The VDLBMKIT-ED is a field installable latch bolt monitor kit for the Von Duprin 33/35 & 98/99 series.

---

### VDLBMKIT-ED INCLUDES

- A. LBM Label
- B. LBM Switch
- C. 2 - Phillips Screws

### TOOLS REQUIRED

- Phillips Screw Driver

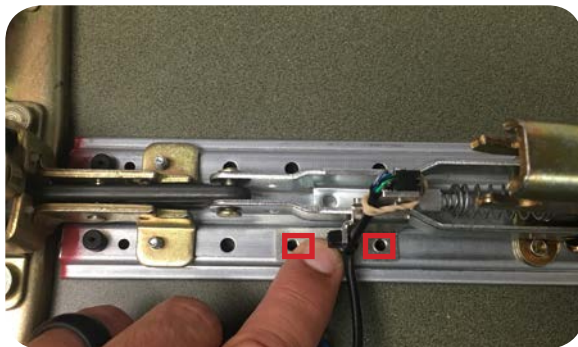

### SPECIFICATIONS

- Green/Black - Common
- Blue/Black - Normally Open (NO)
- Grey/Black - Normally Closed (NC)
- .5A 24VAC/DC

1. Remove baserail and head assembly from push pad and housing.

2. Position the LBM switch over the connection rod and line up with 2 screw holes in baserail.

3. Flip baserail over and install 2 screws to secure bracket to baserail.

4. With switch secured remove rubber band so switch is operational.

5. Place LBM sticker near switch for wire color code reference.
