**Your Best Protection
Against Robbery**

In-Room Safe

Standard Features

- 3 to 6 digit user code
- 3 bad codes puts lock in lock-out
- Easy-to-read LCD screen
- 4 anchoring holes (2 in back, 2 in bottom)
- Lock can be operated using the keypad or the credit card swipe slot

For large quantities, please ask for a quotation.

Gardall's new in-room safe has a durable powder coated finish and a superior electronic locking system. The highly reliable lock is a one-time use combination that is set by the user for each opening. It can also be set by swiping a credit card through the slot in the lock. Every lock has a manual by-pass key to open the lock if a combination is lost.

| Model | Outside Dimensions | | | Inside Dimensions | | | Weight (lbs.) |
	H	W	D	H	W	D
