The warranty on Corbin Russwin products becomes void if the product is modified in any way, regardless of whether the modifications causes or contributes to any alleged defect. If a Corbin Russwin product is modified it may no longer meet industry certification and quality control standards applicable to the original product and is no longer a genuine Corbin Russwin product.

Copyright © 2000-2023, ASSA ABLOY Access and Egress Hardware Group, Inc. All rights reserved. Reproduction in whole or in part without the express written permission of ASSA ABLOY Access and Egress Hardware Group, Inc. is prohibited. Patent pending and/or patent www.assaabloydss.com/patents.

To order parts, use the appropriate Part Number and specify Finish (FIN) as directed. For example, to order ten Toggle Levers for the ML2067 Function, use the following configuration:

Quantity	Part Number
10	851F617

- ❑ In order to simplify the ordering procedure, parts are only available as listed.
- ❑ Refer to the installation instructions for complete installation.
- ❑ Limited warranty against defects in materials and workmanship under normal use and service. Corbin Russwin is not responsible for alterations or modifications made to our products by others. (See full limited warranty for further details.)
- ❑ For assistance, contact your authorized Corbin Russwin distributor or Corbin Russwin directly at:

Notes:

- Full escutcheon trim uses two outside levers (one of each hand if lever design is handed).
- Full dummy sectional/rose trim uses two inside levers, all other sectional/rose trim uses one inside and one outside lever.

The warranty on Corbin Russwin products becomes void if the product is modified in any way, regardless of whether the modifications causes or contributes to any alleged defect. If a Corbin Russwin product is modified it may no longer meet industry certification and quality control standards applicable to the original product and is no longer a genuine Corbin Russwin product.

For Standard Cylinder in ML2000 Series Locksets and Mortise Exit Devices with Sectional Trim

NOTES
1. There is no Corbin Russwin configuration which requires 1-3/8" cylinders in a double cylinder function. Collars for this combination are shaded and are referenced only for other manufacturer's cylinders.
2. The V-escutcheon is not available for 1-3/8" doors, so that configuration is not in this table.
3. Double cylinder functions use the same collar on both sides, unless otherwise specified.

*Used with both sectional and escutcheon trim

The warranty on Corbin Russwin products becomes void if the product is modified in any way, regardless of whether the modifications causes or contributes to any alleged defect. If a Corbin Russwin product is modified it may no longer meet industry certification and quality control standards applicable to the original product and is no longer a genuine Corbin Russwin product.

For latchbolt assemblies that contain a Locking Pin as shown in Figure 4. Locksets with this assembly shipped from the factory since 2022.

1. Move the Red locking screw to side of lock-body being locked (Figure 1)
2. Push in latch partially then depress catch plate with screwdriver (Figure 1)

