ASSA ABLOY

Experience a safer
and more open world

6200 SERIES

LOW ENERGY DOOR OPERATOR

The ASSA ABLOY Group is the global leader in access solutions. Every day, we help billions of people experience a more open world.

The Norton Rixson 6200 Series is a cost-effective electromechanical low energy operator offering intelligent functions, such as power close, latch assist and obstruction detection. Specifically designed for high traffic openings applications requiring a narrow profile to blend more seamlessly with the frame while fitting challenging applications with minimal overhead space. Complete with electric lock interface, touchless activation support, and mobile device Wi-Fi programming for easy installation and setup.

Four simple steps to program

1 Select Push/Pull Mode
Is the door installed in push or pull mode?
(Current setting: PULL)

1 Push Pull

2 Set the Closed Door Position
Close the door completely and click this button:
Set Closed Position

Or push the CLOSE button on the operator:

2

3 Set the Open Door Position
Open the door fully and click this button:
Set Open Position

Or push the OPEN button on the operator:

3

4 Learn
Close the door completely and click this button to perform the Learn process. The door will move through an opening cycle, so be sure no one will be walking through or touching the door!
To cancel Learn in progress, just click the button again.

4 Learn

Or push the LEARN button on the operator:

4
