approximately 10,000 operations
- Reverse battery protection safeguards the unit if the battery is incorrectly installed
- A low-voltage battery is indicated by an audible signal every 30 seconds
- Piezo horn blasts at 105+ decibels if the door is used with out proper authorization
- The LED will flash every 30 seconds, indicating either the unit is armed or, if under auto reset, that the door has been violated
- Various field-adjustable features by dip switch including automatic alarm reset, REX and passage time delay, and LED color preference
- A tamper switch provides instantaneous signal to sound horn in the event the cover is removed. Horn will sound until the unit is reset by the key or remote reset/arm switch
- Conformally coated electronics for weather resistance
- Cover is held in place by cam lock which protects mounting screws, electrical system and internal sensors
- Accepts external cylinder (not included, must be specified)
- Accepts standard mortise cylinders (not included, must be specified)

Remote Mounting

The SDA16 can be installed remotely from the door by attaching the contacts to the door and frame. The unit can be installed up to 6 feet from the door. This provides the ideal solution for circumstances where exposure to weather may be an issue. To order specify "SDA16XL".

Cylinders and Accessories

- 784 Power supply (9VDC) – includes plug-in wall transformer
- Plug-in wall transformer with 12' cable assembly (part no. 00-0000-3425)
- Gel-cell battery – optional for use with 784 power supply (part no. 00-0000-3426)
- WH-11 Wire harness for remote power and remote unlock
- Mortise cylinder for unit
- Rim cylinder for outside control
- See pages 40-43 for cylinder information.

Note: Actual wire length is 6 feet.

Electrified Options

782 Power Control

Operation

Designed to control one or two electric latch retraction "P" exit devices. Equipped with two 20-second timers which can operate the exit devices together or independently. Requires a momentary or timed, dry contact input and can be interfaced with access control systems, automatic door operators, hands-free actuation devices, "blow open" type scenarios and has provisions for N/C fire alarm systems.

Note: The 782 is required for use with the "P" latch retraction option. Using any other power supply with the "P" option voids the warranty of the device.

Features

- Two control inputs. Accepts normally closed dry contacts for device activation from a key switch, push button, access control or fire alarm system.
- Two normally open control outputs for automatic door operators
- Two "P" device outputs
- Fire Alarm Interface input
- 24VDC output for audible or LEDS .25 AMP

Electrical Specifications

- 120 VAC 60Hz 750mA (max.)
- 38-42 VDC output
- 10 amp inrush

Listings

- UL 294
- UL CLASS 2 outputs

Applications

"P" Electric Latch Retraction Option

Ordering

782 Controller

BPS Power Supplies By Securitron®

Operation

Power supplies are designed to provide reliable filtered and regulated power for long life to a variety of electrified hardware components.

Product Features

- Individual output circuit breakers
- Regulated and filtered fuse protected outputs
- LEDs monitor zone status (voltage or no voltage)
- Slide switches connect or disconnect load from power (Not available on 1 Amp supplies)
- Internal Back-Up battery charging circuit
- Rugged steel enclosure
- Fire alarm interface

Listings

- UL CLASS 2

Applications (use with):

- G – Electric Dogging
- Safe – Fail Safe mortise device trim control
- Secure – Fail Secure mortise device trim control
- 690/691 – Electric Trim

Ordering

Ex: BPS-24-4

Model	Input	Output	Application
BPS-24-1	120 VAC	1 Amp @ 24 VDC	1 "D"
BPS-24-2	120 VAC	2 Amp @ 24 VDC	2 "D" or 1 "D" with Safe or Secure
BPS-24-4	120 VAC	4 Amp @ 24 VDC	4 "D" or 3 "D" with Safe or Secure

Consult factory for additional power supply applications.

Yale recommends McKinney®, Pemko and Securitron® for power transfer devices and other electronic accessories.

3-1/2" - 4-1/2"	620F and 630F Series Trim	81-9500-1636-000

Specify part number to order.

Von Duprin® Tailpiece

This tailpiece is available for the Yale® 1109 rim cylinder to operate the night latch function for Von Duprin exit devices. To order, specify model number: 1145VD.

Strikes

Rim Devices

757F
Standard strike for 6100ED(F), 6150ED(F) devices. Supplied with #10-24 x 3/4" machine screws, two shims (each 1/16" thick), and one locking plate.

759
Standard strike for 6200ED, 6250ED devices.

793
Optional strike for 6100ED, 6150ED exit devices on double door applications without a mullion. Supplied with #10-24 x 3/4" machine screws, two shims (each 1/16" thick), and one locking plate. Panic only.

Mortise Devices

798
Standard curved lip ANSI strike used with 7130(F) devices. (1-1/4" lip)

61/712
Optional flat lip ANSI strike used with 7130 devices for pairs of doors with astragals. (7/8" lip)

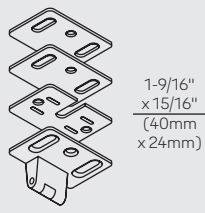

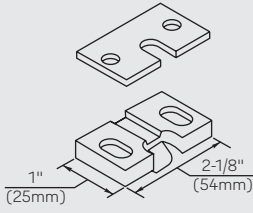

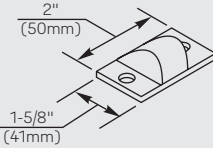

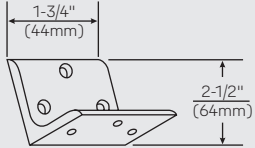

618/718
Optional open back strike. Permits opening of the inactive door for pairs of doors where approved by door manufacturer.

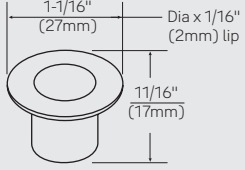

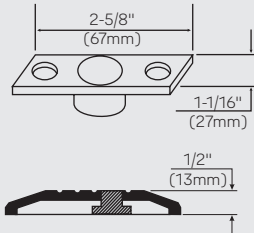

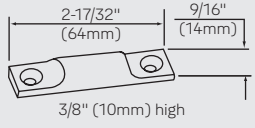

202
Optional strike box for ANSI strikes. 7/8" (22mm) deep.

Vertical Rod Devices - Top Strikes

 <p>1-9/16" x 15/16" (40mm x 24mm)</p>	 <p>1" (25mm) 2-1/8" (54mm)</p>	 <p>2" (50mm) 1-5/8" (41mm)</p>	 <p>1-3/4" (44mm) 2-1/2" (64mm)</p>
<p>791 Standard top strike for 7110(F), 7120(F), 7210, 7220, 7210M(F), 7220M(F) series devices. Supplied with #10-24 x 3/4" machine screws, two shims (each 1/16" thick), and one locking plate.</p>	<p>726 Standard top strike for 7170(F) series devices. Supplied with #12-24 x 11/16" machine screws and #12 x 1-1/4" sheet metal screws, and one shim (1/16" thick).</p>	<p>761 Standard top strike for 7160(F) series devices. Supplied with #10-32 x 3/8" machine screws and #10 x 1" sheet metal screws.</p>	<p>797 Optional bracket for mounting 791 top strike in flush transom opening. Supplied with 1/4-20 machine screws; SN-134 sex nuts, optional.</p>

Vertical Rod Devices - Bottom Strikes

 <p>1-1/16" (27mm) Dia x 1/16" (2mm) lip 11/16" (17mm)</p>	 <p>2-5/8" (67mm) 1-1/16" (27mm) 1/2" (13mm)</p>	 <p>2-17/32" (64mm) 9/16" (14mm) 3/8" (10mm) high</p>
<p>790 Standard bottom strike for 7110(F), 7120(F), 7160(F), 7170(F), 7210, 7220, 7210M(F), 7220M(F) series devices. Press in place.</p>	<p>794 Optional bottom strike for fire openings using saddle thresholds or for flush floor mount. Must use for fire openings with 1/2" thresholds. Supplied with #10-24 x 1/2" machine screws and floor anchors.</p>	<p>702 Optional bottom strike for bottom pullman latch option. Supplied with #8 x 8/32" combination screws.</p>

Accessories/Options

620DB Dummy Pushbar

For push-pull vestibule doors leading to doors with 6000ED Series exit devices. Bars fit doors up to 48" (122cm) wide. Same finishes as devices. Specify 620 x finish. Not available with Microshield®.

Anti-Pry Bracket

The anti-pry bracket offers end users increased security by improving resistance against jamb spreading during a pry attack. When the door is in the closed position, the anti-pry bracket interlocks in position between the exit device strike and frame preventing the strike and exit device latch from being separated. For use with all 6100ED(F) rim and 6150ED(F) SquareBolt® devices. Kit includes interlock bracket and end cap shim, the standard exit device mounting screws can be used, therefore, no additional fasteners are required. Black powder coat finish. To order specify option/model number: 625AP

Bottom Pullman Latch

Optional bottom pullman latch available for panic listed vertical rod exit devices. To order with devices, specify "BPL." 702 bottom strike required, see page 46.

Cylinder Dogging

All Yale 6000ED exits come standard with hex key wrench for dogging. As an option, cylinder dogging is also available on non-fire rated devices.

Cylinder dogging is available for panic-listed exit devices only. Requires use of 1-1/8" mortise cylinder. When ordered with a devices, cylinder must be ordered separately. (See How to Order, "Fourth Digit", page 7.) Cylinder dogging kit available; specify 615 and size (24", 36", 36" NS, 42", 42" NS, 48", 48" NS). Cylinder not included with this kit.

Note: NS = Narrow stile

Double Cylinder Functions

Available on wide stile rim, SquareBolt and mortise devices, key on either side locks or unlocks lever. Specify using -2 suffix.

Extension Rods

Model #	Length
7010-2	2" (51mm)
7010-6	6" (152mm)
7010-12	12" (305mm)
7010-24	24" (610mm)

Specify finish.

Plastic Installation Template

Provided as a standard with all 6000ED Series exit device, the plastic installation template facilitates door markings over traditional paper templates. This provides a more accurate door prep which reduces installation mistakes and overall installation time. Template dimensions: 8-1/4" x 3-1/4" (210mm x 83mm). To order separately, specify part number: 60-6000-9100-999.

Schlage® Cam Assembly

This cam and housing assembly includes a cam engineered to accept Schlage rim cylinders. No modifications are required to existing 500 and 600 Series exit device trims thus maintaining the trim's classroom and storeroom functions. To order, specify part number: 60-6000-0815.

Shim Kits

Shim kits, for devices on doors with interfering molding, are available. Each standard shim kit contains 2 sets of 1/8" thick shims to shim a device 1/8" (3mm) or 1/4" (6mm). Longer device mounting screws (not included) are required for more than 1/4" (6mm) shimming. 693 (Black) finish.

623SK	Shim kit for 6100ED(F) Series rim, 6150ED(F) Series Squarebolt®, 6160ED(F) Series* concealed vertical rod, and 6130ED(F) Series* mortise exit devices.
623NS	Shim kit for 6200ED Series rim, 6250ED series Squarebolt and 6220ED Series* concealed vertical rod exit devices.
624SK	Shim kit for 6170ED(F) Series surface vertical rod exit devices.
624NS	Shim kit for 6210ED Series narrow stile surface vertical rod exit devices

*Note: Special mortise or concealed vertical rod components needed for openings requiring more than (2) shim kits, or for shimmed mortise devices in doors over 1-3/4" (44mm) thick. Details on application.

Specialty Fasteners

Sex Nuts:

Required for wood, composite or unreinforced metal doors.

- SN-104 – Interlock bracket pack of (4) 10-24 sex nuts for all fire rim and Squarebolt® devices.
- SN-134 – pack of (4) 1/4-20 sex nuts for all devices.

TORX® Security Screws:

Available for factory product orders. Wood screws may only be used in predrilled pilot holes of solid core wood doors.

Mullions

M200(F) Removable Mullion

M200(F) steel mullions are for use with 6100(F) Series wide stile exit devices. Mullions may be field cut to fit opening. Red primer finish.

- M200 panic rated.
Tubular steel, 2" x 3" (51mm x 76mm). Specify 7', 8', or 10'.
- M200F 3 hour fire rated.
Tubular steel, 2" x 3" (51mm x 76mm). Specify 7' or 8'.

M200(F)

M300 Removable Mullion

M300 mullions are for use with 6200ED Series narrow stile exit devices. They consist of an aluminum extrusion 1-1/4" x 3" (32mm x 76mm), with built-in strikes for device bolts. Supplied with mounting brackets, mechanical fasteners, and mullion stabilizers. Available finishes are 628 (Satin, clear anodized) and 695 (dark amber coat). Specify 8' or 10'. For 9' mullion, specify 10' and cut to size in field.

M300

102S Mullion Stabilizer Kit

Recommended for high openings and whenever door movement must be further restricted. Supplied standard with M300 mullions. To order separately, specify 102S.

Mullions

KRM200(F) Keyed Removable Mullion (KRM)

Keyed removable mullions are for use with 6100ED(F) Series wide stile exit devices. They are designed for simple removing when an unobstructed large opening is required and easy replacement and locking to maintain the integrity of the opening.

- Easy cylinder installation.
- Mullion automatically relocks when reinstalled without the use of the cylinder key.
- When ordering, add KR prefix to mullion, example: KRM200 and KRM200F.
- KRM200 panic rated. Specify 7', 8', or 10'.
- KRM200F 1-1/2 hour fire rated. Specify 7' or 8'.

KRM200(F)

M200(F) And KRM Options

- **M203 Spacer Block**
Recommended for double rabbeted frames where the stop face width is less than the mounting hole spacing or for applications with 5-3/4" (146mm) or less door frames.
- **M204 Angle Bracket**
Recommended for any header configuration with less than 3" (76mm) of mounting surface.

KRM Cylinders

As with any exit device trim, you must order a cylinder and collar if one is required. The Yale® keyed removable mullion accepts a mortise cylinder. Refer to page 41-42 for details.

Sample Specifications

Specification

Exit devices shall be 6000ED Series Pushpad Exit Devices as manufactured by Yale Locks & Hardware.

The exit device chassis shall be cold forged steel, electroplated for corrosion resistance, and shall be architecturally finished brass, bronze or stainless steel. The pushpad mechanism shall be constructed of extruded aluminum and shall be scalped with architecturally finished brass, bronze or stainless steel. The maximum projection shall be 3-1/4" when the pushpad is active and 2-3/4" when the pushpad is dogged down. Nylon bearings and stainless steel springs shall be used for long life and durability; only torsion springs are acceptable. Rear and active case covers shall be wrought brass or bronze and shall be plated to match the exit bar. Plastic or painted covers are not acceptable. Latchbolts shall be steel and shall incorporate a deadlocking latch for increased security. Devices without deadlocking latches are not acceptable. Mounting screws shall be concealed to deter tampering. Devices shall be closed on all sides with no pinch points. Exit devices shall be easily field sized to accommodate various door widths.

Panic-listed exit devices shall have single point, one quarter turn hex key dogging standard. Optional cylinder dogging shall be available on panic listed devices. Devices with hex key dogging shall be easily field converted to cylinder dogging. Panic listed devices shall be available less dogging.

Trims shall be throughbolted with concealed fasteners. Escutcheon and pull-type trims shall be constructed of brass or bronze. All lever trims shall use cast or forged levers. On rim, SquareBolt® and vertical rod trims with cylinders, the mechanism that locks and unlocks the trim shall be housed in the trim and not in the active case of the exit device. Lever trims (except mortise) shall be Free-Wheeling with clutch mechanism allowing lever to rotate 60° when locked for ideal protection. Lever trims shall match those on Yale® mortise and cylindrical locksets.

Exit devices and trims shall be furnished in ANSI/BHMA standard architectural finishes.

Exit devices shall be listed by Underwriters Laboratories (UL) for safety as panic hardware. Fire-rated devices shall be listed for A label and lesser class doors.

Certification:

ANSI/BHMA A156.3, Grade 1

Devices, trims and cylinders shall be from one manufacturer.

Devices and 400F, 500F, and 600F trims shall carry a ten-year limited warranty.

690F/691F trims shall carry a two-year limited warranty.

Electric options and components shall carry a two-year limited warranty.

MicroShield®

ASSA ABLOY Group companies offer MicroShield®, an anti-microbial coating for door hardware. MicroShield uses proven silver ion-based technology from Agion®, a leading provider of antimicrobial solutions, to stem the spread of bacteria and other microbes.

MicroShield® is a registered trademark of ASSA ABLOY Access and Egress Hardware Group, Inc.

The Agion antimicrobial is not intended as a substitute for good hygiene. Coated products must still be cleaned to ensure the surfaces will be free of destructive microbes. ASSA ABLOY makes no representations or warranties, express or implied, as to the efficacy of the Agion antimicrobial. A copy of the Agion warranty is available upon request. Agion is a registered trademark of Agion Technologies, Inc., Wakefield, MA, USA.

THE YALE BRAND, with its unparalleled global reach and range of products, reassures more people in more countries than any other consumer locking solution.

THE ASSA ABLOY GROUP is the world's leading manufacturer and supplier of locking solutions, dedicated to satisfying end-user needs for security, safety and convenience.

2100 Economy Exit Devices

With a combination of sturdy construction and innovative security features, it's easy to see why building owners and architects alike prefer the 2100 Series Exit Device for all their economy applications. The quality and certified ANSI/BHMA Grade 1 performance ensures strength and reliability wherever this device is installed. Available in a wide range of both standard and architectural finishes, the 2100 Series is a perfect fit for both back of house and prominent openings in office buildings, retail and a long list of other facilities that require both performance and style.

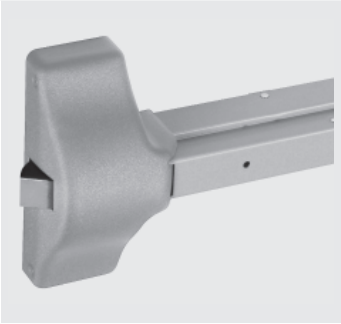

Balancing function with aesthetics in every application, Yale Works for YouSM.

Introduction

Yale® Commercial Solutions offers innovative and reliable products to solve the challenges of commercial, retail, hospitality, assisted living, mixed-use, and multi-family properties. With over 150 years of door hardware experience, Yale's expertise extends beyond products to people - and provides the service and support you expect.

Featuring durable products to meet all your facilities' requirements - and the quality you expect from a leader in the hardware industry. Yale Works for YouSM.

Benefits & Features

Benefits

- **Tough:** Sturdy construction is ideal for meeting the rigors of demanding industry environments
- **Versatile:** Available in standard painted as well as architectural finishes for both front and back of house applications
- **Economical:** Works for many building projects, regardless of budget
- **Strong & Durable:** ANSI/BHMA Grade 1 Certification ensures long life and reliability

Features

- High-grade steel components offer superior protection against wear & tear
- Available in a variety of functions and finishes for any application
- Offered in Yale's innovative SquareBolt® latchbolt
- ANSI/BHMA Grade 1 certified 
- UL/cUL listed for panic and fire rated doors
- Windstorm certified devices available
- Three year warranty

2100(F) Rim

The 2100(F) is a rim exit device to be used with single doors or pairs of doors constructed of metal, wood or composite materials. The 2100(F) can be paired with a wide variety of trims to meet many applications.

Certification/Compliance

UL/cUL Listed: FVSR/FVSR7 - Panic hardware
GXHX/GXHX7 - Fire exit hardware (F)
(4' x 8' single, 8' x 8' pairs, 3 hr.)
ZHEM - Latching hardware
ZHLA - Windstorm rated assemblies

Features

- Designed for wide stile doors
- Non-handed for easy installation
- Steel interlock "E" bracket maintains door-to-mullion relationship in fire-labeled devices
- Deadlocking pullman latchbolt positively engages roller strike
- Available certified hurricane resistant (refer to local codes). Specify 2100(F)WS.  Hurricane

Applications

- Single swing doors
- Pairs of doors (mullion required)
- Metal, wood or composite door materials

Projection	2-1/2" (64mm) active, 1-3/4" (44mm) depressed
Latchbolt	3/4" (19mm) deadlocking stainless steel pullman-type
Strike	757F, 793 optional (double door application, panic only)
Fasteners	Machine screws and wood door fasteners standard for panic hardware. Sex nuts and bolts supplied standard for fire exit hardware.
Trims	121NL cylinder only, 210F series utility trim, 440F series rose trim, 580F series rose trim with escutcheon plate, 620F series escutcheon trim, 630F series pull/thumbpiece trim. See pages 13-20.
ANSI/BHMA	Certified: A156.3 Type 1, Grade 1
Dogging	Hex key dogging supplied standard on panic devices
Finishes	613E, 630, 689, 691, 693, 695, BSP
Options	Shim kit #223, sex nuts and bolts, MicroShield®
Warranty	3-year limited

2150(F) SquareBolt®

Just as easy to open as traditional latchbolts, the SquareBolt® exit device's unique construction offers innovative protection. The SquareBolt's design presents an improved physical barrier over standard rim latchbolts. The SquareBolt exit device locks into place and stays there. Credit cards, crowbars, door rattling and shaking are resisted, significantly reducing the threat of unauthorized entry.

Certification/Compliance

UL/cUL Listed: FVSR/FVSR7 - Panic hardware
 GXHX/GXHX7 - Fire exit hardware (F)
 (4' x 8' single, 8' x 8' pairs, 3 hr.)

U.S. Patent #: 5,605,362

Features

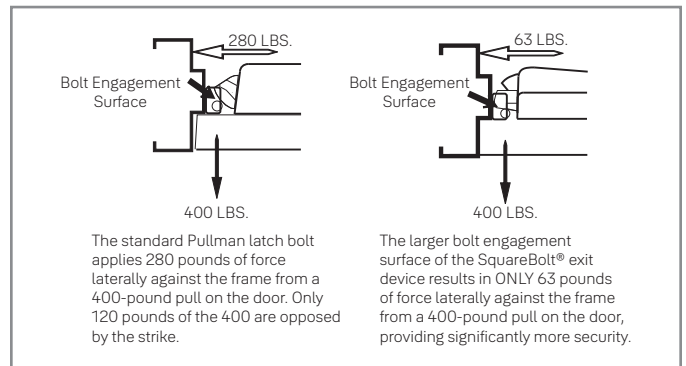

- SquareBolt security deadbolt designed for maximum holding power
- Designed for wide stile doors
- Non-handed for easy installation
- Steel interlock "E" bracket maintains door-to-mullion relationship in fire-labeled devices

Applications

- Single swing doors
- Pairs of doors (mullion required)
- Metal, wood or composite door materials

Specifications

Door Opening Width	-36 for 30" - 36" (76cm - 91cm) doors -42 for 36" - 42" (91cm - 107cm) doors -48 for 42" - 48" (107cm - 122cm) doors
Door Thickness	1-3/4" (44mm) standard. Optional door thicknesses available to 4-1/2"; specify door thickness when ordering.
Minimum Stile Width	4-1/2" (114mm)
Projection	2-1/2" (64mm) active, 1-3/4" (44mm) depressed
Deadbolt	1" (25mm) slide projection bolt with full 3/4" (19mm) projection
Strike	757F, 793 optional (double door application, panic only)
Fasteners	Machine screws and wood door fasteners standard for panic hardware. Sex nuts and bolts supplied standard for fire exit hardware.
Trims	121NL cylinder only, 210F series utility trim, 440F series rose trim, 580F series rose trim with escutcheon plate, 620F series escutcheon trim, 630F series pull/thumbpiece trim. See pages 13-20.
ANSI/BHMA	Certified: A156.3 Type 1 or 28, Grade 1
Dogging	Hex key dogging supplied standard on panic devices
Finishes	613E, 630, 689, 691, 693, 695, BSP
Options	Shim kit #223, sex nuts and bolts, MicroShield®
Warranty	3-year limited

2110(F) Surface Vertical Rod

The 2110(F) is a surface vertical rod exit device to be used on metal, wood or composite pairs of doors up to 8' (fire) and 10' (panic) where two-point latching is desired.

Certification/Compliance

UL/cUL Listed: FVSR/FVSR7 - Panic hardware
GXHX/GXHX7 - Fire exit hardware (F)
(8' x 8' pairs, 3 hr.)

Features

- Designed for wide stile doors
- Handed, specify hand (field reversible)
- Positive action linkage on a deadlocking top pullman bolt
- Simultaneous direct pull bottom deadbolt
- When unlatched, device keeps both bolts retracted until door is shut

Applications

- Pairs of doors
- Double egress
- Metal, wood or composite door materials

Specifications

Door Opening Width	-36 for 30" - 36" (76cm - 91cm) doors -42 for 36" - 42" (91cm - 107cm) doors -48 for 42" - 48" (107cm - 122cm) doors
Door Opening Height	Standard door height 7' (213cm), with the device centerline at 39-15/16" (101cm) from floor. Optional heights up to 8' (fire) and 10' (panic) available by using rod extensions. For fire rated openings over 8', see 2170F SVR.
Door Thickness	1-3/4" (44mm) standard. Optional door thicknesses available to 4-1/2"; specify door thickness when ordering.
Minimum Stile Width	4-1/2" (114mm)
Projection	2-1/2" (64mm) active, 1-3/4" (44mm) depressed
Latchbolt	Top: 3/4" (19mm) throw, pullman-type with automatic deadlatching. Bottom: 5/8" (16mm) throw deadbolt, held retracted during door swing.
Vertical Rods	1/2" (13mm) O.D. tubular brass, bronze or stainless steel with rod guides
Strike	Top: Roller type 791. Bottom: Flush mounted 790. 794 floor strike optional (threshold openings).
Fasteners	Machine screws and wood door fasteners standard for panic hardware. Sex nuts and bolts supplied standard for fire exit hardware.
Trims	210F series utility trim, 440F series rose trim, 580F series rose trim with escutcheon plate, 620F series escutcheon trim, 630F series pull/thumbpiece trim. See pages 13-20.
ANSI/BHMA	Certified A156.3 Type 2, Grade 1
Dogging	Hex key dogging supplied standard on panic devices
Finishes	613E, 630, 689, 691, 693, 695, BSP
Options	Shim kit #224, sex nuts and bolts, bottom pullman latch (panic only), MicroShield®
Warranty	3-year limited

2170(F) Surface Vertical Rod

The 2170(F) is a surface vertical rod exit device to be used on wide stile and flush doors up to 10' where one or two-point latching is desired. A Less Bottom Rod (LBR) option is available.

Certification/Compliance

UL/cUL Listed: FVSR/FVSR7 - Panic hardware
 GXHX/GXHX7 - Fire exit hardware (F) (8' x 10' pairs, 1-1/2 hr.) (8' x 8' pairs, 3 hr.)

Features

- Designed for wide stile and flush doors
- Mechanisms made of heavily electroplated high-grade steel and non-ferrous materials provide sturdy construction and superior protection against corrosion
- Interlocking top strike and latch mounting plate for added stability
- Handed, specify hand (field reversible)
- Available less bottom rod (LBR option)

Applications

- Pairs of doors
- Double egress
- Metal, wood, or composite door materials

Specifications

Door Opening Width	-36 for 30" - 36" (76cm - 91cm) doors -42 for 36" - 42" (91cm - 107cm) doors -48 for 42" - 48" (107cm - 122cm) doors
Door Opening Height	Standard door height 7' (213cm), with the device centerline at 39-15/16" (101cm) from floor. Optional heights specify suffix -8, -9, -10.
Door Thickness	1-3/4" (44mm) standard. Optional door thicknesses available to 4-1/2"; specify door thickness when ordering.
Minimum Stile Width	4-1/2" (114mm)
Projection	2-1/2" (64mm) active, 1-3/4" (44mm) depressed
Latchbolt	Top: 3/4" (19mm) throw, pullman-type with automatic deadlatching. Bottom: 5/8" (16mm) throw deadbolt, held retracted during door swing.
Vertical Rods	1/2" (13mm) O.D. tubular brass, bronze or stainless steel with rod guides
Strike	Top: 726. Bottom: Flush-mounted 790. 794 floor strike optional (threshold openings).
Fasteners	Machine screws and wood door fasteners standard for panic hardware. Sex nuts and bolts supplied standard for fire exit hardware.
Trims	210F series utility trim, 440F series rose trim, 580F series rose trim with escutcheon plate, 620F series escutcheon trim, 630F series pull/thumbpiece trim. See pages 13-20.
ANSI/BHMA	Certified A156.3 Type 2, Grade 1
Dogging	Hex key dogging supplied standard on panic devices
Finishes	613E, 630, 689, 691, 693, 695, BSP
Options	Shim kit #223, sex nuts and bolts, bottom pullman latch (panic only), less bottom rod (LBR), -8, -9, -10 opening height, rod extensions, MicroShield®
Warranty	3-year limited

2120(F) Concealed Vertical Rod

The 2120(F) is a concealed vertical rod exit device to be used on metal doors only up to 8' (fire) and 10' (panic) where two-point latching is desired.

Certification/Compliance

UL/cUL Listed: FVSR/FVSR7 - Panic hardware
GXHX/GXHX7 - Fire exit hardware (F)
(8' x 8' pairs, 3 hr.)

Features

- Designed for wide stile doors
- Handed, specify hand (field reversible)
- Positive action linkage on a deadlocking top pullman bolt
- Simultaneous direct pull bottom deadbolt
- When unlatched, device keeps both bolts retracted until door is shut

Applications

- Pairs of doors
- Double egress
- Metal doors only

Specifications

Door Opening Width	-36 for 30" - 36" (76cm - 91cm) doors -42 for 36" - 42" (91cm - 107cm) doors -48 for 42" - 48" (107cm - 122cm) doors
Door Opening Height	Standard door height adjustable to 8' (244cm), with the device centerline at 39-15/16" (101cm) from floor. Optional heights up to 10' (panic) available by using rod extensions. For fire rated openings over 8', see 2160F CVR.
Door Thickness	1-3/4" (44mm) standard. 2" and 2-1/4" (51mm and 57mm) optional; specify when ordering.
Minimum Stile Width	4-1/2" (114mm)
Projection	2-1/2" (64mm) active, 1-3/4" (44mm) depressed
Latchbolt	Top: 3/4" (19mm) throw, pullman-type with automatic deadlatching Bottom: 5/8" (16mm) throw deadbolt, held retracted during door swing
Vertical Rods	1/2" (13mm) O.D. telescoping tubular rods
Strike	Top: Roller type 791. Bottom: Flush mounted 790. 794 floor strike optional (threshold openings).
Fasteners	Machine screws standard for panic hardware. Sex nuts and bolts supplied standard for fire exit hardware.
Trims	210F series utility trim, 440F series rose trim, 580F series rose trim with escutcheon plate, 620F series escutcheon trim, 630F series pull/thumbpiece trim. See pages 13-20.
ANSI/BHMA	Certified A156.3 Grade 1, Type 8, Grade 1
Dogging	Hex key dogging supplied standard on panic devices
Finishes	613E, 630, 689, 691, 693, 695, BSP
Options	Shim kit #223, sex nuts and bolts, bottom pullman latch (panic only), MicroShield®
Warranty	3-year limited

2160(F) Concealed Vertical Rod

The 2160(F) is a concealed vertical rod exit device to be used on wood and metal doors up to 10' where one or two-point latching is desired. A Less Bottom Rod (LBR) option is available.

Certification/Compliance

UL/cUL Listed: FVSR/FVSR7 - Panic hardware
 GXHX/GXHX7 – Fire exit hardware (F) (8' x 10' pairs, 1-1/2 hr.) (8' x 8' pairs, 3 hr.)

Features

- Designed for wide stile and flush doors
- Mechanisms made of heavily electroplated high-grade steel and non-ferrous materials provide sturdy construction and superior protection against corrosion
- Handed, specify hand (field reversible)
- Available less bottom rod (LBR option)

Applications

- Pairs of doors
- Double egress
- Metal, wood, or composite door materials

Specifications

Door Opening Width	-36 for 30" - 36" (76cm - 91cm) doors -42 for 36" - 42" (91cm - 107cm) doors -48 for 42" - 48" (107cm - 122cm) doors
Door Opening Height	Standard door height adjustable to 8' (244cm), with the device centerline at 39-15/16" (101cm) from floor. Optional heights specify suffix -9, -10.
Door Thickness	1-3/4" (44mm) standard. 2" and 2-1/4" (51mm and 57mm) optional; specify when ordering.
Minimum Stile Width	4-1/2" (114mm)
Projection	2-1/2" (64mm) active, 1-3/4" (44mm) depressed
Latchbolt	Top: 3/4" (19mm) throw, pullman-type with automatic deadlatching Bottom: 5/8" (16mm) throw deadbolt, held retracted during door swing
Vertical Rods	1/2" (13mm) O.D. telescoping tubular rods
Strike	Top: Mortised 761. Bottom: Flush-mounted 790. 794 floor strike optional (threshold openings).
Fasteners	Machine screws and wood door fasteners standard for panic hardware. Sex nuts and bolts supplied standard for fire exit hardware.
Trims	210F series utility trim, 440F series rose trim, 580F series rose trim with escutcheon plate, 620F series escutcheon trim, 630F series pull/thumbpiece trim. See pages13-20.
ANSI/BHMA	Certified A156.3 Type 7 and 8, Grade 1
Dogging	Hex key dogging supplied standard on panic devices
Finishes	613E, 630, 689, 691, 693, 695, BSP
Options	Shim kit #223, sex nuts and bolts, bottom pullman latch (panic only), less bottom rod (LBR), -9, -10 opening height, rod extensions, MicroShield®
Warranty	3-year limited

Trim Designs

620F Series Wide Escutcheon Trim

- Certified ANSI/BHMA A156.3, Grade 1.
- Trim through-bolts to exit device for strength.
- Beveled sides improve attack resistance.
- Solid forged/cast escutcheon and free-wheeling trim for ideal protection.
- Flush cylinder in 6-pin applications for additional security.
- 1-3/4" (44mm) door standard. For doors through 2-1/4" (57mm) or shim-mounted devices, specify on order.
- Dimensions: 3" x 10-1/4" x 13/16" (76mm x 260mm x 19mm).
- Cylinders not included. See page 25-27 for cylinder options.
- Available with AR, AU, CR, JN, MO, PB, PN, VI, HA lever designs. See page 13.
 - Finishes: 613E, 626, 630, 693, BSP
- Available with Reflections® lever designs. See page 14.
 - Finishes: 613E, 626, 630, BSP
- Trim ordering example: AU626F x 626 x RHR.
- 5-year limited warranty.

Trim Designs

440F Series Rose Trim

- Certified ANSI/BHMA A156.3, Grade 1.
- 440F rose trim for stock doors.
- 1-3/4" (44mm) door standard. For doors through 2-1/4" (57mm) or shim-mounted devices, specify on order.
- AU, PB and MO trim designs. See below.
- Cylinders included, accepts 6-pin cylindrical type cylinders. If 7-pin cylinders are required, reference 540F trim from 7000 series catalog. See pages 25-27 for cylinder options.
- Finishes: 613E, 626, 689, 691, 693, 695, BSP
- "B" trim prefix - Lever trim accepting all small format interchangeable cores. 6- or 7-pin. (Example: B-AU446F)
- "M" trim prefix - Lever trim accepting Medeco® (32 series) and ASSA® large format interchangeable cores. Available in AU lever only. 6-pin only. (Example: M-AU446F)
- "S" trim prefix - Lever trim accepting Schlage® standard cylinders. 6-pin only. (Example: S-AU446F)
- "SI" trim prefix - Lever trim accepting Schlage® large format interchangeable cores. Available in AU and PB levers only. 6-pin only. (Example: SI-AU446F)
- Please specify when ordering 1210 LFIC prep.
- 2-year limited warranty.

