Experience a safer
and more open world

About ASSA ABLOY's Authorized Channel Partner and Certified Integrator Programs

The Corbin Russwin Access 600 RNE1 is part of the expanding ASSA ABLOY family of innovative products combining our proven mechanical locking devices with leading-edge technologies to provide integrated electronic access control solutions. As such, these products require training and certification for resellers and integrators to ensure proper product selection, successful deployment and customer satisfaction.

To aid our customers in this area, ASSA ABLOY has created two programs that provide the necessary training to sell, order, install and service our technology products, including Aperio wireless, Integrated Wiegand, IP-enabled and self-configurable intelligent components:

- The Authorized Channel Partner (ACP) program is open to resellers, who sell ASSA ABLOY's technology products to certified integrators and help with product selection based on the application.
- The Certified Integrator (CI) program provides hands-on training for security systems integrators and network administrators. Not only does this training familiarize certified integrator candidates with product features and applications, it also gives them valuable experience installing, commissioning and troubleshooting the products in a real-world environment.

For more information on the qualifications for becoming an ACP or CI, contact your local ASSA ABLOY Door Security Solutions sales consultant for details.

Designed with architects and designers in mind, the Access 600® RNE1 proximity reader is housed in a smaller size trim, but there is nothing small about the security features inside.

The Access 600 RNE1 seamlessly integrates a full range of Grade 1 Corbin Russwin mechanical hardware into your Wiegand access control system. The Access 600 RNE1 proximity reader works with HID® 125 kHz prox, 13.56 MHz iCLASS SE® or Personal Identity Verification (PIV) credentials. Customized monitoring options, wide range of quality hardware and easy system expansion define the Access 600 RNE1 advantages. For continuity of design, the Access 600 RNE1 series is available with lever designs and finishes for all four types of locks.

Electrical Specifications

Specific voltage and current draw specification are located in each lock category; Mortise, Cylindrical, Multi-Point and Exit Device.

Features & Benefits

Consolidates all components into the lock

- Incorporates card reader and DPS, REX and Latchbolt monitoring sensors with ANSI Grade 1 electromechanical lock hardware
- Requires only one cable run from lock to access control panel
- Maintains architectural integrity around the door
- 50% faster installation for lower installed cost and reduced disruption
- Open architecture platform is compatible with all popular access control systems. Elegant design with numerous architectural elements to match or enhance your decor
- Complete hardware portfolio, including mortise, cylindrical, exit device and multi-point locking hardware
- Available with commercial and decorative lever styles
- 13 architectural finishes
- Supports HID 125 kHz proximity credentials (M802), including Corporate 1000, to match your card format or HID 13.56 MHz iCLASS SE® credentials (M812) (iCLASS, iCLASS SE® (SIO-enabled), iCLASS® Seos®, MIFARE® Classic (SIO-enabled), MIFARE DESFire® EV1 (SIO-enabled)) and PIV credentials

The Genuine HID Technology logo is a trademark owned and licensed by HID Global.

Overview

Applications

Access 600 RNE1 is ideal for

- › Corporate campuses
- › Educational facilities
- › Healthcare facilities

Wiegand Open Architecture:

- › Cost effective, easy system expansion
- › Integrates mechanical door hardware with existing access control system
- › The reader is housed within the exterior escutcheon* and works with 125 kHz prox, 13.56 MHz iCLASS SE or PIV credentials.

MORTISE LOCK -
ML20600 x RNE1

CYLINDRICAL LOCK -
CL33600 x RNE1

EXIT DEVICE -
ED5000N x 9600 x RNE1

MULTI-POINT LOCK -
FE6600 X RNE1

M802

The M802 125 kHz (proximity) version of Open Architecture Wiegand Access Control Platform offers a high level of security and convenience. The M802 requires a proximity card/fob/tag presentation to gain entry. The 125 kHz reader operates on 12VDC.

M812

The M812 13.56 MHz iCLASS SE (contactless) (iCLASS, iCLASS SE (SIO-enabled), iCLASS Seos, MIFARE Classic (SIO-enabled), MIFARE DESFire EV1 (SIO-enabled)) version of Open Architecture Wiegand Access Control Platform offers a high level of security and convenience. The M812 requires an iCLASS or iCLASS SE card/fob/tag presentation to gain entry. The 13.56 MHz iCLASS SE reader operates on 12VDC or 24VDC.

PIV: Personal Identity Verification

The IV variants support personal identity verification (PIV) credentials, providing strong authentication to verify the identity of individuals seeking physical access to federally-controlled government facilities.

Features

ML20600 RNE1 Mortise Locks

The Access 600 RNE1 mortise lock integrates into an existing Wiegand-compatible access control system and can monitor Latchbolt position, Request to Exit, and Door Position status, all within the lockbody. Secure door position monitoring feature ensures latchbolt is extended when door is closed.

The Grade 1 Access 600 RNE1 mortise lock is designed to meet the rigors of high-traffic commercial, institutional, industrial and government applications. Constructed of heavy-gage steel, the lockbody features our patented Quick Reversible latchbolt, and a 1" stainless steel deadbolt.

