THE ULTIMATE INTEGRATED ACCESS CONTROL ID SOLUTION

ISONAS
PURE IP ACCESS CONTROL
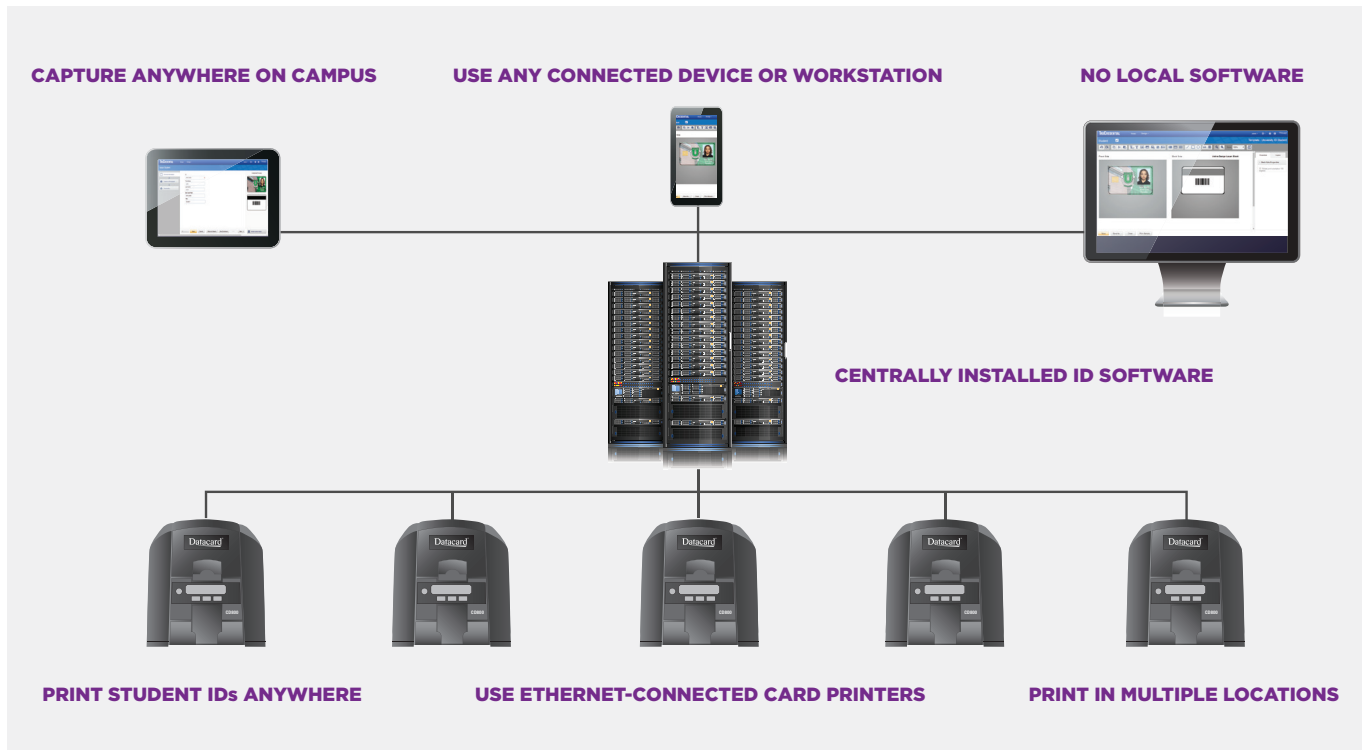

Entrust Datacard™
Trusted Identities | Secure Transactions

Entrust Datacard TruCredential Software is a flexible software solution that integrates with ISONAS Pure Access to deliver an easy-to-use ID card design, issuance and management solution that provides:

- Distributed capture, enrollment, and Printing

- Smart Card encoding card issuance

- Easy to use drag and drop card designer

- Server-based installation for scalability for one to multiple printer and site deployments

CAPTURE ANYWHERE ON CAMPUS

USE ANY CONNECTED DEVICE OR WORKSTATION

NO LOCAL SOFTWARE

CENTRALLY INSTALLED ID SOFTWARE

PRINT STUDENT IDs ANYWHERE

USE ETHERNET-CONNECTED CARD PRINTERS

PRINT IN MULTIPLE LOCATIONS

SERVER-BASED INSTALLATION

TruCredential software is deployed on a central server, not on dedicated work stations. This enables you to capture photos and enroll users from any connected device, anywhere, even mobile devices. Not to mention, all templates can be accessed from any of these connected devices, only requiring one central install and freeing up vital IT resources. You can also print ID cards from any connected printer.

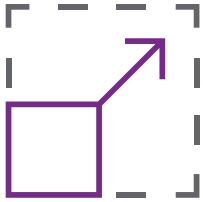

DRAG-AND-DROP DESIGN

Easily create custom designs and print best-in-class images with 600 dpi printing capabilities for ultimate card flexibility, enhanced branding and personalization. Add security and encoding elements for utmost access control.

CONFIGURABLE

Create custom designs and workflows to meet your specific needs.

SCALABLE TO FIT YOUR PROGRAM

TruCredential software scales quickly to support changes in your ID card program. It's easy to create any ID program you envision, from basic single-printer configurations to deployments that span multiple sites and include mobile capture options.

Microsoft Edge

Windows 10

COMPATIBLE WITH THE LATEST TECHNOLOGY

Ensure that your technology investments are futureproofed. TruCredential software is compatible with the latest versions of major technology, including Windows 10, Microsoft Edge, IE and Chrome.

SUPPORT FOR MULTIPLE PRINTERS

Our central server deployment model allows you to locate card printers anywhere you choose. Supports printing on 3rd party card printers like Fargo™, Zebra™, Matica™, and Evolis™.

TRUCREDENTIAL PURE ACCESS EDITIONS

ISONAS and Entrust Datacard have partnered together to offer a unique version of TruCredential   that integrates with Pure Access!

The ISONAS Pure Access Editions of TruCredential (Express, Plus, Professional and Enterprise Editions) include all of the specific edition features plus web service integration to Pure Access.

This allows you to choose the right version to meet your ongoing unique needs.

The Ultimate Integrated Access Control ID Solution

SYSTEM REQUIREMENTS

Operating System: Microsoft Windows 7/8.1 (32-bit or 64-bit) or Windows 10

Web Browser: Chrome, Internet Explorer version 11 or Microsoft Edge

Memory: 4GB (8GB recommended)

Hard Drive: 1GB of computer drive space

Screen Resolution: 1360 x 768

TRUCREDENTIAL STANDARD FEATURES

Credential design

Front and back card design, pre-designed card templates

Variable/static text field, photo graph field, variable/static graphic field, date field

QR code, magnetic stripe code, bar code support

Workflow

Text field, static text field, static graphic field, date field, print count field

Auto-sequence field, check box field, list field

Text field mask, field option – read only, hidden, mandatory, searchable

Martcard Stock supported

MiFARE Classic

MiFARE DESFire EV1

HID Prox

HID iClass

Smartcard reader supported

Identiv

DUALi (single-wire)

DUALi (two-wire)

Database and Data Import

Import data from CSV, ASCII file

Text field, static text field, static graphic field, date field, print count field

Photo capture

File input, TWAIN, Microsoft Video for Windows

Languages support: English, French, German, Japanese, Portuguese (Brazilian), Simplified Chinese, Spanish

Localization utility for other languages