Sectional dummy trim (02) features levers that will turn, but will not operate the devices. For rigid lever use AU629F, or AU449F. Illustrations show typical function features, rather than pictorial renderings of the trims listed. Specific trim details are shown on pages 13-20.

¹ Trims require an easy field change to adapt them for the charted function. ² ADA compliant trim. ³ Application not recommended

Applications

Single Door	UL Listing	Maximum Opening	Application
SquareBolt®			
2150	Panic	4' x *	Surface applied; single-point latching.
2150F	3 Hr.	4' x 8'	
Rim			
2100	Panic	4' x *	Surface applied; single-point latching.
2100F	3 Hr.	4' x 8'	
2100WS	Panic	3' x 7'	Surface applied; single-point latching. Used as components in swinging door windstorm-rated assemblies (refer to local codes).
2100FWS	3 Hr.	3' x 7'	
Surface Vertical Rod			
2110	Panic	4' x 10'	Surface applied; two-point latching.
2170	Panic	4' x 10'	
2170 x LBR	Panic	4' x 10'	Surface applied; one-point latching.
Concealed Vertical Rod			
2120	Panic	4' x 10'	Rods concealed in door; two-point latching
2160	Panic	4' x 10'	
2160 x LBR	Panic	4' x 10'	Rods concealed in door; one-point latching

*UL does not set a door height limitation on panic applications.

2160F x 2160F	3 Hr.	8' x 8'	

Electrified Options

Standalone Door Alarm

The SDA16 stand-alone battery operated door alarm is designed to continually monitor the status of a door. When the door is opened without authorization, an alarm is triggered to alert the security violation. This alarm features a Peizo horn which blasts a deafening 105+ decibels to alert the violation.

This unit is ideal for emergency doors as well as stairwell doors and rear exit doors in retail environments. The unit, which can also be hardwired, easily complements existing hardware, making any opening alarmed. The SDA16 door alarm is typically mounted on the interior of the door frame or door and is paired with a magnet mounted on the opposing side of the door gap.

Remote Mounting

The SDA16 can be installed remotely from the door by attaching the contacts to the door and frame. The unit can be installed up to 6 feet from the door. This provides the ideal solution for circumstances where exposure to weather may be an issue. To order specify "SDA16XL".

Cylinders And Accessories

- 784 Power supply (9VDC) — includes plug-in wall transformer
- Plug-in wall transformer with 12' cable assembly (part no. 00-0000-3425)
- Gel-cell battery — optional for use with 784 power supply (part no. 00-0000-3426)
- WH-11 Wire harness for remote power and remote unlock
- Mortise cylinder for unit
- Rim cylinder for outside control
- See pages 25-27 for cylinder information.

Features

- Dimensions: 8.3"L x 3.1"W x 2.0"D (210mm L x 79mm W x 52mm D)
- Non-handed unit (field reversible)
- Unit powered by 9V battery
- Unit can be hardwired by using WH-11 wire harness and 784 power supply
- No battery is required in unit with hard-wire option – if power is lost, optional gel-cell battery in power supply will give approximately 10,000 operations
- Reverse battery protection safeguards the unit if the battery is incorrectly installed
- A low-voltage battery is indicated by an audible signal every 30 seconds
- Piezo horn blasts at 105+ decibels if the door is used without proper authorization
- The LED will flash every 30 seconds, indicating either the unit is armed or, if under auto reset, that the door has been violated
- Various field-adjustable features by dip switch including automatic alarm reset, REX and passage time delay, and LED color preference
- A tamper switch provides instantaneous signal to sound horn in the event the cover is removed. Horn will sound until the unit is reset by the key or remote reset/arm switch
- Conformally coated electronics for weather resistance
- Cover is held in place by cam lock which protects mounting screws, electrical system and internal sensors
- Accepts external cylinder (not included, must be specified)
- Accepts standard mortise cylinders (not included, must be specified)

Note: Actual wire length is 6 feet.

*7-pin not available for 440F series trim. If 7-pin required, refer to 540F series located in 7000 series exit device catalog.

¹440 series trim requires the 108S kit. These cylinders are not ANSI/BHMA certified.

121NL Cylinder Only

Function Description	Nightlatch Access by Key
Model No.	121NL
ANSI	03

- Application: 2100(F) and 2150(F) rim and SquareBolt® exit devices. Not recommended for surface or concealed vertical rod devices.
- Must specify rim cylinder when ordering. See pages 25-27 for cylinder options.
- Cylinder collar 1765.250 furnished standard for 1-3/4" thick doors.
- For 1109, 5109, K300, K640, A640 and 2109 cylinders:
 - Screw part number 34-2311-8738-048
 - Backplate part number 34-0010-1015-059
- For 1193, 5193 and K840 cylinders:
 - Screw part number 10-1193-1018-048
 - Backplate part number 34-0010-1015-059

Collars & Tailpieces

Cylinder Collars

If required, cylinder collar size must be specified.

<p>1765 Recessed Cylinder Collar "A" Dimension: Thicknesses from 1/16" (2mm) to 1-15/32" (37mm) as required. Material: Brass, Bronze</p>	<p>KP3 Wave Washer (Furnished standard with 1765 collar for Yale® KeyMark® cylinders and 630F series trim).</p>	<p>599 Recessed Cylinder Collar with Radius "A" Dimension: Thicknesses from 1/16" (2mm) to 1-15/32" (37mm) as required. Material: Brass, Bronze</p>	<p>KP4 Flush Mount Cylinder Collar Material: Brass, Bronze</p>

Long Tailpiece Kit

Long tailpiece kit for use with escutcheon series trim, up to 4-1/2" thick doors. Specify part number to order.

Door Thickness	Trim Type	Part Number
2" - 2-1/2"	620F and 630F Series Trim	81-9500-1665-000
2-1/2" - 3-1/2"	620F and 630F Series Trim	81-9500-1635-000
3-1/2" - 4-1/2"	620F and 630F Series Trim	81-9500-1636-000

Von Duprin® Tailpiece

This tailpiece is available for the Yale® 1109 rim cylinder to operate the night latch function for Von Duprin® exit devices. To order, specify part number: 34-1145-1005-048.

Strikes

Rim Devices

757F
Standard strike for 2100(F) and 2150(F) devices. Supplied with #10-24 x 3/4" machine screws, two shims (each 1/16" thick), and one locking plate.

757FWS
Standard strike for 2150(F)WS and 2250M(F)WS devices. Supplied with 2 each #10-24 x 1-1/4" and 2 each #10-24 x 3/4" machine screws, two shims (each 1/16" thick), one locking plate and one interlocking bracket (not shown) with 4 each #10-24 x 3/4" machine screws.

793
Optional strike for double door applications without a mullion. Supplied with #10-24 x 3/4" machine screws, two shims (each 1/16" thick), and one locking plate. Panic only.

Vertical Rod Devices - Top Strikes

791
Standard top strike for 7110(F), 7120(F), 7210, 7220, 7210M(F), 7220M(F) series devices. Supplied with #10-24 x 3/4" machine screws, two shims (each 1/16" thick), and one locking plate.

726
Standard top strike for 7170(F) series devices. Supplied with #12-24 x 11/16" machine screws and #12 x 1-1/4" sheet metal screws, and one shim (1/16" thick).

761
Standard top strike for 7160(F) series devices. Supplied with #10-32 x 3/8" machine screws and #10 x 1" sheet metal screws.

797
Optional bracket for mounting 791 top strike in flush transom opening. Supplied with 1/4-20 machine screws; SN-134 sex nuts, optional.

Vertical Rod Devices - Bottom Strikes

790
Standard bottom strike for 7110(F), 7120(F), 7160(F), 7170(F), 7210, 7220, 7210M(F), 7220M(F) series devices. Press in place.

794
Optional bottom strike for fire openings using saddle thresholds or for flush floor mount. Must use for fire openings with 1/2" thresholds. Supplied with #10-24 x 1/2" machine screws and floor anchors.

702
Optional bottom strike for bottom pullman latch option. Supplied with #8 x 8/32" combination screws.

Accessories & Options

Shim Kits

Shim kits are available for devices on doors with interfering molding. Each shim kit contains:

- 2 sets of 1/8" shims (shim up to 1/4")
- Longer fasteners
- Longer tailpiece for the trim
- Installation instructions
- 693 (Black) finish

223 - Shim kit for 2100(F) rim, 2150(F) SquareBolt® and 2120(F) and 2160(F) series* concealed vertical rod exit devices

224 - Shim kit for 2110(F) and 2170(F) series surface vertical rod exit devices.

*Special concealed vertical rod components needed for openings requiring more than (2) shim kits. Details on application.

Extension Rods

2110 surface vertical rod devices are supplied standard for 7' (2.13m) standard. Rods may be field cut or used with extension rods for other heights. To order, specify:

Model Number	Length
2010-2	2" (51mm)
2010-6	6" (153mm)
2010-12	12" (305mm)
2010-24*	24" (610mm)

*Used for 10' door applications with 2170(F90)

Specialty Fasteners

Sex Nuts:

Required for wood, composite or unreinforced metal doors.

To order specify:

- **SN-104** – pack of (4) 10-24 sex nuts for all fire rim exits
- **SN-134** – pack of (4) 1/4-20 sex nuts for all devices

Wood Door Fasteners:

For solid core wood doors, permitted if pilot holes are used to install screws. Consult the factory for availability.

Torx® Security Screws available for factory product orders.

Bottom Pullman Latch

Optional bottom Pullman latch available for panic-listed vertical rod exit devices. To order with devices, specify "BPL." 702 bottom strike required, see page 29.

Wide Stile Cover

2100 series devices are available with an optional wide stile cover. To order with device, specify option: "WIDE".

To order cover separately, specify part number:

60-2000-1241 x Finish = for use with 2100

60-2150-1244 x Finish = for use with 2150

60-2110-1243 x Finish = for use with 2110 & 2170

60-2000-1240 x Finish = for use with 2120 & 2160

Plastic Installation Template

Provided as a standard with all 2100 series exit device, the plastic installation template facilitates door markings over traditional paper templates. This provides a more accurate door prep which reduces installation mistakes and overall installation time. Template dimensions: 8-1/4"x 3-1/4"(210mm x 83mm). To order separately, specify part number: 60-7000-9100-999.

Schlage® Cam Assembly

This cam and housing assembly includes a cam engineered to accept Schlage® rim cylinders. No modifications are required to existing 500 and 600 series exit device trims thus maintaining the trim's classroom and storeroom functions. To order, specify part number: 60-7000-0815.

Mullions

M200(F) Removable Mullion

M200(F) steel mullions are for use with 2100(F) series exit devices. Mullions may be field cut to fit opening. Red primer finish.

- M200 panic rated.
Tubular steel, 2" x 3" (51mm x 76mm). Specify 7', 8', or 10'.
- M200F 3 hour fire rated.
Tubular steel, 2" x 3" (51mm x 76mm). Specify 7' or 8'.

M200(F) Options

- **M203 Spacer Block**
Recommended for double rabbeted frames where the stop face width is less than the mounting hole spacing or for applications with 5-3/4" (146mm) or less door frames.

- **M204 Angle Bracket**
Recommended for any header configuration with less than 3" (76mm) of mounting surface.

Mullions

KRM200(F) Keyed Removable Mullion (KRM)

Keyed removable mullions are for use with 2100(F) series exit devices. They are designed for simple removing when an unobstructed large opening is required and easy replacement and locking to maintain the integrity of the opening.

- KRM200 panic rated. Specify 7', 8', or 10'.
- KRM200F 1-1/2 hour fire rated. Specify 7' or 8'.
- Easy cylinder installation.
- Mullion automatically relocks when reinstalled without the use of the cylinder key.
- When ordering, add KR prefix to mullion, example: KRM200 and KRM200F.

KRM Options

- **M203 Spacer Block**
Recommended for double rabbeted frames where the stop face width is less than the mounting hole spacing or for applications with 5-3/4" (146mm) or less door frames.

- **M204 Angle Bracket**
Recommended for any header configuration with less than 3" (76mm) of mounting surface.

KRM Cylinders

As with any exit device trim, you must order a cylinder and collar if one is required. The Yale® keyed removable mullion accepts a mortise cylinder. Refer to page 27 for details.

Dimensions

Device

Dimensions are in: inches (mm)

Device Size	"A"	"B"
36"	32-3/8" (82cm)	27" (69cm)
42"	38-3/8" (98cm)	33" (84cm)
48"	44-3/8" (113cm)	39" (99cm)

Trim Dimensions

Sample Specification

Exit devices shall be 2100 Series Pushpad Exit Devices as manufactured by Yale Locks & Hardware.

The exit device chassis and push pad assembly shall be of high-grade non-ferrous steel material, electroplated for protection against rust, and shall have a baked powder coating. The maximum projection shall be 2-1/2" when the push pad is active and 1-3/4" when the push pad is dogged down. Nylon bearings and stainless steel springs shall be used for long life and durability; only torsion springs are acceptable. Rear and active case covers shall be steel and shall have a baked powder coating to match the exit bar. Plastic covers are not acceptable. Latchbolts shall be steel and shall incorporate a deadlocking latch for increased security. Devices without deadlocking latches are not acceptable. Mounting screws shall be concealed to deter tampering. Devices shall be closed on all sides with no pinch points. Exit devices shall be easily field sized to accommodate various door widths.

Panic-listed exit devices shall have single point, one quarter turn hex key dogging standard. Panic-listed devices shall be available less dogging.

Trims shall be through-bolted with concealed fasteners. Escutcheon and pull-type trims shall be constructed of brass, bronze or zinc. All lever trims shall use cast or forged levers. On rim and vertical rod trims with cylinders, the mechanism that locks and unlocks the trim shall be housed in the trim and not in the active case of the exit device. Lever trims shall be Free Wheeling with clutch mechanism allowing lever to rotate 60° when locked for ideal protection. Lever trims shall match those on Yale® mortise and cylindrical locksets.

Exit devices and trims shall be furnished in ANSI/BHMA standard architectural finishes. Exit devices shall be listed by Underwriters Laboratories (UL, cUL) for safety as panic hardware. Fire-rated devices shall be listed for "A" label and lesser class doors. Devices shall also be UL listed for ZHEM - latching hardware and ZHLA - windstorm rated assemblies.

Certification:

ANSI/BHMA A156.3, Grade 1

Devices, trims and cylinders shall be from one manufacturer. Devices shall carry a three-year warranty and escutcheon trims shall carry a five-year warranty.

Technical Specifications & Listings

ANSI/BHMA

Certified ANSI/BHMA A156.3, Grade 1.

ISO 9001

Designed and manufactured under a certified ISO 9001 quality system.

Fire Listings

2100F series exit devices are UL-cUL Listed for use on fire doors having a rating up to and including 3-hours unless otherwise noted.

Note: Any retrofit or other field modification to a fire rated opening can potentially impact the fire rating of the opening, and Yale Locks & Hardware makes no representations or warranties concerning what such impact may be in any specific situation. When retrofitting any portion of an existing fire rated opening, or specifying and installing a new fire-rated opening, please consult with a code specialist or local code official (Authority Having Jurisdiction) to ensure compliance with all applicable codes and ratings.

Warranty

The 2100 series exit devices carry a three-year warranty. Rose trims carry a two-year warranty and escutcheon trims carry a five-year warranty.

Free Wheeling Lever Trim

2100 exit device lever trims feature the unique Free Wheeling lever mechanism. This Free Wheeling trim features a clutch mechanism which allows the lever to float down 60° when operated in the locked condition, greatly improving vandal resistance.

Microshield®

2100 series exit devices and trims are available with MicroShield antimicrobial coating. MicroShield is a revolutionary hardware finish coating which inhibits the growth of bacteria, algae, yeast fungus, mold and mildew. MicroShield is non-toxic and lasts for the lifetime of the finish to which it is applied. To order, suffix option code "YMS".

Note: MicroShield coating may vary finish color from architectural standards. MicroShield is not intended as a substitute for traditional infection control programs such as hand hygiene or use of disinfectants. Coated products must still be cleaned to insure the surfaces will be free of destructive microbes. Yale makes no representations or warranties, express or implied, as to the efficacy of the MicroShield antimicrobial. A copy of the MicroShield warranty is available upon request.

Windstorm

Certified (refer to local codes). Specify suffix "WS" to 2100(F) device.

MicroShield®

ASSA ABLOY Group companies offer MicroShield®, an anti-microbial coating for door hardware. MicroShield uses proven silver ion-based technology from Agion®, a leading provider of antimicrobial solutions, to stem the spread of bacteria and other microbes.

MicroShield® is a registered trademark of ASSA ABLOY Access and Egress Hardware Group, Inc.

The Agion antimicrobial is not intended as a substitute for good hygiene. Coated products must still be cleaned to ensure the surfaces will be free of destructive microbes. ASSA ABLOY makes no representations or warranties, express or implied, as to the efficacy of the Agion antimicrobial. A copy of the Agion warranty is available upon request. Agion is a registered trademark of Agion Technologies, Inc., Wakefield, MA, USA.

THE YALE BRAND, with its unparalleled global reach and range of products, reassures more people in more countries than any other consumer locking solution.

THE ASSA ABLOY GROUP is the world's leading manufacturer and supplier of locking solutions, dedicated to satisfying end-user needs for security, safety and convenience.

1800 Flatbar Exit Devices

Yale 1800 Series Exit Devices are the ideal choice for economy commercial applications where you need consistent quality, dependability and ease of use and installation. The 1800 Series is ANSI/BHMA certified Grade 1, with durable construction and versatile mounting applications, making it ideal for a variety of facilities.

Offering strength and durability in one reliable product after another, Yale Works for YouSM.

Introduction

Yale® Commercial Solutions offers innovative and reliable products to solve the challenges of commercial, retail, hospitality, assisted living, mixed-use, and multi-family properties. With over 150 years of door hardware experience, Yale's expertise extends beyond products to people - and provides the service and support you expect.

Featuring durable products to meet all your facilities' requirements - and the quality you expect from a leader in the hardware industry. Yale works for youSM.

Benefits & Features

Benefits

- **Tough:** Sturdy construction is ideal for meeting the rigors of demanding industry environments
- **Versatile:** Available in standard painted as well as architectural finishes for both front and back of house applications
- **Economical:** Works for a variety building projects, regardless of budget
- **Strong & Durable:** ANSI/BHMA Grade 1 Certification ensures long life and reliability

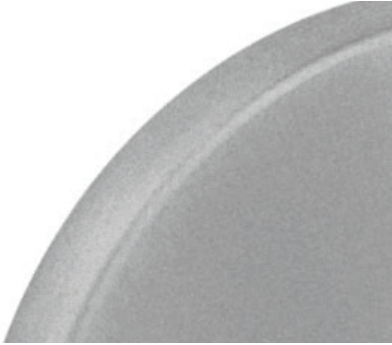

Features

- High-grade steel components offer superior protection against wear & tear
- Available in a variety of functions and finishes for any application
- ANSI/BHMA Grade 1 certified 
- UL/cUL listed for fire rated doors
- One year warranty

Notes:

- It is recommended that exit devices and trim for the same opening be ordered together.
- Standard product is for 1-3/4" (44mm) reinforced metal doors.
- Accessories detached from the device and trim should be specified separately.
- 626 finish offered for 440F series trim only.

1800(F) Rim

The 1800(F) is a rim exit device to be used with single doors or pairs of doors constructed of metal, wood or composite materials. The 1800(F) can be paired with a wide variety of trims to meet many applications.

Certification/Compliance

UL/cUL Listed: FVSR/FVSR7 - Panic hardware
GXHX/GXHX7 - Fire exit hardware (F)
(up to 4' x 8' single, 8' x 8' pairs, 3 hr.)

ANSI/BHMA Certified: A156.3 Type 1, Grade 1

Features

- Designed for wide stile doors
- Non-handed for easy installation
- Steel interlock "E" bracket maintains door-to-mullion relationship in fire-labeled devices

Applications

- Single swing doors
- Pairs of doors (mullion required)
- Metal, wood or composite door materials

Specifications

Door Opening Width	-36 for 30" - 36" (76cm - 91cm) doors -42 for 36" - 42" (91cm - 107cm) doors -48 for 42" - 48" (107cm - 122cm) doors
Door Thickness	1-3/4" (44mm) standard. Refer to page 18 for other door thicknesses
Minimum Stile Width	4-1/2" (114mm)
Projection	2-1/2" (64mm) active, 1-3/4" (44mm) depressed
Strike	757F, 793 optional (double door application)
Trims	210F series utility trim, 420F series escutcheon trim, 440F series rose trim
Dogging	Hex key dogging supplied standard on panic devices
Finishes	689, 691, 693, 695
Options	Shim Kit #223, Sex Nuts and Bolts
Warranty	1-year limited

1810(F) Surface Vertical Rod

The 1810(F) is a surface vertical rod exit device to be used on metal, wood or composite pairs of doors up to 8' where two-point latching is desired.

Certification/Compliance

UL/cUL Listed: FVSR/FVSR7 - Panic hardware
GXHX/GXHX7 - Fire exit hardware (F)
(up to 4' x 8' single, 8' x 8' pairs, 3 hr.)

ANSI/BHMA

Certified: A156.3 Type 2, Grade 1

Features

- Designed for wide stile and flush doors
- Handed, specify hand (field reversible)
- Positive action linkage on a deadlocking top Pullman bolt
- Simultaneous direct pull bottom deadbolt
- When unlatched, device keeps both bolts retracted until door is shut.

Applications

- Pairs of doors
- Double egress
- Metal, wood or composite door materials

Functions

ANSI types 1 (Rim) and 2 (Surface Vertical Rod) exit device requirements are met (or exceeded) by 1800(F) and 1810(F) respectively. Any of these exit devices may be used with any of the trim on the following chart. Trims are charted according to ANSI trim function and illustrations show typical function features, rather than pictorial renderings of the trims listed. Specific trim details are shown on pages 9-12.

Trim	Device (ANSI)	Rim (Type 1)		SVR (Type 2)	
	Options	1800(F) (Page 7)		1810(F) (Page 8)	
ANSI	Function				
01	Exit Only, No Trim/Exit Only, Blank Plate		420F		420F
02	Pull to Open (Dummy Trim)		214F 448F* 428F* 449F* 429F		214F 448F* 428F* 449F* 429F
03	Key Retracts Latchbolts (NL)		213F 427F 217F 441F 421F		213F 427F 217F 441F 421F
08	Entrance by Lever (Key Locks/Unlocks Lever)		426F 446F		426F 446F
09	Key Unlocks Lever (Key Removable When Locked)		426F*		426F*
14	Lever Always Active (Passage)		428F 448F		428F 448F

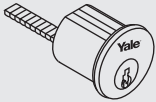

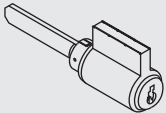

***Trims marked with an asterisk on the Application Chart require an easy field change to adapt them for the charted function.**

Strikes

Rim Devices

757F
Standard strike for 1800(F) devices. Supplied with #10-24 x 3/4" machine screws, two shims (each 1/16" thick), and one locking plate.

793
Optional strike for double door applications without a mullion. Supplied with #10-24 x 3/4" machine screws, two shims (each 1/16" thick), and one locking plate.

Vertical Rod Devices - Top Strikes

791
Standard top strike for 1810(F) devices. Supplied with #10-24 x 3/4" machine screws, two shims (each 1/16" thick), and one locking plate.

797
Optional bracket for mounting 791 top strike in flush transom opening. Supplied with 1/4-20 machine screws; SN-134 sex nuts, optional.

Vertical Rod Devices - Bottom Strikes

790
Standard bottom strike for 7110(F), 7120(F), 7160(F), 7170(F), 7210, 7220, 7210M(F), 7220M(F) series devices. Press in place.

794
Optional bottom strike for fire openings using saddle thresholds or for flush floor mount. Must use for fire openings with 1/2" thresholds. Supplied with #10-24 x 1/2" machine screws and floor anchors.

702
Optional bottom strike for bottom pullman latch option. Supplied with #8 x 8/32" combination screws.

Accessories

Shim Kits

Shim kits are available for devices on doors with interfacing – molding. Each shim kit contains:

- 2 sets of 1/8" shims (shim up to 1/4")
- Longer fasteners
- Longer connecting bar for the trim
- Installation instructions

223 – Shim Kit for 1800(F) Series rim exit devices

224 – Shim Kit for 1810(F) Series surface vertical rod exit devices

Extension Rods

1810(F) surface vertical rod devices are supplied standard for 7' (213cm) standard. Rods may be field cut or used with extension rods for other heights. To order, specify:

Model Number	Length
2010-2	2" (51mm)
2010-6	6" (153mm)
2010-12	12" (305mm)

Specialty Fasteners

Sex Nuts:

Required for wood, composite or unreinforced metal doors. To order specify:

- SN-104 – pack of (4) 10-24 sex nuts for all fire rim exits
- SN-134 – pack of (4) 1/4-20 sex nuts for all devices

Wood Door Fasteners:

For solid core wood doors, permitted if pilot holes are used to install screws. Consult the factory for availability.

Torx® Security Screws available for factory product orders.

Long Tailpiece Kit

Long tailpiece kit for use with escutcheon series trim, up to 4-1/2" thick doors. Specify part number to order.

Door Thickness	Trim Type	Part Number
2" - 2-1/2"	420F Series Trim	81-9500-1665-000
2-1/2" - 3-1/2"	420F Series Trim	81-9500-1635-000
3-1/2" - 4-1/2"	420F Series Trim	81-9500-1636-000

Bottom Pullman Latch

Optional bottom Pullman latch available for panic-listed vertical rod exit devices. To order with devices, specify "BPL." 702 bottom strike required, see page 17.

Mullions

M200(F) Removable Mullion

M200(F) steel mullions are for use with 1800(F) Series exit devices. Mullions may be field cut to fit opening. Red primer finish.

- M200 panic rated.
Tubular steel, 2" x 3" (51mm x 76mm). Specify 7', 8', or 10'.
- M200F 3 hour fire rated.
Tubular steel, 2" x 3" (51mm x 76mm). Specify 7' or 8'.

M200(F) Options

- **M203 Spacer Block**
Recommended for double rabbeted frames where the stop face width is less than the mounting hole spacing or for applications with 5-3/4" (146mm) or less door frames.

- **M204 Angle Bracket**
Recommended for any header configuration with less than 3" (76mm) of mounting surface.

Mullions

Keyed Removable Mullion (KRM)

Keyed removable mullions are for use with 1800(F) series exit devices. They are designed for simple removing when an unobstructed large opening is required and easy replacement and locking to maintain the integrity of the opening.

- KRM200 panic rated. Specify 7', 8', or 10'.
- KRM200F 1-1/2 hour fire rated. Specify 7' or 8'.

KRM Features

- Easy cylinder installation.
- Mullion automatically relocks when reinstalled without the use of the cylinder key.
- When ordering, add KR prefix to mullion, example: KRM200 and KRM200F.

KRM Options

- **M203 Spacer Block**
Recommended for double rabbeted frames where the stop face width is less than the mounting hole spacing or for applications with 5-3/4" (146mm) or less door frames.

- **M204 Angle Bracket**
Recommended for any header configuration with less than 3" (76mm) of mounting surface.

KRM Cylinders

As with any exit device trim, you must order a cylinder and collar if one is required. The Yale® keyed removable mullion accepts a mortise cylinder. Refer below and to pages 15-16 for details.

KRM Collars

Cylinder Model #	Length	Collar Requirement
2153 or 2553	1-1/4"	1765.312
A620 or K660	1-1/4"	1765.406
	1-3/8"	1765.563

Dimensions

Device Size	"A"	"B"
36"	33" (84cm)	27" (69cm)
42"	39" (99cm)	33" (84cm)
48"	45" (114cm)	39" (99cm)

Technical Specifications & Listings

ANSI/BHMA

Certified ANSI/BHMA A156.3, Grade 1.

Fire Listings

1800 series exit devices are UL-cUL Listed for use on fire doors having a rating up to and including 3-hours.

Note: Any retrofit or other field modification to a fire rated opening can potentially impact the fire rating of the opening, and Yale Locks & Hardware makes no representations or warranties concerning what such impact may be in any specific situation. When retrofitting any portion of an existing fire rated opening, or specifying and installing a new fire-rated opening, please consult with a code specialist or local code official (Authority Having Jurisdiction) to ensure compliance with all applicable codes and ratings.

Free Wheeling Lever Trim

1800 series exit device lever trims feature the unique Free Wheeling lever mechanism. This Free Wheeling trim features a clutch mechanism which allows the lever to float down 60° when operated in the locked condition, greatly improving vandal resistance.

ISO 9001

Designed and manufactured under a certified ISO 9001 quality system.

Warranty

The 1800 series exit devices and escutcheon trim carry a three-year warranty. Cylindrical trims carry a two-year warranty.

MicroShield®

ASSA ABLOY Group companies offer MicroShield®, an anti-microbial coating for door hardware. MicroShield uses proven silver ion-based technology from Agion®, a leading provider of antimicrobial solutions, to stem the spread of bacteria and other microbes.

MicroShield® is a registered trademark of ASSA ABLOY Access and Egress Hardware Group, Inc.

Nature's antimicrobial

The Agion antimicrobial is not intended as a substitute for good hygiene. Coated products must still be cleaned to ensure the surfaces will be free of destructive microbes. ASSA ABLOY makes no representations or warranties, express or implied, as to the efficacy of the Agion antimicrobial. A copy of the Agion warranty is available upon request. Agion is a registered trademark of Agion Technologies, Inc., Wakefield, MA, USA.

THE YALE BRAND, with its unparalleled global reach and range of products, reassures more people in more countries than any other consumer locking solution.

THE ASSA ABLOY GROUP is the world's leading manufacturer and supplier of locking solutions, dedicated to satisfying end-user needs for security, safety and convenience.

1500 Traditional Exit Devices

1500 Series Traditional Exit Devices are the perfect solution for modern retrofit applications that require maintaining the look and integrity of historic architectural motifs. Available with a variety of trims and options, the 1500 Series is able to suit a range of decor and application requirements.

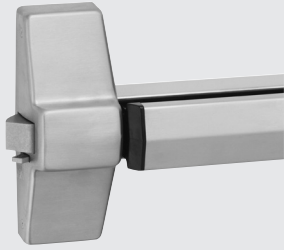

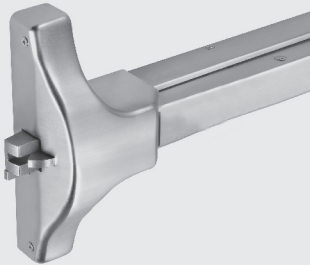

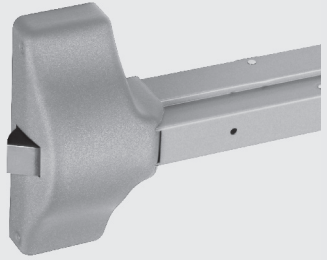

Recapturing vintage aesthetics with security for a modern world, Yale Works for YouSM.

Introduction

Yale® Commercial Solutions offers innovative and reliable products to solve the challenges of commercial, retail, hospitality, assisted living, mixed-use, and multi-family properties. With over 150 years of door hardware experience, Yale's expertise extends beyond products to people - and provides the service and support you expect.

Featuring durable products to meet all your facilities' requirements - and the quality you expect from a leader in the hardware industry. Yale Works for YouSM.

Benefits & Features

Benefits

- **Great for retrofit applications:** Classic design allows for upgrade in historic buildings, on single or pairs of doors
- **Easy installation:**
- **Strong & reliable:** ANSI/BHMA Grade 1 certified for long life and durability

Features

- Available in rim, mortise, surface vertical rod and concealed vertical rod
- Lever, handle and pull trim designs available for design continuity throughout a building
- 2-point hex-key dogging for standard devices enables quiet push-pull door operation during peak traffic hours
- Standard outside trim available with a choice of Yale 6 and 7-pin, interchangeable core, patented and security rim cylinders, keyed as needed

Finishes

ANSI/BHMA Code Finish Description

1. These finishes will be provided per factory standard. To assure color match, please provide a sample.

*Finish available with MicroShield® antimicrobial coating, additional finishes by special application. Consult factory for availability.

MicroShield coating may vary finish color from architectural standards. MicroShield is not intended as a substitute for traditional infection control programs such as hand hygiene or use of disinfectants. Coated products must still be cleaned to ensure the surfaces will be free of destructive microbes. Yale makes no representations or warranties, express or implied, as to the efficacy of MicroShield.

How to Order

The following selection guide indicates the correct cylinder for each locking segment.

Quantity	X	0	Suffix	Size	Design	Trim	Finish	Other Info
15	Third Position: 0 - Rim Device 1 - SVR Device 2 - CVR Device 3 - Mortise Device		Suffix - Mechanical Feature: "F" - Fire Exit Device "L5" - Mortise Device, Entry by Key with/without Rigid Lever. Mortise Device E0 or entry by key. "L8" - Mortise Device, Entry by Lever. "T5" - Mortise Device with Thumbpiece Trim "T8" - Mortise Device, Active Thumbpiece Trim.	Size: (DOW = Door Opening Width) "36" - Thru 36" (90cm) "48" - Thru 48" (120cm)	Trim Design: (Lever only.)	Trim Model Number	Finish Code: See Page 5	Other Information: Door Hand - All devices and lever handle trim. Door Thickness - over 1-3/4" (45mm). Fastener Options - Torx® Security Screws, SNB (wood, composite, or unreinforced metal doors). Specialty Cylinders & Components

Packaging

It is recommended that exit devices and trim for the same opening be ordered together. Standard product are for 1-3/4" (44mm) reinforced metal doors. Accessories detached from the device and trim should be specified separately. Materials by others are required to be fit for the purpose as detailed in this catalog and the product installation literature.

1500(F) Rim

The 1500(F) is a traditional exit device for single swing doors or pairs of doors with mullions of metal, wood or composite construction.

Certification/Compliance

UL/cUL Listed: FVSR/FVSR7 - Panic hardware
GXHX/GXHX7 - Fire exit hardware (F)
(4' x 8' single, 8' x 8' pairs, 3 hr.)

ANSI/BHMA Certified: A156.3 Type 1, Grade 1 

Features

- Designed for wide stile doors
- Handed, specify hand (field reversible)

Applications

- Single swing doors
- Pairs of doors with removable mullions
- Metal, wood or composite door materials

Specifications

Door Opening Width	-36 for 30" - 36" (76cm - 91cm) doors -48 for 36" - 48" (91cm - 122cm) doors
Door Thickness	1-3/4" (44mm) standard
Minimum Stile Width	4-1/2" (114mm)
Projection	5-5/8" (143mm) active, 4-1/2" (114mm) depressed.
Latchbolt	3/4" (19mm) deadlocking stainless steel pullman-type
Strike	799 (panic & fire), 793 optional (double door application)
Fasteners	Machine screws and wood door fasteners standard for panic hardware. Sex nuts and bolts supplied standard for fire exit hardware.
Trims	620F series escutcheon trim, 630F series pull/thumbpiece trim. See pages 13-14.
Dogging	Hex key dogging supplied standard on panic devices
Options	Sex nuts and bolts
Warranty	1-year limited

1510(F) Surface Vertical Rod

The 1510(F) is a traditional surface vertical rod exit device for any door where two-point latching is desired (inactive doors of pairs in particular).

Packed for 7'0" high (2.13m) openings with recommended template. Field cut rods or use rod extensions for other applications.

