

Video and Intercom Solutions for **PARKING GARAGES**

Great for all campus types and sizes!

Airports · Shopping Malls · Arenas

Public Parking Facilities

Where to install AIPHONE®

Aiphone offers a variety of IP intercom systems for improved communication while allowing facilities to centralize control of multiple garages. Audio only or audio + video intercoms are easily integrated into existing or new physical security equipment as well as installed in a variety of payment systems. Either case will increase customer communication and confidence about the safety of your parking garage.

Intercoms Adapt Anywhere...

1 Gate Entrances

Equip entry/exit points with embedded HID® intercoms. Easily communicate with visitors and open gates from offsite.

2 Garage Levels

Aiphone's low profile, ADA compliant wall boxes make it easy to install emergency stations throughout the facility.

3 CCTV Locations

Add audio surveillance to CCTV systems by installing an audio only station within close proximity to cameras.

4 Pay-on-Foot Systems

Retrofit intercoms into payment system machines for integration into a comprehensive security and communication system.

5 Stairwells / Areas of Refuge

Protect stairwells with emergency intercoms to help those who need them most.

6 Unattended Pay Points

Add intercoms to unmanned exit points for 24/7 support from a centralized location.

7 Exterior Common Areas

Place emergency towers around the facility to communicate to parking customers your commitment to a secure environment.

Link Garages and Centralize Security

Aiphone's IP intercom systems allow for multiple parking garages to be controlled from a single or multiple locations.

Parking garage operators can potentially save money by centralizing operation controls.

You can depend on Aiphone to improve your facility's surveillance and communication systems. For over 40 years, we have provided a wide variety of solutions for CCTV integration, monitoring, and guard communication.
