- Stainless Steel Construction - Corrosion Resistant
- Grade 1 Exit Device
- Compact Design for Commercial & Industrial Applications
- Rim and Surface Vertical Rods
- Trim Options Available
- Hollow Metal, Wood and Mineral Core Door Applications

WHAT YOU NEED TO KNOW:

There are many different brands of cost effective commercial exit devices on the market. The vast majority of these devices are strictly mechanical. Today's market demands an **economical commercial exit device with electric latch retraction**. Not only does SDC's S4000 series of electrified commercial exit devices satisfy both market needs for a cost-effective exit device with ELR, **but the S4000 also comes standard with request-to-exit (REX) monitoring**, enabling access control compatibility.

SDC's S4000 elevates itself as the premier device in the market for a low price without compromising an inch of its superior quality.

The S4000 with factory installed motorized electric latch retraction and REX makes application as easy as **Install - Power - Done**.
