Contractor Grade Pivots

Norton Rixson is pleased to announce the addition of new Contractor Grade Pivots to our offering. These are ideal for cost-effective projects while still allowing doors to swing with less resistance, eliminating door sag, and are vertically adjustable.

The Contractor Grade Pivots are available for the following applications:

- Offset hung pivots provide better weight distribution and can accommodate taller doors.
- Center hung pivots are aesthetically appealing and ideal if the pivot point is closer to the lock edge of the door.

The Contractor Grade Pivots will be available to order June 1, 2022, with a lead time of 6 weeks.

For additional information, contact your local ASSA ABLOY Door Security Solutions Representative.
