

REVERSING

INSTRUCTIONS

For Olympus Cabinet Locks

Reversing Instructions for L7080, 999, 998, 997 and 996 Series Olympus Cabinet Locks

1. Loosen set screw from beside latch bolt.
Note: an Allen wrench is included with each lock.
2. Twist barrel to desired location.
3. Insert key to be sure keyway is in proper position and operates freely.
4. Tighten set screw.