Featuring EcoFlex® Technology*

- Reduces energy consumption up to 96%, as certified by GreenCircle
 - Lower operating costs
 - Assists with load reduction in optimizing energy performance credit in LEED
 - Reduces number of power supplies required
- Field configurable to fail-safe or fail-secure
- Operates from 12-24VDC, offering greater flexibility in system design
- Innovative actuator design provides superior reliability
 - Higher performance and reduced maintenance
 - Ability to have longer cable runs without negatively impacting lock function
 - Reduces risk of voltage drops and eliminates inductive kickback
 - Lower total cost of ownership

Monitoring Features

- Request to exit
- Secure door position monitors latchbolt and door position in series

Handing

- Handed; quick reversibility
- The lockset can be re-handed without disassembling the lock body

Door Thickness

- 1-3/4" (44mm) standard
- Optional door thicknesses in 1/8" increments available; see Quick Code section

Backset

- 2-3/4" (70mm)

Lockcase

- Heavy-gage chrome plated steel, 5-7/8" (149mm) x 4" (102mm) x 15/16" (24mm)

Front

- Heavy-gage steel, 8" (203mm) x 1-1/4" (32mm) x 3/32" (2mm)
- Accommodates non-beveled and beveled doors

Armored Front

- Wrought brass, bronze or stainless steel attached by machine screws to lockcase front

Latch

- Patented, quick, reversible 2-piece mechanical with anti-friction insert 5/8" (16mm) x 1" (25mm) x 3/4" (19mm)

Auxiliary Latchbolt

- 9/16" (14mm) effective throw and 3/8" (10mm) effective auxiliary latch deadlocking

Deadbolt

- One-piece stainless steel, 19/32" (15mm) x 1-1/4" (32mm) x 1" (25mm) throw
- Standard trim is through bolted, not free floating
- Muséo® trim is not through bolted, free floating

Hub

- Steel, 5/16" (8mm)

Strike

- Wrought brass, bronze or stainless steel ANSI straight lip standard, 4-7/8" (124mm) x 1-1/4" (32mm) x 1-1/8" (29mm) lip to center
- Optional strikes, lip lengths and ANSI wrought strike box available

Cylinder

- 1000-138-A01, 6-pin, L4, keyed random, furnished standard for 1-3/4" (44mm) door
- Optional cylinders available

Warranty

- 10-year limited mechanical
- 2-year limited electrical

ANSI/BHMA

- Meets A156.13, Grade 1 requirements
- Meets A117.1 Accessibility Code
- Meets A156.25 requirements

EAC Regulatory Compliance*

- UL294 6th Edition
- CAN/ULC S319
- BHMA A156.25

*All product lines except Latch Retraction Variants: ELR MP9800, ELR 7000

Escutcheons & Electrical Specifications

ML20600 RNE1 Mortise Locks

Escutcheons

- Solid casting
- Highest point of projection 7/8" (22 mm) less lever
- Operating temperature -40°F (-40°C) to 151°F (66°C)
- LEDs indicate valid/invalid credentials
- Lever x sectional trim only

Reader - M802 (125 kHz proximity credentials)

- Reader requires 12VDC

ML20600 x M802 Electrical Specifications:

- Reader draw = 150 mA
- Actuator draw = 15 mA continuous
- Maximum (2) locks per 1 Amp power supply (500 mA peak current draw)

Note: The M802 reader requires 12VDC for power. As the lock accepts either 12 or 24V, we recommend a 12V power supply to support both the lock and reader with a single power supply.

Reader - M812 or IV- (13.56 MHz iCLASS SE or PIV) credentials

- Reader requires 12 or 24VDC

ML20600 x M812 or IV- Electrical Specifications:

- Reader draw = 150 mA
- Actuator draw = 15 mA continuous
- Maximum (2) locks per 1 Amp power supply (500 mA peak current draw)

Note: M812 and IV- reader uses 12 or 24VDC

High Security Monitoring

ML20600 RNE1 Mortise Locksets

ML20600 Series Electrified Mortise Lock with High Security Monitoring

The EcoFlex® electrified mortise lock platform, including Access 600 RNE1, is available with internal end-of-line resistors for comprehensive monitoring of the circuit between the access control panel and lock, as well as deadbolt privacy function.

High Security Monitoring Options

- **Internal End-of-Line Monitoring**

Integrated directly into the mortise lock, internal end-of-line resistors monitor the line from the access control panel to the lock. Typically, resistors are installed at the panel or above the door, creating vulnerability between the resistors and the locks. Incorporating resistors within the lock eliminates any risk of undetected tampering or damage, while also reducing installation costs, simplifying specifications, and offering the assurance of a factory installed and tested product.

Select a compatible resistor configuration and add the appropriate quick code to the beginning of your order string:

- **R01:** Mercury and Lenel compatible 1KΩ/2KΩ resistance supervision
- **R03:** Software House compatible 1KΩ/2KΩ resistance supervision
- **R04:** AMAG compatible 4-state supervision

- **Deadbolt Privacy Function (PHR-)**

- Engaging the deadbolt disables remote access control unlocking (keypad or card reader) or scheduled unlock.
- Ideal for personal privacy areas, such as nursing rooms, on-call doctors' rooms, restrooms, and shower areas
- To order, add the PHR- quick code to Options order string (available with deadbolt functions only)

Inspire™ Roseless Trim

Inspire roseless trim blends the lever and the door creating an artful approach to every opening. Offered with most Muséo® decorative levers, this exquisite trim will inspire the creation of beautiful openings.

Features:

- Certified to and exceeds ANSI/BHMA A156.13, Series 1000, Operational Grade 1 and Security Grade 1
- Attachment method similar to standard trim
- Available with most mortise lock functions
- Compatible with most Muséo Line levers (except 104, 111, 113, 121, Josef, Georges and Piet levers)
- Selected levers return within 1/2" of the door face
- All standard cylinder options are available
- Available for 1-3/8", 1-3/4", and 2-1/4" thick doors only (contact factory for other door thicknesses)

Description	Specify
1-3/4" (44mm)	std
1-7/8" (48mm)	D178
2" (51mm)	D200
2-1/8" (54mm)	D218
2-1/4" (57mm)	D214

Consult factory for door thicknesses greater than 2-1/4.

