

EMK-VON Motorized Latch Pullback Kit

EMK-VON

The DynaLock EMK-VON is a field-installable motorized latch pullback kit for Von Duprin 33/35 and 98/99 series exit devices. Retrofit existing mechanical exit devices to electric latch retraction, while maintaining the UL Listing. The easy to install, robust kit comes equipped with "Push to Set" technology, to simplify post installation adjustments.

Features of the EMK-VON include:

- Smart module - Provides on-board diagnostics with audible feedback for adjustment and power issues.
- Push to Set - 5 second electronic adjustment, for easy post installation adjustments.
- Continuous-duty electric dogging - Auto retraction if dogged push pad is pulled from position.
- Low current draw - Compatible with most 24VDC, 1A (or greater) regulated power supplies.
- Field-switchable to "high-torque" mode.
- Up to 500' wire run with (2) 18 Ga. wires.
- 8' cable with quick-connect for smart module, to easily connect power supply leads.

Input Voltage Range: 22 to 28 VDC
Average Peak Current: 1.0A
Average Current Hold: 180mA
