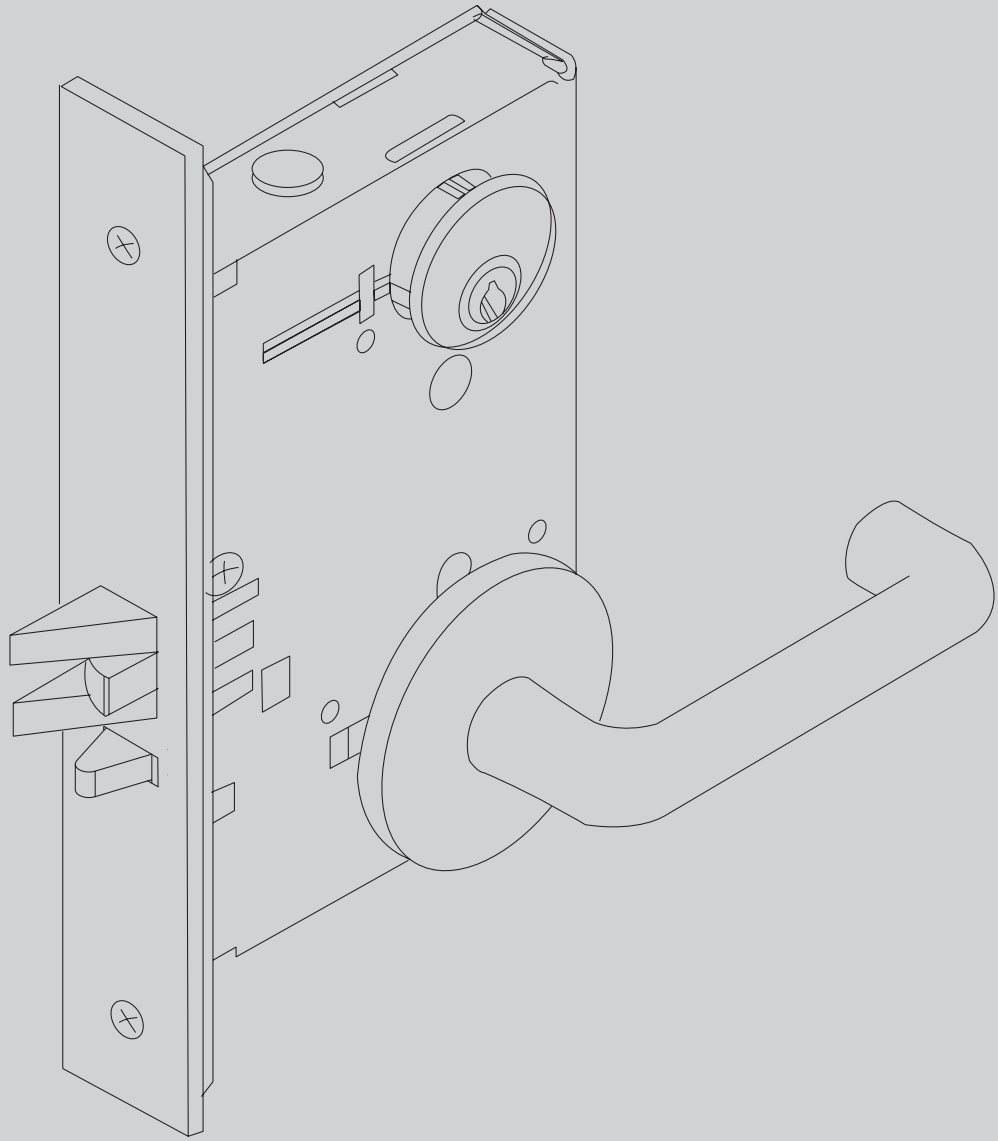
Corbin Russwin

ASSA ABLOY

ML2000 Series

Mortise Lock Parts Manual

For Locks Made Prior to 2016



Experience a safer
and more open world

To order parts, use the appropriate Part Number and specify Finish (fin)as directed. For example, to order ten Toggle Levers for the ML2067 Function, use the following configuration:

Quantity	Part Number	Finish	Hand
10	461F01-2		

- ❑ In order to simplify the ordering procedure, parts are only available as listed.
- ❑ Refer to the installation instructions for complete installation.
- ❑ Limited warranty against defects in materials and workmanship under normal use and service. Corbin Russwin is not responsible for alterations or modifications made to our products by others. (See full limited warranty for further details.)
- ❑ For assistance, contact your authorized Corbin Russwin distributor or Corbin Russwin directly at the address on the back cover.