Access 600 cannot use the C7, CT7R, CT7B, CT7G, CL7, CT7D, PS, PHS cylinders for 1-3/4" doors.

For all quick codes see pages 63-66

Features

CL33600 RNE1 Cylindrical Locks

The Grade 1 Access 600 RNE1 Cylindrical Locksets seamlessly integrate into an existing Wiegand-compatible access control system. Door monitoring capabilities include Request to Exit, which monitors movement of the inside lever, and external Door Position Switch.

The Access 600 RNE1 Cylindrical Locksets offer a clean, crisp design and a choice of a wide range of hardware finishes. Using a family of lever designs across the three product offerings provides visual uniformity when used throughout a facility.

Features

- Solenoid operated 12VDC & 24VDC cylindrical lock, fail safe or fail secure

Monitoring Features

- Request to Exit monitoring standard (non-handed)
- External door position switch included to allow for full monitoring

Door Thickness

- 1-3/4" (44mm) to 2" (50mm) standard, 2" (50mm) to 2-1/4" (57mm) optional. Specify D214

Lock Chassis

- Steel, zinc dichromated for corrosion resistance

Backset

- 2-3/4" (70mm) standard, 3-3/4" (95mm) and 5" (127mm) Optional

Latchbolt

- Stainless steel, 1/2" (13mm) throw
Optional: 3/4" (19mm) throw
deadlocking fire latch for pair of doors

Auxiliary Latchbolt

- Deadlocking latchbolt prevents manipulation when door is closed

Front

- Wrought brass or stainless steel, 2-1/4" (57mm) x 1-1/8" (29mm). Accommodates non-beveled and beveled doors
Optional: rounded corners

Strike

- Wrought brass or stainless steel ANSI curved lip standard, 4-7/8" (124mm) x 1-1/4" (32mm) x 1-1/4" (32mm) lip to center
Optional strikes, lip lengths and ANSI wrought strike box available

Cylinder

- Brass, 6-pin, L4 keyway, 0-bitted standard

Keying Features Available

- Master Keying
- Construction master keying
- Visual key control
- Concealed key control
- Interchangeable core (IC)
- Security
- Security IC
- Pyramid
- Pyramid IC
- Pyramid Security
- Pyramid Security IC

Keys

- Two nickel silver standard

Warranty

- 7-year limited mechanical, 2-year limited electrical

CL33600 RNE1 Cylindrical Locks

Escutcheons

- Solid casting
- Operating temperature -40°F (-40°C) to 151°F (66°C)
- Highest point of projection 7/8" (22 mm) less lever
- LEDs indicate valid/invalid credential
- Freewheeling outside lever when locked

Reader - M802 (125 kHz proximity credentials)

- Reader requires 12VDC

CL33600 x M802 Electrical Specifications:

12VDC System with 12VDC Solenoid

- Reader Draw = 150mA (maximum)
- 12VDC Solenoid Draw = 250mA

Total System Draw = 400mA

12VDC System with 24VDC Solenoid

- Reader Draw = 150mA (maximum)
- 24VDC Solenoid Draw = 150mA

Total System Draw = 300mA

Reader - M812 or IV- (13.56 MHz iCLASS SE or PIV) credentials

- Reader requires 12 to 24VDC

CL33600 x M812 or IV- Electrical Specifications:

12VDC System

- Reader Draw = 150mA (maximum)
- 12VDC Solenoid Draw = 250mA

Total System Draw = 400mA

24VDC System

- Reader Draw = 125mA (maximum)
- 24VDC Solenoid Draw = 150mA

Total System Draw = 150mA

600® RNE1

ED5000N x 9600 RNE1 Series Exit Device

The Grade 1 Corbin Russwin ED5000N Series exit devices seamlessly integrate into an existing Wiegand compatible access control system. A wide range of monitoring capabilities, which include Request to Exit (rail monitoring) as standard, achieve a high level of security. An external door position switch further augments door monitoring.

The Access 600 RNE1 Series exit device product selection is Corbin Russwin's most extensive exit device access control offering. Rim devices, mortise lock exits, concealed vertical rod devices, as well as surface mounted vertical rods exit devices, are all available. The Motorised Electric Latch Retraction (MELR) variant provides remote-controlled latch retraction that delivers quiet, smooth operation for convenient, hassle-free egress.

Featuring clean, crisp design, the Access 600 RNE1 exit devices are available with a variety of lever designs, and hardware finishes.

	Inside Push Pad	Outside Reader Trim
R/S	ED5200(S)(A)N	9600
Mortise	ED5600(A)N	9M600
CVR	ED5800(A)N	9600
SVR	ED5400(A)N	9S600

Note: N suffix denotes exit device equipped with external door position switch and internal request to exit monitoring for use with Access 600 RNE1 exit trim.

ED5000 Mechanical or MELR Exit Device Retrofit Kit

For use with Access 600 RNE1 Exit Trim

Kit allows you to retrofit an existing ED5000 Series mechanical exit device with M92 (Touch Bar Monitor/REX) that will integrate with Access 600 RNE1 trim

Kit Includes:

- Touch Bar Monitor/ REX assembly
- Harness from REX switch to Access 600 RNE1 Controller
- Trim Slide Retainer/ Screw
- Trim Slide Wire Bracket
- Wire Grommet
- Installation Instructions

To order, specify 743F939

Features

ED5000N x 9600 RNE1 Series Exit Device

Featuring EcoFlex® Technology*

- Reduces energy consumption up to 95%, as certified by GreenCircle
 - Lower operating costs
 - Assists with load reduction in optimizing energy performance credit in LEED
 - Reduces number of power supplies required
- Field configurable to fail-safe or fail-secure
- Operates from 12-24VDC, offering greater flexibility in system design
- Innovative actuator design provides superior reliability
 - Higher performance and reduced maintenance
 - Ability to have longer cable runs without negatively impacting lock function
 - Reduces risk of voltage drops and eliminates inductive kickback
 - Lower total cost of ownership

Monitoring Features

- Request to exit
- Door position monitoring

Handing

- Rim Device is non-handed.
- Mortise, surface vertical rod and concealed vertical rod devices are handed.
- Lever trim is handed.

