Campus Access Control

Features & Benefits

• Integrated ANSI/BHMA Grade 1 hardware, available in cylindrical lock, mortise lock, multi-point lock, and exit device configurations
• Seamless database integration and software interface with enterprise, transaction and housing systems
• Interrogate individual locks and perform system upgrades and changes quickly and easily
• Issue cards at multiple locations, allowing administrators to issue new or replacement keycards in seconds, from anywhere on campus
• Ability to customize access, by defining unlimited access, extended-hours access or no access, by user and facility, down to the individual lock
• One Card system uses a single keycard to provide user identification, building access, and parking privileges, allowing for personalized security at its best
• Time-control user access allows campuses to limit entry to specific areas and hours, controlling who goes where and when
• Ability to audit event histories allows you to interrogate locks, review event history, and prevent false accusations of entry and theft
• Uses six AA batteries for easy, cost-effective deployment and maintenance
• Available with MicroShield® antimicrobial finish
• Available in a variety of finishes with multiple lever options, including standard as well as Muséo® and Vineyard™ decorative levers, for a consistent design aesthetic throughout your facility