Certification/Compliance

UL/cUL Listed: FVSR/FVSR7 - Panic hardware
GXHX/GXHX7 - Fire exit hardware (F)
(8' x 8' pairs, 3 hr.)

ANSI/BHMA
Certified: A156.3 Type 2, Grade 1

Features

- Designed for wide stile doors
- Handed, specify hand (field reversible)
- Positive action linkage on a deadlocking top pullman bolt
- Simultaneous direct pull bottom deadbolt
- When unlatched, device keeps both bolts retracted until door is shut

Applications

- Pairs of doors
- Double egress
- Metal, wood or composite door materials

Specifications

Door Opening Width	-36 for 30" - 36" (76cm - 91cm) doors -48 for 36" - 48" (91cm - 122cm) doors
Door Opening Height	Standard door height 7' (213cm), with the device centerline at 39-5/16" (100cm) from floor. Optional heights up to 8' (fire) and 10' (panic) available by using rod extensions.
Door Thickness	1-3/4" (44mm) standard
Minimum Stile Width	4-1/2" (114mm)
Projection	5-5/8" (143mm) active, 4-1/2" (114mm) depressed.
Latchbolt	Top: 3/4" (19mm) throw, pullman-type with automatic deadlatching Bottom: 5/8" (16mm) throw deadbolt, held retracted during door swing
Vertical Rods	1/2" (13mm) O.D. tubular brass, bronze or stainless steel with rod guides
Strike	Top: Roller type 791. Bottom: Flush mounted 790. 794 floor strike optional (threshold openings), 702 floor strike optional (BPL devices).
Fasteners	Machine screws and wood door fasteners standard for panic hardware. Sex nuts and bolts supplied standard for fire exit hardware.
Trims	620F series escutcheon trim, 630F series pull/thumbpiece trim. See pages 13-14.
Dogging	Hex key dogging supplied standard on panic devices
Options	Sex nuts and bolts, bottom pullman latch (panic only), rod extensions
Warranty	1-year limited

1520(F) Concealed Vertical Rod

The 1520(F) is a traditional concealed vertical rod exit device for metal doors where two-point latching is desired (inactive doors of pairs in particular.)

Certification/Compliance

UL/cUL Listed: FVSR/FVSR7 - Panic hardware
 GXHX/GXHX7 - Fire exit hardware (F)
 (8' x 8' pairs, 3 hr.)

ANSI/BHMA Certified: A156.3 Grade 1, Type 8, Grade 1

Features

- Designed for wide stile doors
- Handed, specify hand (field reversible)
- Positive action linkage on a deadlocking top pullman bolt
- Simultaneous direct pull bottom deadbolt
- When unlatched, device keeps both bolts retracted until door is shut

Applications

- Pairs of doors
- Double egress
- Metal doors only

Specifications

Door Opening Width	-36 for 30" - 36" (76cm - 91cm) doors -48 for 36" - 48" (91cm - 122cm) doors
Door Opening Height	Standard door height adjustable to 8' (244cm). Optional heights up to 10' (panic) available by using rod extensions.
Door Thickness	1-3/4" (44mm) standard
Minimum Stile Width	4-1/2" (114mm)
Projection	5-5/8" (143mm) active, 4-1/2" (114mm) depressed.
Latchbolt	Top: 3/4" (19mm) throw, pullman-type with automatic deadlatching Bottom: 5/8" (16mm) throw deadbolt, held retracted during door swing
Vertical Rods	1/2" (13mm) O.D. telescoping tubular rods
Strike	Top: Roller type 791. Bottom: Flush mounted 790. 794 floor strike optional (threshold openings)
Fasteners	Machine screws and wood door fasteners standard for panic hardware. Sex nuts and bolts supplied standard for fire exit hardware.
Trims	620F series escutcheon trim, 630F series pull/thumbpiece trim. See pages 13-14.
Dogging	Hex key dogging supplied standard on panic devices
Options	Sex nuts and bolts, rod extensions
Warranty	1-year limited

1530(F) Mortise

The 1530(F) is a traditional exit device integrated with Yale 8700 series mortise lock for the active leaf of pairs and single doors where both exit device and security are required. Can be installed on metal, wood or composite doors. The 8700 series mortise lock used is modified for use with exit devices only.

Certification/Compliance

UL/cUL Listed: FVSR/FVSR7 - Panic hardware
 GXHX/GXHX7 - Fire exit hardware (F)
 (4' x 8' single, 8' x 8' pairs, 3 hr.)
 (4' x 9' single, 8' x 9' pairs, 1-1/2 hr.)

ANSI/BHMA
 Certified:

A156.3 Type 3, Grade 1

Features

- Designed for wide stile and flush doors
- Handed; specify hand
- Two-piece mechanical 3/4" throw deadlocking stainless steel latchbolt

Applications

- Single swing doors
- Pairs of doors with vertical rod devices or automatic flush bolts
- Metal, wood or compatible door materials

Order as follows, according to function.

1530-K5(F)	(01) Exit only. (02) Entry by pull when dogged. (03) Key retracts latchbolt.
1530-L5(F)	(02) Entry by rigid lever when dogged. (03) Key retracts latchbolt.
1530-T5(F)	(02) Entry by pull when dogged. (03) Key retracts latchbolt.
1530-L8(F)	(08) Entry by lever lock/unlocked by key or lever only (passage).
1530-T8(F)	(05) Entry by thumbpiece lock/unlocked by key or thumbpiece only (passage).

Specifications

Door Opening Width	-36 for 30" - 36" (76cm - 91cm) doors -48 for 36" - 48" (91cm - 122cm) doors
Door Thickness	1-3/4" (44mm) standard. 2" and 2-1/4" (51mm and 57mm) optional; specify when ordering.
Minimum Stile Width	4-1/2" (114mm)
Projection	5-5/8" (143mm) active, 4-1/2" (114mm) depressed.
Latchbolt	Two piece mechanical 3/4" (19mm) deadlocking stainless steel with anti-friction insert and auxiliary deadlocking latch
Strike	798 curved lip, non-handed standard. 712 optional for door pairs with astragals. 718 optional open back strike.
Fasteners	Machine screws and wood door fasteners standard for panic hardware. Sex nuts and bolts supplied standard for fire exit hardware.
Trims	350F/620F/650F series escutcheon trim, 630F/660F/670F series pull/thumbpiece trim. See pages 13-14.
Dogging	Hex key dogging supplied standard on panic devices
Options	Sex nuts and bolts
Warranty	1-year limited

Exit Device Trims

Rim and vertical rod devices use Universal Lifter Assembly #60-1500-0671-000, to connect to any 620 or 630 Series active trim. Mortise devices are supplied according to trim type and function desired. There is a 1530(F) Series device adequate for each 350, 650, 660 or 670 Series Trim charted.

350F, 620F and 650F Series Escutcheon Trim

- Certified ANSI/BHMA A156.3, Grade 1.
- Trim through-bolts to exit device for strength.
- Beveled sides improve attack resistance.
- Solid forged/cast escutcheon and free-wheeling trim for ideal protection.
- Flush cylinder in 6-pin applications for additional security.
- 1-3/4" (44mm) door standard. For doors through 2-1/4" (57mm) or shim-mounted devices, specify on order.
- Dimensions: 3" x 10-1/4" x 13/16" (76mm x 260mm x 19mm).
- Cylinders not included. See page 18-20 for cylinder options.
- Available with AR, AU, CR, JN, MO, PB, PN, VI, HA lever designs. See page 11.
 - Finishes: 605, 606, 609, 611, 612, 613, 613E, 616, 619, 620, 626, 629, 630, 693, 722, BSP
- Available with Reflections® lever designs. See page 12.
 - Finishes: 605, 606, 611, 612, 613, 613E, 619, 626, 629, 630, 722, BSP
- Trim ordering example: AU626F x 626 x RHR.
- 5-year limited warranty.

For 629 & 630 finishes the standard levers are plated to simulate stainless steel.

Exit Device Trims

630F, 660F and 670F Series Pull/Thumbpiece Trim

- Certified ANSI/BHMA A156.3, Grade 1.
- Trim through-bolts to exit device for strength.
- Beveled sides improve attack resistance.
- Flush cylinder in 6-pin applications for additional security.
- 1-3/4" (44mm) door standard. For doors through 2-1/4" (57mm) or shim-mounted devices, specify on order.
- Plate Dimensions: 2-3/4" x 15-1/2" x 5/8" (70mm x 394mm x 16mm).
- Pull Dimensions: 6-7/16" (164mm) on centers x 2-1/8" (54mm) projection.
- Cylinders not included. See page 18-20 for cylinder options.
- Finishes: 605, 606, 609, 612, 613, 613E, 616, 619, 620, 626, 629, 630, 693, 722, BSP
- Trim ordering example: 630F x 630
- 5-year limited warranty.

1 Field conversion required.

2 ADA compliant trim.

Single Door

Rim Exit Device - Standard Opening

- ANSI/BHMA A156.3 Type 1
- Easy installation
- Flush or wide stile metal, wood or composite doors
- Field reversible
- Exit only or with entry trim

Exit Device	Panic Exit: 1500
	Fire Exit: 1500F
Operating Trim	620F or 630F Series
Ordering Example	1500-36" x AU626F x RHR x 626

Mortise Exit Device - Mortise Lock Retrofit

- ANSI/BHMA A156.115, (ASA86) prep door
- Flush or wide stile metal, wood, or composite doors
- Mortise lock security with an exit device

Exit Device	Panic Exit: 1530
	Fire Exit: 1530F
Operating Trim	350F, 650F, 660F, 670F Series
Ordering Example	1530-L8-36" x AU356F x RHR x 612

Double Egress Opening

Two Surface Vertical Rod Exit Devices

- ANSI/BHMA A156.3, Type 2
- Two-point latch security
- Flush or wide stile metal, wood or composite doors
- Field reversible
- Smoke control or fire exit
- Two-way traffic control

Exit Device	Panic Exit: (2) 1510
	Fire Exit: (2) 1510F
Operating Trim	620F or 630F Series
Ordering Example	2 each: 1510F-48" x LHR x 626

Two Concealed Vertical Rod Exit Devices

- ANSI/BHMA A156.3, Type 8
- No exposed rods or latchbolts
- ADA compliant
- Flush or wide stile metal doors
- Field reversible
- Smoke control or fire exit
- Two-way traffic control

Exit Device	Panic Exit: (2) 1520
	Fire Exit: (2) 1520F
Operating Trim	620F or 630F Series
Ordering Example	2 each: 1520F x 633F x LHR x 630

Applications

Pair Of Doors With Center Mullion

Two Rim Exit Devices - One Removable Mullion

- ANSI/BHMA A156.3
- Type 1
- Easy installation
- Flush or wide stile metal, wood or composite doors
- Exit only or with entry trim
- Recommended for easier traffic flow.

Exit Device	Panic Exit: (2) 1500 x M200
	Fire Exit: (2) 1500F x M200F
Operating Trim	620F or 630F Series
Ordering Example	2 each: 1500-36" x AU626F x 1/2RHR x M200-7'0" x 626

Pair Of Doors Without Mullion

One Mortise - One Vertical Rod Exit Device

- The architectural choice for pairs of doors without mullions
- Flush or wide stile metal, wood or composite doors
- Panic or fire label openings

Exit Device	Panic Exit: 1530 Mortise x 1520 (CVR) or 1510 (SVR)
	Fire Exit: 1530F Mortise x 1520F (CVR) or 1510F (SVR)
Operating Trim	630F, 650F, 660F or 670F Series (Active) x 620F or 630F Series (Dummy or Active)
Ordering Example	1 each: 1530-L8F x AU356F x RHR x 605, plus 1 each 1510F x AU629F x LHR x 605

One Rim - One Vertical Rod Exit Device

- An economic solution for light traffic openings
- Flush or wide stile metal, wood or composite doors

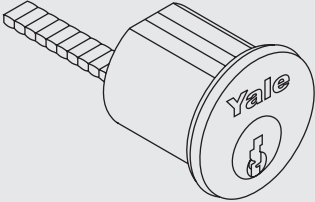

Exit Device	Panic Exit: 1500 Rim x 1510 SVR
Operating Trim	620F or 630F Series
Ordering Example	1 each: 1500-48" x RHR x 632F x 793 x 1510-48" x LHR x 634F x 626

Strikes

Rim Devices

799
Standard strike for 1500(F) devices. Supplied with three shims, #12-24 machine screws, and #12 wood screws.

793
Optional strike for double door applications without a mullion. Supplied with #10-24 x 3/4" machine screws, two shims (each 1/16" thick), and one locking plate. Panic only.

Vertical Rod Devices - Top Strikes

791
Standard top strike for 7110(F), 7120(F), 7210, 7220, 7210M(F), 7220M(F) series devices. Supplied with #10-24 x 3/4" machine screws, two shims (each 1/16" thick), and one locking plate.

797
Optional bracket for mounting 791 top strike in flush transom opening. Supplied with 1/4-20 machine screws; SN-134 sex nuts, optional.

Vertical Rod Devices - Bottom Strikes

790
Standard bottom strike for 7110(F), 7120(F), 7160(F), 7170(F), 7210, 7220, 7210M(F), 7220M(F) series devices. Press in place.

794
Optional bottom strike for fire openings using saddle thresholds or for flush floor mount. Must use for fire openings with 1/2" thresholds. Supplied with #10-24 x 1/2" machine screws and floor anchors.

702
Optional bottom strike for bottom pullman latch option. Supplied with #8 x 8/32" combination screws.

Mortise Devices

798
Standard curved lip ANSI strike used with 7130(F) devices. (1-1/4" lip)

712
Optional flat lip ANSI strike used with 7130 devices for pairs of doors with astragals. (7/8" lip)

718
Optional open back strike. Permits opening of the inactive door for pairs of doors where approved by door manufacturer.

702
Optional strike box for ANSI strikes. 7/8" (22mm) deep.

Specialty Fasteners

SNB, 3/8" (10mm) diameter sex nuts for screws packed with exit devices. Supplied in exact number required on factory orders, or use packs as follows. Specify finish.

SN134 - Pack of (4) 1/4-20 sex nuts.

Torx® Security Screws - to deter tampering, supplied only with product order.

Bottom Pullman Latch

(P/No. 60-7010-0051-999), for use only with 1510 SVR devices in openings with pullman latch threshold as shown, threshold by others, or 702 floor strike.

To order with devices, specify "BPL."

Extension Rods

Model #	Length
7010-2	2" (51mm)
7010-6	6" (152mm)
7010-12	12" (305mm)
7010-24	24" (610mm)

Specify finish

Mullions

M200(F) Removable Mullion

M200(F) steel mullions are for use with 1500(F) series exit devices. Mullions may be field cut to fit opening. Red primer finish.

- M200 panic rated. Tubular steel, 2" x 3" (51mm x 76mm). Specify 7', 8', or 10'.
- M200F 3 hour fire rated. Tubular steel, 2" x 3" (51mm x 76mm). Specify 7' or 8'.

M200(F) Options

M203 Spacer Block Recommended for double rabbeted frames where the stop face width is less than the mounting hole spacing or for applications with 5-3/4" (146mm) or less door frames.

M204 Angle Bracket Recommended for any header configuration with less than 3" (76mm) of mounting surface.

KRM200(F) Keyed Removable Mullion (Krm)

Keyed removable mullions are for use with 1500(F) series exit devices. They are designed for simple removing when an unobstructed large opening is required and easy replacement and locking to maintain the integrity of the opening.

- KRM200 panic rated. Specify 7', 8', or 10'.
- KRM200F 1-1/2 hour fire rated. Specify 7' or 8'.

KRM Options

M203 Spacer Block

Recommended for double rabbeted frames where the stop face width is less than the mounting hole spacing or for applications with 5-3/4" (146mm) or less door frames.

M204 Angle Bracket

Recommended for any header configuration with less than 3" (76mm) of mounting surface.

KRM Features

- Easy cylinder installation.
- Mullion automatically relocks when reinstalled without the use of the cylinder key.
- When ordering, add KR prefix to mullion, example: KRM200 and KRM200F.

KRM Cylinders

As with any exit device trim, you must order a cylinder and collar if one is required. The Yale® keyed removable mullion accepts a mortise cylinder. Refer to page 19 for details.

Technical Specifications & Listings

ANSI/BHMA

Certified ANSI/BHMA A156.3, Grade 1.

Fire Listings

1500F series exit devices are UL-cUL Listed for use on fire doors having a rating up to and including 3-hours unless otherwise noted.

Note: Any retrofit or other field modification to a fire rated opening can potentially impact the fire rating of the opening, and Yale Locks & Hardware makes no representations or warranties concerning what such impact may be in any specific situation. When retrofitting any portion of an existing fire rated opening, or specifying and installing a new fire-rated opening, please consult with a code specialist or local code official (Authority Having Jurisdiction) to ensure compliance with all applicable codes and ratings.

ISO 9001

Designed and manufactured under a certified ISO 9001 quality system.

Warranty

The 1500 series exit devices carry a one-year warranty. Trims carry a five-year warranty.

MicroShield®

ASSA ABLOY Group companies offer MicroShield®, an anti-microbial coating for door hardware. MicroShield uses proven silver ion-based technology from Agion®, a leading provider of antimicrobial solutions, to stem the spread of bacteria and other microbes.

MicroShield® is a registered trademark of ASSA ABLOY Access and Egress Hardware Group, Inc.

The Agion antimicrobial is not intended as a substitute for good hygiene. Coated products must still be cleaned to ensure the surfaces will be free of destructive microbes. ASSA ABLOY makes no representations or warranties, express or implied, as to the efficacy of the Agion antimicrobial. A copy of the Agion warranty is available upon request. Agion is a registered trademark of Agion Technologies, Inc., Wakefield, MA, USA.

THE YALE BRAND, with its unparalleled global reach and range of products, reassures more people in more countries than any other consumer locking solution.

THE ASSA ABLOY GROUP is the world's leading manufacturer and supplier of locking solutions, dedicated to satisfying end-user needs for security, safety and convenience.

YDC200 Economy Door Closer

Yale® YDC200 Series Economy Door Closer is a no-fuss, affordable option for aluminum storefront settings and other high volume applications. Certified to meet ANSI/ BHMA A156.4, Grade 1, YDC200 Series Door Closers provide a trusty and reliable solution to your commercial space, including retail, office buildings, and more.

Bringing you a dependable door closer at an attractive price point, Yale Works for YouSM.

Features & Benefits

Features

- Adjustable spring size 1-4 (YDC201) or fixed spring size 4 (YDC204)
- Tri-packed: regular, top jamb, or parallel mounting options
- Non-handed
- Cast aluminium body and threaded adjustable arm
- Rack & pinion design
- Independent latch, sweep, and backcheck intensity valves
- Available in two finishes
- 5 year limited warranty

Benefits

- **Ideal for a variety of facilities:** Well-suited to commercial, aluminum storefront, and hospitality applications
- **Ease of product selection:** Economical, affordable, no-fuss product offering
- **Great for retrofit applications:** 3/4" by 9-1/16" closer dimensions easily retrofit to a common footprint
- **Reliable:** UL/cUL listed and designed to meet ANSI/BHMA Grade 1 certification standards

How to Order

Please select model number and finish.

Model	Description	Finish
YDC201	Multi-sized Closer – Non-Hold Open	689 or 690
YDC204	Fixed Size 4 Closer – Non-Hold Open	

Notes:

- Door closer warranty becomes void if the closer is installed on the exterior side of a door in the exterior wall of a building.
- It is strongly recommended, and may be required on fire door assemblies, that doors having a door closer be hung on ball-bearing or anti-friction hinges or pivots. Consult local authority having jurisdiction.
- Failure to use fasteners supplied with closer may void factory warranty.
- Fasteners for fire/smoke door assemblies must conform to NFPA 80. In some applications additional fasteners may be mandated by NFPA 80 that are not shipped with standard Yale® product, such as sleeve-nuts/sex-nuts or thru bolts and grommet nuts.
- Information provided is based on 1-3/4" (44mm) x 7' (2.13m) standard weight doors swinging to 110°. Other conditions (such as door height or weight; or wind/draft conditions) may require adjustment of spring setting, selection of a larger size closer or different closer.

5800 SERIES CAST IRON DOOR CLOSERS

With its modern design and adjustable operation, Yale 5800 Series Cast Iron Door Closers provide an attractive solution for retail, office, government and other commercial facilities. Heavy-duty and hold open arms, along with adjustable spring size, backcheck, closing and latch speed, provide a flexible and economical closer that you can trust for dependable service. The 5800 Series is certified to ANSI/BHMA Grade 1 requirements for long life and reliability, and offers a 10 year warranty. With a full feature set and stylish design, Yale Works for YouSM.

Features & Benefits

FEATURES

- ANSI/BHMA A156.4 Grade 1 certified
- Adjustable spring sizes 1 - 6
- Cast iron closer body
- Standard and heavy-duty arms available as hold open or non-hold open
- Adjustments for backcheck, closing and latch speed
- Tri-packed for parallel, regular or top jamb installation
- Sleeve nuts and bolts provided with each closer
- Retrofit for LCN 4040XP
- Non-handed
- Plastic cover
- 10 year warranty

COMPLIANCE STANDARDS

- Certified for ANSI/BHMA A156.4 Grade 1 
- 90 minute positive pressure fire rating per UL10c and CAN / ULC S104 
- Meets requirements for Americans with Disabilities Act (ADA) and ANSI/BHMA A117.1 

BENEFITS

- **Reliable:** Adjustable spring power, latch and closing speeds ensure positive latching
- **Flexible:** Choice of standard or heavy-duty arms and adjustable spring power meets needs of any application
- **Hassle-Free Retrofits:** Easily replaces competitive closers
- **Strong and Durable:** ANSI/BHMA Grade 1 certified for long life

CAUTION: Door Closers for Low Opening Force Applications:

Door closers installed in openings required to meet the requirements of the Americans With Disabilities Act or ANSI/BHMA Standard A117.1, when adjusted to meet those requirements, may not provide adequate closing power to dependably close and latch the door based on opening or site conditions.

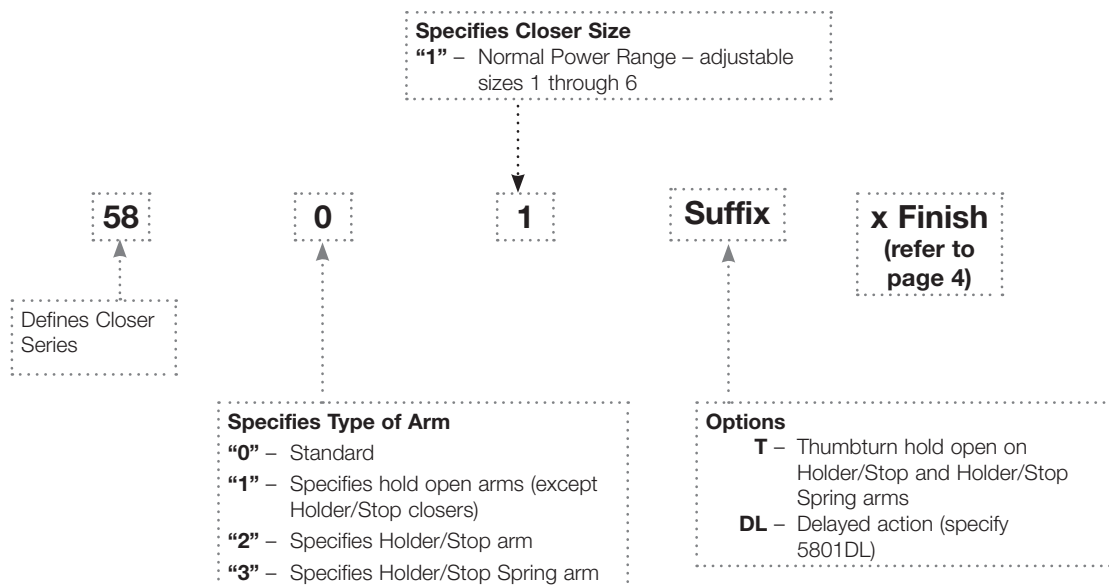

Finishes

ANSI/BHMA Code Finish Description

How To Order

FUNCTIONS

- Backcheck
- Closing speed
- Latching speed
- Delayed action; specify 5801DL

ARMS

Non-Hold Open

Self-closes door every time door is opened. Auxiliary stop (by others) required except when using the Holder/Stop arm.

Hold Open

Achieved by means of friction or ball and detent/roller. Friction hold open has a range of 90° to 180° using template location and mechanical adjustment. Ball and detent or roller hold open is effective in a range of 85° to 110°.

Hold open arm door closers are not permitted to be used on fire door assemblies.

Notes:

- For heavy-duty parallel rigid arm applications, specify 5821 or 5821T, stop is removable.
- Door closer warranty becomes void if the closer is installed on the exterior side of a door in the exterior wall of a building.
- It is strongly recommended, and may be required on fire door assemblies, that doors having a door closer be hung on ball-bearing or anti-friction hinges or pivots. Consult local authority having jurisdiction.
- Failure to use fasteners supplied with closer may void factory warranty.
- Fasteners for fire/smoke door assemblies must conform to NFPA 80. In some applications additional fasteners may be mandated by NFPA 80 that are not shipped with standard Yale product, such as sleeve-nuts/sex-nuts or thru bolts and grommet nuts.
- Information provided is based on 1-3/4" (44mm) x 7' (2.13m) standard weight doors swinging to 110°. Other conditions (such as door height or weight; or wind/draft conditions) may require adjustment of spring setting, selection of a larger size closer or different closer.

DOOR CLOSING LATCHING CYCLE

Arm Options

Regular Arm

Non-hold open arm shown, hold open application available.

- Pull side application, double lever arm
- Sufficient frame, door and/or ceiling clearance must be considered
- Due to arm projection, application may present an aesthetics issue or be prone to vandalism

Top Jamb

Non-hold open arm shown, hold open application available.

- Push side application
- Sufficient frame face and/or ceiling clearance must be considered
- 2-1/4" (57mm) top rail on door is required
- Best door control for doors in exterior walls that swing out of building
- Consideration must be given to depth of reveal

Parallel Arm

Non-hold open arm shown, hold open application available.

- Push side application
- In the closed position, there is little or no hardware projection beyond the frame face
- Due to arm geometry, approximately 25% less power-efficient than regular arm application
- Closer and arm mounted below the frame stop

HOLDER/STOP ARM

5821T (hold open) shown

- Holder/Stop arms incorporate a stop at the arm's soffit plate to dead stop the door at a predetermined degree of door swing between 85° and 110°, in 5° increments
- Prior to dead stop, backcheck slows the door speed to reduce the stop action

5821 (non-hold open, without stop) shown

- Holder/Stop arm is intended for use where an auxiliary door stop cannot be used and low to moderate abuse is anticipated
- Stop is removable to allow for additional applications where auxiliary door stops are installed

5831 (non-hold open, with spring) shown

- Holder/Stop Spring arms incorporate a buffer spring that provides greater protection at the end of the door opening cycle
- Spring is removable

Consult factory if door weight exceeds 250 lbs.

Model/Part Numbers

Model Number	Description
5801	Non-Hold Open Tri-Packed
5801DL	Non-Hold Open Tri-Packed, Delayed Action
5811	Hold Open Tri-Packed
5821	Heavy-Duty Non-Hold Open Parallel Arm with Removable Stop
5821T	Heavy-Duty Hold Open Parallel Arm with Thumbturn and Removable Stop
5831	Heavy-Duty Non-Hold Open Parallel Arm with Spring and Removable Stop
5831T	Heavy-Duty Hold Open Parallel Arm with Thumbturn, Spring and Removable Stop

Note: for heavy-duty parallel rigid arm applications, specify 5821 or 5821T, stop is removable.

See page 5 for more how to order info.

Accessories

CLOSER MOUNTING PLATES

5800RDP Narrow Frame Drop Plate (regular arm):

Required for hinge side mount where top rail is less than 3-3/4" (95mm). Plate requires 2" (51mm) minimum top rail.

5800PDP Narrow Top Rail Drop Plate (parallel arm):

Required for parallel arm mounting where top rail is less than 5-1/2" (140mm), measured from the stop. Plate requires 2" (51mm) minimum top rail.

Note: All measurements are Inches/mm.

Yale's 4400 Series Institutional Door Closers offer customers the ideal combination of superior performance, quality and strength. With upgraded pinion and piston materials, improved valve design, and staked valves, the closers are the most efficient, dependable closers in the industry. The size 1-6 spring also simplifies the process of specifying and ordering product.

This U.L. listed, ANSI/BHMA Grade 1 certified closer has a proven history. It is an ideal choice for interior or exterior doors in facilities that demand reliability such as schools, office buildings, hospitals, department stores and airports. Yale Works for YouSM.

Overview

Cutaway View

Compliance Standards

- ANSI/BHMA A156.4, Grade 1 certified
- UL / cUL listed for use on fire rated doors
- UL10C listed for positive pressure fire test
- 4400 door closers are designed to comply with requirements for the Americans with Disabilities Act (ADA) and ANSI standard A117.1
- Manufactured in an ISO 9001, ISO 14001 facility

An Environmental Product Declaration (EPD) documents the cradle-to-grave life cycle of a product and how it affects the environment. An important aspect of EPD® is to provide the basis of a fair comparison of products and services by its environmental performance. EPDs can reflect the continuous environmental improvement of products and services over time and are able to communicate and add up relevant environmental information along a product's supply chain.

CAUTION: Door Closers for Low Opening Force Applications:

Door closers installed in openings required to meet the requirements of the Americans With Disabilities Act or ANSI/BHMA Standard A117.1, when adjusted to meet those requirements, may not provide adequate closing power to dependably close and latch the door based on opening or site conditions.

Features

- Exceeds 25 million cycles
- Cast aluminum body
- Adjustable spring sizes 1 through 6 (ADA Compliant)
- Tri-packed (regular arm, top jamb, and parallel arm mounting)
- Rack and pinion design
- Staked valves
- Separate and independent, latch, sweep and backcheck intensity valves
- Non-handed
- 1-1/2" (38mm) diameter piston
- 5/8" (16mm) diameter pinion journals
- 2-1/8" (54mm) projection (standard covers)
- All standard arm applications allow doors to swing 180°, conditions permitting
- 30-year limited warranty
- Self-drilling screws
- Molded plastic cover
- Backcheck positioning valve
- Full-size template

Optional Features

- Corrosion-resistant model (Non-Hold Open only) (4400S only)
- Metal cover
- Enhanced backcheck (specify EBC suffix)
- Delayed action with pressure relief valve
- Heavy-duty arms: Regular Rigid, Parallel Rigid, Holder/Stop, Holder/Stop Spring, UNI Stop™
- Slide Tracks: push or pull side mounting
- Lead-lined metal cover (specify MLL suffix)

Fasteners and Features

Fasteners

SMS	Sheet Metal Screws	0	0	0	0	0	0	0	0	0
TORX	TORX Drive Security Screw	0	0	0	0	0	0	0	0	0

S = standard; 0 = optional

SN are for use on unreinforced hollow metal doors or to prevent any hollow metal door from collapse/dimpling. They can also be used for thru bolting on wood doors. SN are supplied for 1-3/4" (44mm) thick doors unless specified for 2-1/4" (57mm) thick doors.

TBGN are an alternative to SN for wood doors. TBGN are supplied standard for 1-3/4" (44mm) thick doors. They can be specified for 1-3/8" (35mm) thick doors.

SMS - when specified, closer will be packed with sheet metal screws for the door **AND** sheet metal screws plus machine screws for the frame.

TORX are only available with machine screw threads. Sheet metal screw threads are not available.

Features

Aluminum Alloy Housing

Closer bodies are constructed of a special aluminum alloy, carefully selected to accommodate interactive steel components and operating conditions.

Rack & Pinion Operation

Provides a smooth constant control of the door through its full opening and closing cycle. 180° door swing can be achieved when door, frame, hardware and arm function do not interfere.

Non-handed

With few exceptions all 4400 series door closers are non-handed and can be installed on either right or left-hand swing doors. Pinion shaft extends vertically through the closer body in both directions. Some options, as noted on page 5, will require that the hand of the closer be specified.

Sweep Speed Control Valve

Allows adjustment of door speed from the door's full open position down to approximately 10° from the closed position.

Latch Speed Control Valve

Allows adjustment of door speed from approximately 10° down to the door's fully closed position.

Closer Fluid

All door closers are supplied with a temperature stable, multi-viscosity fluid. This fluid will permit the door closer to perform within a wide temperature range: from very high to as low as -40°F.

Tri-Packed

4400 series come with screws, brackets and soffit plates to allow for regular, top jamb, and parallel arm installations.

Adjustable Backcheck Cushion Valve

Provides control of the door in the opening cycle, beginning at approximately 75° of door opening. It slows/cushions the door opening when the door is forcibly opened beyond its pre-adjusted limits.

Adjustable Backcheck Position Valve

Allows the door opening position, where backcheck cushioning begins to be adjusted to a greater door angle up to a maximum of 20° farther (approximately 95°).

Standard Molded Covers

Molded of high-impact U.L. listed material. This cover is non-handed for all applications. See page 5 for optional metal cover.

Warranty

Limited 30-year warranty for defects and life of the building on the aluminum housing.

Optional Features

Door Closer Power Options

Series 4400 Multi-Sized Door Closer

Adjustable through the power range of sizes 1 through 6; as outlined in ANSI/BHMA standard A156.4.

The series 4400 also conforms to the minimum opening force requirements for The American with Disabilities Act (ADA) and ANSI/BHMA standard A117.1 for interior doors.

Optional Covers

Optional Metal Cover

This steel cover is non-handed for regular and parallel arm applications, but is handed for top jamb applications. Cover is available in sprayed or plated finishes.

Optional ABS Cover

Contact factory for details.

Optional Features

Corrosion-Resistant Door Closer

The series 4400S door closers with molded plastic cover are available for use where brass conditions exist. This series is provided with brass adjustment valves adjustment valves, a 440 grade stainless steel pinion shaft, an all-aluminum body and bronze closer arm bushing; all other components and fasteners are of 302/303 grade stainless steel. Fasteners are 8-18 stainless steel. This product is available for standard regular arm, top jamb and parallel arm, non-hold open applications only.

Optional Features

Delayed Action

Adjustable Delayed Action Closing

An optional hydraulic feature that adds a third speed range to the closing cycle. This feature becomes effective when the door is opened and released at any point beyond 70°. The amount of time delay depends upon the combination of the angle of door release and valve adjustment. The valve can be adjusted with a 1/8" (3mm) hex key from no delay time up to maximum delay times of:

Door Opened and Released at	Approximate Time of Delay Cycle
180°	4-5 minutes
120°	2-3 minutes
90°	25-30 seconds

Pressure Relief Safety Valve

The delayed action hydraulic system contains a pressure relief valve. Any time the door is forced toward the closed direction while it is in the closing cycle, the valve will open and permit the door to close. This prevents damage to door, frame and closer.

Suggested Applications

Delayed Action closing allows slow-moving traffic to clear the opening before the door closer's normal closing cycle begins. This feature can be helpful in health care facilities such as hospitals and nursing homes. It provides sufficient time for persons on crutches or in wheelchairs to pass through a door without concern of it closing. At the same time, it can accommodate the facility's staff with movement of food service carts, beds, and other wheeled traffic.

Use of delayed action closers on many doors throughout industrial and commercial buildings can also assist the flow of traffic. Locations where additional time to clear the opening is advantageous are doors between office and factory/warehouse facilities, doors to workshops or laboratories, to kitchen and food processing areas, etc.