Bar Length

- Easily field cut to size
- Standard: 36" (914mm) bar fits 30" (762mm) to 36" (914mm) door
- Optional: 24" (610mm) bar fits 24" (610mm) door; specify W024
- Optional: 48" (1219mm) bar fits 36" (914mm) to 48" (1219mm) door; specify W048

Door Thickness

- 1-3/4" (44mm) standard
- Optional: 2" (51mm); specify D200
- Optional: 2-1/4" (57mm); specify D214

Experience a safer and more open world

Access 600 RNE.22

Stile

- Minimum width 4-1/2" (114mm)

Lever Trim

- Free floating, to fit doors 1-3/4" (44mm) to 2-1/4" (7mm)

Projection

- 3-1/4" (83mm) active, 2-3/4" (70mm) depressed

Fasteners

- Standard on panic devices: machine screws and wood door fasteners
- Standard on fire-rated devices: sex nuts and bolts
- Optional on panic devices: sex nuts and bolts for use on wood, composite or unreinforced metal doors; specify M54
- Optional wood screws for use on approved fire-rated solid wood or wood core doors. Specify M64

Strike

Mortise Device

- Wrought brass, bronze or stainless steel ANSI straight lip standard, 4-7/8" (124mm) x 1-1/4" (32mm) x 1-1/8" (29mm) lip to center
- Optional strikes, lip lengths and ANSI wrought strike box available

Rim and Surface Vertical Rod Devices

- Surface-mounted 3/8" (10mm) diameter roller strike, complete with positive locking plate and shims, assuring low friction relocking for a long, trouble-free life

Functions and Trims

- Through-bolted lever trim available with wide range of functions; see Trim, page 25

Key Override

- Outside cylinder override allows lever to retract latch

Warranty

- 5-year limited mechanical
- 2-year limited electrical

Certification/Compliance

ANSI/BHMA

Meets A156.3, Type 1, Grade 1.
Meets A117.1 Accessibility Code.

EAC Regulatory Compliance*

- CAN/ULC S319
- BHMA A156.25

*All product lines except Latch Retraction
Variants: ELR MP9800, ELR 7000

C-UL US

All devices listed for safety as panic hardware; devices comply with UL 305 standards for panic hardware. Three-hour fire-rated devices listed as fire exit hardware for A label and lesser class 4' x 8' single or 8' x 8' double doors; UL symbol on active case cover indicates listing.

California State Reference Code

This product has been approved by the California State Fire Marshal pursuant to section 13144.1 of the California Health and Safety Code.

NFPA

All exit devices comply with NFPA 101 Life Safety Code. All fire-rated devices comply with NFPA 80 Fire Doors and Windows.*

ADA

Exit devices, lever trims and pulls comply with Americans with Disabilities Act.

*Any retrofit or other field modification to a fire rated opening can potentially impact the fire rating of the opening, and Corbin Russwin, Inc. makes no representations or warranties concerning what such impact may be in any specific situation. When retrofitting any portion of an existing fire-rated opening, or specifying and installing a new fire-rated opening, please consult with a code specialist or local code official (Authority Having Jurisdiction) to ensure compliance with all applicable codes and ratings.

ED5000N x Trim x MELR RNE1 Series Exit Device

Electric Latch Retraction - MELR

The Motorized Electric Latch Retraction (MELR) exit device provides remote-controlled latch retraction that delivers quiet, smooth operation for convenient, hassle-free egress. Easily installed in new applications and available as retrofit rail kit assemblies for field updates, the MELR features maintenance-free design with few moving parts using 86% less power consumption during retraction than solenoid devices. Plus, MELR is powered by a standard power supply, simplifying installation and increasing system design flexibility.

Application

- SecureBolt® Exit Devices
- Rim Exit Devices
- Surface Vertical Rod Exit Devices
- Concealed Vertical Rod Exit Devices
- Mortise Exit Devices

Listings

UL listed for both Panic and Fire Exit Hardware. Windstorm rated with M107 option.

Bar Length/Door Width

- Easily field cut to size.
- Standard: 36" (914mm) bar fits 34" - 36" (762mm-914mm) door.
- Optional: 48" (1219mm) bar fits 36" -48" (914mm-1219mm) door; specify W048.

Electrical Specifications

24VDC (BPS-24-1) regulated/filtered power supply. Requires 1A per device

Motor Driven Latch Retraction

- .65A amp max during retraction .2 amp holding-continuous duty
- Device bolts remain retracted for as long as the device is energized. Removal of power returns the device to the life safety, self-latching mechanical mode.
- Interface with central or local fire alarm system, automatic door operators, access control systems, security alarm systems, and blow open door systems.
- Amount of rail retraction is automatically controlled by controller PC board; system actively monitors position and speed and adjusts itself.

Timer

Digital retraction timer (0-20 seconds) or set to power mode for access control systems.

Hinges

Standard electric hinge. No special power transfer required.

Note: This feature is not available with Electric Dogging (M97) or delayed egress (D) on the same device

Warranty

5 years

How to Order

Specify Quick Code MELR.

*Dummy and passage function trims are the same.

**Classroom and Nightlatch function trims are the same. Trim function must be specified when ordered with an exit to ensure that the correct lock body is supplied with the device.

