# HID Integrale™ Enrollment

## BENEFITS

- No permanent storage of enrollment data locally improves privacy and security
- Limited local implementation reduces deployment costs
- Centralized administration, maintenance and updates increase efficiency
- Configurable platform increases continuity through local administrative change
- Supports multiple agency and state specifications, along with adhering to the EBTS standards
- Integrated online help

### IMPROVED SECURITY. ENHANCED PRIVACY. LOWER COST OF OWNERSHIP.

Integrale Enrollment is a completely web-based approach for the collection and management of biometric enrollment data. It is uniquely suited to address the pressing concerns associated with today's biometric implementations, including security, privacy and total cost of ownership.

The Integrale Enrollment architecture leverages a secure, central server connected via a web browser interface to workstations utilizing peripheral fingerprint capture devices and networked printers at remote enrollment sites. This unique, centralized approach simplifies installation, streamlines implementation and provides a single touch-point for application administration, maintenance and updates – ultimately saving time, improving productivity and reducing costs.

Direct input into the Integrale Enrollment application through an HTTPS browser connection eliminates the need to host the software on a local PC or store Personally Identifiable Information (PII) at the enrollment site. PII is kept protected and private, reducing concerns over local PC breaches and data stored on hard drives. This benefit is particularly important in high security environments.

The Integrale Enrollment solution delivers a cost-effective, secure method for applicant enrollment from the trusted leader in the biometric industry. This provides a strong combination to tap into the full potential of cloud-based applications, while delivering state-of-the-art technology with enhanced security and a lower total cost of ownership.

## SPECIFICATIONS

| | **HID Integrale™ Enrollment** |
|---|---|
| **Server SYSTEM Requirements** | • Windows® 2008 R2 Server or Windows® 2012 R2 Server<br>• Microsoft SQL Server ® 2008 R2, 2012, or 2014 Standard or Enterprise versions<br>• IIS (Internet Information Services) 7.5 or newer<br>• Active Directory® compatible (SSO) |
| **Client Browser Requirements** | Windows® 7, 8.1, or 10 OS Versions |
| **Supported Web Browsers** | • Microsoft Internet Explorer® – Version 9, 10 and 11<br>• Google Chrome® – Version 20 or higher |
| **Supported Fingerprint Readers** | HID Guardian™ |

*Data subject to change without notice*