Enhanced Backcheck

This feature provides adjustable backcheck intensity beginning at approximately 15° of the door opening cycle. It is intended for use in situations where the standard backcheck beginning at approximately 75° of door opening allows too much unrestricted door travel to obtain control of the door without the fear of peripheral damage to the door closer, door, frame, hinges or pivots; or adjacent walls or structures. This feature is most frequently used in schools and detention facilities. Specify suffix EBC.

Arms

Non-Hold Open

Self-closes door every time door is opened. Auxiliary stop (by others) required except when using the Holder/Stop, Holder/Stop Spring or UNI Stop™ arms.

Hold Open

Achieved by means of friction or ball and detent/roller. Friction hold open has a range of 90° to 180° using template location and mechanical adjustment.

Ball and detent or roller hold open is effective in a range of 85° to 110°.

Hold open arm door closers are not permitted to be used on fire door assemblies.

Door Opening Degrees

Arm Function	Regular Arm, Top Jamb, Parallel Arm	Parallel Rigid Arm	Holder/Stop Parallel Arm	Holder/Stop Spring Parallel Arm	UNI Stop Parallel Arm	UNI Stop Top Jamb	Low Profile	Slide Track
Non-Hold Open	✓	✓	85° to 110°	85° to 110°	85° to 110°	85° to 110°	✓	85° to 110°/180°

✓=180° trim and template permitting

Finishes

Product will be painted with a combination of waterborne acrylic and polyester powder coat. Closers will withstand 100 hours of salt spray. (The ANSI requirement is 25 hours.)

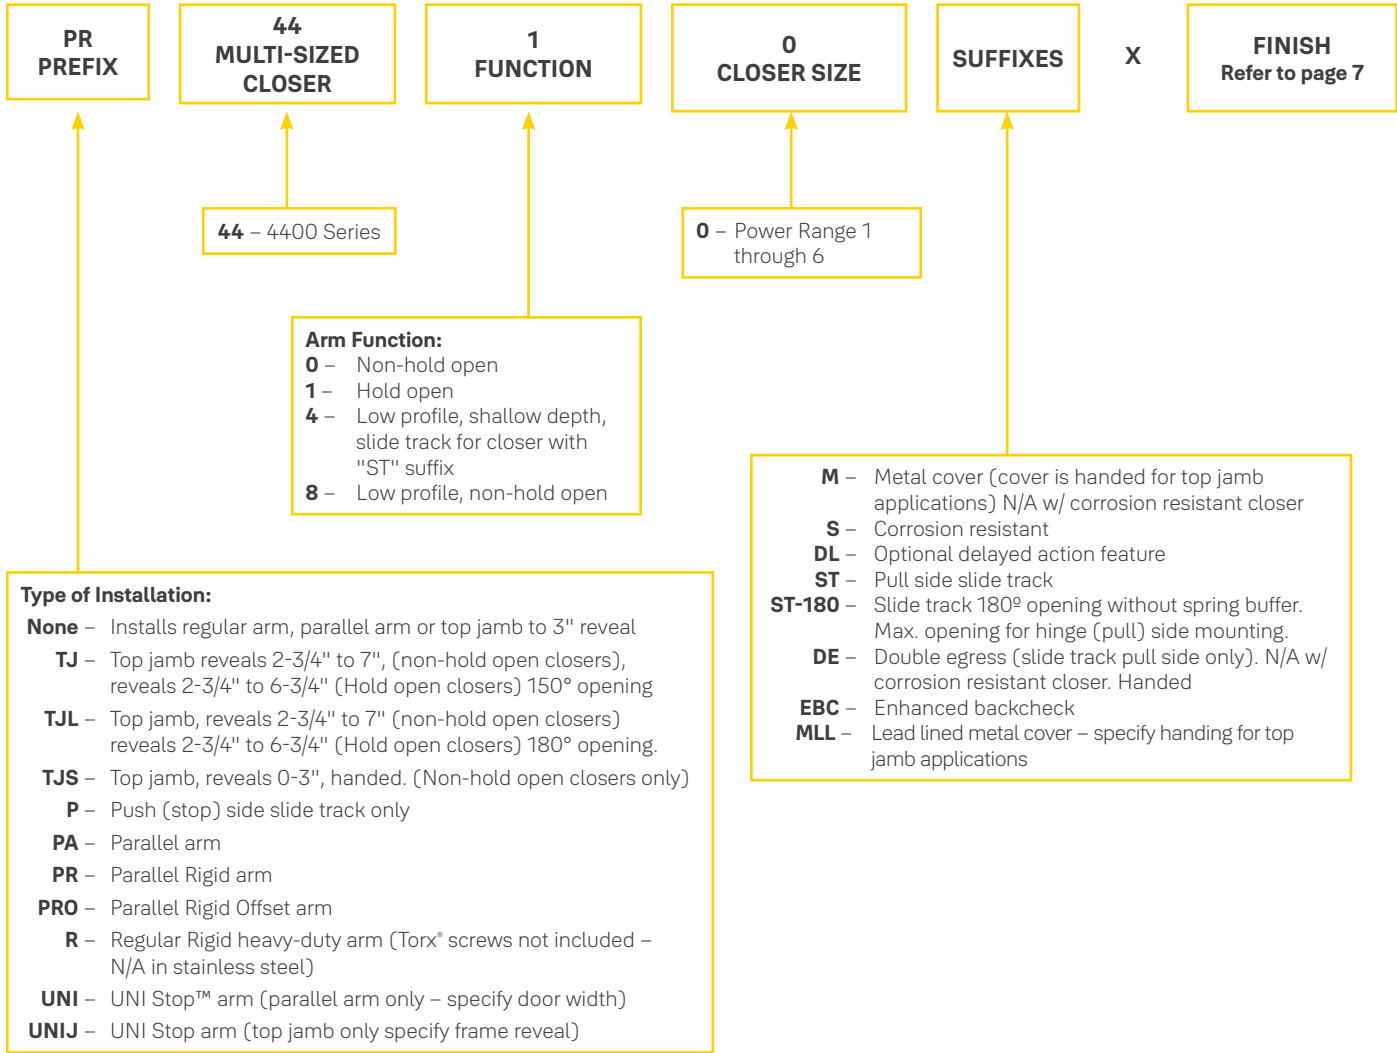

ANSI/BHMA Code Finish Description			
600* Primed for Painting	605 Bright Brass, Clear Coated	606 Satin Brass, Clear Coated	611 Bright Bronze, Clear Coated
			
612 Satin Bronze, Clear Coated	613E Dark Oxidized Satin Bronze - equivalent	625 Bright Chrome Plated	626 Satin Chrome Plated
			
689 Aluminum Painted	690 Dark Bronze Painted	691 Light Bronze Painted	693 Black Painted
			
694 Medium Bronze Painted	696 Satin Brass Painted	BSP Black Suede Powder Coat	WSP White Suede Powder Coat
			

*600 is a special rust-inhibiting prime coat. Closers can be ordered prime coat only (specify closer x 600). An additional charge applies if finish coat is required over prime coat (ex: 4400 x 600 x 689).

Plated Finishes	Specify Designation (ANSI/BHMA)	Metal Covers Only
Bright Brass	605	Yes
Satin Brass	606	Yes
Bright Bronze	611	Yes
Satin Bronze	612	Yes
Bright Chrome	625	Yes
Satin Chrome	626	Yes

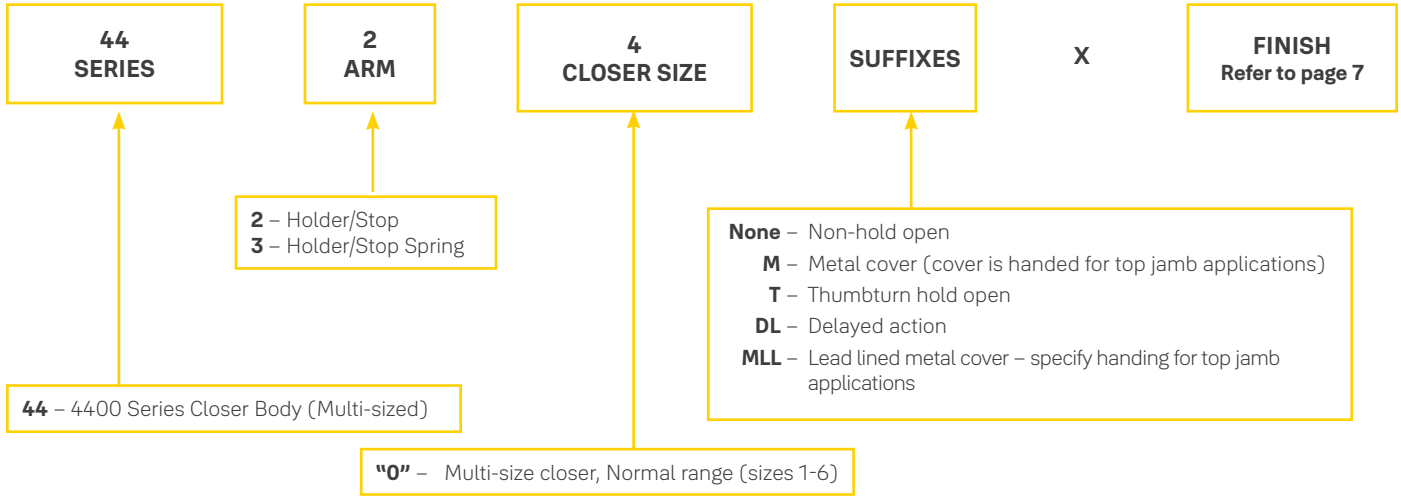

When a plated finish is ordered, arm and cover will be plated unless "cover only" is specified.

How To Order 4400 Series

- Notes:
- Door closer warranty becomes void if the closer is installed on the exterior side of a door in the exterior wall of a building.
 - It is strongly recommended, and may be required on fire door assemblies, that doors having a door closer be hung on ball-bearing or anti-friction hinges or pivots. Consult local authority having jurisdiction.
 - Failure to use fasteners supplied with closer may void factory warranty.
 - Fasteners for fire/smoke door assemblies must conform to NFPA 80. In some applications additional fasteners may be mandated by NFPA 80 that are not shipped with standard product, such as sleeve-nuts/sex-nuts or thru bolts and grommet nuts.
 - Information provided is based on 1-3/4" (44mm) x 7' (2.13m) standard weight doors swinging to 110°. Other conditions (such as door height or weight; or wind/draft conditions) may require adjustment of spring setting, selection of a larger size closer or different closer.

How To Order Holder/Stop & Holder Stop Spring Assemblies

Notes:

- Door closer warranty becomes void if the closer is installed on the exterior side of a door in the exterior wall of a building.
- It is strongly recommended, and may be required on fire door assemblies, that doors having a door closer be hung on ball-bearing or anti-friction hinges or pivots. Consult local authority having jurisdiction.
- Failure to use fasteners supplied with closer may void factory warranty.
- Fasteners for fire/smoke door assemblies must conform to NFPA 80. In some applications additional fasteners may be mandated by NFPA 80 that are not shipped with standard product, such as sleeve-nuts/sex-nuts or thru bolts and grommet nuts.
- Information provided is based on 1-3/4" (44mm) x 7' (2.13m) standard weight doors swinging to 110°. Other conditions (such as door height or weight; or wind/draft conditions) may require adjustment of spring setting, selection of a larger size closer or different closer.

Non-hold open arm shown

Regular Arm

This is the only pull-side application where a double lever arm is used. It is the most power-efficient application for a door closer. Sufficient frame, door and/or ceiling clearance must be considered.

Since the arm assembly projects directly out from the frame, this application may present an aesthetics issue or be prone to vandalism.

Non-hold open arm shown

Parallel Arm

This application provides the most appealing design appearance for a surface-mounted door closer having a double lever arm. This also makes it beneficial in vandalism-prone areas. It is on the push side of the door and the arm assembly extends almost parallel to the door. In the closed position, there is very little or no hardware projecting beyond the frame face in most situations.

Due to the geometry of the arm it is approximately 25% less power efficient than a regular arm application.

The entire closer and arm assembly are mounted below the frame stop, requiring a top rail clearance on the door of between 6-5/8" (168mm), when using a low profile arm, to 7-1/4" (184mm), when using the hold open arm.

Non-hold open arm shown

Top Jamb

For efficiency reasons this application provides the best alternative to the regular arm application. There must be sufficient frame face and/or ceiling clearance for this application. It requires a top rail on the door of just 2-1/8" (54mm). This application provides the best door control for doors in exterior walls that swing out of a building.

The entire door closer and arm assembly project from the frame, similar to the regular arm application, where the matters of appearance and malicious abuse can be of concern. Consideration must be given to depth of reveal.

Parallel Rigid Arm

An enhanced variation of the standard parallel arm assembly that is intended for use in heavy traffic areas where auxiliary door stops are installed. Hold open available – specify hand when ordering.

Parallel Rigid Offset Arm

This heavy-duty parallel rigid arm provides additional vertical clearance. It is well suited for applications where weather-stripping or other hardware prevents the use of the standard Parallel Rigid (PR) soffit plate. The non-hold open and hold arms allow 1-1/4" clearance. When used in conjunction with a #6891 spacer block, the PRO arm provides 1-7/8" clearance to accommodate the use of a surface overhead stop/holder.

Holder/Stop Arm

Similar to the Parallel Rigid arm, this arm incorporates a stop at the arm's soffit plate to dead stop the door at a predetermined degree of door swing between 85° and 110°, in 5° increments. Prior to dead stop the door closer's backcheck feature slows the door speed to reduce the impact of the stop action.

The Holder/Stop Arm is intended for use where an auxiliary door stop cannot be utilized and no more than moderate abuse is anticipated. Where more extreme conditions are expected, use of a UNI Stop™ arm is recommended.

Thumbturn hold open available. (Hold open strength is adjustable.)

Holder/Stop Spring Arm

This heavy-duty stop arm includes all of the features of the Holder/Stop arm, plus an additional steel buffer spring that provides greater protection at the end of the door opening cycle. For extreme conditions, use of a UNI Stop™ is recommended. Available with or without hold open.

Regular Rigid Heavy-Duty Arm

This double lever arm features a non-adjustable secondary arm. Orbitally riveted joints prevent tampering or disassembly. Prefix "R" to model number. Available non-hold open only.

Parallel arm

Top jamb

UNI Stop™ Arm

Can be used for either parallel arm or top jamb applications. UNI Stop arms combine the features of a double lever arm overhead door stop/holder with the backcheck feature of the door closer to reduce door stopping shock loads to a minimum. The UNI Stop uses a compression spring buffer at the soffit plate/arm shoe that will absorb 30 lbf. of force, 5° prior to the door's dead stop. Coupled with the door closer's backcheck feature, this arm provides the most controlled stop available with a surface door closer.

Only available in painted finishes.

For parallel arm applications there are three different length arm assemblies. Each length is designed for a specific range of door widths to provide precise door control. This further lessens the dead stop impact on the door's hinges/pivots.

Corner Bracket

This application can be used where top jamb and parallel arm application will not accommodate the door and frame conditions. Requires minimal top rail on the door; however, vertical clearance to the floor within the door opening should be checked to ensure code compliance.

The close proximity, for this application, of the door closer to the door's pivot point reduces the door closer's power efficiency by approximately 25% when compared to a regular arm. The projection of the arm from the door face might pose questions regarding design parameters.

Pull Side

Low Profile Pull Side

Push Side

Low Profile Push Side

Slide Track

Whether pull or push side mounted, this provides the designer with the smoothest lines available in a surface mounted door closer. The single lever arm allows components to be located in a stack configuration to minimize projection and eliminate obtrusive arm angles.

The arm geometry reduces door closer power efficiency by approximately 25% from that of a regular arm.

Regular arm

4480

Parallel arm

PA4480

Low Profile Arm

Supplied with 2400/4480 series door closers for non-hold open installations only. These arms have a reduced height elbow joint and a straight main arm. This enables the door closer to be installed in less vertical space:

Regular Arm Allows closer to be installed where there is as little as 1" (25mm) of frame face or ceiling clearance.

Parallel Arm Allows closer to be installed 1/2" (13mm) higher up on door than standard parallel arm application.

Regular Arm

Mounting holes for closer body are spaced 2-3/8" (60mm) vertically x 6-3/4" (171mm) horizontally.

** This dimension will vary. Standard non-hold open arm illustrated.

Model Number	
Non-Hold Open	Hold Open
4400	4410

Standard Door Widths	
Interior	32" - 54" (81-137 cm)
Exterior	30" - 48" (76-122 cm)

Consult factory if door weight exceeds 250 lbs.

Top Jamb

Mounting holes for closer body are spaced 2-3/8" (86mm) vertically x 6-3/4" (171mm) horizontally.
 ** Minimum frame face with 486 back plate. 3-1/4" (83mm) required when drop plate is not used.

1-Units can be mounted with the closer body on the jamb. Prefix the model number with a "TJ". Where the frame face is less than 3-3/8" (86mm) a number 486JP backplate will be required.

2 - Units can also be installed on double egress doors using a handed arm that will accommodate the frame profile. Suffix the model number with "DE". For reveal ranges 1/4" to 3" (6 to 76mm).

Consult factory if door weight exceeds 250 lbs.

Regular Arm

Closer Mounting Plate

Narrow Frame (Top Rail) - 486 Drop Plate: For use where the narrow top rail of the door prevents the closer from being mounted directly to the door surface. This drop plate must be used for closer mounted on a top rail between 1-7/8" and 3-3/8" (48 and 86mm) in height.

Overhead Door Holder - 486OH Drop Plate: For use when the presence of a surface or concealed overhead door holder prevents normal mounting of closer body due to interference between closer's mounting screws and door holder track. This drop plate's mounting screws are located on the door surface 2-3/8" down from the frame rabbet allowing room for placement of the surface mounted or overhead concealed door stop/holder.

Brackets For Non-Hold Open Arms

Molded/Bull Nose Trim - 291: For use where the door frame has molded or bull nose trim which will not accept a standard non-hold open shoe. The bracket is mortised into the frame rabbet, and projects beyond the face of the frame. It will accommodate a frame rabbet up to 2" (51mm) deep.

Molded/Bull Nose Trim - 291A Bracket: This bracket is similar to – but longer than – the 291 bracket. It is designed to accommodate frame rabbets from 2" to 2-7/8" (51 to 73mm) deep.

Brackets For Hold Open Arms

Molded/Bull Nose Trim - 292 Bracket: For use where the door frame has molded or bull nose trim which will not accept a standard hold open shoe. It is mortised into the frame rabbet, and projects beyond the face of the frame. It will accommodate a rabbet up to 2" (51mm) deep. This bracket is used in combination with the standard hold open mounting shoe.

Regular Arm

Corner Brackets For Closer Mounting

For closer sizing information use the Parallel Arm Sizing Chart on page 17. The use of a corner bracket requires a door closer of the opposite hand from that of the door when ordering handed closers.

Mounting Opposite Hinge Side - 498 Standard Drop Corner Bracket: For use where it is desired to mount a regular arm non-hold open closer.

Extra-Drop Mounting Opposite Hinge Side - 2498 Corner Bracket: For use where it is desired to mount a regular arm hold open closer, or where it is necessary for a regular arm non-hold open closer to clear a separate overhead door holder. This bracket drops the closer 1-1/8" (29mm) lower than the 498 Corner Bracket.

Top Jamb

Closer Mounting Plates

Narrow Frame - 486 Back Plate: For use where a narrow frame face prevents the closer from being mounted directly to the frame. This back plate must be used for closer mounted on a frame between 1-7/8" and 3-1/8" (48 and 79mm) in height.

Low Ceiling Clearance - Overhead Door Holder - 487 Drop Plate: For use where the ceiling clearance is between 1-7/8" and 3-7/8" (48 and 98mm) or where a surface or concealed overhead door holder prevents normal top jamb mounting. This plate drops the closer and allows the arm mounting screws to clear the bottom of the door holder. This places the centerline of the arm mounting screws at 3-1/8" (79mm) from the top of the door.

Parallel Arm

Closer Mounting Plate

Narrow Top Rail - 488 Drop Plate: For use where a narrow top rail prevents the closer from being mounted directly to the door surface. This drop plate can be used to mount a closer on a top rail as narrow as 2-1/2" (64mm) in height.

Brackets For Non-Hold Open Arms

Standard Installation - 289 Soffit Plate: This soffit plate is supplied standard with parallel arm closers. It can be mounted where the frame soffit is as narrow as 1" (25 mm).
Specify 289A-SS for stainless steel soffit plate.

Mounting Between Doors - 413A Soffit Bracket: For use where insufficient space between companion doors does not permit use of other soffit plates. This bracket permits mounting of the closer between doors with as little as 3" (76mm) of header space. Permits closer arm to clear up to 5/8" (16mm) high stop.

Narrow Frame/Removable Stop - 297 Soffit Plate: For use where a narrow frame or frame with removable stop does not permit use of the standard soffit plate. This soffit plate may be mounted on the frame soffit or the frame rabbet where the stop does not exceed 5/8" (16mm) in height. All of the screw holes are in a straight line, requiring as little as 1-1/4" (32mm) of frame reveal to mount bracket and maintain good closer arm geometry. Where the frame soffit is as wide as 2" (51mm), this soffit plate may be used to clear weather-stripping that is up to 1-3/8" (35mm) wide and 5/8" (16mm) in height.

Blade/Applied Stop - 299 Soffit Plate: For use where a blade or applied stop does not permit installation of the standard soffit plate. Mounts to either the frame soffit or rabbet. Since this soffit plate projects 7/8" (22mm) less than a standard soffit plate, it requires a minimum frame reveal of 1-1/2" (38mm). Permits closer to clear up to a 5/8" (16mm) stop.

Parallel Arm

Brackets For Non-Hold Open Arms (Continued)

Flush Transom - 589L Angle Bracket: For use where rabbeted or flush transom conditions prevent installation of a soffit plate. Used in combination with the 289 soffit plate, or may be used in combination with the 290 soffit plate when it is necessary for the closer arm to clear a separate overhead door holder.

Extra-Clearance - 290 Offset Soffit Plate: For use where the need for additional clearance prevents use of the standard soffit plate. This plate mounts to the frame soffit to provide up to 2" (51mm) of clearance when a separate overhead door holder is used. Standard mounting requires a 2-5/8" (67mm) wide frame soffit. It may also be used where unusually high frame stops or weather-stripping prevent the use of other soffit plates.

Brackets For Hold Open Arms

Parallel Hold Open - 588 Adapter Plate: This adapter plate is supplied standard with all parallel arm hold open closers. It can also be used to convert regular arm or top jamb hold open arms to parallel arm installation. It can be mounted where the frame soffit is as narrow as 1" (25mm).

Flush Transom Hold Open - 589L Angle Bracket: For use where rabbeted or flush transom conditions prevent installation of the standard 588 hold open adapter plate. It is used in combination with the 588 adapter plate.

Parallel Rigid Arm

Closer Mounting Plate

Narrow Top Rail - 488 Drop Plate: For use where a narrow top rail prevents the closer from being mounted directly to the door surface. This drop plate can be used to mount a closer on a top rail as narrow as 2-1/2" (64mm) in height.

Brackets For Non-Hold Open Arms & Hold Open Arms

Standard - 293S Spacer Block: For use where a narrow frame soffit does not provide adequate support for the soffit plate. Supplied as standard with all parallel rigid arm closers.

Flush Rabbeted Transom - 293L Angle Bracket: For use where flush rabbet conditions prevent mounting of the standard soffit plate. This bracket is used in combination with the standard soffit plate.

Narrow Frame - 890 Support Bracket: For use where the frame is narrow, and the soffit plate cannot be mounted directly to the frame soffit or rabbet. Used in combination with the #891 spacer block on blade stop frames to provide extra support and needed clearance of the blade stop.

Clearance/Support Blade Stop - 891 Spacer Block: For use where the door frame has a blade stop and the soffit plate must be mounted on the frame rabbet. This accessory is used in combination with the standard spacer block to provide clearance of the blade stop.

Parallel Rigid Arm

Closer Mounting Plate

Narrow Top Rail - 488 Drop Plate: For use where a narrow top rail prevents the closer from being mounted directly to the door surface. This drop plate can be used to mount a closer on a top rail as narrow as 2-1/2" (64mm) in height.

Brackets For Non-Hold Open Arms & Hold Open Arms

Standard - 293S Spacer Block: For use where a narrow frame soffit does not provide adequate support for the soffit plate.

Flush Rabbeted Transom - 293L Angle Bracket: For use where flush transom conditions prevent mounting of the standard soffit plate. This bracket is used in combination with the standard soffit plate.

Narrow Frame - 890 Support Bracket: For use where the frame is narrow, and the soffit plate cannot be mounted directly to the frame soffit or rabbet. Used in combination with the #891 spacer block on blade stop frames to provide extra support and needed clearance of the blade stop.

Clearance/Support Blade Stop - 891 Spacer Block: For use where the door frame has a blade stop and the soffit plate must be mounted on the frame rabbet. This accessory is used in combination with the standard spacer block to provide clearance of the blade stop.

UNI Stop™ Arm

Closer Mounting Plate (For Parallel Arm)

Narrow Top Rail - 488 Drop Plate: For use where a narrow top rail prevents the closer from being mounted directly to the door surface. This drop plate can be used to mount a closer on a top rail as narrow as 2-3/8" (60mm) in height.

Soffit Plate Reinforcing Brackets (For Parallel Arm)

Additional Support - 6190 Reinforcing Bracket: Standard for use with all Parallel Arm UNI Stop Door Controls. Provides additional support to the soffit plate on installations with door frame reveals from 1-7/8" to 4-5/8" (48 to 117mm).

Flush Rabbeted Transom - 589L Angle Bracket: Optional for use with all Parallel Arm UNI Stop Door Controls. For use where rabbeted or flush transom conditions prevent installation of the soffit plate assembly. This bracket fastens to the overhead transom to provide a mounting surface for the soffit plate assembly.

Wide Frame - 6191 Reinforcing Kit: Optional for use with all Parallel Arm UNI Stop Door Controls. Used to support the soffit plate on installations with wide frames. Clamps may be used with or without the spacer block, depending on frame conditions.

Closer Mounting Plates (For Top Jamb)

Standard Installation - 486 Back Plate: Can be mounted where a frame face is as narrow as 1-5/8" (41mm) in height.

Minimum Ceiling Clearance - 487 Drop Plate: For use where the ceiling clearance is as little as 1-7/8" (48mm).

Slide Track

Closer Mounting Plate

Slide Track - 486JP Back Plate: Required for frames with standard 2" (51mm) profile face. Without plate, minimum 4" (102mm) face frame required.

Retrofit Plates

Model Number	Replaces
RP44-4040	LCN-4040
RP44-4010	LCN-4010

The retrofit plates allow a 4400 Institutional Door Closer to replace 4040 or 4010 closer without modifying the existing hole pattern in the door. The plates will work with regular and parallel arm applications.

Note: The location of the arm shoe on the frame will change, therefore the frame must be patched.

Sample Specifications

4400 Series

Closers for interior and exterior doors shall be full rack-and-pinion type with cast aluminum alloy shell. Closers shall be surface mounted and shall project no more than 2-3/16" from the surface of the door. Closers shall be non-handed to permit installation on doors of either hand. Closer fluid shall contain lubricity and anti-oxidation agents. Closer fluid shall maintain stable viscosity to allow door closer to perform in temperatures ranging from extremely high to as low as -40°F. Closers shall have multi-size spring power adjustment to permit setting of spring from size 1 through 6. Closers shall have two non-critical valves, hex key adjusted, to independently regulate sweep and latch speed. Closers shall have backcheck cushioning controlled by a hex key adjusted valve. Closers shall have backcheck position controlled by a hex key adjusted valve.

[Closers shall have adjustable delayed-action closing controlled by a hex key adjustable valve.]

[Closers shall be highly corrosion resistant and shall have all external body components of aluminum, zinc alloy or stainless steel material and all fasteners of stainless steel.]

Regular arm and top jamb closers shall have a non-hold open shoe permitting 15% ($\pm 7-1/2\%$) power adjustment. **Closers shall be enclosed in a [molded resin cover], [plated or sprayed metal cover]. Closers to be Yale® [4400] [4400M] [4400S].

**For special arms insert the appropriate specification here (see below).

**UNI Stop™ Arm

Door closers shall have a fixed door stop feature effective at one point selected at installation, from 85-110° in five-degree increments. Door stop shall be cushioned by a shock-absorbing heavy-duty spring action effective at the [soffit plate] [arm shoe] pivot. [Closers shall be provided for parallel arm installation using rigid steel main arm and secondary arm lengths proportional to the door width.] [Closers shall be provided for top jamb installation using steel, rigid main arm and telescoping secondary arm adequate for the frame reveal of the openings.]

**Holder/Stop Arm

Door closers shall have a field reversible door stop. Hold open tension shall be adjustable effective at one point selected at installation, from 85° - 110° in five degree increments. Closers shall be provided for parallel arm installation using a forged rigid steel main arm and secondary arm.

**Holder/Stop Spring Arm

Door closers shall have built-in door stop [and holder] effective at one point selected at installation, from 85° - 110° in five-degree increments. Door stop mechanism shall be reversible and have a buffer spring that engages prior to the dead stop feature, reducing shock loads to the door and frame assembly. Door stop mechanism shall be attached to soffit plate. [Hold open mechanism shall have engage/disengage selection actuated by thumbturn]. Closers shall be provided for parallel installation using a forged rigid steel main arm and secondary arm.

3000 Series Door Closer

Yale 3000 Series Architectural Door Closers offer the perfect combination of reliability, aesthetics and durability in today's market. With features such as staked valves, self-drilling/self-tapping screws, rack and pinion design and precise valve adjustment, and a complete range of arm and cover options, the Yale 3000 Series can meet virtually any application challenge.

Offering sophisticated door control for any upscale commercial application, Yale Works for YouSM.

Features & Benefits

Features

- Exceeds 25 million cycles
- Cast aluminum body
- Adjustable spring sizes 1 through 6
- Tri-packed (regular arm, top jamb and parallel arm mounting)
- Non-handed
- Staked valves
- Rack & pinion design
- 1-1/4" (32mm) diameter piston
- 5/8" (16mm) diameter pinion journals
- Separate and independent, latch, sweep and backcheck intensity valves
- 2-1/8" (54mm) projection (standard covers)
- All standard arm applications (with slim, full or metal covers) allow doors to swing 180 degrees, conditions permitting

Benefits

- **Slim profile:** Seamless design blends into any building's aesthetic
- **Strong & durable:** ANSI/BHMA Grade 1 certified for long life and reliability

Optional Features

- Metal and architectural covers (3500 or 3501 only)
- Heavy-duty arms: Parallel Rigid, Holder/Stop, Holder/Stop Spring, UNI Stop™
- Delayed action
- Lead-lined metal cover (suffix MLL)

Overview

Cutaway View

Compliance Standards

Series 3301 and 3501 door closers are designed to comply with requirements of the Americans with Disabilities Act (A.D.A.) and ANSI standard A117.1. All series 3301/3501 are ANSI/BHMA A156.4 Grade 1 certified. All Yale series 3301/3501 closers with non-hold open arms are listed by Underwriters Laboratories for labeled fire doors. This includes compliance to UL10C for 3-hour assemblies. The product is manufactured in an ISO 9001, ISO 14001 facility.

CAUTION: Door Closers for Low Opening Force Applications:

Door closers installed in openings required to meet the requirements of the Americans With Disabilities Act or ANSI/BHMA Standard A117.1, when adjusted to meet those requirements, may not provide adequate closing power to dependably close and latch the door based on opening or site conditions.

Fasteners

Type	Description	Arm							
		RA	PA	TJ	Low Profile	PR	Holder/Stop, Holder/Stop Spring	UNI	UNI-J
Door									
SDST	Self Drilling Self Tapping	S	S	S	S	S	S	S	S

SMS	Sheet Metal Screws	O	O	O	O	O	O	O	O
Torx	Torx Drive Security Screw	O	O	O	O	O	O	O	O

S = standard; O = optional

SN are for use on unreinforced hollow metal doors or to prevent any hollow metal door from collapse/dimpling. They can also be used for thru bolting on wood doors. SN are supplied for 1-3/4" (44mm) thick doors unless specified for 2-1/4" (57mm) thick doors.

TBGN are an alternative to SN for wood doors. TBGN are supplied standard for 1-3/4" (44mm) thick doors. They can be specified for 1-3/8" (35mm) thick doors.

SMS - when specified, closer will be packed with sheet metal screws for the door AND sheet metal screws plus machine screws for the frame.

TORX screws with security pin are standard with Security Door Closers. Torx may be specified for all other series applications. Torx are only available with machine screw threads. Sheet metal screw threads or wood screw threads are not available.

Note: To order special fasteners with closers, specify model number x fastener (Ex: 3501 x 689 x TBGN)

Features

Aluminum Alloy Housing

Closer bodies are constructed of a special aluminum alloy, carefully selected to accommodate interactive steel components and operating conditions.

Rack & Pinion Operation

Provides a smooth constant control of the door through its full opening and closing cycle. 180° door swing can be achieved when door, frame, hardware and arm function do not interfere.

Non-handed

With few exceptions all series and series 3301/3501 door closers are non-handed and can be installed on either right or left hand swing doors. Pinion shaft extends vertically through the closer body in both directions. Some options, as noted on page 5, will require that the hand of the closer be specified.

Sweep Speed Control Valve

Allows adjustment of door speed from the door's full open position down to approximately 10° from the closed position.

Latch Speed Control Valve

Allows adjustment of door speed from approximately 10° down to the door's fully closed position.

Closer Fluid

All door closers are supplied with a temperature stable, multi-viscosity fluid. This fluid will permit the door closer to perform within a wide temperature range: from very high to as low as -40°F.

Tri-Packed

3301/3501 come with screws, brackets and soffit plates to allow for regular, top jamb, and parallel arm installations.

Adjustable Backcheck Valve

Provides control of the door in the opening cycle, beginning at approximately 75° of door opening. It cushions the door opening when the door is forcibly opened beyond its pre-adjusted limits.

Standard Molded Covers

Molded of high-impact U.L. listed material. Standard covers are non-handed for all applications. See page 5 for optional covers.

Warranty

Limited 30-year warranty for defects and life of the building on the aluminum housing.

Door Closer Power Options

Series 3301/3501 Multi-Sized Door Closer

Adjustable through the power range of sizes 1 through 6, as outlined in ANSI/BHMA specification A156.4.

The series 3000 also conforms to the minimum opening force requirements of the Americans with Disabilities Act (A.D.A) and ANSI/BHMA standard A117.1 for interior doors.

Optional Covers

Optional Metal Cover

This steel cover is non-handed for regular and parallel arm applications, but is handed for top jamb applications. Cover is available in sprayed or plated finishes.

Optional Architectural Covers*

Plastic: Architectural plastic covers are molded of high impact U.L. listed material. They are non-handed and available in sprayed finishes.

Metal: The architectural metal covers are steel and non-handed for all applications. These covers are available in sprayed or plated finishes.

* For Parallel Arm Applications — Consult factory for doors swinging more than 120°

Optional ABS Cover

Consult factory for details.