Electrified Exit Devices

ED5000N x Trim x MELR RNE1 Series Exit Device

Electrically Controlled Heavy-Duty Trim

Electrically controlled trim provides electric locking and unlocking of the 900 Series heavy-duty lever trim. It easily retrofits into existing applications and is ideal for door control.

Advantages

- Available in Fail Safe or Fail Secure operation
- 24VAC/VDC
- Internal rectifier accepts AC or DC voltage
- Free Wheeling lever when locked
- Key override (specify cylinder)
- Plug connector with 4' wire lead (Exit device can be used as the wire raceway)

Applications

- ED5200(A)N Rim
- ED5200S(A)N SecureBolt®
- ED5400(A)N Surface Vertical Rod
- ED5470(B)N Surface Vertical Rod
- ED5800(A)N CVR
- ED5860(B)N CVR

Trim

Utilizes all 900 series trim lever designs including the Muséo® and Vineyard™ Collections

Electrical Specifications

- Solenoid: 330 mA @ 24 volts continuous duty
- Security Monitor Switch (M98): 4 AMP @ 250VAC

Door Thickness

1-3/4" (44mm) standard.
Optional: 2" (51mm); specify D200.
Optional: 2-1/4" (57mm); specify D214.

Options

- M98 – Security Monitor. A SPDT switch that monitors the position of the solenoid (lock and unlock status).
- M99 – Trim gasket for exterior applications.

Cylinder

Cylinder not included unless specified. See Quick Codes, page 64.

Electrically Controlled Heavy-Duty Trim

Functions

Fail Safe

The x9903 trim is locked when power is on and unlocked when power is off.

	Function Description
x9903 (Fail Safe)	• Lever is locked when power is on (Free Wheeling)
	• Power off allows entry from trim
	• Inside device is always active for egress
	• Mechanical key override (09 Function – Key allows lever to retract latch bolt. Key can only be removed in locked position.)

Fail Secure

The x9905 trim is locked when power is off and unlocked when power is on.

	Function Description
x9905 (Fail Secure)	• Lever is locked when power is off (Free Wheeling)
	• Power on allows lever activation for entry
	• Inside device is always active for egress
	• Mechanical key override (09 Function – Key allows lever to retract latch bolt. Key can only be removed in locked position.)

Features

Access
600® RNE1

FE6600 Access 600 RNE1 Multi-Point Locks

FE6600 Series lock is a multi-point, deadlocking system developed to help protect lives while securing a community shelter and/or safe room entry. Sturdy heavy-duty steel components firmly secure the door within the frame – at top, bottom, and center latch points – fortifying the opening during a windstorm event. The FE6600 Series is UL-listed for FEMA P361 (2015), FEMA P320 (2014) and ICC 500 2014 capable of withstanding severe wind speeds and flying debris. This device consists of concealed vertical rods with top and bottom latching complemented by a mortise lock with a latchbolt and deadbolt at the center of the door and an optional indicator to show the status of the top and bottom latches.

The lever rotation retracts the top bolt, the bottom bolt, and center bolts simultaneously. When retracted, the bolts are held in position as the door swings. As the door closes, the hold-back feature engages the frame and the top, center, and bottom bolts project simultaneously. With the deadbolt thrown, this system protects room occupants from threatening conditions. The FE6600 Series device can be used on fire-rated doors.

Featuring EcoFlex® Technology*

- Reduces energy consumption up to 96%, as certified by GreenCircle
 - Lower operating costs
 - Assists with load reduction in optimizing energy performance credit in LEED
 - Reduces number of power supplies required
- Field configurable to fail-safe or fail-secure
- Operates from 12-24VDC, offering greater flexibility in system design
- Innovative actuator design provides superior reliability
 - Higher performance and reduced maintenance
 - Ability to have longer cable runs without negatively impacting lock function
 - Reduces risk of voltage drops and eliminates inductive kickback
 - Lower total cost of ownership

Installation

- Concealed vertical assembly (rods, latches and cassette) pre-installed in door

Door Thickness

- 1-3/4" (44mm) standard

Backset

- 2-3/4" (70mm)

Lockcase

- Heavy-gage chrome plated steel, 5-7/8" (149mm) x 4" (102mm) x 15/16" (24mm)

Front

- Heavy-gage steel, 8" (203mm) x 1-1/4" (32mm) x 3/32" (2mm) Accommodates non-beveled and beveled doors

Armored Front

- Wrought brass, bronze or stainless steel attached by machine screws to lockcase front

Latch

- Patented, quick, reversible 2-piece mechanical with anti-friction insert 5/8" (16mm) x 1" (25mm) x 3/4" (19mm)

Auxiliary Latchbolt

- 9/16" (14mm) effective throw and 3/8" (10mm) effective auxiliary latch deadlocking

Deadbolt

- One-piece stainless steel, 19/32" (15mm) x 1-1/4" (32mm) x 1" (25mm) throw
- Standard trim is through bolted, not free floating
- Muséo® trim is not through bolted, free floating

Hub

- Steel, 5/16" (8mm)

Strike

- Wrought brass, bronze or stainless steel ANSI straight lip standard, 4-7/8" (124mm) x 1-1/4" (32mm) x 1-1/8" (29mm) lip to center

Cylinder

- 1000-138-A01, 6-pin, L4, keyed random, furnished standard for 1-3/4" (44mm) door
- Optional cylinders available

Warranty

- 7-year limited mechanical
- 2-year limited electrical

ANSI/BHMA

- Meets A156.37, Grade 1 requirements
- Meets A117.1 Accessibility Code
- Meets A156.25 requirements

EAC Regulatory Compliance*

- UL294 6th Edition
- CAN/ULC S319
- BHMA A156.25

*All product lines except Latch Retraction Variants: ELR MP9800, ELR 7000

Monitoring Features

- Secure door position monitors latchbolt and door position in series

Handing

- Handed; quick reversibility
- The lockset can be re-handed without disassembling the lock body

