- STANDARD SINGLE GANG MOUNT
- OPTIONAL BUILT-IN 85 dB LOCAL ALARM SOUNDER FOR CM-701
- OPTIONAL GLASS BREAK RODS
- OPTIONAL CLEAR LIFT COVER
- IDEAL FOR USE WITH MAGNETIC LOCKS IN ACCESS CONTROL APPLICATIONS

DESCRIPTION

Camden Door Controls, CM-700 Series pull stations meet the stringent demands of emergency pull station controls. They are designed for single gang mounting and protrude only 3/4" from the wall. They are easily reset with a small screwdriver. Available in blue or yellow, they are an ideal solution for varied pull station requirements.

APPLICATION

Camden Door Controls, CM-700 series pull stations are the ideal solution wherever an emergency release is required. Applications include Door Release and on emergency exit doors. Not rated for fire alarm applications.

ARCHITECTS/ENGINEERS SPECIFICATIONS

All pull stations on the site/complex shall be single action. Units shall be constructed of extruded aluminum. Pulling the handle shall initiate immediate operation of the attached circuitry. All manual pull stations shall be installed as per the specific requirements outlined in the UL/ULC codes, as well as all other applicable national or local codes.