Optional Features

Delayed Action

Adjustable Delayed Action Closing

An optional hydraulic feature that adds a third speed range to the closing cycle. This feature becomes effective when the door is opened and released at any point beyond 70°. The amount of time delay depends upon the combination of the angle of door release and valve adjustment. The valve can be adjusted with a 1/8" (3mm) hex key from no delay time up to maximum delay times of:

Door Opened and Released at	Approximate Time of Delay Cycle
180°	4-5 minutes
120°	2-3 minutes
90°	25-30 seconds

Pressure Relief Safety Valve

The delayed action hydraulic system contains a pressure relief valve. Any time the door is forced toward the closed direction while it is in the closing cycle, the valve will open and permit the door to close. This prevents damage to door, frame and closer.

Suggested Applications

Delayed Action closing allows slow-moving traffic to clear the opening before the door closer's normal closing cycle begins. This feature can be helpful in health care facilities such as hospitals and nursing homes. It provides sufficient time for persons on crutches or in wheelchairs to pass through a door without concern of it closing. At the same time, it can accommodate the facility's staff with movement of food service carts, beds, and other wheeled traffic.

Use of delayed action closers on many doors throughout industrial and commercial buildings can also assist the flow of traffic. Locations where additional time to clear the opening is advantageous are doors between office and factory/warehouse facilities, doors to workshops or laboratories, kitchens and food processing areas.

Arms

Non-Hold Open

Self-closes door every time door is opened. Auxiliary stop (by others) required except when using the Holder/Stop, Holder/Stop Spring or UNI Stop™ arms.

Hold Open

Achieved by means of friction or ball and detent/roller. Friction hold open has a range of 90° to 180° using template location and mechanical adjustment. Ball and detent or roller hold open is effective in a range of 85° to 110°.

Hold open arm door closers are not permitted to be used on fire door assemblies.

Door Opening Degrees

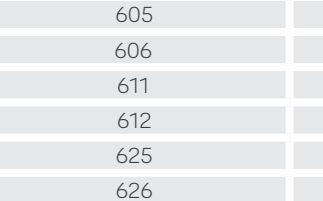

Arm Function	Regular Arm, Top Jamb, Parallel Arm	Parallel Rigid Arm	Holder/Stop Parallel Arm	Holder/Stop Spring Parallel Arm	UNI Stop™ Parallel Arm	UNI Stop™ Top Jamb	Low Profile
Non-Hold Open	✓	✓	85° to 110°	85° to 110°	85° to 110°	85° to 110°	✓
Hold Open	90° to 180°	85° to 180°	85° to 110°	85° to 110°	85° to 110°	85° to 110°	N/A

✓=180° trim and template permitting

Finishes

Product will be painted with a combination of waterborne acrylic and polyester powder coat. Closers will withstand 100 hours of salt spray. (The ANSI requirement is 25 hours.)

ANSI/BHMA Code Finish Description			
600* Primed for Painting	605 Bright Brass, Clear Coated	606 Satin Brass, Clear Coated	611 Bright Bronze, Clear Coated
			
612 Satin Bronze, Clear Coated	613E Dark Oxidized Satin Bronze - equivalent	625 Bright Chrome Plated	626 Satin Chrome Plated
			
689 Aluminum Painted	690 Dark Bronze Painted	691 Light Bronze Painted	693 Black Painted
			
694 Medium Bronze Painted	696 Satin Brass Painted	BSP Black Suede Powder Coat	WSP White Suede Powder Coat

*600 is a special rust-inhibiting prime coat. Closers can be ordered prime coat only (specify closer x 600). An additional charge applies if finish coat is required over prime coat (ex: 3501 x 600 x 689).

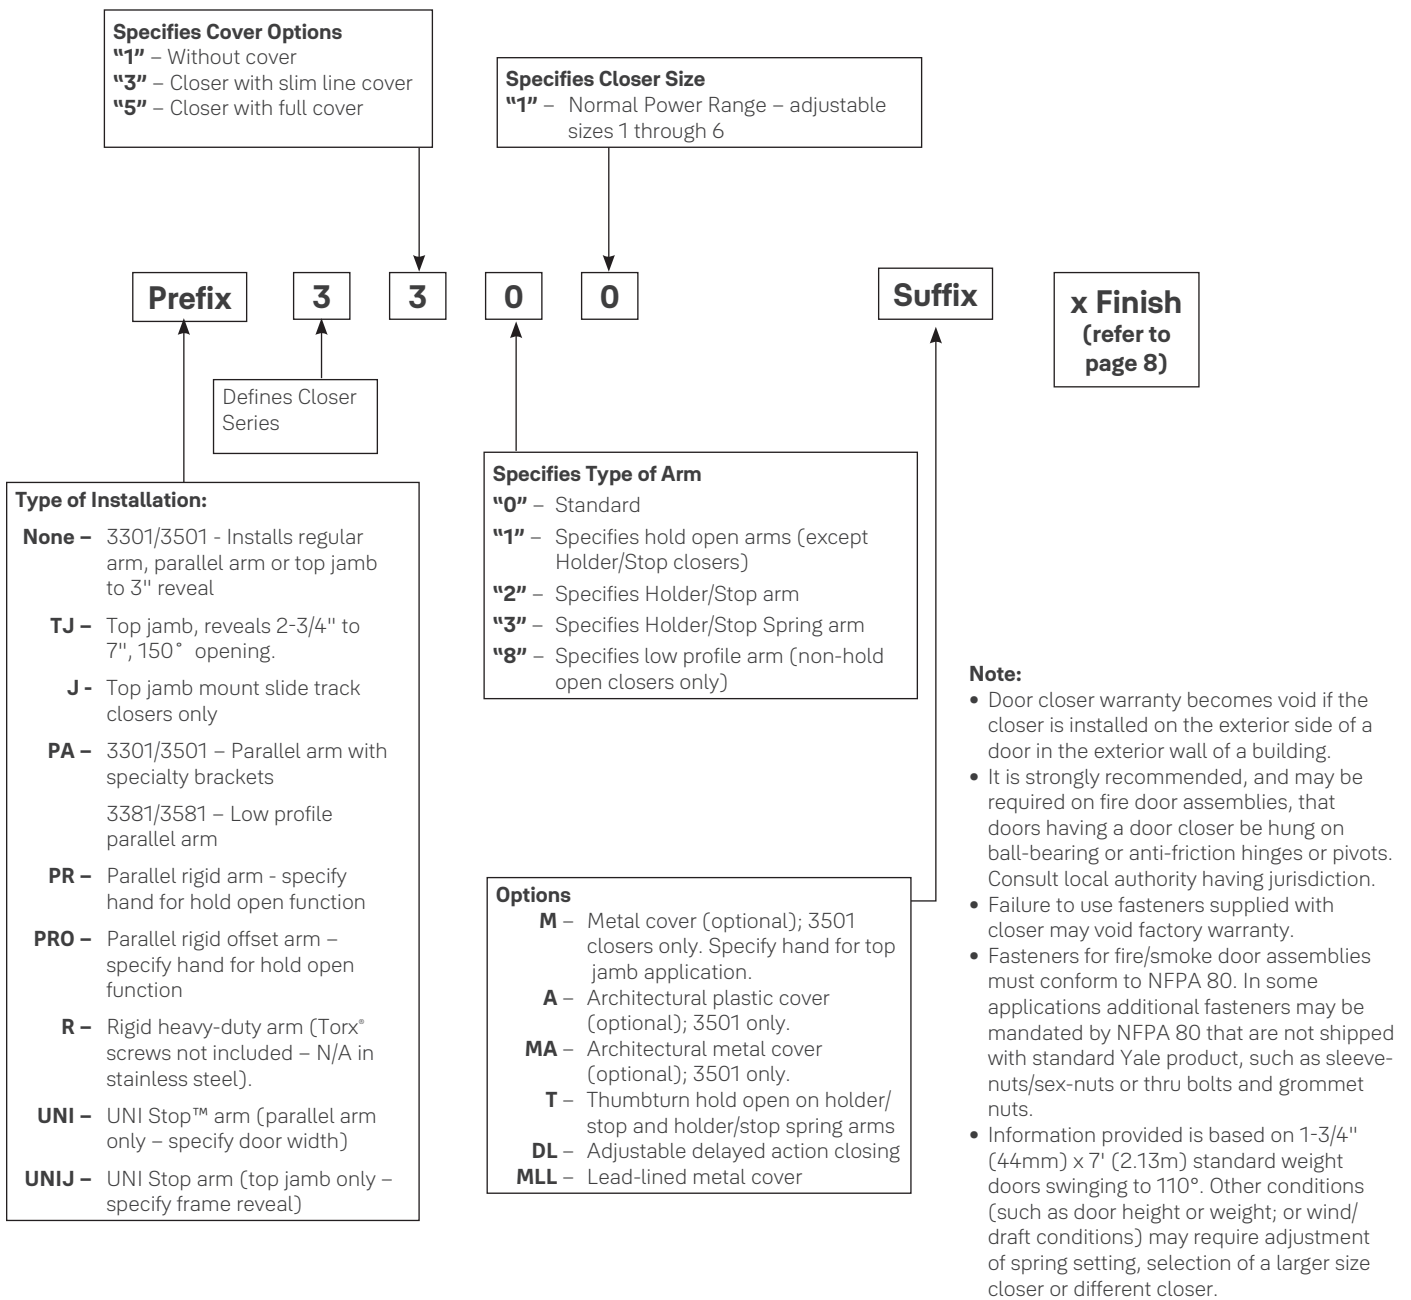

Plated Finishes	Specify Designation (ANSI/BHMA)	Metal Covers Only
Bright Brass	605	Yes
Satin Brass	606	Yes
Bright Bronze	611	Yes
Satin Bronze	612	Yes
Bright Chrome	625	Yes
Satin Chrome	626	Yes

When a plated finish is ordered, arm and metal cover will be plated unless "cover only" is specified. 3101, 3301 - available with plated arm only.

How To Order

For optimum protection of door and frame assemblies, always use auxiliary wall, floor or overhead door stop.

Regular Arm

3301

This is the only pull side application where a double lever arm is used. It is the most power-efficient application for a door closer. Sufficient frame, door and/or ceiling clearance must be considered.

3501

Since the arm assembly projects directly out from the frame, this application may present an aesthetics issue or be prone to vandalism.

Top Jamb

3301

For efficiency reasons this application provides the best alternative to the regular arm application. There must be sufficient frame face and/or ceiling clearance for this application. It requires a top rail on the door of just 2-1/4" (57mm). This application provides the best door control for doors in exterior walls that swing out of a building.

3501

The entire door closer and arm assembly project from the frame, similar to the regular arm application, where matters of appearance and malicious abuse can be of concern. Consideration must be given to depth of reveal.

Parallel Arm

3301

This application provides the most appealing design appearance for a surface-mounted door closer having a double lever arm. This also makes it beneficial in vandalism-prone areas. It is on the push side of the door and the arm assembly extends almost parallel to the door. In the closed position, there is very little or no hardware projecting beyond the frame face in most situations.

3501

Due to the geometry of the arm it is approximately 25% less power-efficient than a regular arm application. The entire closer and arm assembly are mounted below the frame stop. Top rail clearance dimensions will vary based on the type of cover used. (See page 13.)

Parallel Rigid Arm

An enhanced variation of the standard parallel arm assembly that is intended for use in heavy traffic areas where auxiliary door stops are installed. Hold open available — specify hand when ordering.

Holder/Stop Arm

Similar to the Parallel Rigid arm, this arm incorporates a stop at the arm's soffit plate to dead stop the door at a predetermined degree of door swing between 85° and 110°, in 5° increments. Prior to dead stop the door closer's backcheck feature slows the door speed to reduce the impact of the stop action.

The Holder/Stop arm is intended for use where an auxiliary door stop cannot be utilized and no more than moderate abuse is anticipated. Where more extreme conditions are expected, use of a UNI Stop™ arm is recommended. Available with or without hold open. (Hold open strength is adjustable.)

Holder/Stop Spring Arm

This arm has all the characteristics of the Holder/Stop arm with an additional steel buffer spring that provides greater protection at the end of the door opening cycle. For extreme conditions, use of a UNI Stop arm is recommended. Available with or without hold open.

Regular Rigid Heavy-Duty Arm

This double lever arm features a non-adjustable secondary arm. Orbitally riveted joints prevent tampering or disassembly. Prefix "R" to model number. Available non-hold open only.

Parallel

UNI Stop™ Arm

Can be used for either parallel arm or top jamb applications. UNI Stop arms combine the features of a double lever arm overhead door stop/holder with the backcheck feature of the door closer to reduce door stopping shock loads to a minimum. This arm uses a compression spring buffer at the soffit plate/arm shoe that absorbs 30 lbf. of force, 5° prior to the door's dead stop. The UNI Stop arm, coupled with the door closer's

Top Jamb

backcheck feature, provides the most controlled stop available with a surface door closer.

For parallel arm applications there are three different length arm assemblies. Each length is designed for a specific range of door widths, to provide precise door control. This further lessens the dead stop impact on the door's hinges/pivots.

Only available in painted finishes.

Regular Arm

Allows closer to be installed where there is as little as 1" (25mm) of frame face ceiling clearance

Parallel Arm

Allows closer to be installed 1/2" (13mm) higher up on door than standard parallel arm application.

Low Profile Arm

Supplied with 3381/3581 series door closers for non-hold open installations only. Low profile arms have a reduced height elbow joint and a straight main arm. This enables the door closer to be installed in less vertical space.

Note: Low profile arm door closers are not supplied tri-packed.

Regular Arm

Mounting holes for closer body are spaced 3/4" (19mm) vertically x 12" (305mm) horizontally.
 Note: All measurements are Inches/mm.
 Maximum 180° door swing, conditions permitting

Regular Arm

Closer Mounting Plates Slim Line Installations

Narrow Top Rail - 3146 Drop Plate: For use where the narrow top rail of the door prevents the closer from being mounted directly on to the door surface. This drop plate must be used for any Series 3000 closer mounted on a top rail between 1-9/16" and 2-7/16" (40 and 62mm) in height, or any 3000 low profile closer mounted on a top rail between 1-7/16" and 2-5/16" (36 and 59mm) in height.

Concealed Door Holder - 3146 Drop Plate: For use where a concealed door holder prevents normal mounting of the closer to the door. This is the same plate used for narrow rail mounting, but is inverted for this application to permit the mounting screws to clear the bottom of the door-holder preparation in the top rail of the door. This places the centerline of the plate's upper mounting screws at 2-3/16" (56mm) from the top of the door.

Full Cover Installations

Exposed Back - 3445 Molded Full Cover Decorative Back Plate: For use on doors with glass lights where a closer with a molded full cover is installed and the closer back is exposed. This plate covers the back of the installation to give a pleasing appearance from the reverse side.

Exposed Back/Narrow Top Rail - Exposed Back Concealed Door Holder - 3446 Molded Full Cover Drop Plate Kit: For use with molded full cover installation when a 3146 Plate is needed as a drop plate on a narrow top rail, or as a clearance plate for a concealed door holder, and the closer back is exposed. Kit contains a 3146 Drop Plate and a 3445 Decorative Plate.

Metal Cover Installations

Exposed Back - 3545 Metal Cover Decorative Back Plate: For use on doors with glass lights where a closer with a metal full cover is installed and the closer back is exposed. This plate covers the back of the installation to give a pleasing appearance from the reverse side.

Concealed Door Holder - 3546 Metal Cover Drop Plate: For use where a concealed door holder prevents the normal mounting of the closer to the door. This plate permits the mounting screws to clear the bottom of the door-holder preparation in the top rail of the door. This places the centerline of the plate's upper mounting screws at 2-3/16" (56mm) from the top of the door.

Exposed Back/Narrow Top Rail - 3549 Metal Cover Drop Plate Kit: For use with metal full cover installations, when a 3146 Plate is needed as a drop plate on a narrow top rail and the closer back is exposed. Kit contains a 3146 Drop Plate and a 3545 Decorative Plate.

Note: All measurements are Inches/mm.

Regular Arm

CLOSER MOUNTING PLATES ARCHITECTURAL PLASTIC OR METAL COVER INSTALLATIONS

Exposed Back - 3545A Architectural Plastic or Architectural Metal Cover Decorative Back Plate: For use on doors with glass lights where a closer with an architectural plastic or metal cover is installed and the closer back is exposed. This plate covers the back of the installation to give a pleasing appearance from the reverse side.

Concealed Door Holder - 3546A Architectural Plastic or Architectural Metal Cover Drop Plate: For use where a concealed door holder prevents the normal mounting of the closer to the door. This plate permits the mounting screws to clear the bottom of door-holder preparation in the top rail of the door. This places the centerline of the plate's upper mounting screws at 2-3/16" (56mm) from the top of the door.

Exposed Back/Narrow Top Rail - 3549A Architectural Plastic or Architectural Metal Cover Drop Plate Kit: For use with architectural plastic or metal cover installations when a 3146 plate is needed as a drop plate on a narrow top rail and the closer back is exposed. Kit contains a 3146 Drop Plate and a 3545A Decorative Plate.

Note: All measurements are Inches/mm.

Regular Arm

BRACKETS FOR NON-HOLD OPEN ARMS

Molded / Bull Nose Trim - 291 Bracket: For use where the door frame has molded or bull nose trim which will not accept a standard non-hold open shoe. The bracket is mortised into the frame rabbet, and projects beyond the face of the frame. It will accommodate a frame rabbet up to 2" (51mm) deep.

Molded / Bull Nose Trim - 291A Bracket: This bracket is similar to, but longer than, the 291 bracket. It is designed to accommodate frame rabbets from 2" to 2-7/8" (51 to 73mm) deep.

BRACKETS FOR HOLD OPEN ARMS

Molded / Bull Nose Trim - 292 Bracket: For use where the door frame has molded or bull nose trim which will not accept a standard hold open shoe. It is mortised into the frame rabbet, and projects beyond the face of the frame. It will accommodate a rabbet up to 2" (51mm) deep. This bracket is used in combination with the standard hold open mounting shoe.

Note: All measurements are Inches/mm.

Top Jamb Arm

CLOSER MOUNTING PLATES SLIM LINE INSTALLATIONS

Low Ceiling Clearance - 3146 Drop Plate: For use where low ceiling clearance prevents normal top jamb mounting. This plate is used when clearance is from 1-7/8" to 2-7/8" (48mm to 73mm). Where ceiling clearance is less than 1-7/8" (48mm) see #3148 Drop Plate below.

Overhead Door Holder - 3146 Drop Plate: For use where a surface or concealed overhead door holder prevents normal top jamb mounting. This plate drops the closer and allows arm mounting screws to clear the bottom of the door holder. This places the centerline of the arm mounting screws at 2-7/8" (73mm) from the top of the door.

Low Ceiling Clearance - 3148 Drop Plate: For use where the ceiling clearance is between 1-1/2" and 1-3/4" (38 and 44mm).

METAL COVER INSTALLATIONS

Low Ceiling Clearance - Overhead Door Holder - 3547 Metal Full Cover Drop Plate: For use where a low ceiling clearance prevents normal top jamb mounting. This plate is used when the clearance is between 1-5/8" and 3-7/8" (41mm and 98mm). Or for use where a surface or concealed overhead door holder prevents normal top jamb mounting of a closer with a metal full cover. This plate drops the closer and allows arm mounting screws to clear the bottom of the door holder. This places the centerline of the arm mounting screws at 3-7/8" (98mm) from the top of the door.

ARCHITECTURAL PLASTIC OR METAL COVER INSTALLATIONS

Low Ceiling Clearance - Overhead Door Holder - 3547A Architectural Plastic or Architectural Metal Cover Drop Plate: For use where low ceiling clearance prevents normal top jamb mounting. This plate is used when the clearance is between 1-5/8" and 3-7/8" (41mm and 98mm). Also for use where a surface or concealed overhead door holder prevents normal top jamb mounting of a closer with an architectural plastic or metal full cover. This plate drops the closer and allows arm mounting screws to clear the bottom of the door holder. This places the centerline of the arm mounting screws at 3-7/8" (98mm) from the top of the door.

Note: All measurements are Inches/mm.

Parallel Arm

CLOSER MOUNTING PLATES SLIM LINE INSTALLATIONS

Narrow Top Rail - 3148 Drop Plate (3300 Series): For use where a narrow top rail prevents the closer from being mounted directly to the door surface. This drop plate can be used to mount a closer on a top rail as narrow as 2-7/8" (73mm) in height.

FULL COVER INSTALLATIONS

Exposed Back - 3445 Molded Full Cover Decorative Back Plate: For use on doors with glass lights where a closer with molded full cover is installed and the closer back is exposed. This plate covers the back of the installation to give a pleasing appearance from the reverse side.

Exposed Back/Narrow Top Rail - 3158 Molded Full Cover Drop Plate: For use on doors with glass lights where a closer with molded full cover is installed and the back of the closer is exposed. This covers the back of the installation and gives a pleasing appearance from the reverse side.

METAL COVER INSTALLATIONS

Exposed Back - 3545 Metal Full Cover Decorative Back Plate: For use on doors with glass lights where a closer with full metal cover is installed and the back of the closer is exposed. This plate covers the back of the installation and gives a pleasing appearance from the reverse side.

Exposed Back/Narrow Top Rail - 3548 Metal Full Cover Drop Plate: For use on doors with glass lights where a closer with metal full cover is installed on a narrow top rail, and the back of the cover is exposed. This drop plate can be used to mount a closer on a top rail as narrow as 2-7/8" (73mm) in height. This plate covers the back of the installation and gives a pleasing appearance from the reverse side.

ARCHITECTURAL PLASTIC OR METAL COVER INSTALLATIONS

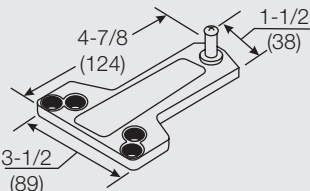

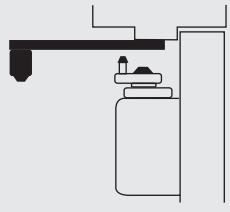

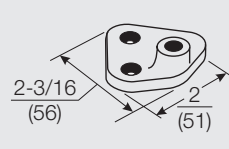

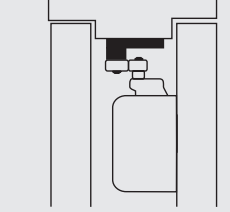

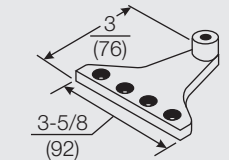

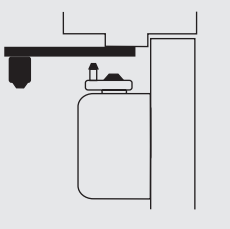

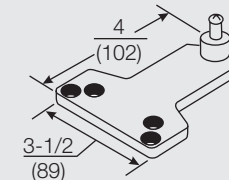

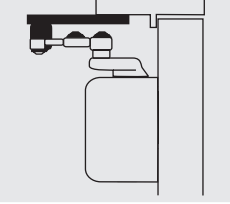

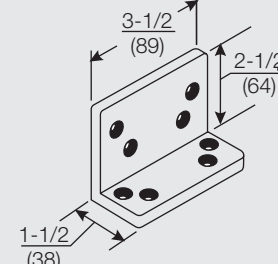

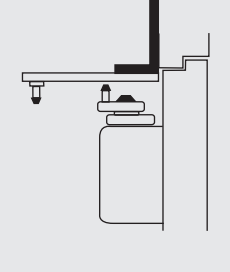

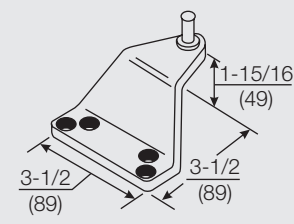

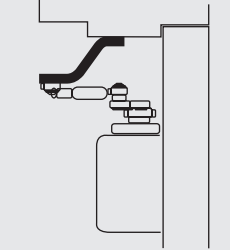

Exposed Back - 3545A Architectural Plastic or Architectural Metal Cover Decorative Back Plate: For use on doors with glass lights where a closer with an architectural plastic or metal cover is installed and the closer back is exposed. This plate covers the back of the installation to give a pleasing appearance from the reverse side.

Exposed Back/Narrow Top Rail - 3548A Architectural Plastic or Architectural Metal Cover Drop Plate: For use on doors with glass lights where a closer with an architectural plastic or metal cover is installed on a narrow top rail, and the back of the cover is exposed. This drop plate can be used to mount a closer on a top rail as narrow as 2-7/8" (73mm) in height. This plate covers the back of the installation to give a pleasing appearance from the reverse side.

Note: All measurements are Inches/mm.

Parallel Arm - Brackets For Non-Hold Open Arms

		<p>Standard Installation - 289A Soffit Plate: This soffit plate is supplied standard with parallel arm closers. It can be mounted where the frame soffit is as narrow as 1" (25 mm).</p>
		<p>Mounting between Doors - 413A Soffit Bracket: For use where insufficient space between companion doors does not permit use of other soffit plates. This bracket permits mounting of the closer between doors with as little as 3" (76mm) of header space. Permits closer arm to clear up to 5/8" (16mm) high stop.</p>
		<p>Narrow Frame/Removable Stop - 297 Soffit Plate: For use where a narrow frame or frame with removable stop does not permit use of the standard soffit plate. This soffit plate may be mounted on the frame soffit or the frame rabbet where the stop does not exceed 5/8" (16mm) in height. All of the screw holes are in a straight line, requiring as little as 1-1/4" (32mm) of frame reveal to mount bracket and maintain good closer arm geometry. Where the frame soffit is as wide as 2" (51mm), this soffit plate may be used to clear weather-stripping that is up to 1-3/8" (35mm) wide and 5/8" (16mm) in height.</p>
		<p>Blade/Applied Stop - 299 Soffit Plate: For use where a blade or applied stop does not permit installation of the standard soffit plate. Mounts to either the frame soffit or rabbet. Since this soffit plate projects 7/8" (22mm) less than a standard soffit plate, it requires a minimum frame reveal of 1-1/2" (38mm). Permits closer to clear up to a 5/8" (16mm) stop.</p>
		<p>Flush Transom - 589L Angle Bracket: For use where rabbeted or flush transom conditions prevent installation of a soffit plate. Used in combination with the 289 soffit plate, or may be used in combination with the 290 soffit plate when it is necessary for the closer arm to clear a separate overhead door holder.</p>
		<p>Extra-Clearance - 290 Offset Soffit Plate: For use where the need for additional clearance prevents use of the standard soffit plate. This plate mounts to the frame soffit to provide up to 2" (51mm) of clearance when a separate overhead door holder is used. Standard mounting requires a 2-5/8" (67mm) wide frame soffit. It may also be used where unusually high frame stops or weather-stripping prevent the use of other soffit plates.</p>

Note: All measurements are Inches/mm.

Parallel Arm - Brackets For Non-Hold Open And Hold Open Arms

Parallel Hold Open - 588 Adapter Plate: Supplied standard with all parallel arm hold open closers. It can also be used to convert regular arm or top jamb hold open arms to parallel arm installation. It can be mounted where the frame soffit is as narrow as 1" (25mm).

Flush Transom - 589L Angle Bracket: For use where rabbeted or flush transom conditions prevent installation of a soffit plate. Used in combination with the 588 adapter plate, this bracket fastens to the overhead transom to provide a mounting surface for the soffit plate assembly.

Clearance/Support Blade Stop - 891 Spacer Block: For use where the door frame has a blade stop and the soffit plate must be mounted on the frame rabbet. This accessory is used in combination with the standard spacer block to provide clearance of the blade stop. Also used with non-hold open arms.

Note: All measurements are Inches/mm.

Parallel Rigid, Holder/Stop, Holder/Stop Spring Arms

CLOSER MOUNTING PLATES SLIM LINE INSTALLATIONS

Narrow Top Rail - 3148 Drop Plate: For use where a narrow top rail prevents the closer from being mounted directly to the door surface. This drop plate can be used to mount a closer on a top rail as narrow as 2-9/16" (65mm) in height.

FULL COVER INSTALLATIONS

Exposed Back - 3445 Molded Full Cover Decorative Back Plate: For use on doors with glass lights where a closer with molded full cover is installed and the closer back is exposed. This plate covers the back of the installation to give a pleasing appearance from the reverse side.

Exposed Back/Narrow Top Rail - 3158 Molded Full Cover Drop Plate: For use on doors with glass lights where a closer with molded full cover is installed and the back of the closer is exposed. This covers the back of the installation and gives a pleasing appearance from the reverse side.

METAL COVER INSTALLATIONS

Exposed Back - 3545 Metal Full Cover Decorative Back Plate: For use on doors with glass lights where a closer with full metal cover is installed and the back of the closer is exposed. This plate covers the back of the installation and gives a pleasing appearance from the reverse side.

Exposed Back/Narrow Top Rail - 3548 Metal Full Cover Drop Plate: For use on doors with glass lights where a closer with metal full cover is installed on a narrow top rail, and the back of the cover is exposed. This drop plate can be used to mount a closer on a top rail as narrow as 2-9/16" (65mm) in height. This plate covers the back of the installation and gives a pleasing appearance from the reverse side.

ARCHITECTURAL PLASTIC OR METAL COVER INSTALLATIONS

Exposed Back - 3545A Architectural Plastic or Architectural Metal Cover Decorative Back Plate: For use on doors with glass lights where a closer with an architectural plastic or metal cover is installed and the closer back is exposed. This plate covers the back of the installation to give a pleasing appearance from the reverse side.

Exposed Back/Narrow Top Rail - 3548A Architectural Plastic or Architectural Metal Cover Drop Plate: For use on doors with glass lights where a closer with an architectural plastic or metal cover is installed on a narrow top rail, and the back of the cover is exposed. This drop plate can be used to mount a closer on a top rail as narrow as 2-9/16" (65mm) in height. This plate covers the back of the installation to give a pleasing appearance from the reverse side.

Note: All measurements are Inches/mm.

Parallel Rigid, Holder/Stop, Holder/Stop Spring Arms

BRACKETS FOR NON-HOLD OPEN ARMS & HOLD OPEN ARMS

Standard - 293S Spacer Block: For use where a narrow frame soffit does not provide adequate support for the soffit plate. Supplied as standard with all parallel rigid arm closers.

Flush Rabbeted Transom - 293L Angle Bracket: For use where flush transom conditions prevent mounting of the standard soffit plate. This bracket is used in combination with the standard soffit plate.

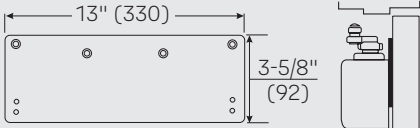

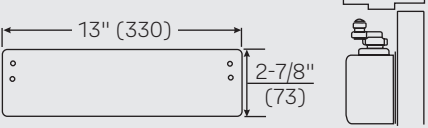

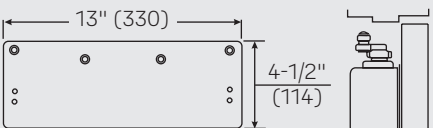

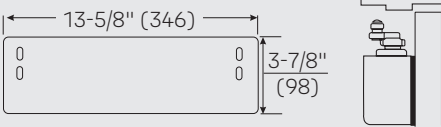

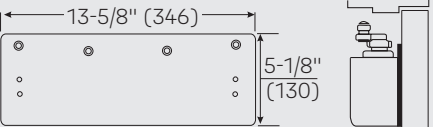

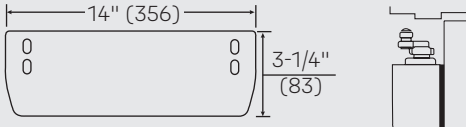

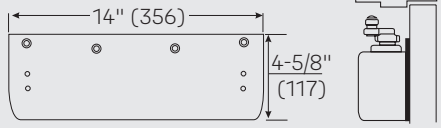

Narrow Frame - 890 Support Bracket: For use where the frame is narrow and the soffit plate cannot be mounted directly to the frame soffit or rabbet. Used in combination with the #891 Spacer Block on blade stop frames to provide extra support and needed clearance of the blade stop. Used on frame where the frame doesn't exceed 5/8" (16mm) in height.

Clearance/Support Blade Stop - 891 Spacer Block: For use where the door frame has a blade stop and the soffit plate must be mounted on the frame rabbet. This accessory is used in combination with the standard spacer block to provide clearance of the blade stop. Also used with non-hold open arms.

Note: All measurements are Inches/mm.

UNI Stop™ Arm

UNI Stop™ Arm

Closer Mounting Plate	
Soffit Plate Reinforcing Brackets (for Parallel Arm)	
	<p>Additional Support - 6190 Reinforcing Bracket: Standard for use with all parallel arm UNI Stop door controls. Provides additional support to the soffit plate on installations with door frame reveals from 1-7/8" to 4-5/8" (48 to 117mm).</p>
	<p>Flush Rabbeted Transom - 589L Angle Bracket: Optional for use with all parallel arm UNI Stop door controls. For use where rabbeted or flush transom conditions prevent installation of the soffit plate assembly. This bracket fastens to the overhead transom to provide a mounting surface for the soffit plate assembly.</p>
	<p>Wide Frame - 6191 Reinforcing Kit: Optional for use with all parallel arm UNI Stop door controls. Used to support the soffit plate on installations with wide frames. Clamps may be used with or without the spacer block, depending on frame conditions.</p>

Note: All measurements are Inches/mm.

UNI Stop™ Arm

CLOSER MOUNTING PLATES TOP JAMB

Narrow Top Rail - 3148 Drop Plate: For use where a narrow top rail prevents the closer from being mounted directly to the door surface. This drop plate can be used to mount a closer on a top rail as narrow as 2-7/16" (62mm) in height.

FULL COVER INSTALLATIONS

Exposed Back - 3445 Molded Full Cover Decorative Back Plate: For use on doors with glass lights where a closer with molded full cover is installed and the closer back is exposed. This plate covers the back of the installation to give a pleasing appearance from the reverse side.

Exposed Back/Narrow Top Rail - 3158 Molded Full Cover Drop Plate: For use on doors with glass lights where a closer with molded full cover is installed and the back of the closer is exposed. This covers the back of the installation and gives a pleasing appearance from the reverse side.

METAL COVER INSTALLATIONS

Low Ceiling Clearance - Overhead Door Holder - 3547 Metal Full Cover Drop Plate: For use where a low ceiling clearance prevents normal top jamb mounting. This plate is used when the clearance is between 1-5/8" and 3-3/4" (41mm and 95mm). Or for use where a surface or concealed overhead door holder prevents normal top jamb mounting of a closer with a metal full cover. This plate drops the closer and allows arm mounting screws to clear the bottom of the door holder. This places the centerline of the arm mounting screws at 3-7/8" (98mm) from the top of the door.

ARCHITECTURAL PLASTIC OR METAL COVER INSTALLATIONS

Low Ceiling Clearance - Overhead Door Holder - 3547A Architectural Plastic or Architectural Metal Cover Drop Plate: For use where low ceiling clearance prevents normal top jamb mounting. This plate is used when the clearance is between 1-5/8" and 3-3/4" (41mm and 95mm). Or for use where a surface or concealed overhead door holder prevents normal top jamb mounting of a closer with an architectural plastic or metal full cover. This plate drops the closer and allows arm mounting screws to clear the bottom of the door holder. This places the centerline of the arm mounting screws at 3-7/8" (98mm) from the top of the door.

Note: All measurements are Inches/mm.