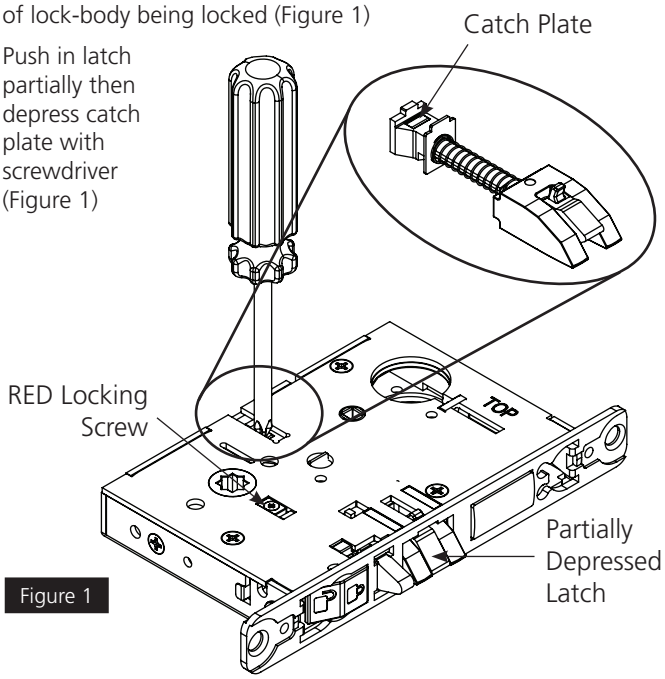

Figure 1

3. Pull latch out of lock-body and rotate 180 degrees (Figure 2)

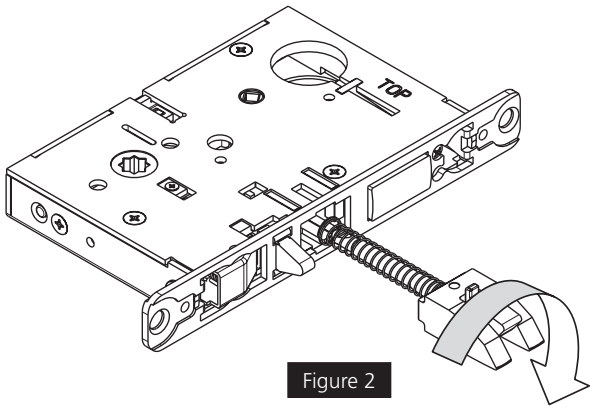

Figure 2

4. Push in latch until tail-piece hits back of case (Figure 3)

Note: Make sure catch plate is even with top surface and locking pin is not projected (Figure 4). If not, depress catch plate with screwdriver and repeat step 4.

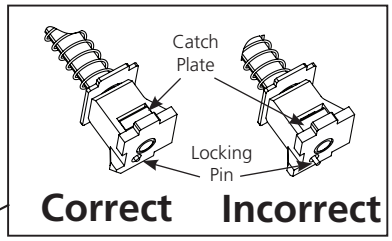

Figure 4

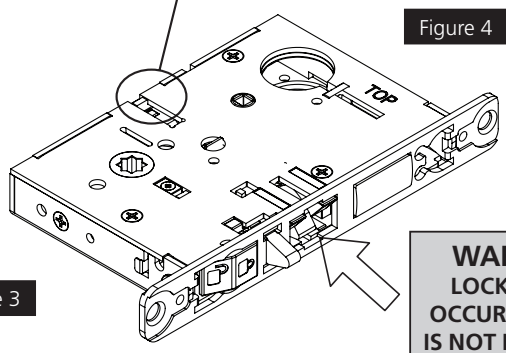

Figure 3

WARNING:
LOCK-IN CAN OCCUR IF LATCH IS NOT PROPERLY INSTALLED

5. Rotate lock front to match bevel of door as shown (Figure 5)

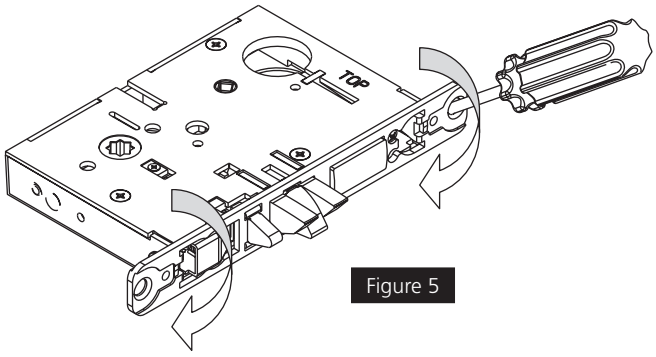

Figure 5

For latchbolt assemblies that DO NOT contain a Locking Pin as shown on previous page. Locksets with this assembly shipped from the factory prior to, or in early 2022.

1. Move the Red locking screw to side of lock-body being locked (Figure 1)
2. Push in latch then depress catch plate with screw driver (Figure 1)

