# Reflecting your design vision everywhere

Yale lever profiles echo your design statement, whether you require sleek and contemporary or dramatic vibrancy to create a unique architectural environment. Now it's possible to flow design sensibility across the entire facility, unifying all openings.

Select from 34 available lever styles in 13 finishes to complement and expand upon the message of any interior. With Reflections, style is uniquely defined.

Inspired by the fluid lines in nature, this collection of distinctive decorative levers mirrors the sensibility of design in high-end commercial projects.

Encapsulating natural elements of form found in flowing water and landscapes, each lever in the **Reflections** series captures a unique beauty, styled with its own distinctive characteristics. Simple curves mixed with dramatic arcs provide options for every project.