Suggested Specification

3301/3501Series

Closers for interior and exterior doors shall be full rack-and-pinion type with cast aluminum alloy shell. Closers shall be surface mounted and shall project no more than 2-1/8" from the surface of the door with standard cover. Closers shall be non-handed to permit installation on doors of either hand. Closer fluid shall contain lubricity and anti-oxidation agents. Closer fluid shall maintain stable viscosity to allow door closer to perform in temperatures ranging from extremely high to as low as -40°F. Closers shall have multi-size spring power adjustment to permit setting of spring from size 1 through size 6. Closers shall have two non-critical valves, hex key adjusted, to independently regulate sweep speed and latch speed. Closers shall have adjustable backcheck intensity controlled by a hex key adjusted valve.

[Closers shall have adjustable delayed action closing controlled by a hex key adjustable valve.]

Regular arm and top jamb closers shall have a non-hold open shoe permitting 15% (+ or – 7-1/2%) power adjustment. **Closers shall be enclosed in a [molded resin cover] [plated or sprayed metal cover], Closers to be Yale® [3301/3501] [3501M] [3501MA] [3501A].

**For special arms insert that specification here (see column three on this page).

****UNI Stop™ Arm**

Door closers shall have a fixed door stop feature effective at one point selected at installation, from 85° - 110° in five-degree increments. Door stop shall be cushioned by a shock-absorbing heavy-duty spring action effective at the [soffit plate] [arm shoe] pivot. [Closers shall be provided for parallel arm installation using a rigid steel main arm and secondary arm lengths proportional to the door width.] [Closers shall be provided for top jamb installation using a forged steel, rigid main arm and telescoping secondary arm adequate for the frame reveal of the openings.]

****Holder/Stop Arm**

Door closers shall have a field reversible door stop. Door closer shall have a feature with selectable on and off ball and detent hold open. Hold open tension shall be adjustable effective at one point selected at installation, from 85° - 110° in five degree increments. [Hold open mechanism shall have engage/disengage selection actuated by thumbturn]. Closers shall be provided for parallel arm installation using a forged rigid steel main arm and secondary arm.

****Holder/Stop Spring Arm**

Door closers shall have built-in door stop [and holder] effective at one point selected at installation, from 85° - 110° in five-degree increments. Door stop mechanism shall be reversible and have a buffer spring that engages prior to the dead stop feature, reducing shock loads to the door and frame assembly. Door stop mechanism shall be non-handed and attached to soffit plate. [Hold open mechanism shall have engage/disengage selection actuated by thumbturn]. Closers shall be provided for parallel installation using a forged rigid steel main arm and secondary arm.

2700 SERIES DOOR CLOSER

Yale® 2700 series architectural door closers are ideal for commercial applications where ease of use, installation and aesthetics are required at an economical price.

The 2700 series features rugged construction, adjustments for backcheck, closing and latch speed, rack and pinion operation and a variety of arm options.

Bringing you a dependable door closer at an attractive price point, Yale Works for YouSM.

Features & Benefits

FEATURES

- Adjustable spring sizes 1-6
- Non-handed
- Aluminum body
- Tri-packed: regular, parallel or top jamb mounting
- Full plastic cover
- Hold open and heavy-duty arms available
- Sleeve nuts furnished standard with all models
- Optional fasteners: through-bolts and grommet nuts

BENEFITS

- **Accessible:** Rugged construction allows for ease of use and installation; Tri-packed closer allows installation of multiple applications
- **Economical:** 10-year limited warranty; Longer life results in fewer replacements and less material used
- **Customizable:** Non-handed for right or left hand installation; Adjustable 1-6 spring simplifies installation; Adjustments for backcheck, closing and latch speed, rack and pinion operation; Variety of arm options

FUNCTIONS

- Backcheck
- Closing speed
- Latching speed
- Delayed action; specify 2701DL

Overview

COMPLIANCE STANDARDS

- Certified for ANSI/BHMA A156.4 Grade 1 **BHMA CERTIFIED**
- UL and cUL listed. This includes compliance to UL10C. 
- Meets requirements for Americans with Disabilities Act (ADA) and ANSI/BHMA A117.1 
- 10-year limited warranty

CAUTION: Door Closers for Low Opening Force

Applications:

Door closers installed in openings required to meet the requirements of the Americans With Disabilities Act or ANSI/BHMA Standard A117.1, when adjusted to meet those requirements, may not provide adequate closing power to dependably close and latch the door based on opening or site conditions.

DOOR CLOSING LATCH CYCLE

ARMS

Non-Hold Open

Self-closes door every time door is opened. Auxiliary stop (by others) required except when using the Holder/Stop arm.

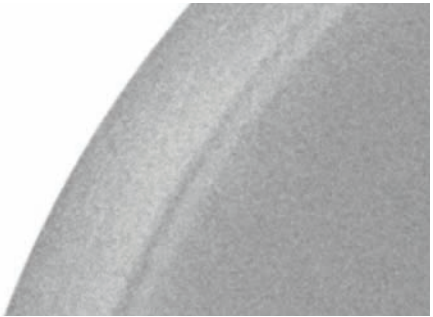

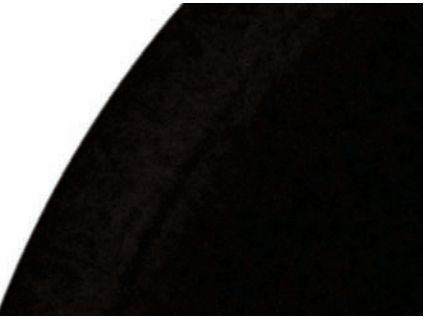

Hold Open

Achieved by means of friction or ball and detent/roller. Friction hold open has a range of 90° to 180° using template location and mechanical adjustment. Ball and detent or roller hold open is effective in a range of 85° to 110°.

Hold open arm door closers are not permitted to be used on fire door assemblies.

Finishes

ANSI/BHMA Code Finish Description		
689 Aluminim Painted	690 Dark Bronze Painted	BSP Black Suede Powder Coat
		

How To Order

Notes:

- For heavy-duty parallel rigid arm applications, specify 2721 or 2721T, stop is removable.
- Door closer warranty becomes void if the closer is installed on the exterior side of a door in the exterior wall of a building.
- It is strongly recommended, and may be required on fire door assemblies, that doors having a door closer be hung on ball-bearing or anti-friction hinges or pivots. Consult local authority having jurisdiction.
- Failure to use fasteners supplied with closer may void factory warranty.
- Fasteners for fire/smoke door assemblies must conform to NFPA 80. In some applications additional fasteners may be mandated by NFPA 80 that are not shipped with standard Yale® product, such as sleeve-nuts/sex-nuts or thru bolts and grommet nuts.
- Information provided is based on 1-3/4" (44mm) x 7' (2.13m) standard weight doors swinging to 110°. Other conditions (such as door height or weight; or wind/draft conditions) may require adjustment of spring setting, selection of a larger size closer or different closer.

Applications

Regular Arm

Non-hold open arm shown, hold open application available.

- Pull side application; double lever arm
- Sufficient frame, door and/or ceiling clearance must be considered
- Due to arm projection, application may present an aesthetics issue or be prone to vandalism

Top Jamb

Non-hold open arm shown, hold open application available.

- Push side application
- Sufficient frame face and/or ceiling clearance must be considered
- 2-1/4" (57mm) top rail on door is required
- Best door control for doors in exterior walls that swing out of building
- Consideration must be given to depth of reveal

Parallel Arm

Non-hold open arm shown, hold open application available.

- Push side application
- In the closed position, there is little or no hardware projection beyond the frame face
- Due to arm geometry, approximately 25% less power-efficient than regular arm application
- Closer and arm mounted below the frame stop

Holder/Stop Arm

2721T (hold open) shown

- Holder/Stop arms incorporate a stop at the arm's soffit plate to dead stop the door at a predetermined degree of door swing between 85° and 110°, in 5° increments
- Prior to dead stop, backcheck slows the door speed to reduce the stop action
- Arm is intended for use where an auxiliary door stop cannot be used and low to moderate abuse is anticipated
- Stop is removable to allow for additional applications where auxiliary door stops are installed

2721 (non-hold open, without stop) shown

- Holder/Stop Spring arms incorporate a buffer spring that provides greater protection at the end of the door opening cycle.
- Spring is removable

2731T (hold open with thumbturn and spring) shown

Consult factory if door weight exceeds 225 lbs.

Model/Part Numbers

Complete Units	
Model Number	Description
2701	Non-Hold Open Tri-Packed
2701DL	Non-Hold Open Tri-Packed with Delayed Action
2711	Hold Open Tri-Packed
2721	Heavy-Duty Non-Hold Open Parallel Arm with Removable Stop
2721T	Heavy-Duty Hold Open Parallel Arm with Thumbturn and Removable Stop
2731	Heavy-Duty Non-Hold Open Parallel Arm with Spring and Removable Stop
2731T	Heavy-Duty Hold Open Parallel Arm with Thumbturn and Spring and Removable Stop

Note: for heavy-duty parallel rigid arm applications, specify 2721 or 2721T, stop is removable.

Accessories

BRACKETS FOR NON-HOLD OPEN ARMS & HOLD OPEN ARMS

Flush Rabbeted Transom - 293L Angle Bracket: For use where flush transom conditions prevent mounting of the standard soffit plate. This bracket is used in combination with the standard soffit plate. Not for use with heavy-duty arms.

CLOSER MOUNTING PLATES

Narrow Top Rail - 3148 Drop Plate: For use where a narrow top rail prevents the closer from being mounted directly to the door surface. This drop plate can be used to mount a closer on a top rail as narrow as 2-7/16" (62mm) in height.

Exposed Back/Narrow Top Rail - 3158 Molded Full Cover Drop Plate: For use on doors with glass lights where a closer with molded full cover is installed and the back of the closer is exposed. This covers the back of the installation and gives a pleasing appearance from the reverse side.

51 Series Door Closers

Yale® 51 Series Closers are designed to fit almost any application and are the choice of engineers worldwide. They are ideal for use with aluminum store front doors and frames, yet they also complement wood or metal door installations. Non-handed, the 51 series is available as multi-sized units and offers tri-packed packaging on standard non-hold open and hold open closers.

This UL listed, Grade 1 closer has a proven history of quality and tradition. With a variety of plates, brackets, precise valve adjustment and a complete range of arms, these closers can be used on retail stores, warehouses, restaurants, garages, or manufacturing and utility buildings. With a full feature set and stylish design, Yale Works for YouSM.

Features

- Exceeds 25 million cycles
- Non-handed
- Tri-packed (regular arm, top jamb and parallel arm installations)
- Rack-and-pinion design
- Cast aluminum body
- 1-3/8" (35mm) diameter piston
- 5/8" (16mm) diameter pinion journals
- Standard, separate and independent, latch, sweep and backcheck intensity valves
- 2-7/8" (73mm) projection
- All standard arm applications allow doors to swing 180°, conditions permitting
- 30-year limited warranty
- Staked valves

Benefits

- **Reliable:** High strength aluminum alloy closer body provides for long life; independent latch, sweep and backcheck intensity valves ensure positive control
- **Cost of Ownership:** Exceeds 25 million cycles; 30-year limited warranty
- **Flexible:** Adjustable 1-6 spring makes installation selection easier and reduces inventory for customers; Non-handed for installation on right- or left-hand swing doors

Overview

Cutaway View

Spring omitted for illustration purposes

Compliance Standards

The series 51 door closers are designed to comply with requirements of the Americans with Disabilities Act (A.D.A.) and ANSI standard A117.1. All series 51 are ANSI/BHMA A156.4, Grade 1 certified. All Yale® series 51 closers with non-hold open arms are listed by Underwriters' Laboratories for labeled fire doors . This includes compliance to UL10C for 3-hour assemblies. These products are manufactured in a certified ISO 9001, ISO 14001 facility.

CAUTION: Door Closers for Low Opening Force Applications:

Door closers installed in openings required to meet the requirements of the Americans With Disabilities Act or ANSI/BHMA Standard A117.1, when adjusted to meet those requirements, may not provide adequate closing power to dependably close and latch the door based on opening or site conditions.

Fasteners

Type	0.1795 in	Arm		
		RA	PA	TJ
DOOR				
SDST	Self Drilling Self Tapping	S	S	S
MS	Machine Screw	S	S	S
SN	Sleeve Nut	O	O	O
TBGN	Thru Bolts & Grommet Nuts	O	O	O
SMS	Sheet Metal Screws (Wood)	O	O	O
FRAME				
SDST	Self Drilling Self Tapping	S	S	S
MS	Machine Screw	S	S	S
SMS	Sheet Metal Screws (Wood)	O	O	O

S = standard; O = optional

SN are for use on unreinforced hollow metal doors or to prevent any hollow metal door from collapse/dimpling. They can also be used for thru bolting on wood doors. SN are supplied for 1-3/4" (44mm) thick doors unless specified for 2-1/4" (57mm) thick doors.

TBGN are an alternative to SN for wood doors. TBGN are supplied standard for 1-3/4" (44mm) thick doors. They can be specified for 1-3/8" (35mm) thick doors.

SMS - when specified, closer will be packed with sheet metal screws for the door **AND** sheet metal screws plus machine screws for the frame.

Features

Standard Features

Aluminum Alloy Housing

Closer bodies are constructed of a special aluminum alloy, carefully selected to accommodate interaction with steel components and operating conditions.

Rack & Pinion Operation

Provides a smooth constant control of the door through its full opening and closing cycle. 180° door swing can be achieved when door, frame, hardware and arm function do not limit door swing.

Non-handed

With few exceptions all series 51 door closers are non-handed and can be installed on either right- or left-hand swing doors. Pinion shaft extends vertically through the closer body in both directions. Some options, (such as Parallel Rigid Hold Open Arms) will require that the hand of the closer be specified.

Tri-packed

51 comes with screws, brackets & soffit plate to allow for regular, top jamb, & parallel arm installations.

Sweep Speed Control Valve

Allows adjustment of door's speed from the door's full open position down to approximately 10° from the closed position.

Latch Speed Control Value

Allows adjustment of door speed from approximately 10° down to the door's fully closed position.

Adjustable Backcheck Cushion Valve

Provides control of the door in the opening cycle, beginning at approximately 75° of door opening. It slows/ cushions the door opening, when the door is forcibly opened beyond its pre-adjusted opening speed limits.

Closer Fluid

All door closers are supplied with a temperature stable, multi-viscosity fluid. This fluid will permit the door closer to perform within a wide temperature range: from very high to as low as -40°F.

Warranty

These closers carry a limited 30-year warranty against defects and a limited lifetime warranty on the aluminum housing.

Door Closer Power Options

Series 51 Multi-Sized Door Closer

Fully adjustable through the power range of sizes 1 through 6, as outlined in ANSI/BHMA specification A156.4. Also, complies with the opening force requirements as outlined in the Americans with Disabilities Act (A.D.A.) and ANSI A117.1 for interior doors.

Optional Features

Optional Molded Cover

Molded of high impact U.L. listed material that covers the entire closer body assembly. This cover is non-handed for regular and parallel arm applications. Suffix "P" to catalog number. Not designed for top jamb applications.

Optional Features - Arms

Non-Hold Open

Self-closes door every time door is opened. Auxiliary stop (by others) required.

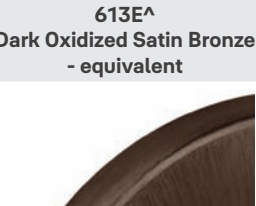

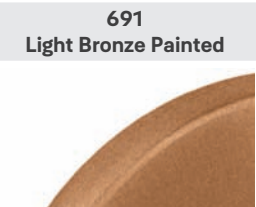

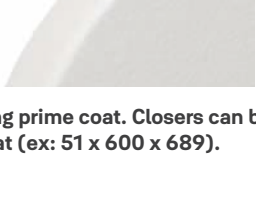

Hold Open

Achieved by means of friction or ball and detent/roller. Friction hold open has a range of 90° to 180° using template location and mechanical adjustment. Ball and detent or roller hold open is effective in a range of 85° to 110°.

Hold open arm door closers are not permitted to be used on fire door assemblies.

Finishes

ANSI/BHMA Code Finish Description				
600* Primed for Painting	605^ Bright Brass, Clear Coated	606^ Satin Brass, Clear Coated	611^ Bright Bronze, Clear Coated	612^ Satin Bronze, Clear Coated
				
613 Dark Oxidized Satin Bronze, Oil Rubbed	613E^ Dark Oxidized Satin Bronze - equivalent	625^ Bright Chrome Plated	626^ Satin Chrome Plated	689 Aluminum Painted
				
690 Dark Bronze Painted	691 Light Bronze Painted	693 Black Painted	694 Medium Bronze Painted	696 Satin Brass Painted
				
BSP Black Suede Powder Coat	WSP White Suede Powder Coat			
				

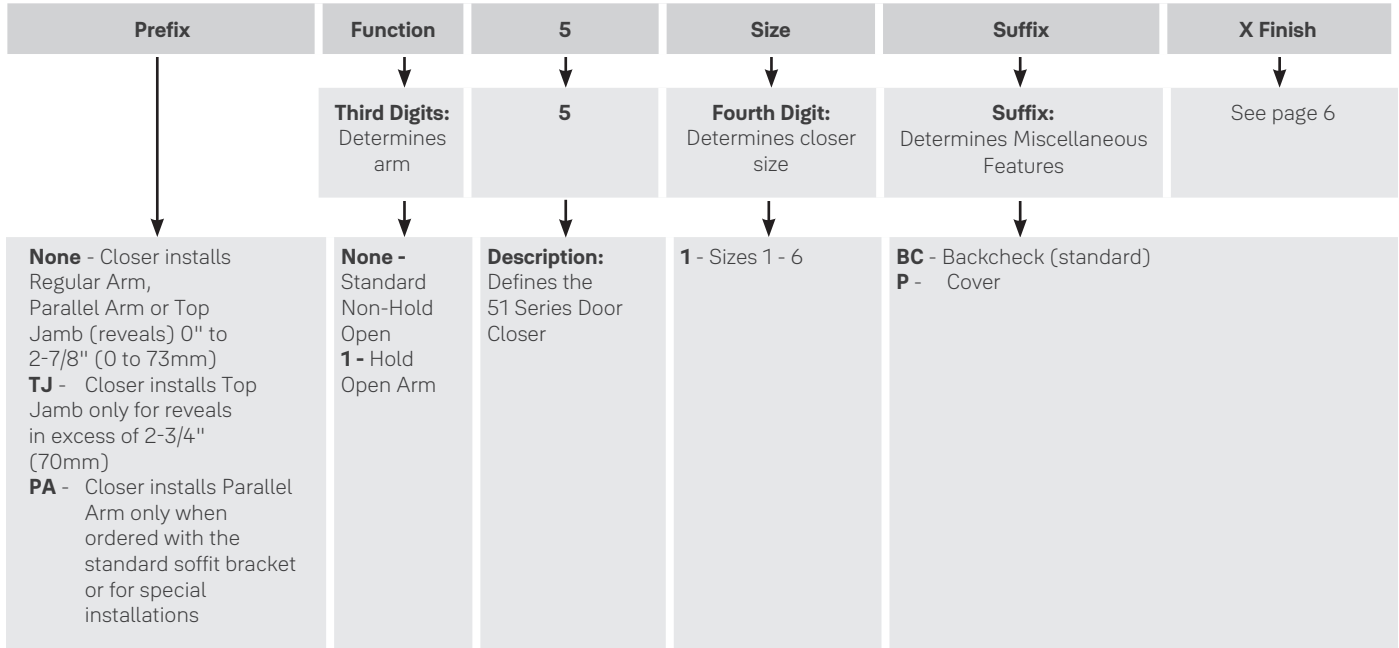

*600 is a special rust-inhibiting prime coat. Closers can be ordered prime coat only (specify closer x 600). An additional charge applies if finish coat is required over prime coat (ex: 51 x 600 x 689).

^ Available on arms only.

How To Order

Ordering Information

Notes:

- Door closer warranty becomes void if the closer is installed on the exterior side of a door in the exterior wall of a building.
- It is strongly recommended, and may be required on fire door assemblies, that doors having a door closer be hung on ball-bearing or anti-friction hinges or pivots. Consult local authority having jurisdiction.
- Failure to use fasteners supplied with closer may void factory warranty.
- Fasteners for fire/smoke door assemblies must conform to NFPA 80. In some applications additional fasteners may be mandated by NFPA 80 that are not shipped with standard product, such as sleeve-nuts/sex-nuts or thru bolts and grommet nuts.
- Information provided is based on 1-3/4" (44mm) x 7' (2.13m) standard weight doors swinging to 110°. Other conditions (such as door height or weight; or wind/draft conditions) may require adjustment of spring setting, selection of a larger size closer or different closer.

Regular Arm

This is the only pull-side application where a double lever arm is used. It is the most power-efficient application for a door closer. Sufficient frame, door and/or ceiling clearance must be considered. Since the arm assembly projects directly out from the frame, this application may present an aesthetics issue or be prone to vandalism.

Top Jamb

For efficiency reasons this application provides the best alternative to the regular arm application. There must be sufficient frame face and/or ceiling clearance for this application. It requires a top rail on the door of just 2-1/8" (54mm). This application provides the best door control for doors in exterior walls that swing out of a building. The entire door closer and arm assembly project from the frame, similar to the regular arm application, where the matters of appearance and malicious abuse can be of concern. Consideration must be given to depth of the frame reveal.

Parallel Arm

This application provides the most appealing design appearance for a surface-mounted door closer having a double lever arm. This may also be beneficial in vandalism-prone areas. It is on the push side of the door and the arm assembly extends almost parallel to the door. In the closed position, there is very little or no hardware projecting beyond the frame face in most situations. Due to the geometry of the arm it is approximately 25% less power-efficient than a regular arm application. The entire closer and arm assembly are mounted below the frame stop, requiring a top rail clearance on the door of between 5-3/8" (137mm), when using a low-profile arm (250 series), to 6-3/8" (162mm), when using the hold open arm.

Corner Bracket

This application can be used where top jamb and parallel arm application will not accommodate the door and frame conditions. Requires minimal top rail on the door; however, vertical clearance to the floor within the door opening should be checked to ensure code compliance. The close proximity, for this application, of the door closer to the door's pivot point reduces the door closer's power efficiency by approximately 25% when compared to a regular arm. The projection of the arm from the door face might pose questions regarding design parameters or environment.

Regular Arm

Mounting holes for closer body are spaced $3/4$ " (19mm) vertically x $9-1/16$ " (230mm) horizontally.

Regular Arm

Brackets for Non-Hold Open Arms

Molded/Bull Nose Trim - 291 Bracket

For use where the door frame has molded or bull nose trim which will not accept a standard non-hold open shoe. The bracket is mortised into the frame rabbet, and projects beyond the face of the frame. It will accommodate a frame rabbet up to 2" (51mm) deep.

Molded/Bull Nose Trim - 291A Bracket

This bracket is similar to - but longer than - the 291 bracket. It is designed to accommodate frame rabbets from 2" to 2-7/8" (51mm to 73mm) deep.

Brackets for Hold Open Arms

Molded/Bull Nose Trim - 292 Bracket

For use where the door frame has molded or bull nose trim which will not accept a standard hold open shoe. It is mortised into the frame rabbet, and projects beyond the face of the frame. It will accommodate a rabbet up to 2" (51mm) deep. This bracket is used in combination with the standard hold open mounting shoe.

Corner Brackets for Closer Mounting

For closer sizing information, use the Parallel Arm sizing chart on page 11.

Mounting Opposite Hinge Side - 2350 Corner Bracket

For use where it is desired to mount the closer regular arm on the opposite to hinge side of the door. Can also be used to clear an overhead door holder.

Top Jamb

Closer Mounting Plates

Overhead Door Holder - 214 Drop Plate

For use where an overhead door holder prevents normal top jamb mounting. This places the center line of the arm mounting screws at 3-1/2" (89mm) from the top of the door.

Low Ceiling Clearance - Overhead Door Holder - 587 Drop Plate

For use where the ceiling clearance is between 1-3/4" and 2-5/8" (44mm and 67mm). Or for use where an overhead door holder prevents normal top jamb mounting. This places the centerline of the arm mounting screws at 2-1/8" (54mm) from the top of door.

Parallel Arm

Closer Mounting Plate

Narrow Top Rail - 214 Drop Plate

For use where a narrow top rail prevents the closer from being mounted directly to the door surface. This drop plate can be used to mount a closer on a top rail as narrow as 3-1/8" (79mm) in height for 50BC or 2-1/8" (54mm) for 50BCP.

Plate No.	Dimensions	
	A (width)	B (length)
214	3-1/4" (83mm)	9-3/4" (248mm)
214C	4-1/8" (105mm)	9-7/8" (251mm)

Note: #214C - To be used when optional cover is specified.

Brackets for Non-Hold Open Arms

Standard Installation - 289A Soffit Plate

This soffit plate is supplied standard with parallel arm closers. It can be mounted where the frame soffit is as narrow as 1" (25 mm). Specify **289A-SS for stainless steel soffit plate**. With Series PA51S closers, a 289A-SS soffit plate fabricated of stainless steel is supplied standard.

Narrow Frame/Removable Stop - 297 Soffit Plate

For use where a narrow frame or frame with removable stop does not permit use of the standard soffit plate. This soffit plate may be mounted on the frame soffit or the frame rabbet where the stop does not exceed 5/8" (16mm) in height. All of the screw holes are in a straight line, requiring as little as 1-1/4" (32mm) of frame reveal to mount bracket and maintain good closer arm geometry. Where the frame soffit is as wide as 2" (51mm), this soffit plate may be used to clear weather - stripping that is up to 1-3/8" (35mm) wide and 5/8" (16mm) in height.

Mounting Between Doors - 413A Soffit Bracket

For use where insufficient space between companion doors does not permit use of other soffit plates. This bracket permits mounting of the closer between doors with as little as 3" (76mm) of header space. Permits closer arm to clear up to 5/8" (16mm) high stop.

Blade/Applied Stop - 299 Soffit Plate

For use where a blade or applied stop does not permit installation of the standard soffit plate. Mounts to either the frame soffit or rabbet. Since this soffit plate projects 7/8" (22mm) less than a standard soffit plate, it requires a minimum frame reveal of 1-1/2" (38mm). Permits closer to clear up to a 5/8" (16mm) high frame stop.

Parallel Arm

Brackets for Non-Hold Open Arms (Continued)

Flush Transom - 589L Angle Bracket

For use where rabbeted or flush transom conditions prevent installation of a soffit plate. Used in combination with the 289A soffit plate, or may be used in combination with the 290 soffit plate when it is necessary for the closer arm to clear a separate overhead door holder.

Extra-Clearance - 290 Offset Soffit Plate

For use where the need for additional clearance prevents use of the standard soffit plate. This plate mounts to the frame soffit to provide up to 2" (51mm) of clearance when a separate overhead door holder is used. Standard mounting requires a 2-5/8" (67mm) wide frame soffit. It may also be used where unusually high frame stops or weather-stripping prevent the use of other soffit plates.

Brackets for Hold Open Arms

Parallel Hold Open - 588 Adapter Plate

This Adapter Plate is supplied standard with all parallel arm hold open closers. It can also be used to convert regular arm or top jamb hold open arms to parallel arm installation. It can be mounted where the frame soffit is as narrow as 1" (25mm).

Flush Transom Hold Open - 589L Angle Bracket

For use where rabbeted or flush transom conditions prevent installation of the standard 588 hold open adapter plate. It is used in combination with the 588 adapter plate.

4. Same as 400-13 but includes #588 soffit adapter plate.

Sample Specification

51 Series

Closers for interior and exterior doors shall be full rack-and-pinion type with cast aluminum alloy shell. Closers shall be surface mounted and shall project no more than 2-7/8" from the surface of the door. Closers shall be non-handed to permit installation on doors of either hand. Closer fluid shall contain lubricity and anti-oxidation agents. Closer fluid shall maintain stable viscosity to allow the door closer to perform in temperatures ranging from extremely high to as low as - 40°F. Closers shall have multi-size spring power adjustment to permit setting of spring power for sizes (1 through 6). Closers shall have two non-critical valves, hex key adjusted, to independently regulate sweep and latch speed. (Closers shall have adjustable backcheck cushioning controlled by a hex key adjusted valve.) Closer power shall be adjustable using 1/8" hex key.

(Closers shall be provided with a full molded cover.)

Regular arm and top jamb closers shall have a non-hold open shoe permitting 15% (+/- 7-1/2%) power adjustment. [51]

1100 Series Door Closer

The Yale® 1100 series industrial door closers are ideal for a wide variety of commercial applications where ease of use and installation are required at an economic price.

The 1100 series features rugged construction, adjustments for closing and latch speed, and rack and pinion operation.

Bringing you a dependable door closer at an attractive price point. Yale Works for YouSM.

Features

- 1101BF (non-hold open) and 1111BF (hold open) door closers are adjustable spring sizes 1 through 4
- 1104BC (non-hold open) door closers are spring size 4
- Non-handed
- Full rack and pinion
- Aluminum body
- Tri-packed: regular, parallel or top jamb mounting
- Adjustable backcheck valve
- Adjustable closing speed valve
- Adjustable latching speed valve
- Auxiliary door stop required
- Sleeve nuts included with all models (1-3/4")
- 5-year limited warranty
- 1101BF closers available with or without cover

Benefits

- **Accessible:** Tri-packed closer allows installation of multiple applications
- **Economical:** 5-year limited warranty; Longer life results in fewer replacements and less material used
- **Customizable:** Non-handed for right or left hand installation; Adjustable 1-4 or size 4 models available

Overview

Certifications

- ANSI/BHMA A156.4, Grade 1 
- UL and cUL listed. This includes compliance to UL10C. 
- BF door closers meet handicapped requirements for light to medium weight interior doors. 

CAUTION: Door Closers for Low Opening Force Applications:

Door closers installed in openings required to meet the requirements of the Americans With Disabilities Act or ANSI/BHMA Standard A117.1, when adjusted to meet those requirements, may not provide adequate closing power to dependably close and latch the door based on opening or site conditions.

Door Closing Latching Cycle

How To Order

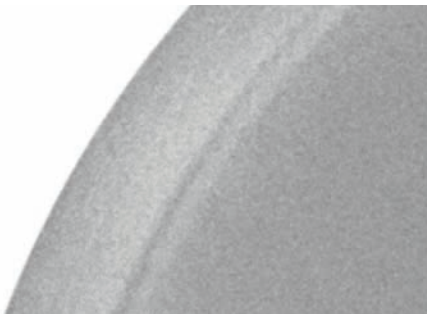

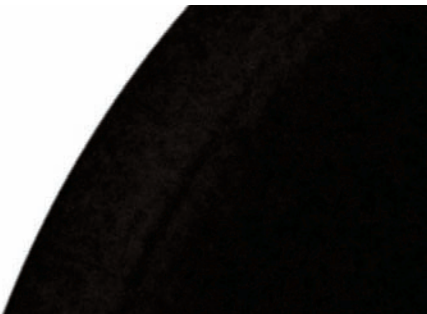

Model #	Description	Finish
1101BF	Multi-sized Closer - Non-Hold Open	689 690 BSP
1101BFxCOV	Multi-sized Closer - Non-Hold Open with Cover	
1104BC	Size 4 Closer with Backcheck - Non-Hold Open	
1111BF	Multi-sized Closer - Hold Open	

Sleeve Nuts furnished standard with all models.

NOTE:

- Door closer warranty becomes void if the closer is installed on the exterior side of a door in the exterior wall of a building.
- It is strongly recommended, and may be required on fire door assemblies, that doors having a door closer be hung on ball-bearing or anti-friction hinges or pivots. Consult local authority having jurisdiction.
- Failure to use fasteners supplied with closer may void factory warranty.
- Fasteners for fire/smoke door assemblies must conform to NFPA 80. In some applications additional fasteners may be mandated by NFPA 80 that are not shipped with standard Yale product, such as sleeve-nuts/sex-nuts or thru bolts and grommet nuts.
- Information provided is based on 1-3/4" (44mm) x 7' (2.13m) standard weight doors swinging to 110°. Other conditions (such as door height or weight; or wind/draft conditions) may require adjustment of spring setting, selection of a larger size closer or different closer.

1900 Series Door Closer

The Yale® 1900 Series Traditional Surface Closer offers conventional closer styling in combination with contemporary closer control and the installation convenience of a one-size closer shell. Only two spring sizes are required to provide control for the complete range of door sizes. The 1900 Series Door Closers are designed for traditional and period decor while at the same time meeting the strict requirements of engineers worldwide.

The Yale® 1900 Series Traditional Closers are available for standard arm, parallel arm or corner bracket installation. Rigid heavy-duty non-hold open and hold open arms are available for Parallel Rigid and UNI Stop™ Parallel arm installations. A variety of accessories is available to meet most installation requirements. Yale Works for YouSM.

Features & Benefits

Standard Features

- Choice of adjustable spring power. Models 1902/4, 1912/4 are sizes 2, 3 or 4. Models 1905/6, 1915/6 are sizes 5 and 6
- Heavy-duty arms available
- Handed (closer spring can be reversed in field; recommend ordering correct handing when possible)

Benefits

- **Customizable:** Available with standard or heavy duty arms to meet installation requirements
- **Convenient:** One-size closer shell; Only two spring sizes needed to provide control for all door sizes
- **Compliant:** All closers with non-hold open arms are UL listed for labeled fire doors; UL10C compliant

Compliance Standards

- UL/cUL listed for use on fire rated doors 
- UL10c listed for positive pressure fire test
- This product is manufactured in an ISO 9001, ISO 14001 facility.

One-Size Aluminum Housing

Closer is housed in special aluminum alloy shell selected for its ability to provide optimum performance. One body size provides simplified templating and installation.

Adjustable Spring Power

Clock-type coil spring allows incremental adjustment of closer power to meet individual installation needs. Permits a fine adjustment of the closer to the environment.

Rack and Pinion Design

Provides a smooth constant control of the door through its full opening and closing cycle.

Adjustable Closing Speed/Latch Speed

A dual-purpose regulating valve, hex-key operated, permits independent adjustment of both sweep and latch speed.

Adjustable Backcheck Cushioning

An independent regulating valve, hex-key-operated, provides an adjustable hydraulic cushion to the door opening speed toward the end of the opening cycle. This feature is standard with all but delayed action closers. Backcheck is not available with delayed action closers.

Non-Hold Open Arm

Standard closer will be supplied with a non-hold open arm. This arm is non-handed.

Adjustable Power Standard Installation Jamb Bracket

Provides a $\pm 7\text{-}1/2\%$ power adjustment by relocation of the forearm pin in the jamb bracket. Supplied standard with all standard installation and corner bracket installation non-hold open closers.

Hold Open Arm

Available with heavy-duty arms (Parallel Rigid and UNI Stop)

Field Reversible

Closer spring can be reversed to accommodate the hand of the door. It is recommended that wherever possible the closer be ordered handed. Parallel hold open arms and delayed action closers are not reversible.

Adjustable Delayed Action Closing

Closer's initial closing speed at the beginning of the closing cycle (from full open down to approximately 70°) is adjustable, allowing slow-moving traffic to pass through the opening before the closer begins its normal closing speed. For regular arm non-hold open closers only. Delayed action closers are not available with backcheck cushioning. Delayed action closers are handed.

