## **Pulse PRO Audit software installation and take audit instructions**

### **Download and install the USB driver**

1. Access to the "download" page in the Tecnosicurezza website and download the USB driver (usb\_driver\_x.zip) in the section "Software" of the Pulse PRO lock.
2. The zipped file will download to either the Downloads folder or another location depending on the browser.
3. Once the file has downloaded, it must be unpacked or unzipped. Locate then right click the file and select "Extract all...".
4. If the driver has been provided on CD or USB flash drive, copy the file to your computer and unpack it.
5. Once the file has been extracted, locate the application "USBXpressInstaller".
6. Double click the application, allow the file to run if prompted, and wait for the driver to finish installing.

### **Download, install and use the Pulse PRO Audit software**

1. Access to the "download" page in the Tecnosicurezza website and download the installation file of the Pulse PRO Audit software (pulseproaudit\_x-x-x.zip) in the section "Software" of the Pulse PRO lock.
2. The zipped file will download to either the Downloads folder or another location depending on the browser.
3. Once the file has downloaded, it must be unpacked or unzipped. Locate then right click the file and select "Extract all...".
4. If the software has been provided on CD or USB flash drive, copy the file to your computer and unpack it.
5. Once the file has been extracted, locate the application "PulseProAudit\_x.x.x".
6. Double click the application, allow the file to run if prompted, and wait for the driver to finish installing.

## Keypads with Dallas key reader

**Download the audit to a Dallas key for audit (max 1.200 events)**

<b>Equipment:</b>	Pulse PRO keypad with Dallas key reader	Magnetic Dallas key for audit and setup	Dallas keys reader with molex connector.	USB interface
				
<b>Reference</b>	T6630/DL	N1996RM	N42170/D	N42180/T

and retain it for future reference.

**Correct disposal of this product:**  
**(Waste Electrical & Electronic Equipment)**

Applicable in the European Union and other European countries  
with separate collection systems.

This marking displayed on the product or its literature indicates that  
it should not be disposed with other wastes at the end of its  
working life. To prevent possible harm to the environment or  
human health from uncontrolled waste disposal, please separate  
this from other types of wastes and recycle it responsibly to  
promote the sustainable reuse of material resources.