Functions

FE6600 Access 600 RNE1 Multi-Point Locks

Outside	Inside	Series/Function	Type	Function Description
		FE66609 x TC RNE1 x SAF Fail Safe No Key Override With Deadbolt	Entry With Deadbolt	<ul style="list-style-type: none"> • Fail Safe - Power off unlocks outside trim • Deadlocking latch • Latch and deadbolt retracted by inside lever at all times • Outside lever rigid except when valid user credential presented • Turnpiece inside extends and retracts deadbolt • Request to exit and secure door position monitor are standard
		FE66609 x TC RNE1 x SEC Fail Secure No Key Override With Deadbolt	Entry With Deadbolt	<ul style="list-style-type: none"> • Fail Secure - Power off, trim outside is locked • Deadlocking latch • Latch and deadbolt retracted by inside lever at all times • Outside lever rigid except when valid user credential presented • Turnpiece inside extends and retracts deadbolt • Request to exit and secure door position monitor are standard
		FE66608 x TC RNE1 x SEC Fail Secure Key Override With Deadbolt	Entry With Deadbolt	<ul style="list-style-type: none"> • Fail Secure - Power off, trim outside is locked • Key outside retracts deadbolt. Key outside also retracts latch and unlocks outside when trim is locked electronically • Top and bottom rods retracted by lever • Deadbolt projected and retracted by thumbturn or key

Escutcheons & Electrical Specifications

Access
600® RNE1

FE6600 Access 600 RNE1 Multi-Point Locks

Escutcheons

- Solid casting
- Highest point of projection 7/8" (22 mm) less lever
- Operating temperature -40°F (-40°C) to 151°F (66°C)
- LEDs indicate valid/invalid credentials
- Lever x sectional trim only

Reader - M802 (125 kHz proximity credentials)

- Reader requires 12VDC

FE66600 x M802 Electrical Specifications:

- Reader draw = 140 mA
- Actuator draw = 15 mA continuous
- Maximum (2) locks per 1 Amp power supply (500 mA peak current draw)

Note: The M802 reader requires 12VDC for power. As the lock accepts either 12 or 24V, we recommend a 12V power supply to support both the lock and reader with a single power supply.

Reader - M812 or IV- (13.56 MHz iCLASS SE or PIV) credentials

- Reader requires 12 or 24VDC

FE66600 x M812 or IV- Electrical Specifications:

- Reader draw = 150 mA
- Actuator draw = 15 mA continuous
- Maximum (2) locks per 1 Amp power supply (500 mA peak current draw)

Note: M812 or IV- reader uses 12 or 24VDC

FE6600 Access 600 RNE1 Multi-Point Locks

FE6600 Series Electrified Multi-Point Lock with High Security Monitoring

The EcoFlex® electrified mortise lock platform, including Access 600® RNE1, is available with internal end-of-line resistors for comprehensive monitoring of the circuit between the access control panel and lock, as well as deadbolt privacy function.

High Security Monitoring Options

- **Internal End-of-Line Monitoring**

Integrated directly into the mortise lock, internal end-of-line resistors monitor the line from the access control panel to the lock. Typically, resistors are installed at the panel or above the door, creating vulnerability between the resistors and the locks. Incorporating resistors within the lock eliminates any risk of undetected tampering or damage, while also reducing installation costs, simplifying specifications, and offering the assurance of a factory installed and tested product.

Select a compatible resistor configuration and add the appropriate quick code to the beginning of your order string:

- **R01:** Mercury and Lenel compatible 1KΩ/2KΩ resistance supervision
- **R03:** Software House compatible 1KΩ/2KΩ resistance supervision
- **R04:** AMAG compatible 4-state supervision

- **Deadbolt Privacy Function (PHR-)**

- Engaging the deadbolt disables remote access control unlocking (keypad or card reader) or scheduled unlock.
- Ideal for personal privacy areas, such as nursing rooms, on-call doctors' rooms, restrooms, and shower areas
- To order, add the PHR- quick code to Options order string (available with deadbolt functions only)

Features

MP9800 Access 600 RNE1 Multi-Point Vertical Rod Locks

Eliminating the need for automatic flushbolts and coordinators, the Access 600 RNE1 Series provides flexibility, simplicity, strength, durability, aesthetics and innovation. These locks are perfect for a wide variety of applications that do not require panic/exit devices, such as conference rooms, commercial office buildings, convention centers, upscale condominiums and residential applications, medical and educational institutions.

Access 600 RNE1 Series multi-point locks are offered in a variety of functions for aluminum, wood and metal doors. Single point top latching can also be specified (M55 option), eliminating the bottom strike and the additional installation work required with a bottom bolt. Rods are retracted by dual mounted controls offering wide a variety of functions.

The MP9800 Series is available for fire rated wood or metal doors.

Featuring EcoFlex™ Technology*

- Reduces energy consumption up to 95%, as certified by GreenCircle
 - Lower operating costs
 - Assists with load reduction in optimizing energy performance credit in LEED
 - Reduces number of power supplies required
 - Field configurable to fail-safe or fail-secure
 - Lock operates from 12-24VDC, offering greater flexibility in system design
 - Innovative actuator design provides superior reliability
 - Higher performance and reduced maintenance
 - Ability to have longer cable runs without negatively impacting lock function
 - Reduces risk of voltage drops and eliminates inductive kickback
 - Lower total cost of ownership
- *Patent pending

Mounting

Supplied fasteners are for all doors with through-bolts for trim.

Latching

Top and Bottom or Top only (M55).