The warranty on Corbin Russwin products becomes void if the product is modified in any way, regardless of whether the modifications causes or contributes to any alleged defect. If a Corbin Russwin product is modified it may no longer meet industry certification and quality control standards applicable to the original product and is no longer a genuine Corbin Russwin product.

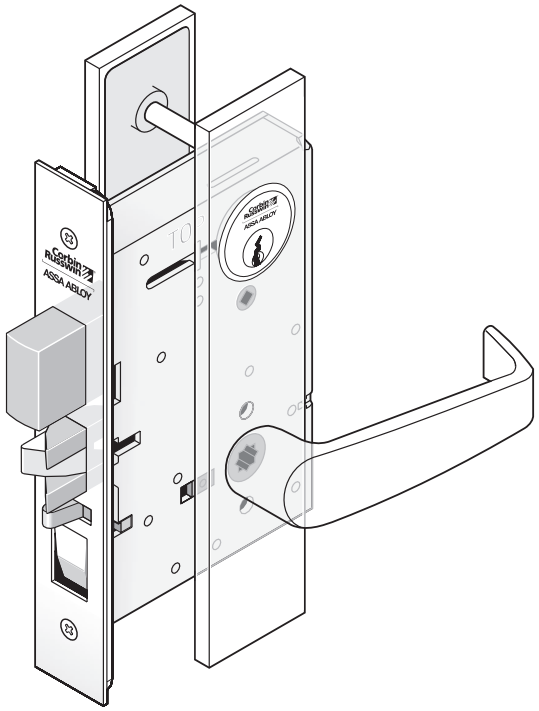
The Door Opens to New Compliance Requirements.

The *Americans with Disabilities Act* was signed into law on July 26, 1990. This Federal law has far-reaching implications on the application of door hardware products. As a manufacturer of a full line of life safety and security products, we want to help in the understanding of this law.

The summary below relates directly to the application and compliance of locksets as referenced in the *Americans with Disabilities Act,* which incorporates American National Standards Institute (ANSI) A117.1 specifications.



Summary of Requirements:

Locksets

"Handles, pulls, latches, locks and other operating devices on accessible doors shall have a shape that is easy to grasp with one hand and does not require tight grasping, tight pinching, or twisting of the wrist to operate. Lever-operated mechanisms, push-type mechanisms and U-shaped handles are acceptable designs."

Mortise Lock Conversion Kit is available to convert knob x knob operation to lever x lever operation. See page104.

The foregoing is only a summary of the applicable regulations and your attention is directed to the Federal Disabilities Act and ANSIA117.1 for complete details and regulations. Since the application of the Act depends on specific site circumstances, you should use this summary only as a general guide and be sure to review local and state standards which may contain additional or modified requirements. For further information contact the Architectural and Transportation Barriers Compliance Board.

The warranty on Corbin Russwin products becomes void if the product is modified in any way, regardless of whether the modifications causes or contributes to any alleged defect. If a Corbin Russwin product is modified it may no longer meet industry certification and quality control standards applicable to the original product and is no longer a genuine Corbin Russwin product.

For Standard Cylinder in ML2000 Series Locksets and Mortise Exit Devices with Sectional Trim

NOTES
1. There is no Corbin Russwin configuration which requires 1-3/8" cylinders in a double cylinder function. Collars for this combination are shaded and are referenced only for other manufacturer's cylinders.
2. The T & V-escutcheons is not available for 1-3/8" doors, so that configuration is not in this table.
3. Double cylinder functions use the same collar on both sides, unless otherwise specified.