Optional Features

Adjustable Delayed Action Closing*

(Supplied in lieu of backcheck feature) An optional hydraulic feature that adds a third speed range to the closing cycle. This feature becomes effective when the door is opened and released at any point beyond 70°. The amount of time delay depends upon the combination of the angle of door release and valve adjustment. The valve can be adjusted with a 1/8" (3mm) hex key from no delay time up to maximum delay times of:

Suggested Applications

Delayed action closing allows slow-moving traffic to clear the opening before the door closer's normal closing cycle begins. This feature can be helpful in health care facilities such as hospitals and nursing homes. It provides sufficient time for persons on crutches or in wheelchairs to pass through a door without concern of it closing. At the same time, it can accommodate the facility's staff with movement of food service carts, beds, and other wheeled traffic. Use of delayed action closers on many doors throughout industrial and commercial buildings can also assist the flow of traffic. Locations where additional time to clear the opening is advantageous are doors between office and factory/warehouse facilities, doors to workshops or laboratories, to kitchen and food processing areas, etc.

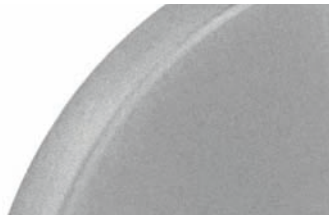

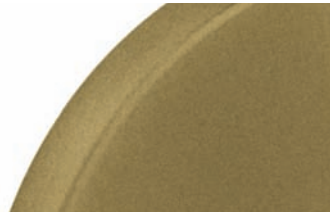

Door Opened and Released at	Approximate Time of Delay Cycle
180°	4-5 minutes
120°	2-3 minutes
90°	25-30 seconds

*Note: Regular arm (NHO units only) are handed - not reversible

Finishes

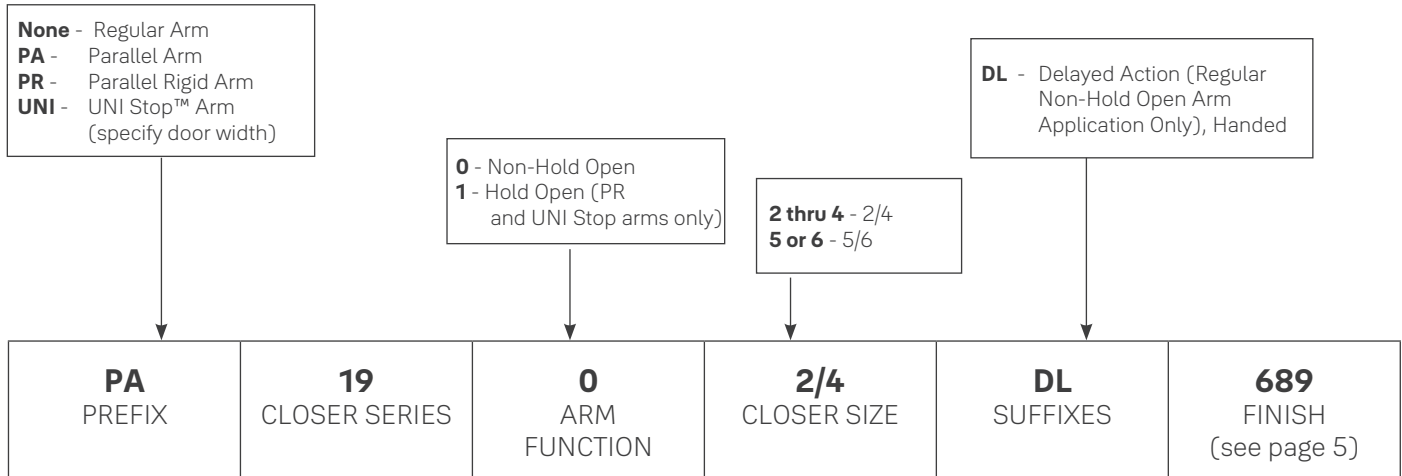

Product will be painted with a combination of waterborne acrylic and polyester powder coat. Closers will withstand 100 hours of salt spray. (The ANSI requirement is 25 hours.)

ANSI/BHMA Code Finish Description			
600* Primed for Painting	689 Aluminum Painted	690 Dark Bronze Painted	691 Light Bronze Painted
			
693 Black Painted	694 Medium Bronze Painted	696 Satin Brass Painted	
			

*600 is a special rust-inhibiting prime coat. Closers can be ordered prime coat only (specify closer x 600). An additional charge applies if finish coat is required over prime coat (ex: 1902/4 x 600 x 689).

How To Order

- NOTE:
- Door closer warranty becomes void if the closer is installed on the exterior side of a door in the exterior wall of a building.
 - It is strongly recommended, and may be required on fire door assemblies, that doors having a door closer be hung on ball-bearing or anti-friction hinges or pivots. Consult local authority having jurisdiction.
 - Failure to use fasteners supplied with closer may void factory warranty.
 - Fasteners for fire/smoke door assemblies must conform to NFPA 80. In some applications additional fasteners may be mandated by NFPA 80 that are not shipped with standard Yale product, such as sleeve-nuts/sex-nuts or thru bolts and grommet nuts.
 - Information provided is based on 1-3/4" (44mm) x 7' (2.13m) standard weight doors swinging to 110°. Other conditions (such as door height or weight; or wind/draft conditions) may require adjustment of spring setting, selection of a larger size closer or different closer.

Regular Arm

This is the only pull-side application where a double lever arm is used. It is the most power-efficient application for a door closer. Sufficient frame, door and/or ceiling clearance must be considered. Since the arm assembly projects directly out from the frame, this application may present an aesthetics issue or be prone to vandalism.

Only available with non-hold open arm.

Parallel Arm

This application provides the most appealing design appearance for a surface-mounted door closer having a double lever arm. This also makes it beneficial in vandalism-prone areas. It is on the push side of the door and the arm assembly extends almost parallel to the door. In the closed position, there is very little or no hardware projecting beyond the frame face in most situations.

Due to the geometry of the arm it is approximately 25% less power-efficient than a regular arm application.

The entire closer and arm assembly are mounted below the frame stop, requiring a top rail of 5-3/8" (137mm) to mount the body. Clearance to the bottom of the closer body from the top of the door is 7-3/8" (187mm). (Based on a 5/8" (16mm) high frame stop.)

Only available with non-hold open arm.

Parallel Rigid Arm

An enhanced variation of the standard parallel arm assembly that is intended for use in heavy traffic areas where auxiliary door stops are installed. Hold open available - specify hand when ordering.

UNI Stop™ Arm (Parallel Arm applications only)

UNI Stop™ arms combine the features of a double-lever arm overhead door stop/holder with the backcheck feature of the door closer to reduce door stopping shock loads to a minimum. The UNI Stop arm uses a compression spring buffer at the soffit plate/arm shoe that will absorb 30 lbs. of force, 5° prior to the door's dead stop. Coupled with the door closer's backcheck feature, this arm provides the most controlled stop available with a surface door closer.

There are three different length arm assemblies. Each length is designed for a specific range of door widths to provide precise door control. This further lessens the dead stop impact on the door's hinges/pivots.

Regular Arm Installation

Body mounting holes are spaced 4-1/8" (105mm) horizontally and 1-3/8" (76mm) vertically.

Maximum Door Size Wood or Metal Inches (cm)		Model Number	E Minimum Ceiling Clearance Inches (mm)

Regular Arm

Brackets For Non-Hold Open Arms

Molded/Bull Nose Trim - 291 Bracket:

For use where the door frame has molded or bull nose trim which will not accept a standard non-hold open shoe. The bracket is mortised into the frame rabbet and projects beyond the face of the frame. It will accommodate a frame rabbet up to 2" (51 mm) deep.

Molded/Bull Nose Trim - 291A Bracket:

This bracket is similar to - but longer than - the 291 bracket. It is designed to accommodate frame rabbets from 2" to 2-7/8" (51 to 73mm) deep.

Bracket For Hold Open Arms

Molded/Bull Nose Trim - 292 Bracket: For use where the door frame has molded or bull nose trim which will not accept a standard hold open shoe. It is mortised into the frame rabbet, and projects beyond the face of the frame. It will accommodate a rabbet up to 2" (51mm) deep. This bracket is used in combination with the standard hold open mounting shoe.

Brackets For Non-Hold Open Arms

Standard Installation - 289 Soffit Plate:

This soffit plate is supplied standard with parallel arm closers. It can be mounted where the frame soffit is as narrow as 1" (25mm).

Mounting Between Doors - 413A Soffit Bracket: For use where insufficient space between companion doors does not permit use of other soffit plates. This bracket permits mounting of the closer between doors with as little as 4-1/8" (105mm) of header space. Permits closer arm to clear up to a 5/8" (16mm) high stop.

Narrow Frame/Removable Stop - 297 Soffit Plate: For use where a narrow frame or frame with removable stop does not permit use of the standard soffit plate. This plate may be mounted on the frame soffit or the frame rabbet where the stop does not exceed 5/8" (16mm) in height. All of the screw holes are in a straight line, requiring as little as 1-1/4" (32mm) of frame reveal to mount bracket and maintain good closer arm geometry. Where the frame soffit is as wide as 2" (51mm), this soffit plate may be used to clear weatherstripping that is up to 1-3/8" (35mm) wide and 5/8" (16mm) in height.

Blade/Applied Stop - 299 Soffit Plate: For use where a blade or applied stop does not permit installation of the standard soffit plate. Mounts to either the frame soffit or rabbet. Since this soffit plate projects 7/8" (22mm) less than a standard soffit plate, it requires a minimum frame reveal of 1-1/2" (38mm). Permits closer arm to clear up to a 5/8" (16mm) high stop.

Flush Transom - 589L Angle Bracket: For use where rabbeted or flush transom conditions prevent installation of a soffit plate. Used in combination with the 289 soffit plate, or it may be used in combination with the 290 soffit plate when it is necessary for the closer arm to clear a separate overhead door holder.

Extra-Clearance - 290 Offset Soffit Plate: For use where the need for additional clearance prevents use of the standard soffit plate. This plate mounts to the frame soffit to provide up to 1-1/2" (38mm) of clearance when a separate overhead door holder is used. Standard mounting requires a 2-5/8" (67mm) wide frame soffit. It may also be used where unusually high frame stops or weatherstripping prevents the use of other soffit plates.

Parallel Rigid Arm

Brackets For Non-Hold Open And Hold Open Arms

Flush Transom - 293L Angle Bracket: For use where flush transom conditions prevent installation of the standard hold open soffit plate. Used for parallel hold open arms.

Standard - 293S Spacer Block: For use where a narrow frame soffit does not provide adequate support for the soffit plate. Supplied as standard with all rigid parallel arm closers.

Clearance/Support Blade Stop - 891 Spacer Block: For use where the frame has a blade stop and the soffit plate must be mounted on the frame rabbet. This accessory is used in combination with the standard Spacer Block to provide clearance of the blade stop.

Narrow Frame - 890 Support Bracket: For use where the frame is narrow, and the soffit plate cannot be mounted directly to the frame soffit or rabbet. Used in combination with the 891 Spacer Block on blade stop frames to provide extra support and needed clearance of the blade stop.

Closer Mounting Plates

Narrow Top Rail - 1988 Drop Plate: For use where a narrow top rail prevents the closer from being mounted directly to the door surface.

UNI Stop™ Arm

Brackets

Flush Transom - 589L Angle Bracket: For use where rabbeted or flush transom conditions prevent installation of a soffit plate. Used in combination with the 289 soffit plate, or it may be used in combination with the 290 soffit plate when it is necessary for the closer arm to clear a separate overhead door holder.

Additional Support - 6190 Reinforcing Bracket: Standard for use with all parallel arm door controls. Provides additional support to the soffit plate on installations with door frame reveals from 1-7/8" to 4-5/8" (48 to 117mm).

Wide Frame - 6191 Reinforcing Kit: Optional for use with all parallel arm UNI Stop door controls. Used to support the soffit plate on installations with wide frames. Clamps may be used with or without the spacer block, depending on frame conditions.

Closer Mounting Plates

Narrow Top Rail - 1988 Drop Plate: For use where a narrow top rail prevents the closer from being mounted directly to the door surface.

Corner Brackets

The following frame-mounted brackets, 1950, 2950 and 964, require the use of a door closer of the opposite hand from the hand of the door. Use the Parallel Arm Sizing Chart to select the correct size of closer to use, when the closer is to be mounted on a corner bracket.

Corner Mounting, Standard Drop - 1950 Corner Bracket: For use where door is required to open to 180°. Minimum soffit width 1-3/8" (35mm).

Corner Mounting, Extra Drop - 2950 Corner Bracket: For use with a separate overhead door holder. Drops closer 1" (25mm) lower than 1950 Standard Drop Corner Bracket to permit mounting of an overhead holder. Permits door openings to 180°. Minimum soffit width 1-3/8" (35mm).

Arched or Circular Top Door - 964 Adjustable Bracket: For opposite hinge side application on arched or circular top doors. This frame-mounted bracket can be adjusted to accommodate virtually any radius of frame. Minimum soffit width 2-1/2" (64mm). This bracket requires the use of a door closer of the opposite hand from that of the door. Intended for 90° swing.

Arched or Circular Top Door - 974 Offset Adjustable Bracket: For hinge side application on arched or circular top doors. This door-mounted bracket is adjustable to accommodate virtually any radius of frame. Base diameter 3-5/8" (92mm). Intended for 90° swing.

Adapter Plates

Size Closer Being Replaced	Adapter Plate Catalog Number	Dimensions	
		A	B
992/993	1983	5-1/2" (140)	2-5/8" (67)
994	None Required	—	—
995/996	1986	5-1/2" (140)	2-5/8" (67)

1980 Series Adapter Plate

For use when replacing a discontinued old style 990 Series surface closer with a series 1900 Traditional Surface Closer. The plate selected will employ the existing holes in either door or corner bracket. The Series 1900 closer will mount to the plate. These plates can be used to convert regular arm, parallel arm or bracket mount installations. Order by model number.

SN are for use on unreinforced hollow metal doors or to prevent any hollow metal door from collapse/dimpling. They can also be used for thru bolting on wood doors. SN are supplied for 1-3/4" (44mm) thick doors unless specified for 2-1/4" (57mm).

TBGN are an alternative to SN for wood doors. TBGN are supplied standard for 1-3/4" (44mm) thick doors. They can be specified for 1-3/8" (35mm) thick doors.

Specifications

Closer for interior (and) exterior doors shall be rack-and-pinion type enclosed in a cast aluminum alloy shell. Closer spring shall be clock-type coil spring and shall be adjustable through a range of closing power. Closer fluid shall maintain lubricity and contain anti-oxidation agents. Closer shall be equipped with a single hex-key operated regulating valve for control of both closing and latch speeds. Closer shall have adjustable backcheck. Closer shall be Yale® 1900 Series Traditional Surface Closer or equivalent.

The fully modular design of Yale nexTouch allows users to easily upgrade to more advanced security technologies as their requirements grow and change.

Standalone Keypad

Great for restrooms, offices, storage closets and more, nexTouch as a standalone keypad is easy to install, program, and manage access with PIN codes.

Data-on-Card

In new construction or retrofit projects for multi-family facilities, the data-on-card functionality of nexTouch pairs with Yale Accentra™ software for use with key cards or fobs.

Wireless

The perfect solution for small business, nexTouch allows wireless integration of the lock into new or existing commercial automation systems.

Features & Benefits

Feature	Benefit
Choice of capacitive touchscreen or tactile pushbutton keypad	Touchscreen responds to human touch, enabling convenient entrance or access to programming menu. Pushbutton keypad option also available for more tactile requirements, such as ADA compliance.
Keyless entry and management	Reduces complexity of key system management
PIN code access	Installations are able to be programmed with up to 500 unique PIN codes and a master code for access to programming.
Modular technology	Allows for upgrade to more advanced security technologies with Data-on-Card and ZigBee/Z-Wave capabilities as requirements change and grow.
Works with cloud-based management software	Single system enables use from anywhere with Internet access from a range of devices, including your computer, smartphone or tablet.
Audit trail	Lifetime audit trail stored within the software to know exactly who has accessed the lock when.
Voice-guided programming in 3 languages	Voice-guided prompts make updates straightforward and effortless in English, Spanish or French.
Three (3) volume modes	Playback can be set for normal, low or silent.
Privacy feature with Door Position Switch	By holding the interior lock button down for 1.5 seconds, the exterior keypad is temporarily disabled ensuring complete privacy and no additional entry.
Weather resistant gasket seal	Lock is operational even in outdoor settings, in temperatures ranging from -40°F to 140°F (-40°C to 60°C) at 95% relative humidity.
Low battery indicator	Blinking designation signals internal 4 AA alkaline batteries are low.
9V battery power backup feature	With the touch of a 9V battery to the designated area on the front of the lock, your nexTouch can be powered up for one-time entry.
Hardwire power capable	Can be powered externally using remote 9VDC power supply and plug-in wall transformer.
Keypad lockout feature	Deters tampering by disabling the keypad for a default of 180 seconds after five (5) successive failed attempts.

SFIC = Small Format Interchangeable Core

108 Schlage® Cylinder Adapter Kit

Kit used to modify Schlage® cylinder to fit nexTouch™.

P/N 14-5305-0090-048 - 108S

Kit includes tailpiece and sleeve. To order the 108S adapter kit, use an "S" prefix (i.e., S-AU x NTB610).

Latchbolts

CYLINDRICAL

Deadlocking Latchbolts

Model No. 694 supplied standard with all nexTouch™ locksets. Model No. 694 latchbolt has a 2-1/4" x 1-1/8" front with a 2-3/4" backset and a 1/2" bolt throw. Optional latchbolts to special order.

Model No.	Front	Backset	"W" Front Width	Throw	Latch Diameter
694 (standard)	Beveled	2-3/4" (70mm)	1-1/8" (29mm)	1/2" (13mm)	1" (25mm)
F694	Flat	2-3/4" (70mm)	1-1/8" (29mm)	1/2" (13mm)	1" (25mm)
480B	Beveled	2-3/4" (70mm)	1-1/8" (29mm)	3/4" (19mm)	1" (25mm)
F480B	Flat	2-3/4" (70mm)	1-1/8" (29mm)	3/4" (19mm)	1" (25mm)
380N*	Flat	2-3/8" (60mm)	1" (25mm)	1/2" (13mm)	3/4" (19mm)

When ordering latchbolts separately, specify Model No. x Finish (e.g., 694 x 626).

*Using 380N latch results in Grade 2 ANSI/BHMA performance of the lock.

Strikes

CYLINDRICAL

Yale® nexTouch™ locksets are available with a variety of strike options. All strikes are located on the same vertical and horizontal center lines as the latchbolt. Some strikes are available in a variety of lip lengths to accommodate varying thickness of doors and frames. To determine the proper length of the lip, measure from the center line of the strike to the edge of the jamb and add 1/4" (6mm). All strikes are reversible.

Model No. 497 ANSI Strike (Standard)

For door and frames with ANSI/BHMA A156.115 preparations. 1-1/4" supplied standard. 1-1/8", 1-1/2", and 1-3/4" lip lengths available by special order.

Model No. 371 T-Strike (Optional)

1-1/4" curved lip supplied standard. 1", 1-1/2", 1-3/4", and 2" curved lip lengths available by special order. Wrought strike box supplied.

Model No. 202 Strike Box for ANSI Strike (Optional)

Reflections® Decorative Trim

Yale nexTouch sectional mortise locks are available with Reflections lever trim, a comprehensive line of highly stylized lever handles. Reflections lever handles are made from solid brass or stainless steel and can withstand years of abuse. Available in an array of finishes, these levers complement any wood grain or other door exterior. Each lever is hand-polished and specially designed for ergonomics and style.

Cylinders

SECTIONAL MORTISE (CONTINUED)

Security Cylinders

Security cylinders contain two independent locking mechanisms. The first is a traditional 6- or 7-pin tumbler mechanism with spool drivers for greatly increased picking resistance.

The second is an innovative 5-tumbler rotating disc mechanism with sidebar engagement. The rotating discs are spring loaded and block the bottom of the keyway.

Cylinder Collars

SECTIONAL MORTISE

Cylinder collars are supplied as standard where required with those locksets supplied with cylinders. Collar size and thickness are supplied to suit the length of the cylinder, the thickness of the door and the trim ordered. (If door thickness is not specified, collars will be furnished for 1-3/4" (44mm) door.)

Collar length required must be specified for cylinders and/or housings ordered separately.

1765 Recessed Cylinder Collar
"A" Dimension: Thicknesses from 1/16" (2mm) to 1-15/32" (37mm) as required.
Material: Brass, Stainless Steel

1766 Step Collar for U5109 and U5153 High Security Cylinders.
Material: Stainless Steel

KP3 Wave Washer
(Furnished standard with 1765 collar for Yale® KeyMark® cylinders only).

KP4 Flush Mount Cylinder Collar
Material: Brass, Bronze

SECTIONAL MORTISE

Strikes

SECTIONAL MORTISE

Yale nexTouch Keypad Sectional Mortise Locks come standard with a 2815 Curved Lip Strike with a 1-1/4" (32mm) lip length. The strike supplied will accommodate the locking function, i.e. latchbolt and/or deadbolt, and can be installed on doors 1-3/4" (44mm) thick. These strikes are non-handed.

Material: Brass, Bronze, Stainless Steel.

Longer/Shorter Lip Lengths: Mortise lock strikes are mounted 3/8" above the center line of the lock. To determine the proper length of lip use the following formula:

1/2 of the door thickness, plus 1/16" inset, plus trim thickness, plus 1/8" for flat lip strike OR 1/4" for curved lip strike. Select the nearest available length.

2815 Curved Lip:

1-1/4" (32mm) standard

Available for special order:

1-1/8" (29mm)

1-3/8" (35mm)

Access Control Made Easy

The Yale Multi-Family Solution combines electronic smart locks with intuitive cloud-based software for easy and convenient access management of multi-family, assisted living and mixed-use buildings. The system leverages the social network of your facility to ensure credentials are always up-to-date, without the hassle or cost of wiring every door.

<p>Cloud-based access management at every opening</p>	<p>Manage access remotely for one or multiple sites</p>	<p>Remotely unlock online doors and grant emergency access to offline doors with one-time PIN codes</p>
<p>Intuitive, easy to use software</p>	<p>Eliminates costly key management</p>	<p>Highly encrypted and secure</p>

Manage Access Rights for Residents, Guests & Employees

Yale Accentra™ Cloud-Based Software

- Eliminates cost and maintenance of on-site servers
- Enables easy management of access rights for residents, guests, and employees
- Intuitive interface optimizes for your device and requires minimal training
- Built around the typical workflows of a multi-family property management office
- Ensures that a facility's database is always accessible and secure
- Enables management of multiple properties and employees with access to multiple sites
- Allows property manager to distribute one-time-PINs for unit lockout or lost cards (emergency access) and remotely unlock offline doors

Technical Specifications

Dedicated web-based interface accessible from any Internet-connected device (Mac, PC, smart phone or tablet)
Responsive design accommodates any device (Mac, PC, smart phone or tablet)
Automatic updates
Certified to ISO/IEC 27001
Browser: Firefox, Chrome, or similar

How to Order

System and Subscription Options

Part Number	Description
ACC-SUB-INIT	Account registration
ACC-SUB-001	Annual software subscription fee per door for systems 1-49 doors
ACC-SUB-050	Annual software subscription fee per door for systems 50-199 doors
ACC-SUB-200	Annual software subscription fee per door for systems 200-499 doors
ACC-SUB-500	Annual software subscription fee per door for systems 500-999 doors
ACC-SUB-01K	Annual software subscription fee per door for systems 1000+ doors

Note: A Yale Accentra™ compatible data-on-card lock cannot be turned on within a system without ordering the appropriate number of subscription units. Subscriptions must be ordered in eches based on the quantity of managed devices within a system.
Ex: 100 locks + 2 online updaters = 102 managed devices.

Yale Multi-Family Solution Online Updater

Update Access Rights
and Transmit Audit Trails

Mini-mullion updater

Wall switch updater

Controller

- Activates new credentials for residents, guests, and staff
- Transmits current access rights to credentials at time of presentation
- Ensures credentials are continuously updated through typical daily use
- Reads audit information including access history, lock battery status, and other lock events from the credential and transmits to Yale Accentra™ cloud service

Used together in a one-to-one relationship, the controller and the credential updater are known as the on-line updater. The on-line updater can operate either as a credential enrollment station or as a single door controller to operate an electrified strike, mag lock, gate operator, activate an elevator call button and more.

Product Weight (Terminal Strip)	2.9 oz (84g)	7.5 oz (215g)
UL Ref Number	R10E	R40E
Operating Voltage Range	5-16 VDC	
Color	Black	
Current Draw - Standard Power Mode2 (mA)	60 @ 16V	
Peak Current Draw - Standard Power	200 @ 16V	
Operating Temperature	-31° to 150° F (-35° to 65° C)	
Operating Humidity	5% to 95% relative humidity non-condensing	
Environmental Rating	Indoor/Outdoor IP55; IP65 if installed with optional gasket	
Transmit Frequency	13.56 MHz	
13.56 MHz Card Compatibility	Secure Identity Object™ (SIO) on iCLASS Seos,	
Communications	Open Supervised Device Protocol (OSPD) via RS485	
Panel Connection	Pigtail or Terminal Strip	
Certifications	UL294/cUL (US), FCC Certification (US), IC (Canada), CE (EU)	
Crypto Processor Hardware Common Criteria Rating	EAL5+	
Housing Material	UL94 Polycarbonate	
Manufactured with % of recycled content (Pigtail)	10.5%	
Manufactured with % of recycled content (Terminal Strip)	11.0%	
Warranty	Limited lifetime	

Controller

Dimensions	7-1/8" x 7-1/8" x 1-3/4" (181mm x 181mm x 45mm)
Power Supply	24VDC or POE (power over Ethernet)
Power Consumption	100mA @ 24VDC
Operating Temperature	40°F (5°C) to 104°F (40°C)
Ethernet	10/100 Mbit/s
Certifications	Certified FCC Part 15
Warranty	1 year

Yale Multi-Family Solution Credentials

- Program each credential for individual users' unique access privileges
- Access rights updated seamlessly as user moves about the building through doors controlled by online updater
- Compatible with existing third-party access control systems that use HID iCLASS SE and multiCLASS SE credential readers
- Customizable graphics available on card credentials

The Yale Multi-Family Solution offers innovative Seos[®] offline key cards and fobs, which allow for highly encrypted and secure transactions of access permissions and audits within the Yale Accentra system. If your building has an existing access control system that uses HID iCLASS SE or multiCLASS SE credential readers, Yale Accentra fobs and key cards can be programmed so users are able to operate all readers, new and existing, with one unique credential.

Control Access to Common Areas and Exterior Doors

nexTouch™ Cylindrical Lock

Technical Specifications

Door Specifications	Fits into the standard ANSI/BHMA A156.115 cylindrical lock with lever door prep with one additional 3/4" hole and 7 screws including latchbolt and strike
Backset	2-3/4" (70mm) standard backset
Door Thickness	1-3/4" (44mm) door thickness standard; thin door kit required for 1-3/8" thick doors
Handing	Non-handed
Latchbolt	1/2" (13mm) throw deadlocking latchbolt supplied standard
Strike	ANSI strike 4-7/8" x 1-1/4" x 1-1/4" (124 mm x 32 mm x 32 mm) lip to center supplied standard
Cylinder	Accepts Yale® fixed core component cylinders; also available to accept small format interchangeable core (SFIC)
Keying	Capable of accepting Yale® 6-pin standard, small and large format interchangeable core, security and protected keyway cylinders with master keying capabilities
Packing	Each box includes a paper door marker, combination wood and machine screws and easy-to-follow installation and programming instructions; cylinder functions supplied with two keys
ANSI/BHMA	Certified ANSI/BHMA A156.2, Series 4000 Grade 1
UL/cUL	Functions are UL - cUL Fire Listed for use on fire doors having a rating up to and including 3-hours
Warranty	1-year electrical warranty; 3-year mechanical and finish warranty
Environmental Specifications	Operating temperature: -40°F to +140°F (-40°C to +60°C) at 95% relative humidity when used with an external power supply
Power Source	4 AA alkaline batteries (included) with optional hardwire input for 9VDC external power; 9V battery power backup
Credentials	Seos™ cards and fobs
Interface	Capacitive touchscreen or pushbutton

Capacitive Touchscreen

Touchscreen shown when activated

Lockout Indicator

Voice Assisted Programming

Low Battery Indicator

Weather Resistant - Gasketed seal allows for outdoor installation of exterior escutcheon

9V Battery Power Backup

Solid Metal Escutcheon - Provides quality and durability

Optional Cylinder/Key Override (Key free also available)

A push button model is also available with durable acrylic, back lit buttons

Privacy Button - Prevents unwanted access from the outside at the touch of a button

How To Order

Quantity	Lever Design	Series	Function	Technology	Finish	Door Thickness	Cylinder	Latch	Strike
#	AU – Augusta	NTB – nexTouch	610 – Key override, push button keypad	ACC – Data-on-Card	605 – Bright brass, clear coated	1-3/4"* 1-3/8"	1803-53L – 6-pin cylinder standard, see pages 18-19 for additional options**	694 latchbolt standard, see page 20 for additional options	497 ANSI strike standard, see page 20 for additional options
	PB – Pacific Beach		620 – Key override, capacitive touchscreen		613E – Dark oxidized bronze - equivalent				
	MO – Monroe		630 – No key override, push button keypad		626 – Satin chrome plated				
			640 – No key override, capacitive touchscreen		BSP - Black suede powder coat				

*1-3/4" door thickness is standard. Doors under 1-3/4" in thickness require a thin door kit. If you specify 1-3/8" door thickness, a thin door kit is provided automatically.

**When ordering SFIC and LFIC cylinders, please use appropriate prefix before lever selection. See page 17 for more information.

Medeco®, ASSA® (LFIC)	M (i.e. M-AU)**	6
Sargent (LFIC)	SG (i.e. SG-AU, SG-PB)	6
Schlage® (LFIC)	SI (i.e. SI-AU, SI-PB)	6

**Medeco®, ASSA® option available only with AU lever. (Note: For Medeco 32 series cores.)
 LFIC = Large Format Interchangeable Core
 SFIC = Small Format Interchangeable Core

108 Schlage® Cylinder Adapter Kit

Kit used to modify Schlage® cylinder to fit nexTouch™.

P/N 14-5407-9101-999 - 108S

Kit includes tailpiece and sleeve. To order the 108S adapter kit, use an "S" prefix (i.e., S-AU x NTB610).

Yale® KeyMark®

For those applications requiring protected key control, Yale® KeyMark® cylinders guard against unauthorized key duplication. The Yale KeyMark Security Leg® keyway feature increases resistance against picking and impressioning and can easily retrofit into existing systems. For further details and availability, refer to the separate Yale KeyMark catalog.

Latchbolts and Strikes

Deadlocking Latchbolts

Model No. 694 supplied standard with all nexTouch™ locksets. Model No. 694 latchbolt has a 2-1/4" x 1-1/8" front with a 2-3/4" backset and a 1/2" bolt throw. Optional latchbolts to special order.

Model No.	Front	Backset	"W" Front Width	Throw	Latch Diameter
694 (standard)	Beveled	2-3/4" (70mm)	1-1/8" (29mm)	1/2" (13mm)	1" (25mm)
F694	Flat	2-3/4" (70mm)	1-1/8" (29mm)	1/2" (13mm)	1" (25mm)
480B	Beveled	2-3/4" (70mm)	1-1/8" (29mm)	3/4" (19mm)	1" (25mm)
F480B	Flat	2-3/4" (70mm)	1-1/8" (29mm)	3/4" (19mm)	1" (25mm)
380N*	Universal	2-3/8" (60mm)	1" (25mm)	1/2" (13mm)	7/8" (22mm)

When ordering latchbolts separately, specify Model No. x Finish (e.g., 694 x 626).

*Using 380N latch results in Grade 2 ANSI/BHMA performance of the lock.

Strikes

Yale® nexTouch™ locksets are available with a variety of strike options. All strikes are located on the same vertical and horizontal center lines as the latchbolt. Some strikes are available in a variety of lip lengths to accommodate varying thickness of doors and frames. To determine the proper length of the lip, measure from the center line of the strike to the edge of the jamb and add 1/4" (6mm). All strikes are reversible.

Model No. 497 ANSI Strike (Standard)

For door and frames with ANSI/BHMA A156.115 preparations. 1-1/4" supplied standard. 1-1/8", 1-1/2", and 1-3/4" lip lengths available by special order.

Model No. 371 T-Strike (Optional)

1-1/4" curved lip supplied standard. 1", 1-1/2", 1-3/4", and 2" curved lip lengths available by special order. Wrought strike box supplied.

Model No. 202 Strike Box for ANSI Strike (Optional)

Specify 497 x 202

Options and Accessories

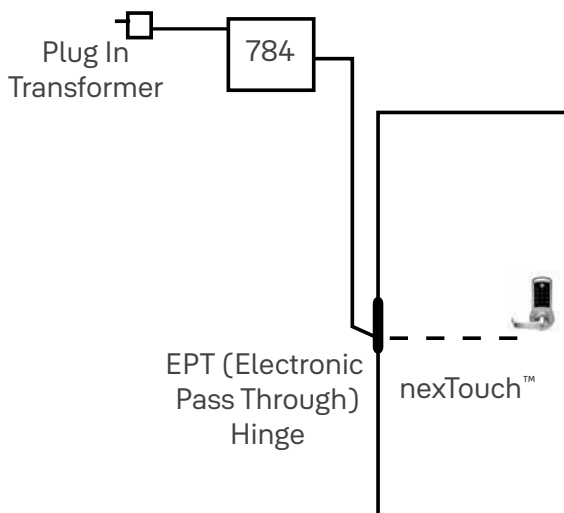

Model/Part Number	Description
784	Optional remote 9VDC power supply with plug-in wall transformer (used for hardwiring up to two nexTouch™ locks).
WH-28	Remote unlock and power wire harness (used for hardwiring).
14-4761-0106-025	1-3/8" thin door kit. Includes inside and outside escutcheon spacers as well as a 2-3/8" latchbolt.
NTX600-ACC-KEY	Yale Accentra™ module*

*This technology module can be used to upgrade stand-alone nexTouch locks for use in the Yale multi-family solution by enabling data-on-card technology. This is included when ordering nexTouch locks with ACC in the order string.

Hardwire Option Diagram

Certifications and Listings

ADA

The nexTouch Series lever design meets accessibility guidelines of the Americans with Disabilities Act and the requirements of the Uniform Federal Accessibility Standards and ICC/ANSI A117.1 Accessible and Usable Buildings and Facilities, all requiring ease of accessibility.

ANSI/BHMA

nexTouch cylindrical certified ANSI/BHMA A156.2, Series 4000 Grade 1.

Fire Listings

Functions are UL/cUL Fire Listed for use on fire doors having a rating up to and including 3 hours.

Note: Any retrofit or other field modification to a fire rated opening can potentially impact the fire rating of the opening, and Yale Locks & Hardware makes no representations or warranties concerning what such impact may be in any specific situation. When retrofitting any portion of an existing fire rated opening, or specifying and installing a new fire-rated opening, please consult with a code specialist or local code official (Authority Having Jurisdiction) to ensure compliance with all applicable codes and ratings.

FCC

Complies with limits for a Class B digital device, pursuant to part 15 of the FCC Rules.

ISO 14001

Designed and manufactured under a certified ISO 14001 quality system.

Sustainability

EPD and GreenCircle certification.

Warranty

nexTouch has a three year limited warranty on the mechanical and electrical components, and a one year limited warranty on the finish.

Windstorm

Certified (refer to local codes).