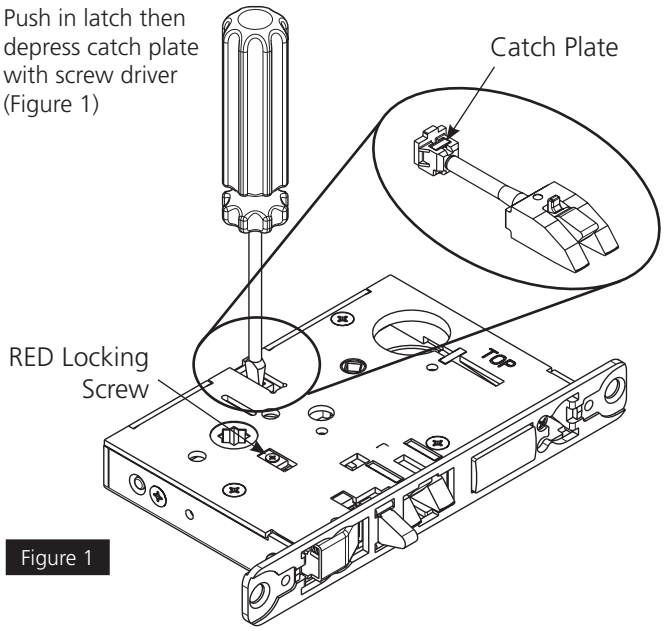

Figure 1

3. Pull latch out of lock-body and rotate 180 degrees (Figure 2)

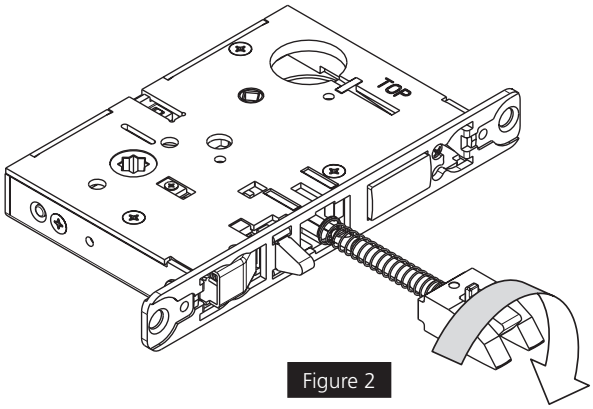

Figure 2

4. Push in latch while holding screw driver behind latch tail (Figure 3)

Note: Push in latch until catch plate is no longer depressed, make sure catch plate is even with top surface (Figure 4)

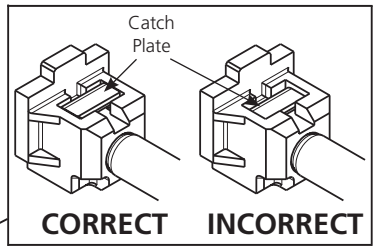

Figure 4

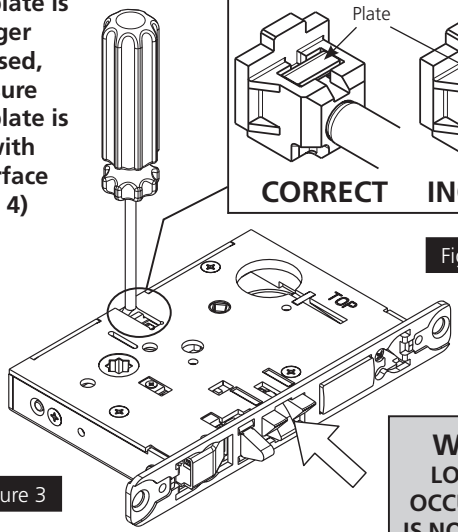

Figure 3

WARNING:
LOCK-IN CAN OCCUR IF LATCH IS NOT PROPERLY INSTALLED

5. Rotate lock front to match bevel of door as shown (Figure 5)

MicroShield®

ASSA ABLOY Group companies offer MicroShield®, an anti-microbial coating for door hardware. MicroShield uses proven silver ion-based technology from Agion®, a leading provider of antimicrobial solutions, to stem the spread of bacteria and other microbes.

MicroShield® is a registered trademark of ASSA ABLOY Access and Egress Hardware Group, Inc.

agion® Nature's antimicrobial

The Agion antimicrobial is not intended as a substitute for good hygiene. Coated products must still be cleaned to ensure the surfaces will be free of destructive microbes. ASSA ABLOY makes no representations or warranties, express or impled, as to the efficacy of the Agion antimicrobial. A copy of the Agion warranty is available upon request. Agion is a registered trademark of Agion Technologies, Inc., Wakefield, MA, USA.
