Warranty Support

Except where specifically stated, a lifetime warranty applies to all standard DynaLock Corporation products.

A customer may return any DynaLock branded product, for any reason, at any time, by requesting a DynaLock Return Authorization (RMA). At RMA issuance, DynaLock Technical Support may contact the customer, in an effort to diagnose and resolve a product issue, without necessitating a return. Should the RMA proceed, DynaLock will make its best effort to, within 24 hours of receipt of the customer's item (excluding special finishes and custom products), send a replacement product, via next day freight, at no-charge (within the contiguous United States only).

A customer may order an advance replacement product, if they have an open account with DynaLock, or valid credit card. DynaLock will issue an RMA and bill the customer up-front, for the full price of the replacement, plus next day freight. Upon receipt of the customer's original product, DynaLock will credit the advance replacement order in-full, including the outbound freight. Inbound freight and insurance charges are exclusively the customer's responsibility.

DynaLock Corporation reserves the sole right to send a replacement product, which may be identical, or a newer product, which serves as a direct, functional replacement. In the event the customer's original product has become obsolete in DynaLock's product line, or has been intentionally damaged, abused and/or vandalized this DynaLife® PLUS warranty shall not apply.

This DynaLife® PLUS warranty does not apply to non-standard, custom-built products. These products will be repaired, if possible, at no-charge. Custom length housings and special finished products will be replaced only if found to be factory-defective.

This DynaLife[®] PLUS warranty also does not apply to returns for payment, distributor stock reductions/liquidations, product removal and installation/re-installation costs, or products installed outside of the United States and Canada.

This DynaLife® PLUS warranty shall be considered null and void on any product which has been electrically or mechanically altered, without specific written consent, instructions and/or component parts supplied by DynaLock Corp.

DynaLock Corporation will assume no responsibility, nor be liable to the customer, purchaser, or anyone else, for incidental or consequential damages arising from defects, or malfunctions of its products, damage or injury to person(s) or property, caused by improper storage, handling, care, maintenance, abuse, misuse, or an act of God. EXCEPT FOR THE WARRANTY PROVIDED HEREIN, WE EXPRESSLY DISCLAIM ALL WARRANTIES, EXPRESS OR IMPLIED, INCLUDED BUT NOT LIMITED TO ANY IMPLIED WARRANTIES, OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE, OR WARRANTIES RELATING TO THE CONDITION OF OUR PRODUCTS.

Emergency Technical Support

Routine technical support is available Monday - Friday, 8:00AM - 5:00PM (EST) by calling the factory toll-free at 1-877-DynaLock, within the US. For all other locations please dial (860) 582-4761.

Emergency technical support is available Monday - Friday, 5:00PM - 8:00PM (EST) by dialing either of the following After-Hours Tech Support mobile phones:

Ph: (860) 878-9085

Ph: (860) 916-4805

Terms:	NET 30 days from date of invoice. No minimum order requirements and no additional surcharges imposed for drop shipments. A late charge of 1.5% per month on any balance which remains unpaid after 60 days from date of invoice.
Prices:	Unless firm prices have been quoted in writing for specific projects, all prices are subject to change and prices in effect on the date of shipment will apply. Prices apply to standard domestic packaging. Errors and omissions in pricing are subject to correction.
Domestic Shipments:	All domestic shipments are F.O.B. DynaLock factory, unless otherwise agreed to in writing by DynaLock. Purchaser assumes risk of loss upon tender of goods to carrier.
International Shipments:	International shipments will only be made to those customers who utilize a carrier and/or freight forwarder with whom they maintain a direct-billing account. Following acceptance of the customer's order, upon request DynaLock will inform the customer of the weight(s) and dimension(s) of the shipment. It is the customer's responsibility to inform DynaLock of the carrier/forwarder they wish to utilize for the shipment, by whom they will be direct-billed for the international shipping charges.
Routing, Receipt & Order Acceptance:	Electronically-transmitted customer orders must be routed via fax (860-585-0338) or via e-mail (orders@dynalock.com), and are subject to final acceptance by the DynaLock Customer Service/Order Entry Department. Accepted orders are normally acknowledged within 24 hours. Its the purchaser's responsibility to confirm successful electronic transmission and receipt of their orders by DynaLock Corp. and verify the accuracy of the order acknowledgement. DynaLock assumes no liability for lost or incorrectly routed, electronically-transmitted orders.
ACH & Wire Transfer Service Fees:	Service fees will apply to all orders where customer payment is made by ACH or Wire Transfer. For more information on specific fees, please contact the DynaLock Customer Service Department.
Claim and Notice of Non-Conformity:	Goods must be inspected promptly. Claims relating to nonconformity of goods or shipments must be reported within (10) business days following receipt of goods. All notices and claims must include Purchaser's order number and DynaLock's invoice number. Unless written notice of a claim of nonconformity is given within such 10-day period, the claim may be disregarded. DynaLock's liability for any nonconformity in goods or shipment is expressly limited to replacement of the goods or goods of equal value, together with transportation charges, if any, incurred by Purchaser. PURCHASER SHALL NOT BE ENTITLED TO CLAIM CONSEQUENTIAL DAMAGES FOR ANY NONCONFORMITY OR DEFECT IN THE GOODS.
Cancellation Charges:	Purchase orders and/or items cancelled more than 48 hours after factory acknowledgement are subject to a 35% cancellation charge.
Product Changes:	DynaLock continuously endeavors to improve and update its products. It reserves the right to discontinue models and/or features, change design specifications, materials, components, manufacturing processes, etc., at any time, without prior notice and without incurring any obligations for productSymodels manufactured prior to any changes.
Returns:	Returns will not be accepted without prior approval and a RMA number (Return Authorization) issued by DynaLock's Customer Service Department. Products returned for credit are subject to a restocking charge of 35% . Additional charges may be imposed if return is damaged. Purchaser must provide invoice number and information regarding original date of shipment with all returned goods. Any credit issued must be applied to open or future invoices. Cash refunds will not be issued . Credits not redeemed within one calendar year of issuance will be written-off. Acceptance of products returned for credit, which are more than one year-old, will be solely at DynaLock's discretion. Custom products, e.g. consoles, custom length housings, special finished products cannot be returned for credit. Edetrically or mechanically altering any product(s) without specific written consent, instructions and/or component parts supplied by DynaLock Corp. voids the DynaLife® <i>PLUS</i> Lifetime Warranty and renders such returned product(s) ineligible for credit.
Engineering Charges:	Engineering charges will be discussed, negotiated and estimated prior to any actual engineering services being performed DynaLock will not be responsible or bound for estimates or preliminary discussions by telephone. Firm estimates will only be given after submittal of specifications, drawings and theory of operation.
Taxes:	Purchaser is responsible for all taxes or charges in lieu of taxes now or hereafter imposed on the sale or transportation of goods purchased, except for income or similar taxes imposed on DynaLock.
Governing Law:	The rights and obligations of DynaLock and Purchaser shall be governed by and construed in accordance with the laws of the State of Connecticut.
No Modification:	These terms and conditions of sale cannot be modified or amended without DynaLock's consent. DynaLock shall not be bound by the terms or conditions of any purchase order, order acknowledgment or other form submitted by Purchaser unless DynaLock has consented in writing to such terms.
Electromagnetic Lock Performance:	DynaLock electromagnetic lock holding force ratings are stated at peak performance (±10%), under proper mounting and optimum input power conditions.
Cost and Expenses:	In the event DynaLock incurs any expenses in connection with the enforcement of the Purchaser's obligations under this order, DynaLock shall be entitled to collect such costs, including reasonable attorney's fees from the Purchaser in