Trim

Features EcoFlex™ technology. Available with all lever designs. Auxiliary Control offers cylinder override for 01, 40, 50, 903 & 905 functions.

MPER and MPES controls are standard controls with back plates

- Mounted between the trim and the door
- Required for wood doors
- Optional for metal doors
- May be used to cover existing door preps

Top and Bottom Bolts

Stainless steel top and bottom bolt travels 7/16" (11mm). Projection adjustable up to 1" (25mm).

Strikes

See page 66.

Cylinder

See cylinder options page 64.

Applications

Pairs of doors that do not require panic devices

When flush bolts are not permitted in:

- Assembly
- Education
- Healthcare
- Hazard Occupancy

Single doors that do not require a panic device with power operators

Thermal Pins

MP9800A x M55: supplied with ONE thermal pin per fire-rated lock, for installation on pairs of fire-rated doors.

Key Override/Auxillary Control

AUX15 Series Auxillary Control offers key override for Access 600 MP9800 Series.

Available functions are 55 & 59

Supplied with a Corbin Russwin mortise cylinder.

To order, add AUX155 or AUX159 to the order string after hand description.

Warranty

5 year.

Certification/Compliance

ANSI

Meets A117.1 Accessibility Code.

UL /cUL

Three-hour fire-rated locks listed as fire hardware for A label and lesser class 8' x 8' double doors; UL symbol on cover indicates listing. Any retrofit or other field modification to a fire-rated opening can potentially impact the fire rating of the opening, and Corbin Russwin, Inc. makes no representations or warranties concerning what such impact may be in any specific situation. When retrofitting any portion of an existing fire-rated opening, or specifying and installing a new fire-rated opening, please consult with a code specialist or local code official (Authority Having Jurisdiction) to ensure compliance with all applicable codes and ratings.

California State Reference Code

This product has been approved by the California State Fire Marshal pursuant to section 13144.1 of the California Health and Safety Code.

NFPA

All fire-rated locks comply with NFPA 80 Fire Doors and Windows.

ADA

Lever trims comply with Americans with Disabilities Act.

Features

Handing

Handed

Doors

Metal doors, 1-3/4" (44mm) door thickness standard (STD), 4-1/2" minimum stile, 2-1/4" backset (STD).

Aluminum doors, 1-3/4" (44mm) door thickness (STD), 1-7/8" minimum stile, 7/8" backset (STD) for double doors, 1-1/8" backset for single doors.

Wood doors, 1-3/4" (44mm) door thickness standard, 4-1/2" minimum stile, 2-1/4" backset standard.

Motorized Electric Latch Retraction Option (MELR)

MP9800 Access 600 RNE1 Multi-Point Vertical Rod Locks

Corbin Russwin's Motorized Electric Latch Retraction (MELR) is the perfect choice for high traffic doors that require access control. This non-handed module is durable and easy to install. It utilizes a latch retraction motor rather than a solenoid, ensuring quiet operation ideal for locations such as conference rooms, theaters and libraries. Once retracted, the door functions in a push/pull manner.

The MELR can be dogged for momentary ingress and egress and is commonly used in conjunction with an automatic door operator. The lock can be dogged continuously on fire-rated locks that are tied into the building's fire detection system.

Motorized Electric Latch Retraction Features

- 5 year warranty
- Patent pending
- Field serviceable - modular design
- Motor-driven latch retraction for smooth, precise operation
- Amount of latch retraction is automatically controlled by the MELR circuitry; System actively monitors its position and adjusts itself
- Digital retraction timer (0-20 seconds; factory setting is 0)
- Standard electric hinge - no special power transfer required
- Can be used for continuous and intermittent use
- UL Listed for Class II Circuitry
- Power Requirements: 12VDC regulated/filtered power supply (3500 Series)
- Current draw:
 - Access 600 RNE1 Reader: (12VDC) 150mA
 - MELR Module (12VDC): 850mA during retraction & 250mA maintained in dogged position
- Available for MP9800 series only
- See McKINNEY's Transfer Device Solutions Catalog for QC Hinge and cable requirements

Optional Accessories

- Power Supply (BPS)
- Keyswitch (MKA)
- Keypad (DK-12)
- Door Status Switch (708F989)
- Push Button Switch (PB2)

600® RNEi

The access credentials below are only compatible with the M802 (125 kHz proximity reader) and M812 (13.56 MHz iCLASS reader) options. Other credentials (125 kHz proximity and 13.56 MHz iCLASS, 26-39 bit formats) can be purchased from HID®.

Credential Features

- Allows integration into existing facilities with HID-based technology
- Standard credentials available with 26 bit Wiegand format and Corbin Russwin assigned site code
- *HID* credentials available. For a higher level of security, custom cards, fobs or tags with unique site codes are available; consult factory.

MicroProx® Tag

- 26 bit format with Corbin Russwin site code or customer site code
- Sequence numbers marked on each tag
- Gray color with HID Logo
- 10/pkg. (100 minimum order quantity)
- Dimensions: 1.285" x 0.070" (32.6mm x 1.78mm)
- For *MicroProx* Tag with customer site code, consult factory for minimum quantities

Corbin Russwin *HID* iCLASS 210

- 26 bit format
- Blank (white) card
- Blank card can be printed with customer's text and graphics – by others
- 25/pkg.
- Custom Cards available - consult factory
- Dimensions: 2-1/8" x 3-3/8" (54mm x 85.7mm)
- Thickness: .031" nom. (1.8mm)

ProxKey III

PF Corbin Russwin ProxKey III

- Site Code and Proximity ID#'s determined and controlled by Corbin Russwin
- 26 Bit Format, HID Coded Wiegand Output 125kHz
- 1.555" x 1.25" x 0.235" inches max (3.95 cm x 3.18 cm x 0.60 cm)
- Key ring sold separately (part no. 57-0001-02)
- Corbin Russwin ProxKey III ordered individually*** (Minimum order is 25 ProxKey III)