Interchangeable Core Mortise Cylinders

Cylinder Model Number	Application	Cam	Length	Pins	Housing Only Model Number	Core Only Model Number
2196	Standard Cylinder	2160	1-1/2", 1-3/4", 2"	6	2221	1210
2197	Standard Cylinder	2160	1-11/16", 2"	7	2213	1220

Note: When ordering interchangeable core cylinders or cores only, control keys are not furnished. If control keys are required they must be ordered separately.

Security Cylinders

Security cylinders contain two independent locking mechanisms. The first is a traditional 6- or 7-pin tumbler mechanism with spool drivers for greatly increased picking resistance.

The second is an innovative 5-tumbler rotating disc mechanism with sidebar engagement. The rotating discs are spring loaded and block the bottom of the keyway.

Material: Brass, Bronze

Strikes

Yale nexTouch Keypad Sectional Mortise Locks come standard with a 2815 Curved Lip Strike with a 1-1/4" (32mm) lip length. The strike supplied will accommodate the locking function, i.e. latchbolt and/or deadbolt, and can be installed on doors 1-3/4" (44mm) thick. These strikes are non-handed.

Material: Brass, Bronze, Stainless Steel.

Longer/Shorter Lip Lengths: Mortise lock strikes are mounted 3/8" above the center line of the lock. To determine the proper length of lip use the following formula:

1/2 of the door thickness, plus 1/16" inset, plus trim thickness, plus 1/8" for flat lip strike OR 1/4" for curved lip strike. Select the nearest available length.

2815 Curved Lip:

1-1/4" (32mm) standard
Available for special order:

1-1/8" (29mm)

1-3/8" (35mm)

1-1/2" (38mm)

1-5/8" (41mm)

1-3/4" (44mm)

1-7/8" (48mm)

2" (51mm)

2-1/8" (54mm)

2-1/4" (57mm)

2816 Flat Lip (Available for special order only):

7/8" (22mm)

1" (25mm)

1-1/8" (29mm)

1-1/4" (32mm)

1-1/2" (38mm)

1-3/4" (44mm)

2" (51mm)

2-1/4" (57mm)

2-1/2" (64mm)

2815 Curved Lip Strike
(1-1/4"/32mm standard)

Certifications and Listings

ADA

The nexTouch Series lever design meets accessibility guidelines of the Americans with Disabilities Act and the requirements of the Uniform Federal Accessibility Standards and ICC/ANSI A117.1 Accessible and Usable Buildings and Facilities, all requiring ease of accessibility.

FCC

Complies with limits for a Class B digital device, pursuant to part 15 of the FCC Rules.

ISO 14001

Designed and manufactured under a certified ISO 14001 quality system.

ANSI/BHMA

nexTouch mortise certified ANSI/BHMA A156.13, Series 1000 Grade 1.

Sustainability

EPD and GreenCircle certification.

Fire Listings

Functions are UL/cUL Fire Listed for use on fire doors having a rating up to and including 3 hours.

Note: Any retrofit or other field modification to a fire rated opening can potentially impact the fire rating of the opening, and Yale Locks & Hardware makes no representations or warranties concerning what such impact may be in any specific situation. When retrofitting any portion of an existing fire rated opening, or specifying and installing a new fire-rated opening, please consult with a code specialist or local code official (Authority Having Jurisdiction) to ensure compliance with all applicable codes and ratings.

Warranty

nexTouch has a three year limited warranty on the mechanical and electrical components, and a one year limited warranty on the finish.

Windstorm

Certified (refer to local codes).

Note: When ordering interchangeable core cylinders or cores only, control keys are not furnished. If control keys are required they must be ordered separately.

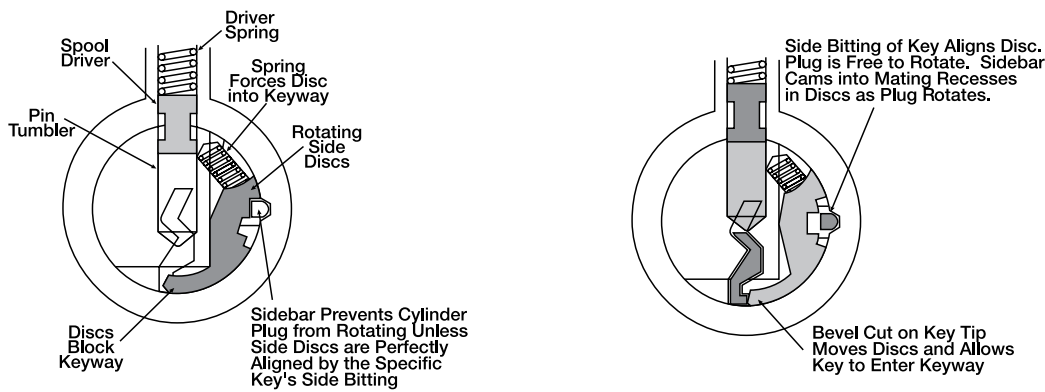

Exit Trim (Continued)

Security Cylinders

Security cylinders contain two independent locking mechanisms. The first is a traditional 6- or 7-pin tumbler mechanism with spool drivers for greatly increased picking resistance.

The second is an innovative 5-tumbler rotating disc mechanism with sidebar engagement. The rotating discs are spring loaded and block the bottom of the keyway.

Dimensions and Compatible Exit Devices

Exit Trim

Dimensions given in inches (mm).

Compatible Exit Devices

Thanks to its patented adjustable mounting posts, Yale nexTouch exit trim is compatible with several makes and models of exit devices right out of the box, without the need for separate mounting hardware. Check the chart below to see if yours is a fit.

Manufacturer	Model/Series Number*
Arrow	3880
Corbin Russwin	ED5200, ED5200S
Dorma	9300
Falcon®	24
SARGENT	8800
Von Duprin®	98, 99
Yale	1800, 2100, 6000, 7000

*Compatible with rim device only. Please contact Technical Product Support for more information.

Patented adjustable mounting posts make the nexTouch exit trim compatible with many exit device models (see chart at left).

Compatible Exit Devices

7000 Series Architectural Exit Device

The Yale 7000 Series delivers an unparalleled combination of durability, innovation and aesthetics.

Features

- Premium exit device with high quality steel chassis and heavy-duty components
- Sleek design with a variety of finish options
- ANSI/BHMA Grade 1 Certified
- UL/cUL listed for panic and fire doors
- Windstorm certified
- Five year mechanical warranty

Americans With Disabilities Act (ADA)

Title III of the Americans With Disabilities Act (ADA), Public Law 101-336, went into effect on January 28, 1992. The ADA "prohibits discrimination on the basis of disability by private entities in places of public accommodation and that the commercial facilities be designed and constructed so as to be readily accessible to and usable by persons with disabilities..." (Federal Register, Vol. 56, No. 144/7-26-91/Rules and Regulations).

Yale locksets and door controls that comply with ADA requirements are indicated as such by the accessibility symbol in this catalog.

MicroShield®

Yale locks and exit devices are available with MicroShield antimicrobial coating. MicroShield is a revolutionary hardware finish coating, using a silver ion based technology, which inhibits the growth of bacteria, algae, yeast, fungus, mold and mildew. MicroShield is non-toxic and lasts for the lifetime of the finish to which it is applied. To order, suffix option code "YMS".

Note: MicroShield coating may vary finish color from architectural standards. Locksets and exit devices available with MicroShield will be indicated as such by the MicroShield icon. MicroShield is not intended as a substitute for traditional infection control programs such as hand hygiene or use of disinfectants. Coated products must still be cleaned to ensure the surfaces will be free of destructive microbes. Yale makes no representations or warranties, express or implied, as to the efficacy of MicroShield.

Reflections® Decorative Trim

For more than 150 years, Yale has distinguished itself as an innovative manufacturer and designer of locksets and door hardware. That tradition continues with Reflections® by Yale®, a comprehensive line of highly stylized door levers and coordinating hardware. This premier product series is available for Yale® 8800RL mortise locks, RL tubular locks and exit device trim, creating a continuity of beautiful design throughout a building.

Reflections consists of 36 dynamic and distinctive levers. Each captures a unique beauty and spirit of design unlike any other. These exquisite levers offer Yale quality and exceptional elegance to a variety of high-end commercial projects, including office buildings, museums, upscale hotels and resorts, and large multi-use projects such as apartment and condominium complexes.

Let Reflections® by Yale® inspire your vision of great design.

Mortise Locksets

8800 Series Mortise Locksets

Yale 8800 Series Mortise Locks are designed and manufactured for uncompromising strength and durability in a range of commercial applications. Lock installation is made easy with quick lever handing, field reversible latchbolt and standard nonhanded strike. The 8800 Series Mortise Lock offers a new measure of security, featuring a reinforced stainless steel deadbolt, heavy-duty, vandal-resistant trim and ANSI/BHMA Grade 1 certification for long life and durability. The 8800 Series Mortise Lock is even backed by a 10 year mechanical warranty, making this product completely worry-free. See pages 34-36 for information on electrified options.

Features

Mortise Lock Trim

Reflections® Decorative Levers

Yale® 8800RL Mortise Locks are available with Reflections lever trim, a comprehensive line of highly stylized lever handles. Reflections lever handles are made from solid brass or stainless steel and can withstand years of abuse. Available in a multitude of finishes, the levers complement any wood grain or other door exterior. Each lever is hand-polished and specially designed for ergonomics and style.

Features

- All 8800RL Series lever trims feature thrubolted installation. For sectional trims, this ensures positive alignment of the trim with the lock case.
- All outside trim is held in place by threaded posts. For sectional trims, the posts fit through holes in the lock case and are secured by thrubolts from the inside trim. For escutcheon trims, the posts fit through the door and are secured by thrubolts from the inside trim.
- Outside escutcheon trims have no visible screws - a great deterrent to vandalism.
- 8800RL Mortise Locks feature an internal heavy-duty spring cartridge which prevents lever sag.
- All 8800RL trims are UL/cUL listed for fire door applications.
- Available for 1-3/4" to 3-1/4" thick doors.
- Lever designs are available as shown on page 3.

Exit Devices

7000 Series Architectural Exit Devices

Yale® 7000 Series Exit Devices deliver an unparalleled combination of durability, breadth of line, innovation and aesthetics. With an architecturally inspired design that features simple clean lines, both our wide and narrow stile devices are visually appealing and bring gracious totality to the entire line of Yale locks and hardware.

Available with Motorized Electric Latch Retraction. Delivering a quiet, smooth operation for convenient, hassle-free egress using 86% less power consumption during retraction than solenoid devices.

7100 Series Exit Devices

A conventional exit device used for single swing doors or pairs of doors of metal, wood or composite construction.

Types

- Rim SquareBolt® Devices (type 28)
- Rim Pullman Bolt Devices (type 1)
- Surface Vertical Rod Devices (type 2)
- Concealed Vertical Rod Devices (types 7 and 8)
- Mortise Devices (type 3)

Features

- Certified ANSI/BHMA A156.3 Grade 1 exit hardware 
- UL/cUL listed for fire labeled or panic exit doors
- Windstorm certified (refer to local codes)  Hurricane
- Outside trim fits stock 161 door preps, escutcheon outside fitting stock 86 door preps
- Surface and concealed vertical rod devices are available in Less Bottom Rod varieties
- Double cylinder devices are available for Rim SquareBolt, Rim Pullman and Mortise varieties
- Available with complete range of electrified options, including REX, electric dogging, outside trim monitoring, latch pullback, bolt status monitoring or delayed egress
- Available in 16 standard finishes
- 5-year mechanical warranty

7200/7200M Series Exit Devices

The 7200M(F) rim exit device provides the appearance of a narrow stile rim exit device for use on wide stile or flush doors. Using the 7200M(F) with narrow stile trim provides design continuity and pleasing aesthetics when matching exit devices for inside doors to outside narrow stile doors.

Types

- Rim SquareBolt Devices (type 28)
- Rim Pullman Bolt Devices (type 4)
- Surface Vertical Rod Devices (type 5)
- Concealed Vertical Rod Devices (types 6 and 8)

Features

- Certified ANSI/BHMA A156.3 Grade 1 exit hardware 
- UL/cUL listed for fire labeled (7200M) or panic exit doors
- Windstorm certified (refer to local codes)  Hurricane
- Optional removable mullions, keyed removable mullions, raised molding clearance kits and custom specialties are all available
- Available with complete range of electrified options, including REX, electric dogging, outside trim monitoring, latch pullback, bolt status monitoring or delayed egress
- Available in 16 standard finishes
- 5-year mechanical warranty

6000 Series Commercial Exit Device

With a full range of functions and options and ANSI Grade 1 certification, the Yale® 6000 Series Exit Devices provide the right security for your commercial facility.

Types

- Rim SquareBolt® Devices (type 5)
- Rim Pullman Bolt Devices (type 0)
- Surface Vertical Rod Devices (type 7)
- Concealed Vertical Rod Devices (type 6)
- Mortise Devices (type 3)

6100-A-ALR emergency exit device features red screenprinted pushpad. See 6000 Series catalog for more information.

Features

- ANSI/BHMA A156.3 Grade 1 certified 
- UL/cUL listed for fired rated or panic doors
- Available in 13 mechanical functions
- Available in standard or decorative lever designs
- Available in 7 standard finishes
- 10 year warranty

2100 Series Flatbar Exit Devices

It's no secret that the 2100 Series Flatbar Exit Device has a reputation as the right choice for meeting the rigors of demanding industry segments.

Types

- Rim SquareBolt® Devices (type 28)
- Rim Pullman Bolt Devices (type 1)
- Surface Vertical Rod Devices (type 2)
- Concealed Vertical Rod Devices (types 7 and 8)

Features

- Certified ANSI/BHMA A156.3  Grade 1 exit hardware
- UL/cUL listed for fire labeled or panic exit doors
- Windstorm certified (refer to  Hurricane local codes)
- Optional removable mullions, keyed removable mullions, Torx® security screws and custom specialties are all available
- Available in 8 finishes
- 3-year mechanical warranty

1800 Series Flatbar Exit Devices

1800 Series Exit Devices are the ideal choice for a wide variety of commercial applications where consistent quality, ease of use and installation are required.

Types

- Rim Pullman Bolt Devices (type 1)
- Surface Vertical Rod Devices (type 2)

Features

- Certified ANSI/BHMA A156.3  Grade 1 exit hardware
- UL/cUL listed for fire labeled or panic exit doors
- Outside trim fits stock 161 door preps, escutcheon outside fitting stock 86 door preps
- Available in 8 finishes
- 3-year mechanical warranty

1500 Series Traditional Exit Devices

Traditional exit devices for compliance with the exit and access demands of today's codes, where it is important to maintain the architectural lines of yesterday.

Types

- Rim Pullman Bolt Devices (type 1)
- Surface Vertical Rod Devices (type 2)
- Concealed Vertical Rod Devices (type 8)
- Mortise Devices (type 3)

Features

- Certified ANSI/BHMA A156.3  Grade 1 exit hardware
- UL listed for fire labeled or panic exit doors
- Mortise devices available with fail safe or fail secure options
- Outside trim options available for most functions
- Optional removable mullions, keyed removable mullions, Torx® security screws and custom specialties are all available
- Available in 15 standard finishes
- 1-year mechanical warranty

Exit Device Trim

Entry functions, for doors equipped with Yale® exit devices, are provided by trim with mechanisms mortised into the doors, and exposed components in architectural finishes. Yale keying systems, as well as other keying, are easily integrated.

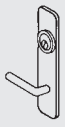

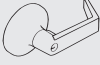

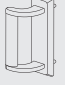

Cylinders: Brass, 6-pin, keyed-random cylinder with two keys furnished standard, 7-pin available to order. For other cylinder and keying options, see page 29.

 **ADA compliance** is maintained when Yale® exit devices are used with lever handle or pull trims.

Warranty: 5-year mechanical for all 600 series trims.

 **Vandal-Resistant Free Wheeling** lever action offers protection against forced entry, lockouts, and damage to the hardware.

Options include outside cylinder only and decorative lever handles

Cylinders and Keying/Security Cylinders

Cylinders And Keying

All Yale® locksets are available in a wide choice of cylinder and keying options:

Cylinder Types and Options:

- Fixed Core (standard)
- Large Format Interchangeable Core
- Small Format Interchangeable Core
- Conventional Keyways
- Protected Keyways
- Security Cylinders (Not UL437 Certified)
- High Security Cylinders (UL437 Certified)

Keying Options:

- Keyed Different (KD)
- Keyed Alike (KA)
- Master-Keyed (MK)
- Grand Master-Keyed (GMK)
- Great Grand Master-Keyed (GGMK)
- Construction Keying (CMK)

Interchangeable Cores

Yale® cylinders with interchangeable cores allow your master key systems to be flexible. With the special "Control" key any cylinder can have its core interchanged quickly. Any Yale core can be interchanged into any other Yale lock provided it has a interchangeable core. As a result, security for any given lock can be changed in a matter of minutes. Yale interchangeable core cylinders can be used throughout the entire master key system. They can be used selectively within the system along with Yale fixed core cylinders. There are two types of interchangeable cores that are offered by Yale.

1. Large Format (LFIC) - These cores are available in both standard Yale cylinders and also Yale KeyMark® cylinders. Note that standard Yale cylinders and Yale KeyMark cylinders cannot be keyed to the same master key system.
2. Small Format (SFIC) - Yale offers SFIC cores in Yale KeyMark and Best® keyways A, B, C, D, E, F, G, H, J, K, L and M. Best® keyway cores can be provide keyed random, master keyed or uncombined. Yale will provide master keying to new key system only. Systems can be provided using the A2 or A4 pinning specification and can not be tied into any conventional or Yale KeyMark key systems. All cylindrical lock small format preparations and 1-3/8" housings accept either 6- or 7-pin cores.

Yale® KeyMark®

For those applications requiring protected key control, Yale® KeyMark® cylinders guard against unauthorized key duplication. The Yale KeyMark Security Leg® keyway feature increases resistance against picking and impressioning and can easily retrofit into existing systems. Cylinders include mortise, rim, key-in-lever, key-in-knob, auxiliary, and interchangeable core. IC core is available in both large and small formats. All formats can be tied into one master key system.

Security/High Security Cylinders

Yale® security/high-security cylinders contain two independent locking mechanisms. The first is a traditional 6 or 7-pin tumbler mechanism with spool drivers for increased picking resistance.

The second is a 5-tumbler rotating disc mechanism with sidebar engagement. The rotating discs are spring loaded and block the bottom of the keyway. Only a specially cut key will move the discs and allow entrance of the key. This key has a special side biting and must align all five discs perfectly before the cylinder plug will rotate to open the lock.

Door Controls

5800 Series Cast Iron Door Closers

Yale® 5800 Series Cast Iron Door Closers are ideal for commercial applications where ease of use, installation and aesthetics are required at an economical price.

The 5800 Series features rugged construction, adjustments for backcheck, closing and latch speed, rack and pinion operation and a variety of arm options.

Features

- Adjustable spring sizes 1 through 6
- Non-handed
- Cast iron
- Tri-packed: regular, parallel or top jamb mounting
- Adjustable backcheck valve
- Adjustable closing speed valve
- Adjustable latching speed valve
- Full plastic cover
- Spring power adjustment
- Hold-open and heavy-duty arms arm configurations
- Sleeve nuts included with all models
- Optional - Delayed action
- 10-year limited warranty

Compliance Standards

- Certified for ANSI/BHMA A156.4 Grade 1 
- UL and cUL listed. This includes compliance to UL10C.
- Meets requirements for Americans with Disabilities Act (ADA) and ANSI/BHMA A117.1 

4400 Series Institutional Door Closers

The 4400 Series offers customers the ideal combination of superior performance, quality and strength.

Features

- Adjustable spring sizes 1 through 6
- Tri-pack standard (regular arm, top jamb and parallel arm mounting)
- Non-handed
- Standard, separate and independent, latch, sweep and backcheck intensity valves
- 2-3/16" (56mm) projection
- Staked valves
- All standard arm applications allow doors to swing 180°, conditions permitting
- 25-year limited warranty

Optional Features

- Metal cover
- Corrosion-resistant model (specify 4400S)
- Delayed action
- Enhanced backcheck
- Heavy-duty arms available: Regular Rigid, Parallel Rigid, Holder/Stop, Holder/Stop Spring and UNI Stop™
- Slide track – push or pull mounting

Compliance Standards

- Certified ANSI/BHMA A156.4, Grade 1 
- UL/cUL listed
- UL10C compliant for positive pressure
- Meets requirements for Americans with Disabilities Act (ADA) and ANSI/BHMA A117.1 

3000 Series Architectural Door Closers

The 3000 Series offers the perfect combination of reliability, appearance and durability in today's market.

Features

- Adjustable spring sizes 1 through 6
- Tri-pack standard (regular arm, top jamb or parallel arm mounting)
- Non-handed
- Staked valves
- Standard, separate and independent, latch, sweep and backcheck intensity valves
- 2-1/8" (54mm) projection (standard covers)
- All standard arm applications allow doors to swing 180°, conditions permitting
- 25-year limited warranty
- Metal, architectural plastic or architectural metal covers
- Delayed action
- Heavy-duty arms available: Parallel Rigid, Holder/Stop, Holder/Stop Spring and UNI Stop™

Compliance Standards

- Certified ANSI/BHMA A156.4, Grade 1 
- UL/cUL listed
- UL10C compliant for positive pressure
- Meets requirements for Americans with Disabilities Act (ADA) and ANSI/BHMA A117.1 

2700 Series Architectural Door Closers

The 2700 Series features rugged construction, adjustments for backcheck, closing and latch speed, and rack and pinion operation.

Features

- Adjustable spring sizes 1 through 6
- Non-handed
- Aluminum
- Tri-packed: regular, parallel or top jamb mounting
- Adjustable backcheck valve
- Adjustable closing speed valve
- Adjustable latching speed valve
- Full plastic cover
- Spring power adjustment - adjust with adjustable wrench
- Hold-open and heavy-duty arms available
- Sleeve nuts included with all models
- Optional fasteners:
 - Thrubolts and grommet nuts
- Optional - Delayed action
- 10-year limited warranty

Compliance Standards

- Certified ANSI/BHMA A156.4, Grade 1 
- UL/cUL listed
- UL10C compliant for positive pressure
- Meets requirements for Americans with Disabilities Act (ADA) and ANSI/BHMA A117.1 

51 Series Industrial Door Closers

The 51 series is ideal for use with aluminum store front doors and frames, yet they also complement wood or metal door installations.

Features

- Non-handed
- Staked valves
- Standard, separate and independent, latch, sweep and backcheck intensity valves
- 2-7/8" (73mm) projection
- 15-year limited warranty

Optional Features

- Delayed action (in lieu of backcheck)
- Molded plastic cover

Compliance Standards

- Certified ANSI/BHMA A156.4, Grade 1 
- UL/cUL listed
- UL10C compliant for positive pressure
- Meets requirements for Americans with Disabilities Act (ADA) and ANSI/BHMA A117.1 (51BF)

1100 Series Industrial Door Closers

The 1100 Series features rugged construction, adjustments for closing and latch speed, and rack and pinion operation.

Features

- 1101BF (non-hold open) and 1111BF (hold open) door closers are adjustable spring sizes 1 through 4
- 1104BC (non-hold open) door closers are spring size 4
- Non-handed
- Full rack and pinion
- Aluminum
- Tri-packed: regular, parallel or top jamb mounting
- Adjustable backcheck valve
- Adjustable closing speed and latching speed valves
- Auxiliary door stop required
- Sleeve nuts included with all models
- 5-year limited warranty

Optional Features

- Cover (order separately)

Compliance Standards

- UL/cUL listed
- 1101BF/1111BF - designed to meet requirements for ANSI/BHMA A156.4 Grade 1. Door closers meet handicapped requirements for light to medium weight interior doors. 
- 1104BC - designed to meet requirements for ANSI/BHMA A156.4 Grade 2

Door Controls

YDC200 Economy Door Closers

The YDC200 Series is a no-fuss, economical option for aluminum storefront settings and other high volume applications.

Features

- Adjustable spring size 1-4 (YDC201) or fixed spring size 4 (YDC204)
- Tri-packed: regular, top jamb, or parallel mounting options
- Non-handed
- Cast aluminium body and threaded adjustable arm
- Rack & pinion design
- Independent latch, sweep, and backcheck intensity valves
- Available in two finishes 689 & 690
- 5 year limited warranty
- Designed to meet Grade 1 specifications

Electrified Products

Yale offers a range of new and exciting electromechanical products to meet a variety of applications, ensuring a distinct Yale advantage. These products include nexTouch® Keypad Access Lock, alarms and alarmed devices, and electrified mortise and cylindrical locking products. Yale's electrified products incorporate the highest level of security available with the added flexibility and security of remote electrical control. Electrified hardware is ideal for interfacing with access control, security and fire alarm systems.

Electrolynx®

What normally took an hour or more to connect now takes minutes. All Yale® electrified hardware is equipped with Electrolynx® connectors. As a standard feature, these connectors link power from the incoming source to electrified locking products, including hinges, locks, exit devices, magnetic holders and strikes.

Note: Electrified door hardware with Electrolynx® connectors require a compatible hinge.

Mortise Locksets

- Certified ANSI/BHMA A156.13 Series 1000, Grade 1
- UL10B Listed for 3-hour fire-rated openings
- Utilizes 8800 lockset
- Continuous duty integral solenoid
- Available in 12 or 24VDC
- Fail Safe or Fail Secure Operation
- Request to Exit (REX), Latchbolt Monitoring (LBM), Deadbolt Monitoring (DBM) , Integrated Total Security (ITS) options available

Cylindrical Locksets

- Certified ANSI/BHMA A156.2 Series 4000, Grade 1 and 2
- UL Listed
- Utilizes 5400LN, 5300LN or 4700LN lockset
- Free Wheeling lever mechanism
- Available in 12 or 24V
- External rectifier accepts AC or DC voltage
- Mechanical cylinder override
- Fail Safe or Fail Secure Operation
- Request to Exit (REX) option available (5400LN series only)

Mortise And Cylindrical Functions

Fail Safe – Locked when power is on and unlocked when power is off.

Function Description	Mortise Model Number	Cylindrical Model Numbers
<ul style="list-style-type: none"> Power on – outside lever locked Inside lever always free No key override 	8880	4780LN 5380LN 5480LN

Exit Devices

The Yale® 7000 and 6000 Series Exit Devices offer a complete range of electrical options:

- Electric Latch Retraction
- Electric Dogging
- Mortise Device Trim Control
- Touchbar Monitor or Signaling
- Outside Trim Monitor or Signaling
- Bolt Position Monitor or Signaling
- Delayed Egress
- Electric Trim Control
- Alarm

Electrified exit devices may be integrated into the monitoring security and alarm systems of most buildings.

Exit Device Option Descriptions

A	Alarm Option	O	Trim Monitor
A-ALR	Alarm option with red screenprinted pushpad	P	Latch Retraction
B	Touchbar Monitor	S	Bolt Monitor
D	Delayed Egress	SAFE	Fail Safe Operation (Mortise)
G	Electric Dogging	SECURE	Fail Secure Operation (Mortise)
H*	Security Package (DPS)	690F	Fail Safe Electrified Trim
MELR	Motorized Electric Latch Retraction	691F	Fail Secure Electrified Trim

Note: Any combination of the following options cannot be ordered together:
1) P, G, or D 2) B or A 3) D, B or A
***Only available for rim and SquareBolt® Devices when used with Delayed Egress option.**

*MELR available for 7000 Series only; P available for 6000 Series only

Stand-Alone Door Alarm

The SDA16 stand-alone battery operated door alarm is designed to continually monitor the status of a door. When the door is opened without authorization, an alarm is triggered to alert the security violation. This alarm features a Peizo horn which blasts a deafening 105+ decibels to alert the violation.

This unit is ideal for emergency doors as well as stairwell doors and rear exit doors in retail environments. The unit, which can also be hardwired, easily complements existing hardware, making any opening alarmed. The SDA16 door alarm is typically mounted on the interior of the door frame or door and is paired with a magnet mounted on the opposing side of the door gap.

Remote Mounting

The SDA16 can be installed remotely from the door by attaching the contacts to the door and frame. The unit can be installed up to 6 feet from the door. This provides the ideal solution for circumstances where exposure to weather may be an issue. To order specify "SDA16XL".

Note: Actual wire length is 6 feet.

nexTouch® Keypad Locks

Yale nexTouch locks combine a modern look and innovative access control technology with an array of bold new features, offering an attractive access control solution in many applications. With a heavy-duty design and ANSI/BHMA Grade 1 certification, nexTouch provides durable and reliable security in multiple platforms to a range of commercial facilities including offices, retail and multi-family facilities.

Standalone Keypad

Great for restrooms, offices, storage closets and more, nexTouch as a standalone keypad is easy to install, program, and manage access with PIN codes.

Data-on-Card

In new construction or retrofit projects for multi-family facilities, the data-on-card functionality of nexTouch pairs with Yale Accentra™ software for use with key cards or fobs.

Wireless

The perfect solution for small business, nexTouch allows wireless integration of the lock into new or existing commercial automation systems.

Features

- Choice of capacitive touchscreen or tactile pushbutton keypad
- Ergonomic, easy-to-use design
- Keyless entry and management
- Access with PIN codes
- Voice-guided programming in 3 languages
- Privacy feature with Door Position Switch
- 9V battery power backup feature
- Low battery indicator
- Three volume modes
- Certified ANSI/BHMA Grade 1 **BHMA CERTIFIED**
- UL/cUL listed for use on fire doors
- ADA compliant and decorative levers available
- Optional cylinder/key override – full range of Yale® 6-pin conventional, protected and security cylinders available including large and small format interchangeable core
- Weather resistant
- 3-year limited warranty

Trim

Compatible Exit Devices

Thanks to its patented adjustable mounting posts, Yale nexTouch exit trim is compatible with several makes and models of exit devices right out of the box, without the need for separate mounting hardware. Check the chart below to see if yours is a fit.

Manufacturer	Model/Series Number*
Arrow	3880, S1250
Corbin Russwin	ED5200, ED5200S
Dorma	9300
Falcon®	24, 25
SARGENT	8800
Von Duprin®	98, 99
Yale	1800, 2100, 6000, 7000

*Compatible with rim device only. Please contact Technical Product Support for more information.

Patented adjustable mounting posts make the nexTouch exit trim compatible with many exit device models (see chart at left).

MicroShield®

As part of their promise to provide innovative solutions to their customers, certain ASSA ABLOY Group brands offer the MicroShield® technology, a silver-based antimicrobial coating designed to inhibit the growth of bacteria.

Microshield® is a registered trademark of ASSA ABLOY Access and Egress Hardware Group, Inc.

The Agion antimicrobial is not intended as a substitute for good hygiene. Coated products must still be cleaned to ensure the surfaces will be free of destructive microbes. ASSA ABLOY makes no representations or warranties, express or implied, as to the efficacy of the Agion antimicrobial. A copy of the Agion warranty is available upon request. Agion is a registered trademark of Agion Technologies, Inc., Wakefield, MA, USA.

THE YALE BRAND, with its unparalleled global reach and range of products, reassures more people in more countries than any other consumer locking solution.

THE ASSA ABLOY GROUP is the world's leading manufacturer and supplier of locking solutions, dedicated to satisfying end-user needs for security, safety and convenience.

Policy

Order Form

Please use the form on pages 81-82 when placing orders for Yale® products. Copies of this form can also be printed from our website (www.yalelocks.com).

Part Numbers

QuickShip part numbers must be included on the order form. Orders listing model numbers only may be processed as factory orders.

Mixed Orders

QuickShip product orders and factory orders must be submitted on separate order forms. Any order received having both factory and QuickShip products will be processed as a factory order and shipped from the factory at normal lead times.

Quotes

Quote number must be included with the purchase order. Orders without this information will be processed at standard buying programs.

Minimum Order

Minimum invoice is \$250 net product value.

Lead Time

Lead time is 5 delivery days from receipt of order. (Consult the current Yale® Price Book for a complete list of Terms & Conditions regarding delivery.) We reserve the right to limit quantities.

Freight

All orders are shipped FOB factory/warehouse, except as expressly provided below. When delivered to the Transportation Company, the Purchaser assumes the risk of loss or damage in transit.

Customer orders with net product value in excess of \$7,000.00 will be shipped prepaid by the Yale carrier of choice to a single destination point in the United States.

Customer orders with net product value less than \$7,000.00 will be shipped prepaid by the Yale carrier of choice and freight and handling charges will be added to the customer's invoice.

A minimum freight and handling charge of \$15.00 will be charged on orders with net product value of \$400.00 or less.

For orders with net product value greater than \$400.00 and less than \$7,000.00, freight charges will be calculated as a percentage of the net invoice value and will be added to Customer's invoice. The percentage is based on the National U.S. Average On Highway Diesel Fuel Prices as reported by the US Department of Energy in effect at the beginning of each quarter. On the first Monday of each quarter, the new rate will be published on the Yale and Door Security Solutions extranet and will go into effect on the 2nd Monday of the quarter. Please refer to

FINISH CHART

Finishes for *Yale* products are ordered using the ANSI/BHMA finish code.

SPRAYED FINISHES	
FINISH DESCRIPTION	ANSI/BHMA CODE
Aluminum Painted	689
Dark Bronze Painted	690
Light Bronze Painted	691
Dark Bronze Painted	695
Satin Brass Painted	696

the Yale distributor extranet for the rate chart and information on the current freight charge percentage. The percentage in effect at the time of shipment of the order will be charged.

If a customer provides their own freight account number for the freight charges, Yale will apply a handling fee of \$25.00 to the invoice.

Expedited shipping options – If the customer requests an expedited method of shipment such as “Next Day Air” the charges will be prepaid by Yale and the full rate for the service, as published by the carrier, will be added to the customer's invoice.

Packing – Yale will pack, mark and ship the products according to its standard procedures for shipment, unless the parties agree, in writing, that Yale will comply with any special instructions provided by the customer. Special instructions must be submitted, in writing, at time of order placement. Compliance with special instructions may result in an increased price.

Changes/Cancellations

Due to the promptness of delivery, no changes or cancellations can be accepted. The only exception is when we are out of stock.

Prices

All shipments will be made at prices prevailing at time of shipment.

Terms

Invoices dated the 1st through the 15th will be due for 2% discount on the 10th of the following month. Invoices dated the 16th through the 31st will be due for 2% discount on the 25th of the following month. Net immediately thereafter.

Consult the current *Yale* Price Book for pricing information, a complete list of Terms & Conditions and Warranty Information.

MicroShield®

As part of their promise to provide innovative solutions to their customers, certain ASSA ABLOY Group brands offer the MicroShield® technology, a silver-based antimicrobial coating designed to inhibit the growth of bacteria.

Microshield® is a registered trademark of ASSA ABLOY Access and Egress Hardware Group, Inc.

The Agion antimicrobial is not intended as a substitute for good hygiene. Coated products must still be cleaned to ensure the surfaces will be free of destructive microbes. ASSA ABLOY makes no representations or warranties, express or implied, as to the efficacy of the Agion antimicrobial. A copy of the Agion warranty is available upon request. Agion is a registered trademark of Agion Technologies, Inc., Wakefield, MA, USA.

THE YALE BRAND, with its unparalleled global reach and range of products, reassures more people in more countries than any other consumer locking solution.

THE ASSA ABLOY GROUP is the world's leading manufacturer and supplier of locking solutions, dedicated to satisfying end-user needs for security, safety and convenience.
