Experience a safer  
and more open world

# TOUCHLESS ENVIRONMENTS

CREATE TRULY HANDS-FREE SPACES

The ASSA ABLOY Group is the global leader in access solutions. Every day, we help billions of people experience a more open world.

Public buildings with hands free environments have quickly become a standard within a large variety of buildings. Whether it be public restrooms, offices, or hospital operation theatres, touchless environments have gone from a special feature to a necessity in many buildings areas. The easiest additions for these environments typically are the ones we first think of; the soap dispenser, faucet, and hand dryer/towel dispenser. The focus primarily has been on areas where we clean our hands, more so than the areas our hands touch once they've been cleaned.

Norton Rixson has an automatic door opening solution for that final touch point with its line of low energy operators and a simple wave-to-open switch. Now the door in front of you can be opened with just a wave of your hand!

### FEATURES & BENEFITS

FEATURES	BENEFITS	5600	5700	5800	6000	6200	6300
