

# Handle Magnetic Locks

## Introducing the 8106 Series

**8106HD-B**

**8106HD-2-B**

The 8106 HD Electromagnets feature a new stylish hidden design which encloses the armature plate in a door handle. Single and double options are available, with a holding force of 600 LB per single magnet. Safe and secure, with ease of installation in mind.

### Features:

- Stylish hidden magnet design
- Dual voltage 12/24 VDC field selectable
- Field safe: releases instantly when power is disconnected
- Bond sensor: built-in hall effect sensors; detecting magnetic field strength from door position and voltage input
- Static strength 600 LB
- For inswing doors only
- Durable, high quality aluminum anodized finish, US28
- Screw pack, template, 12/24 VDC plugs and instruction manual included
