Rockwood Trim Protector Bars

The global leader in
door opening solutions

NOT TO SCALE

Solutions to Door and Trim Damage

Without Protection Bar
- Costly Damage

With Protection Bar
- Safely Deflected

Choosing the correct protection bar:

1. Determine traffic - light to moderate use = SD Series, heavy use = HD Series
2. Measure projections - of exit device, door knob, etc.
3. Review product dimensions - to match bar to your specific needs.

WARNING: Do not locate protection bars where they can impede operation of exit devices.

Template T-TrimProtBars

Effective date: January 1, 2017
Supersedes: All Previous