767F479	C/R 26 bit iCLASS 210 blank
767F489	HID 26 bit iCLASS 210 blank *Special Application Required

ISOProx® II Card

- 26 bit format
- Blank (white) card
- Blank card can be printed with customer's text and graphics – by others
- 25/pkg.
- Dimensions: 2-1/8" x 3-3/8" (54mm x 85.7mm)
- Thickness: .033" nom. (.84mm)

794F329	C/R 26 bit <i>ISOProx</i> II Card blank
794F369	HID 26 bit <i>ISOProx</i> II Card *Special Application Required

PF-C Custom ProxKey III

- Site Code - requested by customer
- Proximity ID#'s requested by customer
- 26 Bit Format, HID Coded Wiegand Output 125kHz
- 1.555" x 1.25" x 0.235" inches max (3.95 cm x 3.18 cm x 0.60 cm)
- Key ring sold separately (part no. 57-0001-02)
- PF-C Custom ProxKey III ordered individually*** (Minimum order is 100 Custom ProxKey III)

794F439	C/R 26 bit ProxKey III
794F459	HID 26 bit ProxKey III

HID multiCLASS Smart Card Readers

All Readers configured as follows:

- Wiegand output
- multiCLASS security - HID Mobile Access Mobiles IDs via NFC and Bluetooth Smart - reader equipped with Bluetooth Smart module. Also supports iCLASS Seos, iCLASS SE, iCLASS SR, iCLASS, MIFARE Classic (SIO-enabled), MIFARE DESFire EV1 (SIO-enabled), ISO 14443 UID, HID Prox
- Keypad: Buffer one key, no parity, 4 bit message (RK40 Only)

iCLASS® SE Smart Card Readers

Product Number	Function Description	
767F399 (Pigtail) 767F409 (Terminal Block)	<i>HID R10 Reader</i> <ul style="list-style-type: none"> • Mini-Mullion Size multiCLASS Reader • Measures 4" long, 1.9" wide and .90" deep • Mounts in single gang electrical box; 12VDC power supply required 	
767F419 (Pigtail) 767F429 (Terminal Block)	<i>HID R15 Reader</i> <ul style="list-style-type: none"> • Mullion Size multiCLASS Reader • Measures 6" long, 1.9" wide, .9" deep • Mounts in single gang electrical box; 12VDC power supply required

Requirements for Electrical and Data Transfer

To answer the demand for "smart" electronic access control and locking solutions that require fast, easy, and cost-effective installation, ASSA ABLOY Group brands use the ElectroLynx® standardized plug-in connectors and color-coded wiring system.

With ElectroLynx, doorway components come pre-wired for easy hookup to the power source. Key to the system is the transfer device hinge that carries power from the frame to the locking hardware.

Features of ElectroLynx:

- Makes it easy to bring power to the locking hardware
- Wires have connectors that snap together, like plugging a telephone into a jack

To connect Access 600 RNE1 Series hardware to the electronic access control system, the following items are required:

- Access 600 RNE1 mortise or cylindrical lock, or exit device
- ASSA ABLOY Door Group pre-wired door, or ElectroLynx retrofit cable (order from McKinney)
- Electronic transfer device (ElectroLynx electronic transfer hinge or Electrical Power Transfer with standard hinge, from McKinney)
- ElectroLynx cable from the hinge to above the ceiling (order from McKinney)

Information regarding cable selection, hinge requirements and order strings can be found in the McKinney Transfer Device Solutions catalog. Consult 800-810-WIRE (9473) with questions on application specifications and requirements.

McKinney QC 12 ElectroLynx Hinges (or McKinney EL-EPT) are recommended for Access 600 RNE1 Applications

Weatherseal Gasketing

- Gaskets provide sealing between escutcheons and door for exterior applications
- Gasketing and conduit recommended for use on non-fire rated exterior applications only
- To order separately, specify gasket part number(s) on page 63.

Accessories

Wiegand Test Unit

Designed for use with the Corbin Russwin Access 600 RNE1 Wiegand lock, the ASSA ABLOY Wiegand Test Unit is a user-friendly tool providing product demonstration to highlight important features and access control capabilities.

Ideal for troubleshooting, the Wiegand Test Unit checks for:

- Proper wiring
- Card reader data integrity
- Lock functionality including lock/unlock, door position and REX

WT1 Wiegand Tester

Feature	WT1	WT2
12 or 24VDC lock voltage adjustable	X	X
Operates as Fail Safe or Fail Secure	X	X
"Learn" mode allows testing of specific cards without programming at the panel level	X	X
Card reader data integrity is validated at test unit	X	X
Works with Access 600 RNE1 products	X	X
Displays detailed Wiegand data, including the hexadecimal string and total bits received		X
Displays measured end-of-line resistor values (if applicable)		X

To order, specify WT1 or WT2

MicroShield®

As part of their promise to provide innovative solutions to their customers, certain ASSA ABLOY Group brands offer the MicroShield® technology, a silver-based antimicrobial coating designed to inhibit the growth of bacteria.

Microshield® is a registered trademark of ASSA ABLOY Access and Egress Hardware Group, Inc.

The Agion antimicrobial is not intended as a substitute for good hygiene. Coated products must still be cleaned to ensure the surfaces will be free of destructive microbes. ASSA ABLOY makes no representations or warranties, express or implied, as to the efficacy of the Agion antimicrobial. A copy of the Agion warranty is available upon request. Agion is a registered trademark of Agion Technologies, Inc., Wakefield, MA, USA
